

Business Intelligence Data Analysis and Reporting

SCHOOL FOR ADVANCED DIGITAL TECHNOLOGY

Overview

Understanding how to access and utilize corporate information is crucial in today's data-driven business environment.

This program will provide practical, hands-on experience using Microsoft SQL Server, one of the industry's leading relational database management systems. You'll become adept in writing SQL queries, managing databases, and understanding data structures. You'll have the knowledge and skills to make data-driven decisions that can contribute to business success.

You'll learn:

- to query, administer and maintain databases through tasks such as database backup and recovery, security management and optimization for performance
- data analysis proficiency and how to extract valuable insights from data, perform data cleansing and transformation, and apply statistical and analytical techniques
- industry-standard data management best practices and techniques
- how to design and maintain databases and business intelligence software that align with industry standards, ensuring data accuracy, security and reliability
- the essential skills and experience to complete the relevant Microsoft certifications related to business intelligence, like Microsoft Power BI, making you even more competitive in the job market
- to bridge the gap between theory and practice by applying your skills in real-world business scenarios.

As a graduate, you can pursue various career opportunities, including database administrator, business analyst or data analyst roles or business intelligence consultant. The skills you acquire will be valuable in multiple industries and organizations.

Due to the tight integration of the courses in the Business Intelligence Data Analysis and Reporting program, credit for prior learning is not available.

Traits, skills and aptitudes

Those working in the business intelligence and data analysis field tend to be innovative, methodical and directive.

You need:

- to learn quickly, think logically and study information
- to build abstract structures that represent complex relationships
- to focus on details without losing sight of the whole
- an awareness of legal, policy and privacy restrictions
- speaking, listening and writing skills
- to work well in a team
- an active interest in keeping up with changes in technology.

The ideal candidate for the Business Intelligence program has:

- previous post-secondary education in business or technology
- a technical aptitude and a desire to combine their business and technology skills to assist businesses through technology solutions
- experience with relational databases, computer programming or operating systems (for example, Linux/Unix, Windows).

To do well in this field, you should enjoy working with a variety of people in a team setting and solving problems.

Professional designations and certifications

This program, offered in conjunction with the Microsoft IT Academy initiative, is delivered using Microsoft Official Curriculum for many courses.

With additional relevant work experience and exam preparation, you'll be prepared to challenge and complete appropriate Microsoft Certifications.

Credentials

Upon successful completion of this program, you'll receive a SAIT Business Intelligence: Data Analysis and Reporting certificate.

Practicum, Co-op and Work Integrated Learning

In your second semester, you'll participate in a practicum placement with an employer where you'll apply the skills and knowledge you've learned in an industry environment.

Admission requirements

Applicants educated in Canada

Applicants must demonstrate [English language proficiency](#) and completion of the following courses or equivalents:

- at least 60% in English Language Arts 30-1 or 30-2, or
- at least two years of post-secondary education from a recognized university, institute or college.

SAIT accepts [high school course equivalents](#) for admission for applicants educated outside Alberta.

Applicants educated outside of Canada

All applicants who were educated outside of Canada must demonstrate [English language proficiency](#) and provide proof they meet the program admission requirements outlined above with an international document assessment. [Find accepted educational documents and assessment options.](#)

SAIT may also accept courses completed at certain [international post-secondary institutions](#).

Costs

2025/26 tuition and fees

The following estimated costs are effective as of July 1, 2025.

The estimated total cost of tuition and fees is based on the suggested schedule of study. Following a modified schedule will impact the fees you pay per semester and may alter final costs.

Domestic Students

Year	Number of semesters	Tuition fees	Additional fees	Total per year
1	1.5*	\$11,115	\$1,261.45	\$12,376.45
Total cost:				\$12,376.45

The estimated total cost of tuition and fees for domestic students is based on the recommended course load per year.

*.5 indicates a combination of full-time semester(s) and part-time semester(s) in the same academic year. In many cases, students are completing a practicum during their part-time semester. Part-time students are those taking less than nine (9) course credits in a semester. You are not eligible for the UPass during a part-time semester.

International Students

The program total is based on the estimated amount you will pay if you enter this program during the 2025/26 academic year. The program total amount listed on your letter of admission may appear higher. This amount is your maximum tuition guarantee for the

program. SAIT will not exceed this maximum, regardless of changes in tuition and fees between academic years.

Year	Number of semesters	Tuition fees	Additional fees	Total per year
1	1.5*	\$17,803.50	\$1,261.45	\$19,064.95
Total cost:				\$19,064.95

The estimated total cost of tuition and fees for international students is based on the recommended course load per year.

*.5 indicates a combination of full-time semester(s) and part-time semester(s) in the same academic year. In many cases, students are completing a practicum during their part-time semester. Part-time students are those taking less than nine (9) course credits in a semester. You are not eligible for the UPass during a part-time semester.

Books and Supplies

Textbooks and virtual lab access will be provided at no additional cost.

This is a bring-your-own-device program with a power-user hardware and software requirement. See the specific requirements on our [computers and laptops page](#).
