

Parts/Materials Technician

SCHOOL OF TRANSPORTATION

Overview

Learn to manage and dispense parts inventories, handle stock, and identify and catalogue parts and assemblies in various industries like automotive, heavy-duty, farm implement, industrial, recreational vehicles, plumbing, electrical and more.

There are two specializations for this trade:

- Parts technician: the specific duties a parts technician performs depend upon the size of the wholesale, retail or warehouse distribution business and the types of parts involved. In this role, you will sell supplies and parts, order parts, keep inventories, receive supplies, catalogue parts, organize returns, maintain records, submit bills, prepare statements and receive payments.
- Materials technician: as a materials technician, you will prepare and ship orders, process returns, complete inventory processes in place, interact with customers, handle products, operate equipment and calculate transportation costs.

Traits, skills and aptitudes

Parts and materials technicians are skilled tradespeople who are self-motivated and enjoy working with people. This line of work is most fulfilling for those who enjoy business practices.

To thrive in this career, it is important to have the following traits:

- physical strength and stamina
- be organized and analytical
- manual dexterity
- the ability to use proper lifting techniques to lift items up to 18 kilograms
- the ability to work independently
- good math, communication and computer skills
- the ability to get along well with customers and fellow workers.

Credentials

Upon successfully completing the required working hours and apprenticeship education periods, graduates will be awarded a certificate in addition to journeyman status by Alberta's Apprenticeship and Industry Training.

This is a Red Seal Endorsed trade — a recognizable standard that allows tradespeople to work across Canada.

Admission requirements

To enter an apprenticeship, you must have the educational qualifications required or recommended education for the trade to which you apply.

Entrance requirements are monitored and set by Alberta Apprenticeship and Industry Training.

Minimum requirements

Successful completion of the following courses:

- English 10-2
- Math 10-3

OR

A pass mark in all five Canadian General Educational Development (GED) tests

OR

Alberta Apprenticeship and Industry Training Entrance Exam

Recommended requirements

Apprentices with an Alberta High School Diploma that includes the following courses:

- English 30-2
- Math 30-3
- Physics 20 or Chemistry 20 or Science 20
- Related career and technology studies (CTS) courses
