Welcome to SAIT

Selecting a post-secondary program is the next step in shaping your future. By choosing the Southern Alberta Institute of Technology, you are embarking on a journey that will launch you towards your chosen career.

Ninety-five per cent of SAIT graduates would recommend SAIT. When asked if they would hire a SAIT graduate again, 98% of employers said they would.

SAIT provides students with the skills required to successfully enter the workforce and provides business and industry with the talented employees they need to compete in today’s marketplace.

Your success is paramount which is why we maintain close industry partnerships to ensure we offer relevant applied education which is tailored for the jobs of tomorrow. In fact, more than 1,000 private and public sector professionals provide advice and guidance to ensure we teach the real-world skills required in an ever-changing workplace.

At SAIT you will learn theory and gain hands-on experience — a perfect combination to get your career off to a great start.

**Dr. David G. Ross,**
President and CEO

3   Calgary Stampede Parade Day-Institute closed until 1 pm
17  Withdrawal deadline (15-week courses) **See below
17  Final day to withdraw by receiving recognition of prior learning credit for the current semester courses, no tuition refund. (15-week courses) **See below

August 2020
1   Final transcript deadline for fall term applicants
3   Civic Holiday — Institute closed
11  Fee payment deadline for new students starting in September (most full-time programs)
14  End of spring/summer term

*Add/Drop period: The timeline to add and/or drop courses is based on your program, and the number of weeks you’re registered in for a specific term (see below). Not all programs allow add/drop. Please consult your Academic Chair or Coordinator to ensure you can add or drop a course from your program.

Term Length | Add/Drop period
--- | ---
13 or more weeks | Second Friday from program term start date
8-12 weeks | First Friday from program term start date
2-7 weeks | Two days from program term start date
Less than two weeks | There is no add/drop period

**Withdrawal Deadline:** The last day to officially withdraw from a course or program and receive “W” grades. To be assigned a “W” grade, a student must withdraw prior to completing 70% of the course/program.

AC.3.1: Grading and Progression Policy

Clearing an Incomplete Grade: Incomplete grades (”I”) must be cleared within eight weeks from the end of the course.

Remedy a Course Deficiency: To remedy a deficient grade, you must apply to your Academic Chair or Coordinator within 30 calendar days of the end of the course.

Dates are subject to change.

Freedom of Information and Protection of Privacy Act (FOIP)
The personal information you provide on the application form is collected under the authority of the Freedom of Information and Protection of Privacy Act of the Province of Alberta, Section 33(c), the Statistics Act (Canada), and the Taxation Act (Canada). It will be used to determine your eligibility for admission to program(s)/course(s) of studies at SAIT, to facilitate your enrolment, to contact you regarding SAIT programs and services, to administer and evaluate institute programs/courses, and for statistical purposes. It will form part of your record as an applicant and alumnus and will be disclosed to academic and administrative units at SAIT and to Statistics Canada and Alberta Enterprise and Advanced Education for statistical, funding, planning, and market research purposes, and to the Students’ Association of SAIT and the SAIT Alumni Association for contact purposes and membership services. This information will also be maintained in a mailing list for direct marketing purposes, market research surveys or the distribution of other promotional material as approved by the Director of Office of the Registrar. Your personal information is protected by Alberta’s Freedom of Information and Protection of Privacy Act and can be reviewed on request. If you have any questions about the collection or use of this information, contact the Office of the Registrar’s FOIP representative at 403.284.8069.
Programs
Academic Upgrading

- Fall, winter and spring start
- Full-time classroom or online

Contact us
Academic Upgrading
Phone: 403.210.5756
Email: upgrading@sait.ca

Program description
SAIT academic upgrading courses prepare students for admission to SAIT career programs. For SAIT program admission requirements, refer to the appropriate sections of the SAIT Academic Calendar. SAIT academic upgrading courses are Alberta high school equivalency courses, not Alberta Education courses. They may be accepted for admission purposes by other Alberta post-secondary educational institutions. Check the current Alberta Transfer Guide published by The Alberta Council on Admissions and Transfer for a listing of all formalized transfer agreements among Alberta post-secondary institutions.

SAIT academic upgrading courses provide students with a flexible approach for their transition into post-secondary studies. Courses can be taken part-time or full-time in the day, evening or online. Students become accustomed to the SAIT environment and culture and develop successful strategies for learning.

Government grant funding may be available for eligible students. For more information on funding, please check the following website: www.sait.ca/sip. Student loans are not available for upgrading courses.

It is recommended that all students have access to a personal computer.

Program overview

Your career
Students complete upgrading courses in order to meet the admission requirements for programs at SAIT and most other post-secondary education institutions in Alberta.

Student success
Attendance and punctuality are directly related to academic success. Students who attend all of their classes do better on assignments and tests. Students are encouraged to access free SAIT student services such as tutoring, learning strategy workshops, appointments with a learning strategist and student counselling services. Learn more about these services on sait.ca.

Credentials and accreditations
No Credential Awarded

Progression
Students must pass the necessary prerequisite courses to progress through the program. Admission to SAIT and other post-secondary programs can be highly competitive. Grades higher than a minimal pass improve opportunities for admission to post-secondary programs. For information about course sequencing and prerequisites, go to Academic Upgrading.

Admission requirements
Minimum of 50% in the following courses or their equivalents:
- English Language Arts 10-1 or 10-2, AND,
- Pure Math 10 or Applied Math 10 or Math 10C or Math 10-3 or successful completion of a math placement test.
- Students will be required to complete testing in the relevant subject areas if transcripts are not current or available.
- All applicants to SAIT must demonstrate English language proficiency prior to admission, including students educated in Canada. For more information, please see English Proficiency.
- View High School Course Equivalencies by province.

Assessments
- Transcripts will be reviewed by the Academic Upgrading team to determine the appropriate level of upgrading courses.
- Placement tests may be recommended or required.
- An individualized Program Plan will be created. A Program Plan, maps out the courses that need to be taken each semester and will be created for students based on their transcript and/or test results.

Contact Academic Upgrading at 403.210.5756 for more information, or email upgrading@sait.ca.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.
Costs

Tuition

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- Tuition (subject to change) and other general fees vary depending on the course(s) the student requires.
- For student funding, please refer to Financial Assistance.

Books and supplies

- Books and supplies (subject to change) are approximately $150 to $200 per course.

Academic Upgrading – Indigenous Learners

- Fall start
- Full-time classroom
- 45 weeks

Contact us
Chinook Lodge
Phone: 403.210.4028
Email: chinook.lodge@sait.ca

Program description
SAIT’s Academic Upgrading-Indigenous program offers a series of courses and experiences that will ease your transition into further study at SAIT or other post-secondary schools. This 3-semester, 12-month program begins at the Grade 9 level and ends with your completion of Grade 11 and 12 courses.

In this program, you’ll experience a blend of academic courses, cultural activities and post-secondary readiness sessions in a welcoming and supportive environment. You’ll engage with a group of like-minded Indigenous learners who share your commitment to pursuing a post-secondary education and a new career.

Our program team partners with you to support your academic, cultural and personal success. From program registration and funding applications to connecting you with services and supports, we’ll walk alongside you throughout your learning journey.

Program overview
Student success
Upon successful completion of the program, you will:
- meet the minimum Math and English requirements for entry into many SAIT programs and some programs at other post-secondary schools
- know how to access services and supports in post-secondary school to help you achieve your goals.

Progression
The program runs from Sept. 3, 2019 – Aug. 14, 2020 (45 weeks). There will be a second intake in 2020-21. Learners must be able to commit to 20 hours of classes each week and attend the entire program.

Admission requirements
You are eligible for this program if you:
- achieve a minimum of 30% on an English placement test
- achieve a minimum of 70% on a math placement test OR successfully complete a mathematics preparation course (MATH 050 Introductory Mathematics)
- complete an interview where you demonstrate you are ready, willing and able to engage in this program.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Costs
Tuition (subject to change)
- Tuition for this program is fully funded by the provincial government.
- Assistance is available to apply for tuition and living allowance coverage for this program once you are accepted.

Books and supplies (subject to change)
- Are in addition to the price of tuition.
- Please see sait.ca for details.

Total 25.5 credits
Accounting Oil and Gas Production

- Eight-month certificate
- Fall start
- Full-time classroom

Contact us
School of Business
Phone: 403.774.4661
Email: ogpa@sait.ca

Program description
Oil and Gas Production Accounting teaches the basics of petroleum production accounting as it relates to the petroleum industry. Oil and gas production accountants are responsible for compiling, managing and reporting financial and production data for the oil and gas industry. Production accountants are specialists in their field and must have a sound knowledge of petroleum products in addition to an understanding of the industry’s financial practices and government regulations. This program was developed and certified by the Canadian Association of Petroleum Production Accounting (CAPPA).

This program is offered full-time on the SAIT campus via an intensive, full-time 35-week program accredited by Alberta Advanced Education.

Program overview
Fast facts
Students who have successfully completed OGPA 210 Introduction to the Oil and Gas Industry may be eligible to use this course towards the Energy Asset Management Diploma and the Petroleum Land Administration Certificate.

Students who have successfully completed ACCT 215 Introductory Financial Accounting I or BCMP 225 Business Computers may be eligible to use these courses towards the Business Administration Diploma and the Bachelor of Business Administration degree.

Please contact business.advising@sait.ca for more information.

Your career
Graduates find work in production, operations, revenue or joint venture accounting in the petroleum industry.

Student success
Students enrolling in the Canadian Association of Petroleum Production Accountant’s CAPPA Certificate Program for course commencement as of July 1, 2018 onwards (the 2018-2019 academic year), will be required to complete the CAPPA Program (currently five courses) within three (3) years. This applies to all students regardless of institution or method of course delivery. Students enrolled in the program prior to July 1, 2018 will continue to have a five (5) year deadline for completion.

Credentials
After successfully completing this program, graduates will receive both a SAIT Accounting Oil and Gas Production Certificate and a CAPPA certificate in Accounting — Oil and Gas Production. See the Canadian Association of Petroleum Production Accounting (CAPPA) website for prerequisites and graduation requirements.

Accreditation
The program is nationally accredited by the Canadian Association of Petroleum Production Accounting. To receive the CAPPA certificate students must attain 70% in all levels of CAPPA.

Note: This program is eligible for the Canada-Alberta Job Grant.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
All applicants must demonstrate English Language Proficiency prior to admission. Proof of English Proficiency equal to a minimum of 3 years of education at an English speaking Canadian school or at a recognized International English speaking school, or completion of a proficiency exam is required upon application.
**Direct entry**
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

**Tuition**
- Please refer to the Tuition (subject to change) and Fee Table.
- International Students, please refer to the International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies**
- Are in addition to the price of tuition.

Program description

Become the backbone of a business with the Administrative Information Management (AIM) diploma. Learn to set the bar in office software, productivity, organizing information and solving problems to help businesses run smoothly. This two-year program has unique benefits and is becoming a preferred credential for employers hiring administrative professionals.

Working in teams, you will hone your professionalism, critical thinking and effective communication skills. You learn to create and manage solutions to business information needs through technology, meetings, office procedures and more. Become an expert in project administration and planning events. You integrate business technology with real office procedures.

You can graduate with several Microsoft Office certifications, demonstrating your advanced skills in word processing, database, spreadsheet and presentation software. Working for a simulated company, you integrate all your skills to manage information and creatively solve office challenges. Your final course is a four-week practicum placement. You apply everything you learned in a real workplace and demonstrate your career readiness.

Program overview

Fast Facts

- Two-year diploma
- Fall start
- Laptop-based program using SAIT-issued laptops
- Includes a four-week unpaid practicum placement
- First year courses are also available through Continuing Education

Your career

You graduate with in-demand skills in business technology, problem-solving and organization and are qualified for roles such as: administrative coordinator, business support professional, lead processor, project administrator, executive assistant and many more. You can find work in a variety of industries such as oil and gas, health care, transportation, technology and more.

Student success

To be successful in this program, you should:

- Attend and actively participate in class
- Spend approximately six hours per week on each course outside of regular class time
- Be proficient in the use of a Windows-based computer and Microsoft Office software
- Be prepared to work in teams
- Become familiar with and adhere to SAIT’s academic policies

If you are engaged in campus life and take advantage of SAIT support services, you may have a greater chance of success in SAIT’s programs.

Credentials

After successfully completing this program, graduates will receive a SAIT Administrative Information Management diploma.

Professional designations and certifications

You have the opportunity to write several Microsoft Office Specialist certification exams in this program:

- Word Specialist
- Excel Specialist
- PowerPoint Specialist
- Outlook Specialist
- Word Expert
- Excel Expert
- Access Specialist

Students who successfully complete Word Expert, Excel Expert, PowerPoint Specialist, and one additional certification can also earn a Microsoft Office Specialist Master certification.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

At least 50% in the following courses or their equivalents:

- Math 10C or Math 20-3 or Pure Math 10 or Applied Math 10, AND,
- English Language Arts 30-1 or English Language Arts 30-2

All applicants to SAIT must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
Costs

Tuition
- Please refer to the Tuition (subject to change) and Fee Table.
- International Students, please refer to the International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Are in addition to the price of tuition.
- Please see sait.ca for details.

