

### AD.4.5.1 Transportation Devices

#### Schedule A Transportation devices that may be operated on the SAIT Campus

In alignment with provincial requirements relating to vehicle registration, only the following transportation devices may be operated on the SAIT campus.

1. **Cycle**  
Any cycle propelled by human muscular power on which a person may ride, regardless of the number of wheels that the cycle may have. For the purpose of this procedure, it includes a power bicycle.
2. **Moped**  
A motorized pedal cycle with operable pedals, a motor rated at 1.5 horsepower or less with a cylinder displacement of less than 50ccs.
3. **Motorcycle**  
A motor vehicle, other than a moped, that is mounted on two or three wheels.
4. **Motor vehicle**  
A device used for transportation on roadways, such as cars, trucks, and motorcycles, and which is propelled by any power other than human muscular power. For the purpose of this procedure, it does not include a moped.
5. **Power bicycle**  
A vehicle that is a power-assisted bicycle under the federal *Motor Vehicle Safety Regulations* (C.R.C., c.1038).
6. **Power scooter**  
A power-assisted means of transportation consisting of a footboard mounted on two or more wheels and a long steering handle. For the purpose of this procedure, this does not include an e-scooter (a shared electric power scooter permitted and authorized by the City of Calgary) or a liquid-fueled scooter, both of which are prohibited on the SAIT campus as per Schedule B.
7. **Roller blade**  
A means of transportation composed of one or more wheels attached in a line or separately to the sole of a shoe or a boot, also known as roller skates or inline skates.
8. **Roller shoe**  
Footwear with one or more removable wheels embedded in each sole, similar to inline skates, allowing the wearer to walk, run, or, by shifting their weight to their heels, (also known as Heelys or Wheellys).

9. **Scooter**

A means of transportation consisting of a footboard mounted on two or more wheels and a long steering handle, propelled by resting one foot on the footboard and pushing the other against the ground.

10. **Skateboard**

A means of transportation consisting two or more wheels fixed to the bottom of a narrow board, propelled by resting one foot on the board and pushing the other against the ground, also known as a longboard or a pennyboard.
