2. Lockers are for individual use only and are not to be shared.
3. Locker contents are the sole responsibility of the registered user of the locker. SAIT is not in any way responsible for a locker's contents or liable for the loss of or damage to locks and items stored in lockers.
4. No person shall store any of the following in a locker:

5. In its capacity as locker owner, SAIT may in its discretion open a locker, cutting any lock for that purpose, with or without prior notice to the locker's user and with or without the user being present, in order to search/inspect the locker. If any items referred to in paragraph 4 of this procedure are found, SAIT may remove the locker contents. SAIT may share the results of its locker search/inspection with the local police or federal authorities.
6. SAIT has the discretion to allow the local police or federal authorities to carry out searches/inspections of locker contents, including random searches/inspections. Such searches/inspections may be carried out with or without prior notice to the locker user and with or without the user being present. The authorities may remove the locker contents.
7. Should SAIT or the local police or federal authorities have to cut a lock for search/inspection purposes without permission of the user, SAIT will replace the lock (at SAIT's expense) if such search/inspection does not result in the finding of any items or substances referred to in paragraph 4 of this procedure.

The official controlled version of this document is held in the Board of Governors Office.

8. When a search/inspection is carried out, at least two SAIT employees or one SAIT employee accompanied by a police officer or federal official will be present. 10. Any items that SAIT confiscates shall be returned to the locker user upon completion of the search unless required by SAIT for an investigation or if the police or federal authorities require that the items be delivered to them or any third party directed by them.