Program outline

First Year

Semester 1
- OADM 211 – Business Studies 3 credits
- BCMP 220 – Business Software Foundations 3 credits
- BCMP 270 – Presentation Software 3 credits
- AMAT 240 – Applied Mathematics for Business 3 credits
- COMN 220 – Communication and Presentation Skills 3 credits

Semester 2
- OADM 257 – Office Administration 3 credits
- BCMP 215 – Collaborative Software and Technologies 3 credits
- BCMP 250 – Word Processing Essentials 3 credits
- BCMP 260 – Spreadsheet Essentials 3 credits
- COMN 280 – Communication and Presentation Skills II 3 credits

Second Year

Semester 3
- BCMP 300 – Advanced Word Processing Applications 3 credits
- BCMP 310 – Advanced Spreadsheet Applications 3 credits
- BCMP 320 – Database Software for Business 3 credits
- BCMP 330 – Design Software for Business 3 credits
- MNGT 250 – Organizational Behaviour 3 credits

Semester 4
- BCMP 340 – Project Management Software 3 credits
- OADM 355 – Meetings and Events 3 credits
- OADM 375 – Industry Studies 3 credits
- OADM 396 – Integrated Business Applications 6 credits

Semester 5
- PRCT 365 – Practicum 1.5 credits

Total Credits 61.5 credits

Transfer options
The opportunity to advance your education through transfer to, within or from SAIT is available with:
- Athabasca University
- Lethbridge College
- Red Deer College
- Royal Roads University
- SAIT
- University of New Brunswick, Saint John
- University of Ontario Institute of Technology (UOIT)

To learn more, visit Transfer Options on sait.ca
Transfer options may also be available at other post-secondary institutions where credits from SAIT programs are evaluated on an individual basis. Interested students should contact the post-secondary institute of their choice for more information.
Aircraft Maintenance Engineers Technology

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
Art Smith Aero Centre
Phone: 403.284.7018
Email: aerocentre@sait.ca

Program description
The Aircraft Maintenance Engineers Technology program offers the student the knowledge and skills required to enter a career as an Aircraft Maintenance Technician. Once employed in the aviation industry, students may work toward the Aircraft Maintenance Engineer “M” (AME) license. An Aircraft Maintenance Technician/Engineer is responsible for the servicing and repair of aircraft and aircraft components.

The program covers all the aspects of aircraft maintenance including general aviation, corporate, charter, transport category aircraft, and helicopters. This is a two-year diploma program and all classes are scheduled at the Art Smith Aero Centre for Training and Technology, located at the Calgary International Airport.

Some of the courses in this program are web-based and will require the students to access information from the Internet. These courses are delivered in one of the two computer labs available at the Art Smith Aero Centre. Students are not required to purchase a laptop for this program.

Program overview
Your career
Graduates find work as aircraft maintenance technicians leading to an aircraft maintenance engineer (AME) “M” license. Upon successful program completion and achieving 70% or greater in all of the courses and a minimum of 95% program attendance, you will receive 18-months credit toward a mandatory 48-month work experience requirement from Transport Canada in order to obtain your AME license.

Graduates of the Aircraft Maintenance Engineers Technology program have a 94% employment rate.

Student success
Most successful students spend approximately two hours per day doing homework and review, with additional study required to prepare for exams. The material is presented at a fairly rapid rate so for the greatest level of success, students must be present and take responsibility for their learning experience. Students must be able to read, write and comprehend the English language at a level exceeding basic conversational English.

Credentials
Upon successfully completing this program, graduates will be awarded a SAIT diploma in Aircraft Maintenance Engineers Technology.

Accreditation
The program’s accreditation is ongoing and subject to periodic audits from Transport Canada. Students achieving 50% or higher in each course as well as maintain a 2.0 GPA will receive a SAIT diploma.

Graduates who are in compliance with the required attendance (95%) and minimum marks of 70% in each course will receive Transport Canada credit of 18-months’ work experience towards the “M” category AME license.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in the following courses or equivalents:
- Math 30-1 or Math 30-2 or Pure Math 30 or Applied Math 30, AND,
- English Language Arts 30-1 or English Language Arts 30-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
**Competitive entry**

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

**Communication during selection**

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We receive a significant number of applications for this program so the selection process can take some time. Every effort will be made to maintain the timeline found on sait.ca. We appreciate your patience. Unfortunately, due to the large volume of applicants, we cannot provide any assistance or follow-up as to why the candidate was not competitive.

**Costs**

**Tuition (subject to change)**

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Books are approximately $600 for the first year and $450 for the second year.
- The required tools, personal safety equipment, and coveralls will cost approximately $1,450; however, prices vary depending on the quality and brand of tools chosen.

Aircraft Structures Technician

• One-year certificate
• Fall start dates
• Full-time classroom

Contact us
Art Smith Aero Centre
Phone: 403.284.7018
Email: aerocentre@sait.ca

Program description
The Aircraft Structures Technician program offers the student the knowledge and skills required to enter a career to become an Aircraft Maintenance Engineer (AME) “S”. As an “S” licensed Aircraft Maintenance Engineer, you will be responsible for the manufacture and repair of aircraft and aircraft components. The Aircraft Structures Technician program covers all the aspects of aircraft structure repair to general aviation, corporate, charter, transport category aircraft, and helicopters. Training includes traditional aluminum sheet metal structure as well as advanced composite material manufacturing and repair.

The program is two semesters in length. All classes are scheduled at the Art Smith Aero Centre for Training and Technology, located at the Calgary International Airport.

Some of the courses in this program are web-based and will require the students to access information from the Internet. These courses are delivered in one of the two computer labs available at the Art Smith Aero Centre. Students are not required to purchase a laptop for this program.

Program overview

Your career
Graduates find work as aircraft structures technicians leading to an Aircraft Maintenance Engineer (AME) “S” License.

Graduates of the Aircraft Structures Technician program have a 100% employment rate.

Student success
Most successful students spend approximately one hour each day doing homework and review, with additional study required to prepare for exams.

The material is presented at a fairly rapid rate so for the greatest level of success students must be present and take responsibility for their learning experience.

Students must be able to read, write and comprehend the English language at a level exceeding basic conversational English.

Students with higher grades usually experience more success in SAIT programs.

Credential
Upon successfully completing this program, graduates will be awarded a SAIT Certificate.

Accreditation
The program’s accreditation is ongoing and subject to periodic audits from Transport Canada. Students achieving 50% or higher in each course as well as maintain a 2.0 CPA will receive a SAIT certificate.

To receive Transport Canada credit towards the Aircraft Maintenance Engineers “S” license, graduates who are in compliance with the required attendance (95%) and minimum marks of 70% receive 10 months credit towards the “S” Category AME license.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Architectural Technologies

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.at@sait.ca

Program description
The Architectural Technologies program is designed to provide you with the essential skills, knowledge and abilities required to work as an Architectural Technologist for architectural firms, residential builders and many other companies involved in the construction industry. The purpose of the program is to enable graduates to be able to perform and manage the fundamental duties of a junior architectural technologist.

This Diploma program is two years in length, consisting of four 15-week semesters. In the fourth semester, you refine your skills in a comprehensive capstone project. The Architectural Technology program is learner-centered. This type of applied experiential education means the development of the hand and mind through innovation, relevant content, engaged instructors and students who want to create meaningful careers.

This program accepts students into first semester in September as well as in January.

Program overview
Your career
Graduates find diverse work in architectural offices and in building construction as architect assistants, building inspectors, building products sales and graphic designers.

Graduates of the Architectural Technologies program have a 95% employment rate.

Student success
The most successful students in the program are those with a solid foundation in high school Math and Physics and the aptitude to apply those skills to solving real problems. The ability to visualize in three dimensions and an affinity towards computerized graphics software are valuable assets.

Credentials
Upon successfully completing this program, graduates will be awarded a SAIT diploma in Architectural Technologies.

Accreditation
Once completed, this SAIT credential may be eligible for transfer credit at another post-secondary institution. Visit Transfer Options to learn more about the transfer agreements currently available to SAIT graduates and incoming students.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in the following courses or their equivalents:
- Math 30-1 or Math 30-2 or Pure Math 30 or Applied Math 30, AND,
- English Language Arts 30-1 or English Language Arts 30-2, AND,
- A Grade 12 Science.

All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add construction.at@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $1,500 in the first year and $1,000 in the second year.
- Students may also need to buy safety clothing or equipment for the work week and other specific classes.
- A $400 security deposit to use a SAIT issued laptop.
## Program outline

Automotive Service Technology

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Transportation
Phone: 403.284.8471
Email: transportation.info@sait.ca

Program description
This Automotive Service Technology program provides excellent preparation for an apprenticeship as an Automotive Service Technician. Automotive courses are provided in a combination of classroom, lab and shop environments. Students will utilize up-to-date equipment, carrying out diagnosis and repairs that meet manufacturer’s specifications and customer’s satisfaction. Business and communications courses will better prepare you in your career and provide opportunities to advance. The maintenance and repair requirements of the large volume vehicles in Alberta provide many employment opportunities for well trained technicians. The primary location for this program is the Clayton Carroll Automotive Centre at SAIT’s main campus.

Program overview
Your career
Graduates may find work as automotive service technicians and upon successful completion of their apprenticeship can specialize in various areas such as engines, drivability, electrical, chassis systems, wheel alignment and automatic transmissions, etc. There is potential to advance to shop foreman, service managers and other management positions.

Graduates of the Automotive Service Technology program have a 100% employment rate.

Student success
Students with higher grades usually experience more success in SAIT’s programs.

Credentials
Upon successfully completing this program, graduates will be awarded a SAIT diploma in Automotive Service Technology.

Accreditation
Most graduates continue their training and complete an apprenticeship that includes an Alberta Journeyman Certificate as an Automotive Service Technician and an Inter-provincial Standards Red Seal. Diploma graduates are eligible for 16 months of credit towards their Alberta apprenticeship contract. In addition, students may be granted trade-related work experience between the first and second year toward your apprenticeship. Students are also eligible to write apprenticeship exams upon completion of training. The pass mark for apprenticeship exams is 70%.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in the following courses or their equivalents:
- Math 20-1 or Math 20-2 or Math 20-3 or Pure Math 20 or Applied Math 20
- English Language Arts 30-1 or English Language Arts 30-2
- At least one Grade 11 science
- All applicants must demonstrate English language proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.
We recommend you add transportation.info@sait.ca and the sait.ca domain to your safe senderslist or you risk missing critical email messages.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $450 per year.
- The required tools, personal safety equipment, and coveralls will cost approximately $2,000–$5,000 for the first year and $250 for the second year; however, prices vary depending on the quality and brand of tools chosen.

MOTR 360 – Automotive Shop IV 6 credits
MOTR 361 – Automotive Theory IV 3 credits
PROJ 348 – Automotive Service Technology Capstone Project 3 credits

Group B
ELTR 328 – Electrical/Electronics III 1.5 credits
MOTR 303 – Climate Control 1.5 credits
MOTR 320 – Automotive Shop III 6 credits
MOTR 321 – Automotive Theory III 3 credits
PROJ 348 – Automotive Service Technology Capstone Project 3 credits

Total 60 credits
Program Total “A” Class 60 credits
Program Total “B” Class 60 credits

Transfer options
The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

Avionics Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
Art Smith Aero Centre
Phone: 403.284.7018
Email: aerocentre@sait.ca

Program description
The Avionics Technology program offers the student the knowledge and skills required to start a career as an aircraft maintenance engineer (AME) “E”. As an "E" licensed AME, you will be responsible for the servicing and repair of aircraft electrical and electronic systems. An “E” licensed aircraft maintenance engineer will maintain and repair the aircraft communication, navigation and data systems. The Avionic Technology program covers all the aspects of aircraft avionics systems used in general aviation, corporate, charter, transport category aircraft, and helicopters. The program is four semesters in length with a break between semesters two and three. All classes are scheduled at the Art Smith Aero Centre for Training and Technology, located at the Calgary International Airport.

Some of the courses in this program are web-based and will require the students to access information from the Internet. These courses are delivered in one of the two computer labs available at the Art Smith Aero Centre. Students are not required to purchase a laptop for this program.

Program overview
Your career
Graduates find work as avionics technicians and technologists.

Graduates of the Avionics Technology program have an 89% employment rate

Student success
Most successful students spend approximately two hours each day doing homework and review, with additional study required to prepare for exams.

The material is presented at a fairly rapid rate so for the greatest level of success, students must be present and take responsibility for their learning experience.

Students must be able to read, write and comprehend the English language at a level exceeding basic conversational English.

