

# Bachelor of Business Administration - Accounting Major

**SCHOOL OF BUSINESS**

## Overview

In the Bachelor of Business Administration Accounting major, you'll learn about measuring financial performance, advanced accounting topics and quantitative skills.

It includes the courses you need to enter the Chartered Professional Accountant (CPA) Professional Education Program. If you're interested in finance, ethics, and problem-solving and want diverse career options, this major is for you.

Understanding how financial information affects business decisions is crucial in a changing global environment. Our program blends both management and financial accounting concepts. It provides valuable insights in various business settings.

You'll assess financial and operational results to improve performance and ensure accurate financial reporting.

You'll also learn about tax regulations to help clients follow government rules and accounting standards.

Our program will enable you to analyze and evaluate finance concepts and make informed recommendations.

Information systems are vital for efficient business practices in today's digital world. You'll study management information systems and learn how technology can optimize operations and decision-making.

Ethical behaviour is essential for accountants. Our program emphasizes integrity, transparency, and ethical decision-making.

The Accounting major will prepare you to excel in accounting and become a well-rounded business professional with the skills and integrity needed in financial accounting in today's business world.

## Minors

Opportunities for additional specialization are available through the following optional minors.

**Construction Project Management:** A pathway to business roles in Canada's booming construction sector, focusing on managing significant capital projects, addressing design, risk, and conflict management.

**Energy, Oil and Gas:** A curriculum designed to prepare you for Alberta's energetic and changing energy landscape, with courses on technical, regulatory, and economic aspects from the renowned MacPhail School of Energy.

## Traits, skills and aptitudes

Accountants tend to be methodical, innovative, and directive.

You need:

- high ethical standards
- strong communication skills
- critical-thinking, analytical, and problem-solving skills
- time-management skills
- the ability to work independently or as part of a team.

You should enjoy following rules, working within highly structured processes, directing others, and creative problem-solving.

## Academic path

Those who have previously completed the SAIT Accounting, Business and Entrepreneurship, Community Economic Development, Management and Leadership, or Marketing certificates can receive course credit for classes. The number of applicable credits will vary by certificate.

Those who have a SAIT Business Administration diploma with a major in Accounting may be eligible to enter this program in year

three and earn their degree with a further two years of study.

## Professional designations and certifications

This program and major are accredited by the Chartered Professional Accountant (CPA) program. SAIT ensures the core courses offered are aligned with the CPA competency map.

In addition, when you graduate, you'll have completed all pre-requisite courses required to enter the CPA prep program.

Alternatively, you can pursue the Master of Professional Accounting (MPACC) program, a comprehensive graduate-level accounting program that is an alternate route for those seeking the CPA designation in Canada.

## Credentials

Upon successful completion of this program, you'll receive a SAIT Bachelor of Business Administration degree with a major in Accounting.

## Practicum, Co-op and Work Integrated Learning

During your final year (with at least 90 credits complete), you'll participate in a practicum or capstone project.

If you choose a practicum, you'll reflect, research, analyze, evaluate and recommend solutions to real-world business problems with an existing business, showcasing your skills to prospective employers. You'll be responsible for finding employment for this practicum, which the Academic Chair must approve.

If you choose a capstone project, you'll work individually or as part of a project team on a series of activities and simulations drawn from multiple disciplines to create a strategic and operating business start-up plan.
