

# Business and Entrepreneurship

SCHOOL OF BUSINESS

## Overview

This program will give you the skills and knowledge you need to become a successful entrepreneur, business owner, franchisee or improve existing businesses as a manager, consultant, or innovator.

You will boost your problem-solving abilities, leadership skills, and creativity. You'll also learn how business functions and how to apply that knowledge to different areas. Our instructors have real business experience, and they'll guide you every step of the way.

By the end of the program, you will be able to:

- use basic financial and accounting principles in a business setting
- apply marketing theory and processes in a business environment
- develop personal skills and professional behaviours for effective management and teamwork
- leverage information and communication technology for efficient business practices
- understand entrepreneurship and small business theory, and show critical thinking and innovation in business-related situations.

You can choose four elective courses from options, including technology, communications and several others. These options allow you to tailor the program to your interests and needs.

The program includes a capstone course where you'll apply what you've learned in a real-world project. This experience will help you develop critical thinking, communication, collaboration, and organizational skills, which are vital in business.

This program is your gateway to a world of possibilities in business and entrepreneurship.

## Traits, skills and aptitudes