Students with higher grades usually experience more success in SAIT programs.

Credentials
After successfully completing this program, graduates will be awarded a SAIT diploma in Avionics Technology.

Accreditation
The program’s accreditation is ongoing and subject to periodic audits from Transport Canada. Students achieving 50% or higher in each course as well as maintain a 2.0 GPA will receive a SAIT diploma.

Graduates who are in compliance with the required attendance of 95%) and minimum marks of 70% in each course will receive Transport Canada credit of 18 months of work experience towards the ‘E’ category AME license.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in the following courses or their equivalents:
- Math 30-1 or Math 30-2 or Pure Math 30 or Applied Math 30, AND,
- English Language Arts 30-1 or English Language Arts 30-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We receive a significant number of applications for this program so the selection process can take some time. Every effort will be made to maintain the timeline found on sait.ca. We appreciate your patience. Unfortunately, due to the large volume of applicants, we cannot provide any assistance or follow-up as to why the candidate was not competitive.
Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $1,000 for the first year and $100 for the second year.
- The required tools, personal safety equipment, and coveralls will cost approximately $1,200; however, prices vary depending on the quality and brand of tools chosen.

Program outline

First Year
Semester 1
- AERO 220 – Aerodynamics 1.5 credits
- ELCM 355 – Avionics Systems Intro Theory 1.5 credits
- ELCM 356 – Avionics Systems Introduction Lab 1.5 credits
- ELEC 214 – Electricity for Aircraft Theory 1.5 credits
- ELTR 216 – Applied Sciences for Aviation Electronics 1.5 credits
- ELTR 235 – Electronics I Theory 3 credits
- ELTR 236 – Electronics I Lab 3 credits
- STDP 215 – Standard Practices I Theory 1.5 credits
- STDP 224 – Standard Practices I Lab 1.5 credits

Semester 2
- AREG 250 – Introduction to Canadian Aviation Regulatory Requirements 1.5 credits
- DATA 310 – Aircraft Instruments 1.5 credits
- DFTG 250 – Aircraft Electrical Drawing I 1.5 credits
- DIGI 235 – Digital I Theory 3 credits
- DIGI 236 – Digital I Lab 1.5 credits
- ELCM 250 – Electronic Communications Theory 1.5 credits
- ELTR 259 – Electronics II Theory 3 credits
- ELTR 260 – Electronics II Lab 1.5 credits
- STDP 283 – Standard Practices II Lab 1.5 credits

Second Year
Semester 3
- ASYS 310 – Aircraft Navigation Systems 1.5 credits
- ASYS 320 – Electrical Interface I Theory 1.5 credits
- ASYS 350 – Electrical Interface II Theory 1.5 credits
- ASYS 351 – Electrical Interface II Laboratory 1.5 credits
- COMM 249 – Technical Communications 1.5 credits
- DFTG 305 – Aircraft Electrical Drawing II 1.5 credits
- ELCM 348 – Communications Systems II Laboratory 3 credits
- ELCM 349 – Communications Systems II Theory 3 credits

Semester 4
- ASYS 220 – Aircraft Systems Theory 1.5 credits
- ASYS 225 – Aircraft Systems Laboratory 1.5 credits
- AVTR 353 – Introduction to Technical Records 1.5 credits
- CMPH 365 – Aircraft Computers 1.5 credits
- CNTR 360 – AutoPilot and Control Systems 1.5 credits
- Efab 340 – Avionics System Installation 1.5 credits
- ELCM 390 – Avionics Systems Laboratory 3 credits
- ENGN 240 – Aircraft Engines Theory 1.5 credits
- HFAC 245 – Human Factors 1.5 credits

Total 63 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

Bachelor of Applied Business Administration

- Applied degree
- Available through full-time or part-time studies
- Complete in two years of full-time study or up to seven years part-time
- Paid work terms (Directed Field Studies)
- Recognized for the Chartered Professional Accountant (CPA) designation

**Contact us**
School of Business
Phone: 403.284.8485
Email: business.advising@sait.ca

**Program description**
Advance your career in accounting with the Bachelor of Applied Business Administration (Accounting). This post-diploma applied degree program is available through full-time studies. Learn from faculty with real-world accounting experience as you develop practical knowledge in taxation, advanced management and financial accounting, auditing, leadership, and more.

This program consists of ten academic courses and followed by two semesters of Directed Field Studies (DFS). In DFS, you secure your own paid work placement, with approval from the Academic Chair, and apply your skills in a real-world setting. You graduate from this program with prerequisite courses you need to enter the Chartered Professional Accountant (CPA) Professional Education Program.

**Program overview**

**Fast facts**
- Applied degree
- Available through full-time or part-time studies
- Complete in two years of full-time study or up to seven years part-time
- Paid work terms (Directed Field Studies)
- Recognized for the Chartered Professional Accountant (CPA) designation

**Your career**
You can find work in accounting, financial and information management in business, industry, government and public practice accounting. Past graduates have found positions such as: Accountant, Accounting Manager, Auditor, Controller, Financial Analyst, Project Accountant, and Tax Consultant.

**Student success**
To be successful in this program, you should:
- Invest more time and energy into your coursework to have a higher chance of success.
- Have access to a computer prior to enrolling in the program due the amount of technology used in the curriculum
- Be able to read, write, and understand the English language at a high level.

**Credentials**
After successfully completing this program, graduates will receive a SAIT Bachelor of Applied Business Administration degree.

**Accreditation**
This applied degree is recognized as meeting the prerequisite educational requirements needed to enter the Chartered Professional Accountant (CPA) Professional Education Program.

**Progression**
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements with in the prescribed timelines.

**Admission requirements**
Applicants must have completed a two-year Business Administration or Accounting diploma or equivalent at an accredited post-secondary institution, with a minimum 2.3 grade-point average, (67% or C+). This diploma must include a minimum of 20 courses, or 60 credits, and contain the following coursework: Intermediate Accounting, Business Communications, Financial Management, Management Accounting, Systems and Marketing. All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

**Competitive entry**
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information. Communication during selection Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add business.advising@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.
Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International Students, please refer to the International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Are in addition to the price of tuition.
- Please see sait.ca for details.

Program outline

Third Year
Semester 5
ACCT 411 – Personal and Corporate Taxation 3 credits
ACCT 434 – Advanced Financial Accounting 3 credits
ACCT 491 – Advanced Management Accounting 3 credits
ACCT 495 – External Auditing 3 credits
LDH 405 – Leadership 3 credits

Semester 6
ACCT 415 – Accounting Theory 3 credits
MNGT 405 – Strategic Management 3 credits

Electives (3 courses required)
Note: Not all electives are offered as day time, Full-time study. For certain electives students will have to study in the evening and/or part time to complete this semester.
- ACCT 413 – Internal Auditing and Controls 3 credits
- ACCT 416 – Advanced Information Systems 3 credits
- ACCT 417 – Applied External Auditing 3 credits
- ACCT 418 – Applied Personal and Corporate Taxation 3 credits
- BFIN 492 – Advanced Corporate Finance 3 credits
- MNGT 407 – Operations Management 3 credits

Fourth Year
Semester 7
ACWE 500 – Directed Field Studies – Accounting I 15 credits

Semester 8
ACWE 501 – Directed Field Studies – Accounting II 15 credits
Total 60 credits
**Bachelor of Applied Technology – Geographic Information Systems**

- Two-year applied degree
- Fall and winter start dates
- Full-time classroom or online

**Contact us**
School of Construction  
Phone: 403.284.8367  
Email: construction.bgis@sait.ca

**Program description**

The Bachelor of Applied Technology Geographic Information Systems program will provide you with the skills and knowledge to succeed in one of the fastest growing sectors of information technology. Geographic Information System (GIS) combines the power of relational database management systems with the flexibility of cartographic display technology and is used for problem solving and decision making.

To succeed in the program, you will need to be comfortable working in a computer environment, and have a good working knowledge of file management, word processing and spreadsheet software applications.

This is a two-year, applied degree program consisting of two 15-week semesters in year one, followed by a paid practicum in year two.

**Program overview**

**Your career**
As a graduate from the Bachelor of Applied Technology Geographic Information Systems your opportunities for employment include geographic information systems technologist, technician, analyst, specialist, team leader or manager. GIS professionals work in many industries: forestry, natural resource exploration, environmental, engineering, consulting, government (municipal, provincial, and federal), information technology, health care and tourism.

Graduates of the Bachelor of Applied Technology Geographic Information Systems program have a 100% employment rate.

**Student success**
- Students with higher grades usually experience more success in SAIT programs.
- Typical geographic information systems job placement advertisements suggest that the ideal practitioner has a sound technical background, is self-motivated and disciplined in achieving results.
- Successful geographic information systems professionals are also associated with individuals who can problem solve through the application of creative and innovative solutions, and provide service based on the concept of continuous improvement.
- Contact time with instructors in lectures and labs is about twenty-five hours per week. The average student is expected to spend about an additional twenty-five hours per week on assignments, studying, and projects.
- Graduates will often work in teams of various sizes. In the BGIS program, all courses require working in teams for projects or lab assignments. This requires good communication and interpersonal skills.

**Credentials**

Upon successful completion of this program graduates will receive a SAIT Bachelor of Applied Technology Geographic Information Systems degree.

**Accreditation**
Although there are no formal accreditation arrangements at this time discussions are pending with several national level accreditation agencies. Please contact the School of Construction for more information.

**Progression**

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

**Admission requirements**
- A two-year diploma from a recognized Canadian college, technical institute or equivalent, or successful completion of two years at a recognized post-secondary academic institution.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

**Direct entry**
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.
Costs

**Tuition (subject to change)**
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**
- Books and supplies are approximately $800 per year.
- Course fees for classes conducted in non-daytime standard times are not financially supported by Advanced Education and thus priced on a cost recovery basis. This is significantly more expensive than regular daytime fees and priced on a credit-by-credit basis.

Program outline

**Third Year**
**Semester 5**
- COMM 415 – Professional Communications: 1.5 credits
- GEOS 406 – Geospatial Project Foundations: 1.5 credits
- GEOS 409 – GIS Data Capture I: 3 credits
- GEOS 410 – GIS Data Manipulation and Transformation: 3 credits
- GEOS 418 – GIS Data Modelling: 3 credits
- GEOS 419 – GIS Data Analysis and Output: 3 credits

**Semester 6**
- GEOS 451 – GIS Data Capture II: 3 credits
- GEOS 450 – Enterprise and Web GIS: 3 credits
- GEOS 456 – GIS Programming: 3 credits
- GEOS 457 – Cartography and Geovisualization: 3 credits
- GEOS 459 – Applied GIS Capstone Project: 3 credits

**Fourth Year**
**Semester 7**
- GEOS 560 – Applied GIS Directed Field Studies: 30 credits

**Note:** This course continues into Semester 8

**Total:** 60 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

Bachelor of Applied Technology – Petroleum Engineering

- Two-year applied degree
- Fall and winter start
- Full-time classroom or online

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
The BAPT program is designed for students who have completed technical degrees or diplomas and wish to receive training for a career in the petroleum industry. There are many optional courses providing detailed training in specialized fields such as oil and gas exploration, drilling, reservoir and production engineering, oil and gas facilities design and operation, upgrading and refining operations, and economic analysis. This allows students to personalize their training to better suit their interests and career needs.

Program overview
Your career
This program prepares graduates for career opportunities in the petroleum industry in such areas as oil and gas exploration, drilling, reservoir and production engineering, gas process engineering, oil and gas facilities design and operation, upgrading and refining operations and economic analysis.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

Credentials
After successfully completing this program, graduates will receive a SAIT Bachelor of Applied Technology Petroleum Engineering degree.

Accreditation
It should be noted that this degree does not currently provide the requirements leading to registration as a professional engineer. The degree is designed to provide the graduate with in-depth applicable training that will allow the graduate to function as a highly skilled member of an engineering team working in one of the areas outlined above.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- A two-year SAIT diploma in Petroleum Engineering Technology, Chemical Engineering Technology, Mechanical Engineering Technology, Instrumentation Engineering Technology, Civil Engineering Technology, Electrical Engineering Technology, or similar engineering technology, with a grade point average of 2.5 or better is the normal entrance requirement.
- University graduates holding relevant science (mathematics, physics, chemistry, geology, or geophysics) or engineering degrees are accepted. Additional courses may be required before starting the program. Applicants with other qualifications may be considered upon submission of certified background information.
- A transcript of marks for all post-secondary courses or programs is required for all applicants and must be submitted to Office of the Registrar at the time of application. Foreign documents need to be assessed by either World Education Services (WES) or SAIT’s International Document Assessment. Registration in a Canadian Professional Engineering or a Certified Technologist organization can be substituted for the WES or SAIT assessments, subject to academic chair approval.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add bapt.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Program completion
Students in applied degree programs have seven years to complete the credential requirements. The time limitation begins on the date the student starts the first course in the credential. For more information visit sait.ca.
Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Visit sait.ca for details.

Program outline

Core Courses (15 total credits)
- CHEN 402 – Fluid Phase Behaviour 1.5 credits
- COMM 405 – Industrial Communications 3 credits
- DRLG 412 – Drilling 1.5 credits
- ECON 404 – Petroleum Economics 1.5 credits
- GEOL 410 – Petroleum Geology 1.5 credits
- PTPR 412 – Production Operations Engineering 1.5 credits
- RESR 412 – Reservoir 1.5 credits

Required Courses
- May be waived by Academic Chair depending upon Applicant’s prior education
  - MATH 403 – Intermediate Engineering Mathematics 1.5 credits
  - THRIN 405 – Fundamentals of Engineering 1.5 credits

Core Electives (3 to 6 total credits)
- ADMN 411 – Team Skills 1.5 credits
- BFIN 430 – Financial Control, Budgets, and Planning 1.5 credits
- PROJ 421 – Project Management 1.5 credits
- SAFE 412 – Safety in the Petroleum Industry 1.5 credits

Electives (27 total credits)

CHEN 405 – Process Engineering 3 credits
CNTR 405 – Instrumentation and Process Control 1.5 credits
ENVS 402 – Environmental Considerations 1.5 credits
PETR 409 – Refining and Petrochemical Technology 1.5 credits
PTPR 470 – Well Completions, Stimulations, and Workovers 3 credits
CHEN 465 – Process Design Using Computers 3 credits
DRLG 451 – Drilling Technology – Advanced 3 credits
ENVS 470 – Advanced Environmental Considerations 1.5 credits
EVAL 402 – Well Logging 1.5 credits
EVAL 464 – Evaluation of Oil and Gas Projects 1.5 credits
PETR 461 – Advanced Exploration Technology 1.5 credits
PTPR 465 – Advanced Production Engineering 1.5 credits
PROP 425 – Gas Process Engineering – Advanced 3 credits
RESR 425 – Reservoir Simulation 3 credits
RESR 424 – Advanced Reservoir Engineering 1.5 credits
RESR 464 – Heavy Oil Recovery 1.5 credits
RESR 473 – Oilsands Mining and Processing 1.5 credits

Work Experience (30 total credits)
- At least 800 hours of work experience in a paid position in the petroleum industry. Students are responsible for finding this position, but the SAIT Advisor will facilitate this as much as possible.

PRAC 400 – Practicum I for BAPT 15 credits
PRAC 410 – Practicum Project for BAPT 15 credits

Total 57 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- SAIT

Bachelor of Business Administration

- Four-year bachelor’s degree
- Fall start
- Small class sizes: 40 students max
- Choice of six majors: Accounting, Financial Services, Human Resource Management, Management Marketing and Supply Chain Management
- Two optional minors: Construction Project Management and Energy, Oil and Gas
- Bring Your Own Device laptop-based program
- First year and advanced standing intake options

Contact us
School of Business
Phone: 403.284.8485
Email: business.advising@sait.ca

Program description

Make your mark with the industry-recognized Bachelor of Business Administration (BBA) degree. You can stand out in the job market with a wealth of business knowledge and skills and a more in-depth level of relevant business coursework than graduates from other business degrees.

With your Bring Your Own Device (BYOD) laptop, you engage in small classes with active, collaborative coursework — learning from faculty with real business experience. You work in teams to deliver projects, present strategies and meet business goals. The BBA ensures you develop the business acumen, technical knowledge and soft skills employers are looking for: leadership, teamwork, critical thinking, decision-making, problem-solving and communication.

You start with a common first year to build core business skills. In year two, you choose from six majors: Accounting, Financial Services, Human Resource (HR) Management, Management, Marketing or Supply Chain Management. You can enhance your industry literacy with an optional minor in Construction Project Management or Energy, Oil and Gas. Our close industry partnerships ensure that your learning is directly linked to the business community and real-world experiences.

Your final course is a capstone course where you either consult for a real business client or complete a paid workplace practicum (by application) — both options help you integrate everything you’ve learned. You graduate highly employable and in-demand with your significant expertise in business and your major.

Majors

- **Accounting**: Understand the strategic role of accounting in measuring financial performance. In SAIT’s Accounting major, you gain advanced knowledge in core accounting topics and quantitative skills. You graduate with all the courses you need to directly enter the Chartered Professional Accountant (CPA) program and earn your designation.

- **Financial Services**: Study for a career in financial advising, banking, investing, or insurance for personal or corporate clients. The unique Financial Services major lets you complete exams for key industry certifications (IFIC, CSC). You can graduate with in-demand financial credentials already in hand.

- **Human Resource Management**: Graduate ready to add strategic value to organizations in recruitment, compensation, employee training and development, change management or navigating diversity. In this Human Resources Institute of Alberta (HRIA)-accredited program, you are exempt from writing the national exam for your Certified Professional in Human Resources (CPHR) designation.

- **Management**: Open the door to a diverse career with effective skills in managing people, processes and projects. In Management, you learn about projects, operations, change and conflict through practical classes. Specialize your electives and learn the language of industry with a minor in energy or construction.

- **Marketing**: Learn to create and innovate to grow a business, launch new products and build brands — sometimes for actual clients. In Marketing, you master the marketing mix, embrace the latest trends and blend theory with real-world scenarios. Graduate with a professional portfolio and prepared for exciting careers.

- **Supply Chain Management**: Learn to effectively manage supply chains using examples from real companies. You delve deeply into procurement, logistics, transportation, inventory and warehouse management, supplier relations, contracts and performance analytics. You graduate ready to excel with unique skills from the only Supply Chain Management degree major in southern Alberta.

Minors

- **Construction Project Management**: Get the inside track for a business role in the robust Canadian construction industry. You learn the process of managing large capital construction projects including risk and conflict on construction sites, design considerations and more.

- **Energy, Oil and Gas**: Prepare to work in Alberta’s dynamic energy industry with courses from the state-of-the-art MacPhail School of Energy. You learn the language of the industry with insights into technical, regulatory and economic factors and more.
Program overview

Your career

When you graduate, you can pursue careers in:

- **Accounting**: Accountant, Actuary, Auditor, Consultant, Forensic Accountant, Financial Analyst, Joint Venture Analyst, Procurement Officer, Tax Advisor
- **Financial Services**: Asset Manager, Financial Advisor, Investment Consultant, Premium Banker, System Branch Manager
- **Human Resource Management**: Change Management Specialist, Health and Wellness Advisor, Labour Relations Advisor, Learning and Development Specialist, Talent Acquisition Specialist
- **Management**: Business Development Advisor, Business Owner, Management Consultant, Operations Manager, Project Manager
- **Marketing**: Account Manager, Business Development Advisor, Digital Marketing Specialist, Entrepreneur, Event Coordinator, Merchandising Analyst
- **Supply Chain Management**: Buyer, Category Manager, Commercial Analyst, Contracts Specialist, Inventory Manager, Logistics and Materials Planner, Procurement Specialist, Supply Chain Coordinator, Transportation Manager

Student success

To be successful in this academically-rigorous program, you should:

- Attend and actively participate in all classes
- Spend six to nine hours per week on each course outside of regular class time
- Be proficient in Windows and Microsoft Office
- Be prepared to work in teams
- Be prepared for an academically rigorous program and increasing level of difficulty each year
- Become familiar and adhere to SAIT’s policies and procedures
- Have strong written and oral communication skills
- If you are engaged in campus life and take advantage of SAIT services and resources, you may be more likely to experience success in SAIT’s programs.

Credentials

Upon successful completion of this program, graduates will receive a SAIT Bachelor of Business Administration degree.

Accreditation

Professional designations and certifications

When you graduate, you can pursue different professional designations, depending on your major. In some cases, we have formal agreements with professional associations to recognize BBA coursework for their educational requirements. You may need additional exam, education, or work requirements to earn a designation.

- **Accounting**: you graduate with all prerequisite educational requirements needed to enter the Chartered Professional Accountant (CPA) Professional Education Program.
- **Financial Services**: you have the opportunity to complete the Investment Funds in Canada (IFIC) and Canadian Securities Course (CSC) exams in the program. You can graduate with your Personal Financial Planner (PFP) designation in hand by passing the necessary exams. The Financial Planning Standards Council recognizes the program as meeting the Core Curriculum requirements for the Certified Financial Planner (CFP) certification.
- **Human Resource Management**: This program is accredited by the Human Resources Institute of Alberta, exempting you from writing the national knowledge exam for your Certified Professional in Human Resources (CPHR) designation. You can also pursue designations including: Registered Professional Recruiter (RPR), and Certified Training and Development Professional (CTDP).
- **Management**: you can pursue the Certified in Management (CIM) designation.
- **Marketing**: you can pursue the Certified Sales Professional (CSP) designation.
- **Supply Chain Management**: you can pursue several designations including Supply Chain Management Professional (SCMP), Professional Logistician (P.Log), Certified Supply Chain Professional (CSCP).

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.
Admission requirements

Applicants must meet one of the following (or equivalent), as well as the English Proficiency requirement*:

1. An overall minimum average of 65% where:
   - English 30-1 has to be at least 60%,
   - Math 30-1 or Pure Math 30 have to be at least 60%, or
   - Math 30-2 has to be at least 70%.
   The average will be calculated using English 30-1, and Math 30-1 or Pure Math 30 or Math 30-2, and two courses from Group A and one course from either Group A or B.

### Academic (Group A)

Academic courses may include at the Grade 12, 30-level or equivalent:
- Other courses may also be considered.

### Other (Group B)

One of the following:
- Drama 30, Art 30 or 31, Music 30 (choral, instrumental, general),
- Physical Education 30,
- Religion 35 and Social Studies 30-2 or:
- Five credits of advanced career and technology courses.

Business-related dual-credit courses taken by high school students may be used for admission purposes.

### Selection criteria

Applicants who do not qualify for early admission, or who qualify after the early admission deadline has passed, will be placed in selection and academically ranked according to the admission requirements.

Career investigation and/or interviews may also be required as part of the selection process.

Selection will begin on December 18 and be done on a continuous basis until the program has been filled.

Applicants will then be offered a seat or waitlisted, based on ranking and seat availability.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most current information.

Early admission criteria

Early admission will be offered to qualified applicants based on the following criteria.

An overall minimum average of 75% where English 30-1 and Math 30-1 or Pure Math 30 have to be at least 60%. The average will be calculated using English 30-1, and Math 30-1 or Pure Math 30, and two courses from Group A, and one course from either Group A or B, OR,

Applicants who have achieved, or will achieve, a minimum GPA of 2.7 in the SAIT Business Administration diploma or equivalent.

Applicants who have achieved, or will achieve, a minimum GPA of 2.7 in the post-secondary admission requirement.

Early admission will be offered until December 15 or until the program is full. Applicants will be ranked and seats offered in order of the ranked list until the program is full. Once the program is full applicants will be placed on the waitlist in ranked order.

In the selection process, applicants will be assessed on the following criteria and seats will be offered accordingly.

2. A SAIT Business Administration diploma or a Bachelor of Applied Business Administration or their equivalent from an accredited post-secondary institution, with a minimum 2.3 cumulative GPA, (67% or C+).

3. A two-year diploma or a bachelor’s degree from an accredited post-secondary institution, with a minimum 2.3 cumulative GPA, (67% or C+) and completion of English 30-1 and Math 30-1 or Pure Math 30 or Math 30-2 or equivalents**.

* All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

** Admission is determined based on an applicant’s complete academic history, including both high school and post-secondary courses. Post-secondary level courses of similar learning outcomes may be considered for use in meeting admission requirements.

SAIT accepts high school course equivalents for admission. If applicants do not meet the requirements, they may consider Academic Upgrading.
Program outline

The Bachelor of Business Administration requires 120 credits (39 courses) for completion, including at least 72 credits at the senior level. All courses are 3 credits, except for the 6-credit Integrative Experience.

The program consists of:

- Business Core Courses – 45 credits (14 courses)
- Complementary Core Courses – 18 credits (6 courses)
- Complementary Elective Courses – 12 credits (4 courses)
- Major Courses – 45 credits (15 courses)
- Optional Minor – 12 credits (4 courses)

Students in the Accounting, Financial Services, Human Resource Management, Marketing, and Supply Chain Management wishing to have an optional minor required 132 credits (43 courses) for completion.

Note: Not all courses will run every year or every semester.

Contact an academic advisor to discuss your individual learning plan: business.advising@sait.ca or 403.284.8485.

Business Core

Junior Business Core (21 total credits)

- ACCT 1010 – Introductory Financial Accounting I 3 credits
- BCMP 1225 – Business Productivity Tools and Technology 3 credits
- BMAT 1040 – Business Mathematics 3 credits
- ECON 1010 – Microeconomics 3 credits
- ECON 1110 – Macroeconomics 3 credits
- MKTG 1060 – Marketing Essentials 3 credits
- MGMT 1200 – Introduction to Business 3 credits

Senior Business Core (12 total credits)

- BLAW 2030 – Business Law 3 credits
- MGMT 2250 – Organizational Behavior 3 credits
- MGMT 2360 – International Business 3 credits
- MGMT 4050 – Strategic Management 3 credits

Business Core Elective 1 (3 total credits)

- ACCT 2110 – Introductory Financial Accounting II 3 credits

Note: Accounting majors must take ACCT 2110

Senior Business Core Elective 1

- ACCT 2010 – Accounting for Managers 3 credits

Business Core Elective 2 (3 total credits)

- BFIN 2301 – Finance for Managers 3 credits
- FNCE 3060 – Finance Management 3 credits

Note: Accounting majors must take FNCE 3060.

Business Core Integrative Experience Elective (6 total credits)

- ACWE 4990 – Business Practicum 6 credits
- MNGT 4990 – Business Capstone 6 credits

Senior Business Electives

- BFIN 2333 – Money and Banking 3 credits
- HRMT 2300 – Talent Management I: Recruitment and Selection 3 credits
- HRMT 2350 – Human Resource Information Management 3 credits
- HRMT 2360 – Talent Management II: Training and Development 3 credits
- HRMT 3010 – Health, Safety and Wellness 3 credits
- HRMT 3020 – Talent Management III: Total Rewards 3 credits
- HRMT 4010 – Labour Relations 3 credits
- MKTG 2306 – Brand Management 3 credits
- MKTG 2336 – Marketing Action 3 credits
- MKTG 2340 – Consumer Behavior 3 credits
- MNGT 395 – Managing Strategically 3 credits

Note: SAIT BA graduates from some majors may be eligible to use this course as a senior business elective.

- MNGT 2367 – Municipal Structure and Governance 3 credits
- MNGT 2370 – Principles of Supply Chain Management 3 credits
- MNGT 3010 – Continuous Improvement 3 credits
- MNGT 3020 – Conflict Management and Negotiation Skills 3 credits
- MNGT 3365 – International Management 3 credits
- MNGT 4010 – Change Management 3 credits
- SCMT 2300 – Operations Planning and Scheduling 3 credits
- SCMT 2310 – Logistics I 3 credits
- SCMT 2320 – Quality: A Supply Chain Perspective 3 credits
- SCMT 2350 – Operational Performance Analytics 3 credits
- SCMT 2370 – Procurement I 3 credits
- SCMT 2380 – Materials Management 3 credits

Junior Complementary Core (9 total credits)

- PHIL 1011 – Critical Thinking 3 credits
- STAT 2040 – Quantitative Methods 3 credits

Senior Complementary Core (9 total credits)

- COMM 3310 – Presentations 3 credits
- PHIL 3010 – Ethics 3 credits
- STAT 4010 – Research Methodologies 3 credits

Complementary Elective Courses (12 total credits)

Junior Science Elective (choose 1)

- BIOL 2220 – Organisms and their Relationships 3 credits
- ENVS 2010 – Environmental Science for Sustainability 3 credits
- SCIE 2230 – Science of Health and Wellness 3 credits
- SCIE 2240 – Science Past Present Future 3 credits

Junior Humanities Elective (choose 1)

- ARCH 1010 – History of Architecture 3 credits
- ENGL 1010 – Critical Reading and Writing 3 credits
- HUMN 2010 – Introduction to Humanities 3 credits
- PHIL 1030 – Ethics in Technology 3 credits
- PHIL 1040 – Introduction to Philosophy 3 credits

Junior Social Sciences Elective (choose 1)

- PSYC 1010 – Introduction to Psychology 3 credits
- SOCI 2010 – Introduction to Sociology 3 credits
### Senior Complementary Elective (choose 1)

**Senior Humanities Elective**
- COMM 3300 – Intercultural Communications 3 credits
- ENGL 3370 – Comparative World Literature 3 credits

**Senior Social Sciences Elective**
- SOCI 3060 – Technology and Society 3 credits
- SOCI 3340 – Society and the Workplace 3 credits
- SOCI 3380 – Conformity and Deviance in the Workplace 3 credits

### Majors

#### Accounting (45 total credits)

- ACCT 2020 – Introductory Management Accounting 3 credits
- ACCT 3010 – External Auditing 3 credits
- ACCT 3020 – Personal and Corporate Taxation 3 credits
- ACCT 3120 – Intermediate Management Accounting 3 credits
- ACCT 3210 – Intermediate Financial Accounting I 3 credits
- ACCT 3310 – Intermediate Financial Accounting II 3 credits
- ACCT 4020 – Accounting Theory 3 credits
- ACCT 4140 – Internal Auditing and Controls 3 credits
- ACCT 4220 – Advanced Management Accounting 3 credits
- ACCT 4410 – Advanced Financial Accounting 3 credits
- MNGT 2322 – Information Systems 3 credits
- MNGT 4070 – Operations Management 3 credits

#### Accounting Electives (choose 2)

- ACCT 4130 – Advanced Information Systems 3 credits
- FNCE 4120 – Advanced Corporate Finance 3 credits

#### Financial Services (45 total credits)

**Junior Courses**
- BFIN 1255 – Personal Financial Planning 3 credits

**Senior Courses**
- ACCT 2375 – Introduction to Taxation 3 credits
- BFIN 2333 – Money and Banking 3 credits
- BFIN 2341 – Risk Management and Retirement Planning 3 credits
- BFIN 2360 – Relationship Selling 3 credits
- BFIN 2380 – Financial Planning Process and Estate Planning 3 credits
- BFIN 3010 – Intermediate Finance I 3 credits
- BFIN 3020 – Intermediate Finance II 3 credits
- BFIN 4010 – Client Advice 3 credits
- BFIN 4020 – Advanced Finance I 3 credits
- BFIN 4030 – Advanced Finance II 3 credits
- MNGT 4070 – Operations Management 3 credits

#### Financial Services Elective (choose 1)

- BFIN 2356 – Mutual Funds and Securities 3 credits
- BFIN 4040 – Applied Client Planning 3 credits

or 1 Senior Business Elective 3 credits

#### Human Resource Management (45 total credits)

**Junior Courses**
- MNGT 1255 – Introduction to Management 3 credits

**Senior Courses**
- ELAW 350 – Employment Law 3 credits
- HRMT 2300 – Talent Management I: Recruitment and Selection 3 credits
- HRMT 2310 – Technical Skills for Human Resources Professionals 3 credits
- HRMT 2320 – Human Resource Management 3 credits
- HRMT 2350 – Human Resource Information Management 3 credits
- HRMT 2360 – Talent Management II: Training and Development 3 credits
- HRMT 3010 – Health, Safety and Wellness 3 credits
- HRMT 3020 – Talent Management III: Total Rewards 3 credits
- HRMT 4010 – Labour Relations 3 credits
- MNGT 3020 – Conflict Management and Negotiation Skills 3 credits
- MNGT 4010 – Change Management 3 credits
- MNGT 4070 – Operations Management 3 credits

and 1 Senior Business Elective 3 credits

#### Management (45 total credits)

**Junior Courses (3 total credits)**
- MNGT 1255 – Introduction to Management 3 credits

**Senior Courses (18 total credits)**
- HRMT 2320 – Human Resource Management 3 credits
- HRMT 2321 – Project Management 3 credits
- MNGT 3020 – Conflict Management and Negotiation Skills 3 credits
- MNGT 4010 – Change Management 3 credits
- MNGT 4020 – Project Management II 3 credits
- MNGT 4070 – Operations Management 3 credits

#### Financial Services Elective (choose 1)

- BFIN 2356 – Mutual Funds and Securities 3 credits

or 1 Senior Business Elective 3 credits

With prior written program approval, other senior courses may be selected.

#### Without Minor (24 total credits)

- ENTR 2350 – Entrepreneurship 3 credits
- LDSH 3050 – Leadership 3 credits
- MNGT 2367 – Municipal Structure and Governance 3 credits
- MNGT 2370 – Principles of Supply Chain Management 3 credits
- MNGT 3010 – Continuous Improvement 3 credits
- MNGT 3365 – International Management or Senior Business Electives 3 credits

With prior written program approval, other senior courses may be selected.

#### With Minor (12 total credits)

- ENTR 2350 – Entrepreneurship 3 credits
- LDSH 3050 – Leadership 3 credits
- MNGT 2367 – Municipal Structure and Governance 3 credits
- MNGT 2370 – Principles of Supply Chain Management 3 credits
- MNGT 3010 – Continuous Improvement 3 credits
- MNGT 3365 – International Management or Senior Business Electives 3 credits

With prior written program approval, other senior courses may be selected.
Marketing (45 total credits)

Junior Courses
- MKTG 1275 – Marketing You 3 credits

Senior Courses
- MKTG 2306 – Brand Management 3 credits
- MKTG 2322 – Marketing Research 3 credits
- MKTG 2336 – Marketing Action 3 credits
- MKTG 2340 – Consumer Behavior 3 credits
- MKTG 2366 – Business Development 3 credits
- MKTG 2375 – Integrated Marketing Communications 3 credits
- MKTG 3020 – Strategic Marketing 3 credits
- MKTG 3020 – Innovation and Design 3 credits
- MKTG 4020 – Public Relations 3 credits
- MKTG 4040 – Advertising 3 credits
- MNGT 4070 – Operations Management and 1 Senior Business Elective 6 credits

Marketing Elective 1 (choose 1)
- MKTG 3359 – International Marketing 3 credits
- MKTG 4010 – Digital Marketing 3 credits

Marketing Elective 2 (choose 1)
- MKTG 4030 – Go To Market 3 credits
- Or 1 Senior Business Elective 3 credits

Supply Chain Management (45 total credits)

Junior Courses
- SCMT 1255 – Introduction to Supply Chain Management 3 credits

Senior Courses
- LDSH 3050 – Leadership 3 credits
- MNGT 2321 – Project Management 3 credits
- MNGT 3020 – Conflict Management and Negotiation Skills 3 credits
- MNGT 4010 – Change Management 3 credits
- SCMT 2300 – Operations Planning and Scheduling 3 credits
- SCMT 2310 – Logistics I 3 credits
- SCMT 2320 – Quality: A Supply Chain Perspective 3 credits
- SCMT 2350 – Operational Performance Analytics 3 credits
- SCMT 2360 – Professional Practice in Supply Chain Management 3 credits
- SCMT 2370 – Procurement I 3 credits
- SCMT 2380 – Materials Management 3 credits
- SCMT 4010 – Procurement II 3 credits
- SCMT 4020 – Logistics II 3 credits
- and 1 Senior Business Elective 3 credits

Program description
Accelerate your career with SAIT’s Bachelor of Hospitality and Tourism Management program. With a degree in hospitality and tourism, you can advance your career as you move towards managerial, executive or entrepreneurial opportunities in a flourishing and diverse sector. Designed in consultation with industry and taught by hospitality professionals, you will leave the program with a global skill set that can take you to destinations worldwide.

In this post-diploma degree, we provide a personalized approach to learning with small class sizes and professional mentorship along the way. You’ll expand your breadth of knowledge across disciplines as you study key areas including leadership and project management, intercultural communications, global tourism, sales and marketing, sustainability in hospitality and tourism and more.

At SAIT, we pride ourselves on our close connection to the industry as we deliver relevantly, skills-focused education-and this program is no exception. In your capstone course, you will have the opportunity to work collaboratively with industry partners as you strategically solve a real-world challenge with a comprehensive business plan.

The School of Hospitality and Tourism was named one of the Top 50 Hospitality and Hotel Management Schools in the world by CEOWORLD Magazine — join the ranks and take your career to the next level with an education that goes beyond the border.

Program overview

Your career
Graduates of the Bachelor of Hospitality and Tourism Management degree can pursue careers in hotel and resort management, restaurant management, events and attractions management, tourism management and hospitality entrepreneurship.

Student success
To be successful in this program, you should:
- attend and actively participate in all classes
- be willing to work in a collaborative team environment
- be prepared for an academically challenging program
- have strong written and oral communication skills.
- If you engage in campus life and take advantage of SAIT services and resources, you may be more likely to experience success in SAIT’s programs. The program is open to not just recent high school graduates but also those looking for a career shift.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Credentials
Upon successful completion of this program, graduates will receive a SAIT Bachelor of Hospitality and Tourism Management degree.

Admission requirements
Completion of the following courses or their equivalents:
- A SAIT Hospitality Management diplomaor equivalent from an accredited post-secondary institution, with a minimum 2.3 cumulative GPA (67% or C+)
- At least 50% in English 30-1, or at least 60% in English 30-2
- At least 50% in Math 30-1 or Math 30-2 or Pure Math 30, or at least 60% in Applied Math 30.

Note: Admissions alternatives for English include successful completion of COMM 240: Business Communications I or COMN 220: Communications and Presentation Skills.
- All applicants must demonstrate English language proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.
Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.

Plus one senior social science or humanities elective 3 credits
Bachelor of Science — Construction Project Management

- Four-year bachelor degree
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.cpm@sait.ca

Program description

The Bachelor of Science Construction Project Management four-year degree program combines practical skills with theoretical knowledge and technical training. Taught by industry professionals, graduates are prepared for leadership roles in the booming global construction, engineering and oil and gas industries. It focuses on the study of how the principles of scientific management are applied to construction projects.

This unique program is the first of its kind offered in Canada and was built by industry, for industry. A need for trained management professionals was identified and SAIT developed this program to build the skills of future leaders in this industry.

Scope Statement

The Bachelor of Science Construction Project Management will provide a graduate with an in-depth education in the key sectors of construction: residential, commercial, industrial and infrastructure. They will possess managerial, scientific, technical and applied knowledge in the construction field. Graduates will assume a variety of roles with the opportunity to advance into project management and leadership roles. Graduates will demonstrate critical thinking, problem-solving, written and oral communication skills. Furthermore, they will have an opportunity to engage in scholarly activities that prepare them for graduate study.

Program overview

Your career

Graduates participate in construction project management, facilities management, and infrastructure development both locally and globally.

Graduates also pursue graduate-level credentials in the construction project management domain.

Numerous career paths exist for graduates of the BSc CPM. Some examples of typical entry level opportunities for graduates include the following:
- Assistant Construction Manager
- Assistant Project Manager
- Site Supervisor

- Construction Inspector
- Project Coordinator
- Project Document Controller
- Assistant Project Coordinator
- Project Assistant
- Assistant Site Supervisor
- Junior Estimator
- Junior Contract Administrator
- Assistant Facilities Manager

There are also opportunities for graduates of BSc CPM to pursue a variety of self-employment opportunities such as consulting, general contracting, small businesses or other entrepreneurial ventures.

Student success

Students with higher grades usually experience more success in SAIT’s programs. There is a direct correlation between the time and energy invested in studies to the success achieved.

Note: Course difficulty levels are higher for a degree program than they are for a diploma program.

Credentials

Upon successful completion of this program, graduates will receive a SAIT Bachelor of Science Construction Project Management baccalaureate degree.

Accreditation

The Bachelor of Science Construction Project Management program has received full accreditation from the Canadian Institute of Quantity Surveyors (CIQS), a self-regulatory professional body that sets the highest standard for construction economics in Canada. It is the first program in Alberta to be accredited by CIQS.

The School of Construction is also seeking accreditation for the BSc CPM Program from three related accreditation bodies:
- The Project Management Institute Global Accreditation Center (PMIGAC). This is the only specialized international accrediting body that assures the quality of Project Management degree programs at the graduate and undergraduate levels.
- The Gold Seal program by the Canadian Construction Association (CCA) is a national certification program that recognizes construction management excellence, based on education, experience, and examination.
- The Chartered Institute of Building (CIOB) an international body that enables members who wish to enter a management career in construction.
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Applicants must meet one of the following (or equivalent), as well as the English proficiency requirement.*

1. An overall minimum average of 70% in the following courses or equivalents:
   - Math 30-1 or Pure Math 30, AND,
   - English Language Arts 30-1, AND,
   - Two courses from Group A, AND,
   - One course from Group A or B.

ARCH 1020 – Construction Presentation Graphics 3 credits
CIVL 1110 – Materials and Methods of Construction 3 credits
CIVL 2010 – Structures I 3 credits
CPMT 1010 – Introduction to Construction Project Management 3 credits
ESTM 2010 – Project Cost Estimation 3 credits
SMTL 1010 – Statics and Strength of Materials 3 credits
SURV 1010 – Construction Surveying 3 credits
Senior
CIVL 2120 – Soil Mechanics and Foundations 3 credits
CIVL 2130 – Mechanical and Electrical Systems 3 credits
CIVL 3010 – Structures II 3 credits
CODE 3011 – Codes and Standards 3 credits
CPMT 2010 – Project Planning and Scheduling 3 credits
CPMT 3010 – Quality Management 3 credits
CPMT 3020 – Project Delivery Systems and Contracts 3 credits
CPMT 3030 – Procurement Management 3 credits
CPMT 3060 – Project Risk and Conflict Management 3 credits
CPMT 3110 – Heavy Construction Equipment and Methods 3 credits
CPMT 3130 – Cost Planning and Control 3 credits
CPMT 4060 – Scope and Design Management 3 credits
CPMT 4070 – International Construction Project Management 3 credits
CPMT 4110 – Project Organization and Supervision 3 credits
CPMT 4130 – Construction Safety Management 3 credits
CPMT 4320 – E-Project Management 3 credits
CPMT 4990 – Capstone Project 3 credits
ENVS 3020 – Sustainable Construction 3 credits
ITRN 4000 – Internship 3 credits

Note: completed in the spring/summer semester between year three and four of the program.
Complementary core courses  27 credits

Junior
COMM 1070 – Communication and Presentation Skills  3 credits
MATH 1011 – Technical Mathematics I  3 credits
MATH 1111 – Technical Mathematics II  3 credits
MGMT 3010 – Business Skills and Processes  3 credits
PHYS 1011 – Introductory Physics  3 credits
STAT 3110 – Statistics for Science and Engineering  3 credits

Senior
CLAW 3011 – Construction Law  3 credits
PHYS 1110 – Physics II  3 credits
STAT 4010 – Research Methodologies  3 credits

Electives

Core electives

Students choose two (2) of the following electives

Senior
CIVL 3110 – Construction Productivity  3 credits
CIVL 4010 – Real Estate Principles and Construction Finance  3 credits
CIVL 4110 – Value Engineering  3 credits
CPMT 3040 – Human Resource Management  3 credits
CPMT 4010 – Facilities Management  3 credits

Humanities electives

Students choose one (1) of the following electives

Junior
PHIL 1011 – Critical Thinking  3 credits
ENGL 1010 – Critical Reading and Writing  3 credits
PHIL 1030 – Ethics in Technology  3 credits
ARCH 1010 – History of Architecture  3 credits
HUMN 2010 – Introduction to Humanities  3 credits
PHIL 1040 – Introduction to Philosophy  3 credits
PHIL 1020 – Symbolic Logic  3 credits

Senior
COMM 3300 – Intercultural Communications  3 credits
PHIL 3010 – Ethics  3 credits

Law electives

Students choose one (1) of the following electives

Junior
CLAW 1010 – Canadian and Environmental Law  3 credits

Senior
BLAW 2030 – Business Law  3 credits

Social science electives

Students choose one (1) of the following electives

Junior
ANTH 2230 – Aboriginal Studies  3 credits
PSYC 1010 – Introduction to Psychology  3 credits
SOCI 2010 – Introduction to Sociology  3 credits
ECON 1110 – Macroeconomics  3 credits
ECON 1010 – Microeconomics  3 credits

Senior
SOCI 3060 – Technology and Society  3 credits
SOCI 3340 – Society and the Workplace  3 credits
SOCI 3380 – Conformity and Deviance in the Workplace  3 credits

Science electives

Students choose one (1) of the following electives

Junior
BIOL 2220 – Organisms and their Relationships  3 credits
ENVS 2010 – Environmental Science for Sustainability  3 credits
SCIE 2230 – Science of Health and Wellness  3 credits
SCIE 2260 – Science Past Present Future  3 credits
CIVL 222* – Concrete Technology  3 credits

*SAIT CVT graduates who enter into BSc. CPM may use CIVL 222 as a junior science elective.

*Note: for additional acceptable options, please speak to the academic advisor.

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Auckland University of Technology
- Cambrian College
- Fanshawe College
- Lethbridge College
- Robert Gordon University, UK
- Saskatchewan Polytechnic
- University of South Wales
- University of Victoria

To learn more, visit transfer options. Program details (transfer options) may also be available at other post-secondary institutions where credits from SAIT programs are evaluated on an individual basis. Interested students should contact the post-secondary institute of their choice for more information.

Program description
Take exceptional instructors with backgrounds in traditional and contemporary baking and pastry arts from around the world, add state-of-the-art training facilities and a progressive curriculum, and you get the top Baking and Pastry Arts program in Canada. If you have baked all of your life, have an artistic flair and are interested in creating magic with elegant dessert showpieces, we can help take your passion to the next level. A career in baking and pastry arts will have you balancing exact measurements and chemistry on one hand, while using your imagination and creativity to develop exciting new recipes on the other.

In an industry experiencing high demand, graduates from SAIT’s Baking and Pastry Arts program are well prepared for a diverse range of career options after graduation. In this technical discipline, the craft of pastry is teamed with the art of baking, sugar artistry and fine artisanal chocolate production. At SAIT, we focus on your success through a personalized approach, small class sizes, plenty of hands-on training and exciting new facility upgrades. Our labs are state-of-the-art and include a specialized chocolate lab and downtown Culinary Campus.

During this full-time two-year diploma program, you will be trained in baking fundamentals and advanced baking practices. The program covers yeast goods, artisan breads, pastries, sugar artistry, chocolate, special occasion and wedding cakes, flans, tortes and much more. You will also learn important management skills on food regulations, customer service, costing, pricing, merchandising and starting your own business.

Hands-on, production environment
Our main goal is to prepare you for the real world in a hands-on, production-style environment. Over your two-year education, you will receive about 1,400 practical training hours in the bakery labs. You’ll learn step-by-step tactics and come away knowing best practices, as well as practical strategies to implement in the real world. You will also have the chance to feature your talents by baking bread and pastry products to sell in our gourmet retail food outlets including the renowned Highwood restaurant, the Market Place and the downtown Culinary Campus.

Learn from top instructors from around the world
In addition to learning the science of baking, our instructors will also inspire your creativity. The highly distinguished instructors in the Baking and Pastry Arts program are truly second to none. Their diverse backgrounds and specialties range from executive pastry chefs from top hotels in New York, Hawaii and Bermuda, to local, entrepreneurial bakers.

Professional paid internship and study tours
Between your first and second year of study, you will get to apply your skills in a professional paid internship. In addition to gaining experience in a real-world environment, internships provide valuable connections and opportunities to network with future employers.

As a student, you can also take advantage of exciting international study tours. Previous tour locations have included France, Australia, Thailand, Germany, Spain and Portugal.

Work toward becoming a certified journeyman baker
Students who successfully complete the baking diploma can choose to write the journeyman baker exam. To become a certified journeyman baker, students must complete additional required employment hours.

Program overview
Your career
You will be prepared for a diverse range of career options in baking and pastry arts after graduation. You may find work locally or abroad as an:

- Pastry Chef
- Specialty Cake Decorator
- Bakery Manager
- Retail Baker
- Chocolatier
- Entrepreneur

Did you know graduates of the Baking and Pastry Arts program have a 96% employment rate?

Student success
Keep in mind hospitality industry hours can range from early morning to late in the evening and often include holidays.

The baking and pastry industry is a fast-paced, dynamic environment with a focus on quality and customer service. You should be able to handle stressful situations appropriately (e.g. dealing with a line-up of customers).

You will be required to groom and dress according to industry expectations while in your practical training.
You must be in good physical condition for this demanding trade where you will be on your feet for long hours, doing repetitive production work.

Most successful students spend approximately 20 hours per week doing homework and review, with additional study required to prepare for exams.

The material is presented at a fairly rapid rate. For the greatest level of success you must be present and take responsibility for your learning experience.

You must be able to read, write and comprehend the English language at a level exceeding basic conversational English. Students with higher grades in high school usually experience more success in SAIT programs.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Baking and Pastry Arts.

Accreditation
Students are encouraged to write all three periods of the Alberta Journeyman Baker exams after they have successfully completed the corresponding courses in the first and second year of the Baking and Pastry Arts diploma program.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
A minimum of 50% in the following courses or their equivalents:

- English Language Arts 10-1 or 10-2, AND,
- Math 10C or Math 10-3 or Pure Math 10 or Applied Math 10.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add culinary@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs
Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Books and supplies are approximately $1,200
Program outline

First Year

Semester 1
FSAN 212 – Bakery Safety and Sanitation 1.5 credits
BAKE 227 – Introduction to Cooking 3 credits
BAKE 219 – Yeast Fundamentals I 3 credits
BAKE 221 – Yeast Fundamentals II 3 credits
BAKE 256 – Pastry Fundamentals I 3 credits
BAKE 266 – Pastry Fundamentals II 3 credits

Semester 2
BAKE 251 – Artisan Bread and Laminated Dough 3 credits
BAKE 252 – Introductory Cakes and Decorating Techniques 3 credits
BAKE 276 – Art and Design 3 credits
COMM 209 – Business Communications 3 credits
MNGT 256 – Starting Your Own Business 3 credits

PROJ 353 – Capstone Project 1.5 credits

Total 63 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Alberta Apprenticeship and Industry Training*

To learn more, visit Transfer Options on sait.ca.

*Upon finding an employer who will indenture you as an apprentice
Program description

The Broadcast Systems Technology (BXST) program is a unique program and prepares you for employment installing and maintaining electronic and computer based equipment for the Broadcast industry. You will discover how to maintain and repair broadcast equipment as the electrical signal flows from the source through the audio and video mixing consoles to the station’s link to the transmitter and then to your home. You may also be involved in the design of facilities. You will also acquire professional and business skills and learn comprehensive technical applications that will help you achieve a great career in the broadcast industry.

Program overview

Your career

Opportunities exist in many areas, including television and radio broadcast stations, systems and networks, post-production facilities, educational television and audiovisual systems, equipment manufacturers (technical field support) equipment sales and communications providers. Career progression may lead to employment as assistant chief and chief station engineers. There is a major migration from analog systems to digital audio and video systems with the most prominent being High Definition Television (HDTV). It is common to have facilities that employ both analog and digital systems or just one or the other. The broadcast industry is now enhancing the delivery of content through streaming audio and video over the Internet. Graduates of the Broadcast Systems Technology program have a 100% employment rate.

Student success

Characteristics of a successful student in this program include:

- Enjoy keeping up-to-date on new technological developments, continue to take training and enjoy learning new skills.
- Are able to manage their time and work effectively while facing deadlines.
- Able to work independently with little supervision but can also perform as a vital member of a team of professionals.
- Pay attention to detail and take personal pride in their technical problem-solving skills.
- A working knowledge of the MS Office Suite would be an asset.

Credentials

After successfully completing this program, graduates will be awarded a SAIT diploma in Broadcast Systems Technology.

Accreditation

This program is accredited by the Society of Broadcast Engineers (SBE).

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:

- At least 50% in Math 30-1 or Pure Math 30, or 60% in Math 30-2, or 65% in Applied Math 30, AND,
- At least 50% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- A minimum 20 level science (excluding Science 24 and 26)
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.
## Costs

Email: business.advising@sait.ca

Program description
Get essential business skills in the Business Administration diploma. Discover the key areas of how businesses operate with practical coursework and gain a solid foundation to start your career. With your Bring Your Own Device (BYOD) laptop, you engage in small classes with active, collaborative coursework, learning from faculty with real business experience. You work in teams to deliver projects, present strategies and meet business goals.

You start with a common first year to build core business skills. In year two, you become proficient in your choice of major: Accounting, Financial Services, Human Resource Management, Management, Marketing or Supply Chain Management.

You begin the program with a small business simulation. Then you progress to your final capstone course: a global simulation of an international enterprise where you make all decisions from manufacturing and production to hiring your workforce, determining pricing and promotional strategy and more. You graduate ready to start a great business career with the option to ladder into a business degree.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Majors
Business Administration diploma students can choose between the following majors:

**Accounting:** Gain intermediate-level accounting skills and a practical understanding of how to analyze a company’s performance using financial information. You graduate ready to enter CPA's Advanced Certificate in Finance and Accounting program. You can apply into SAIT’s Bachelor of Business Administration degree in order to pursue the CPA designation.

**Financial Services:** Guild skills to succeed in the financial services industry. You can write the Investment Funds in Canada (IFIC) exam to sell mutual funds. You graduate ready for an entry-level position in financial planning, retail or corporate banking, investing, insurance, trusts or compliance.

**Human Resource Management:** Develop skills in human resource (HR) management through an understanding of the recruitment process, the role of employee training and development, employment law, and HR information management systems. Graduates can launch their HR career in areas such as recruiting, training, payroll and more.

**Management:** Develop general management skills in project management, international management, human resources and leadership. You graduate ready to launch a career in human resources, administration, operations, projects, and more in any industry. You can pursue a Certified in Management (CIM) designation.

**Marketing:** Explore marketing fundamentals and apply the latest trends in brand management, strategic marketing, research and planning. You graduate ready for a career in public relations, media, advertising, sales, promotions, events and more. You can pursue a Canadian Professional Sales Association (CPSA) designation.

**Supply Chain Management:** Learn how to build, maintain and support an efficient supply chain process. You graduate with an understanding of operations, procurement, logistics, performance analytics, and quality management. You can pursue a career in a variety of industries including transportation, manufacturing, oil and gas, and more.

Program overview
- Fast Facts
- Two-year diploma
- Fall and winter starts
- Laptop-based program
- Small class sizes: 40 students max.
- Choice of majors: Accounting, Financial Services, Human Resource Management, Management, Marketing, or Supply Chain Management
- Also available through Continuing and Distance Education (certain majors only)

Your career
When you graduate, you can pursue entry-level careers such as:

**Accounting:** Accountant, Accounting Clerk, Bookkeeper, Business Analyst, Payroll Clerk, Royalty Analyst, Tax Accountant

**Financial Services:** Fraud Investigator, Financial Planner, Financial Services Representative, Insurance Claims, Representative, Mortgage Assistant, Personal Banking Specialist

**Human Resource Management:** Benefits Advisor, HR Coordinator, Payroll Coordinator, Recruiter

**Management:** Account Manager, Conference Director, Management Trainee, Operations Manager, Project Coordinator, Purchasing Specialist, Store Manager

**Marketing:** Advertising Coordinator, Business Analyst, Business Development Advisor, Marketing and Communications Specialist, Marketing Coordinator, Online Advertising Sales Representative

**Supply Chain Management:** Buyer, Category Manager, Inventory Analyst, Logistics Coordinator, Supply Chain Analyst, Procurement Specialist
**Student success**

To succeed in this program, you should:

- Attend and actively participate in all classes
- Spend five to eight hours per week on each course outside of regular class time
- Be proficient in Windows and Microsoft Office
- Be prepared to work in teams
- Become familiar and adhere to SAIT's policies and procedures
- Have strong written and oral communication skills
- If you are engaged in campus life and take advantage of SAIT services and resources, you may be more likely to experience success in SAIT's programs.

**Credentials**

After successfully completing this program, graduates will receive a SAIT Business Administration diploma.

**Accreditation**

**Professional designations and certifications**

Graduates will have the opportunity to pursue a variety of professional designations, depending on their major. Additional exams, education, or work requirements may apply for earning a designation or certification. Completion of a degree is required in some cases.

**Accounting** major students can pursue the Chartered Professional Accountant (CPA) Professional Education Program, upon completion of a degree. See SAIT’s Bachelor of Business Administration or Bachelor of Applied Business Administration (Accounting).

**Financial Services** major students will have the opportunity to complete the Investment Funds in Canada (IFIC) exam. The Financial Planning Standards Council recognizes the program as meeting the Core Curriculum requirements for the Certified Financial Planner (CFP) certification.

**Human Resource Management** (no formal agreement in place): Graduates can pursue a number of designations including: Certified Human Resource Professional (CHRP), Registered Professional Recruiter (RPR), and Certified Training and Development Professional (CTDP). A degree is required in some cases.

**Management** (no formal agreement in place): Project Management Professional (PMP) certification, Canadian Institute of Management (CIM)

**Marketing:** Certified Sales Professional (CSP)

**Supply Chain Management** (no formal agreement in place): Supply Chain Management Professional (SCMP), Professional Logistician (P.Log), Certified Supply Chain Professional (CSCP)

**Progression**

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

**Admission requirements**

Completion of the following courses or equivalents:

- At least 50% in Math 30-1 or Math 30-2 or Pure Math 30, or at least 60% in Applied Math 30, AND,
- At least 50% in English Language Arts 30-1, or at least 60% in English Language Arts 30-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

**Competitive entry**

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most current information.

**Costs**

**Tuition (subject to change)**

- Please refer to the Tuition (subject to change) and Fee Table.
- International Students, please refer to the International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Books and supplies (subject to change)
- Books and Supplies: $1,500 per year
- Laptop: $600–$800 (full-time); Part-time or online: $475–$530 per course

Email: transportation.info@sait.ca

Program description
This two-year diploma program is Western Canada’s only management-oriented training program designed in cooperation with, and specifically for, the automotive industry. Learn from industry-connected instructors the communications, marketing, management and automotive skills you need to start your career in the business side of the industry. Valuable industry experience will be gained through a paid summer work practicum.

Our blended learning environment includes classroom instruction, collaborative coursework and e-Learning.

Program overview
Your career
Graduates may find employment leading to management in automotive dealership operations or management (parts, sales, service and finance), automotive manufacturer entry-level positions, finance companies, aftermarket companies, and insurance or credit companies.

Graduates of the Business Administration–Automotive Management program have a 100% employment rate.

Student success
Students with higher grades usually experience more success in SAIT’s programs.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 50% in Math 30-1 or Math 30-2 or Pure Math 30, or at least 60% in Applied Math 30, AND,
- At least 50% in English Language Arts 30-1 or at least 60% in English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $1,500 per year
- This is a Bring Your Own Device (BYOD), a laptop will cost approximately $600-$800
### Program outline

#### First Year

**Semester 1**
- BMAT 230 – Business Mathematics 3 credits
- COMP 220 – Computer Fundamentals 3 credits
- ECON 250 – Microeconomics 3 credits
- INRY 206 – Introduction to Automotive Technology 1.5 credits
- MKTG 206 – Concepts of the Automotive Industry 1.5 credits
- MKTG 260 – Marketing Essentials 3 credits

**Semester 2**
- ACCT 215 – Introductory Financial Accounting I 3 credits
- COMM 256 – Professional Communications and Presentation Skills 3 credits
- MKTG 306 – Brand Management 3 credits
- MNGT 250 – Organizational Behaviour 3 credits
- STAT 270 – Quantitative Methods 3 credits

**Semester 3**
- PRAC 284 – Automotive Industry Work Term 3 credits

#### Second Year

**Semester 4**
- BFIN 301 – Finance for Managers 3 credits
- BLAW 300 – Business Law 3 credits
- FNCE 207 – Leasing, Finance and Insurance 1.5 credits
- MKTG 216 – Canadian Auto Aftermarket 1.5 credits
- MKTG 336 – Marketing Action 3 credits
- MKTG 375 – Integrated Marketing Communications 3 credits

**Semester 5**
- ECON 305 – Macroeconomics 3 credits
- FNCE 205 – Introduction to Fixed Operations 1.5 credits
- HRMT 320 – Human Resource Management 3 credits
- PROJ 365 – Automotive Management Capstone 3 credits
- PRTS 302 – DMS – Parts and Service 1.5 credits
- SELL 315 – Automotive Business and Sales Management 3 credits

**Total** 63 credits

### Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Georgian College
- Griffith University
- Mount Royal University
- NAIT
- Northwood University
- Royal Roads University
- University of Lethbridge

To learn more, visit Transfer Options on sait.ca
Business Intelligence – Data Analysis and Reporting

- Twenty-four week certificate
- Spring and winter start
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.210.4522
Email: fast-track@sait.ca

Program description
Access to corporate information to make business decisions has made database and reporting tools critical for business success. The Business Intelligence (BSN) program will use the Microsoft SQL Server and B.I. toolset to give you the skills you need to develop, administer and analyze corporate data. You will learn industry-standard data management best practices and techniques. Visit www.microsoft.com/bi for more information on this exciting specialization.

You will master the technical aspects of data gathering using SQL Server within a Windows platform. You will also learn to use and manage multiple databases, then apply these skills to develop corporate reports using specific reporting tools. With additional relevant work experience and exam preparation study, you will be prepared to successfully challenge and complete the relevant Microsoft designation.

Program overview
Your career
Graduates may find employment as a business intelligence analyst, business intelligence consultant or data warehouse analyst.

Student success
The ideal candidate for the Business Intelligence program has:
- Previous post-secondary education in business or technology.
- A technical aptitude and a desire to combine their business and technology skills to assist business through technology solutions.
- Experience with relational databases, computer programming or operating systems (e.g. Linux/Unix, Windows).
- This is an intensive program requiring a commitment of both time and energy, students who experience success are those who make their education a priority throughout the program.
- Students with higher grades usually experience more success in SAIT programs.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate in Business Intelligence: Data Analysis and Reporting.

Accreditation
The program, offered in conjunction with the Microsoft IT Academy initiative, is delivered using Microsoft Official Curriculum for many courses. With additional relevant work experience and additional exam preparation study, you will be prepared to successfully challenge and complete appropriate Microsoft Certifications.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent, OR,
- A minimum of two years post-secondary education from a recognized university, institute or college.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- Due to the tight integration of the courses in the Business Intelligence-Data Analysis and Reporting (BSN) program, credit for Prior Learning is not available.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add fast-track@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.
Ideal applicant

The ideal candidate for the Business Intelligence program is a motivated, mature learner with post-secondary education in either Business or IT. You want to specialize or to upgrade existing skills. You understand the benefits to business of properly analyzing and reporting information. You are analytical, technically proficient and detail-oriented. Your approach to problem-solving is both creative and logical, depending on the circumstances. You work well as part of a team and enjoy interacting with others.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies

- Tuition includes all required textbooks. Students should be prepared to subscribe to Office 365 Business Premium at your own expense.

Butchery and Charcuterie Management

- One-year certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Hospitality and Tourism
Phone: 403.284.8612
Email: hospitality.info@sait.ca

Program description
A one-of-a-kind educational experience in Canada, the Butchery and Charcuterie Management certificate will provide you with comprehensive theoretical and practical knowledge in meat science, processing and management — all required for entry into this rapidly growing trade.

At SAIT, we continue to set the standard for excellence in culinary education. The Butchery and Charcuterie Management program is another example of training based on what employers are looking for and preparing our students for success in the global hospitality industry.

During this full-time, one-year certificate program, you will work in state-of-the-art facilities as you gain practical skills in value-added butchery, carcass identification and breaking, sanitation and much more. Specific to charcuterie, you will learn extensive curing and product creation methods for salamis, sausages, prosciutto, cured and smoked products along with a host of other proteins. We focus on sustainability and help you understand where the product came from, how to process it and how to get the most value from it.

By preparing proteins for our dynamic Market Place at SAIT and the new student-run butcher shop, you will also learn how to properly cut and present proteins, as well as gain skills in customer service and business management.

Program overview

Your career
You will be prepared for a diverse range of career options in butchery and charcuterie after graduation. You may find work locally or abroad as a(n):
- Butcher
- Culinarian
- In-store Meat Cutter
- Consultant
- Owner/Operator
- Merchandiser

Student success
- This program is very hands-on with students spending approximately 25 hours per week in our labs.
- The retail meat industry is a fast-paced, dynamic environment with a focus on customer service and quality of food.
- You must be in good physical condition for this physically demanding trade.
- You will be required to groom and dress according to industry expectations while in your practical training.
- The material is presented at a fairly rapid rate. For the greatest level of success you must be present and take responsibility for your learning experience.
- You must be able to read, write and comprehend the English language at a level exceeding basic conversational English.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT certificate in Butchery and Charcuterie Management. There are no formal accreditation arrangements at this time. Please contact the School of Hospitality and Tourism for more information.
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

A minimum of 35 Alberta high school credits with at least 50% in the following courses or their equivalents:

- Math 10C or Math 10-3 or Pure Math 10 or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2 or Humanities 10.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add culinary@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Books, supplies and uniform are approximately $700.

Chemical Engineering Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Your formula for success starts here. In the Chemical Engineering Technology program you'll study engineering design calculations, chemical process unit operations, process simulation and control, industry safety, and environmental engineering. Upon graduation you may find yourself working as a chemical technologist, an environmental technician, a process engineering technologist, or a process designer.

Program overview

Your career
Graduates find work as engineering design assistants, production operators, technologists, technical sales, environmental field technicians and production technologists. Career opportunities exist in engineering design, computer-based process simulation, technical sales, field operations and environmental work.

Student success
An interest in science and mathematics would be an asset. Specific interest in physics and chemistry are desirable.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Chemical Engineering Technology.

Accreditation
This program has national accreditation under the Canadian Technology Accreditation Board. Graduates are eligible for registration in the Alberta Society of Engineering Technologists. The program is also accredited by the Canadian Council of Technicians and Technologists. Periodical registration agreements exist with U.S. and British societies.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2, AND,
- At least 60% in Chemistry 30, AND,
- At least 60% in Physics 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add cet.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and Supplies cost approximately $1,800 in the first year and $900 in the second year.

Chemical Laboratory Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Want a career that’s sure to get a positive reaction? In the Chemical Laboratory Technology program you’ll learn the fundamentals in chemistry, get hands-on experience performing experiments and analyzing samples in laboratories, and you can participate in a 12-month paid work placement program. As a Chemical Laboratory Technologist you’ll work in a wide range of industrial and research settings.

Program overview
Your career
Graduates find work as chemical technologists, laboratory technologists, research technologists, technical sales and service specialists and technical assistants in the chemical industry. Opportunities exist in petroleum and natural gas processing, petrochemicals, metallurgical refining, food and beverage processing, agriculture, environmental consulting and government departments of agriculture, forestry and education.

Student success
- Students with higher grades and recent upgrading in Math 30 (Pure Math) and Chemistry 30 will experience more success in this program.
- Additionally, students who experience success in this program have good work ethics and communication skills.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Chemical Laboratory Technology.

Accreditation
The program is nationally accredited by the Canadian Technology Accreditation Board and by the Canadian Council of Technicians and Technologists. Graduates can also register with the Alberta Society of Engineering Technologists and Chemical Institute of Canada.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2, AND,
- At least 60% in Chemistry 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Civil Engineering Technology

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.cvt@sait.ca

Program description
The Civil Engineering Technology program uses math, science and technical communication skills to design and manage the construction of buildings, roads, bridges and other infrastructure projects. The program will prepare you to become a civil engineering design and construction professional. You will receive courses in: math, construction management, structural design, geotechnical engineering, material science, urban services, water resources, transportation infrastructure and technical communications.

In the labs, you will build a house, explore the strength of building materials, mix and test concrete and asphalt samples, and discover the importance of soil mechanics to building projects. In class, the program combines theoretical training, applied skills and laptop delivery modules.

This diploma program is two years in length, consisting of four 15-week semesters. The first two semesters are common to all students in the program. In the fourth semester, you will have the ability to specialize in Construction Management or Municipal Engineering. If an option is oversubscribed, selection is based on the first-year cumulative grade point average.

Note: This program utilizes an e-Learning (SAIT issued laptop computer) instructional delivery method.

Program overview
Your career
Graduates find diverse work as civil engineering technologists. The following job titles may be received upon completion of program: civil engineering design technologist, traffic technologist, building inspector, materials testing technologist, estimator and construction project coordinator.

Students with higher grades usually experience more success in SAIT’s programs.

Credentials
After successfully completing this program, graduates will be awarded a SAIT diploma in Civil Engineering Technology.

Accreditation
This program is nationally accredited, at the technologist level, by the Canadian Council of Technicians and Technologists. Graduates are eligible for membership in The Association of Science and Engineering Technology Professionals in Alberta (ASET). The Canadian Institute of Quantity Surveyors recognizes the program as training for a qualified estimator and quantity surveyor.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, AND,
- At least 60% in English Language Arts 30-1 or at least 75% in English Language Arts 30-2, AND,
- At least 60% in Science 30 or Physics 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.
Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add construction.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $1,500 in the first year and $1,200 in the second year.
- A $400 security deposit to use a SAIT issued laptop.

Program outline

First Year

Semester 1

CIVL 222 – Concrete Technology 3 credits
CIVL 252 – Construction Practices Theory 3 credits
COMP 261 – Microsoft Office: An Introduction 1.5 credits
STCS 200 – Civil Engineering Statics 3 credits
MATH 238 – Math for Engineering and Tech I 3 credits

Semester 2

CIVL 226 – Soil Mechanics 3 credits
CIVL 201 – Introduction to Civil Drafting 1.5 credits
COMM 238 – Technical Communications I 3 credits
SMTL 246 – Strength of Materials 3 credits
STAT 245 – Statistics for Engineering and Technology I 3 credits

Courses offered in either Semester 1 or 2

ESTM 262 – Estimating I and Construction Laboratory 3 credits
SURV 203 – Civil Surveying 1.5 credits

Second Year Majors

Construction Management

Semester 3

“A” Class
CIVL 312 – Contracts and Regulations 1.5 credits
CIVL 315 – Construction Management 3 credits
CIVL 326 – Geotechnical Design 3 credits
CIVL 351 – Structural Steel Design 3 credits
ESTM 360 – Estimating II 3 credits
SURV 325 – Surveys and Geographic Information Systems 1.5 credits

“B” Class
CIVL 340 – Building Science and Systems 3 credits
CIVL 351 – Structural Steel Design 3 credits
CIVL 355 – Reinforced Concrete Design 3 credits
CIVL 356 – Construction Economics 3 credits
CIVL 358 – Structural Wood Design 1.5 credits
ENVS 302 – Environmental Engineering 1.5 credits

Semester 4

“A” Class
CIVL 340 – Building Science and Systems 3 credits
CIVL 355 – Reinforced Concrete Design 3 credits
CIVL 356 – Construction Economics 3 credits
CIVL 358 – Structural Wood Design 1.5 credits

### Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Camosun College
- Lakehead University
- Montana Tech
- NAIT
- SAIT
- Thompson Rivers University
- University of British Colombia

To learn more, visit Transfer Options on sait.ca.
Culinary Entrepreneurship

- One-year post-diploma certificate
- Fall start date
- Full-time classroom

Contact us
School of Hospitality and Tourism
Phone: 403.284.8612
Email: hospitality.info@sait.ca

Program description

Whether you’re an entrepreneur at heart or you want to increase your business acumen, the Culinary Entrepreneurship post-diploma will provide you with the skills and knowledge required to turn an idea into reality. An intensive year-long certificate program, you’ll learn first-hand all about the world of entrepreneurialism as you manage an actual, real-life hospitality enterprise.

The experiential learning from a live classroom environment will provide you with the skillset required to operate a business, provide creative solutions and drive product development skillsets that are increasingly sought after in a globalized, competitive environment.

While managing a business, your learning will be complimented with online courses and professional mentorship from industry experts. Your studies will cover everything from business operations, facilities, and business regulations to finance, human resource management, sales and marketing.

Upon completion of this post-diploma certificate, you will be able to make informed decisions about your tolerance to risk, your ability to manage and your ability to lead. Further, you will be able to determine if you are suited to entrepreneurship, whether or not you are ready to become an entrepreneur, or if you should use your entrepreneurial mindset to enhance your position within an organization.

World-Class experiential learning environment

An integral part of your learning experience will be SAIT’s new state-of-the-art facility designed to foster culinary excellence, creative exchange and innovation. An incubator for entrepreneurs, this space will provide you with a flexible platform to develop and market your products, engage with paying customers in real time and fully immerse yourself in the day-to-day operations of entrepreneurialism.

Student awards

Three $5,000 entrance awards are available to qualifying students.

Program overview

Your career

Graduates of the program can look forward to career opportunities in management within the hospitality industry or as independent business owners.

Student success

- Most successful students spend approximately 20 hours per week doing homework and review, with additional study required to prepare for exams.
- Keep in mind hospitality industry hours can range from early morning to late in the evening and often include holidays and weekends.
- The material is presented at a fairly rapid rate, so for the greatest level of success you must be present and take responsibility for your learning experience. You must be able to read, write and comprehend the English language at a level exceeding basic conversational English.
- The intensive nature of the program requires students to have well developed time management skills.

Credentials

Graduates of the program will receive a post-diploma certificate in Culinary Entrepreneurship.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following diplomas or work experience:

- Completion of a Professional Cooking Diploma or Baking and Pastry Arts Diploma or equivalent.
- Completion of Journeyman Cook or Baker certification.
- Three to five years of work experience in the Hospitality or Food industry with approval from the program Academic Chair.
Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add culinary@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies cost approximately $500.
- Membership to the SAIT wellness centre - including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

Program outline

Semester 1
- APST 400 – Technology for Business 3 credits
- FDBS 400 – Food Service Retail Management 3 credits
- FNCE 400 – Applied Finance I 3 credits
- LDSH 400 – Applied Entrepreneurship I 3 credits
- LDSH 401 – Applied Leadership I 3 credits
- MGMT 404 – Managing Business Operations I 3 credits
- MKTG 403 – Applied Sales and Marketing I 3 credits
- PHYF 403 – Facilities 3 credits

Total 45 credits

Semester 2
- FNCE 401 – Applied Finance II 3 credits
- HRMT 401 – Applied Human Resources 3 credits
- LDSH 402 – Applied Entrepreneurship II 3 credits
- LDSH 403 – Applied Leadership II 3 credits
- MGMT 406 – Managing Business Operations II 3 credits
- MKTG 404 – Applied Sales and Marketing II 3 credits
- OPMT 400 – Supports and Regulations 3 credits

Total 45 credits

Transfer options
Once completed, this SAIT credential may be eligible for transfer credit at another post-secondary institution.

Have questions? Write to us at transfer.options@sait.ca.
Cyber Security for Control Systems

- Part-time post-diploma certificate
- Classroom delivery
- Both part-time and full-time delivery
- Ongoing start dates

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
The Cyber Security for Control Systems post-diploma certificate program addresses the business risks specific to securing control systems in sectors such as drilling and well sites, power plants, power grid, water plants, manufacturing, production lines, telecommunications, and hospitals. Many of these systems were previously analog-based, but are currently networked and digital, placing them at greater risk for cyber-attacks. Many of the concepts will be similar to those used to secure information in technology systems, but the training will focus on the specific constraints of securing control systems in the industrial environment. It is applicable to employees of organizations relying on technology, whether their cybersecurity focus is on information technology (IT), industrial control systems (ICS), cyber-physical systems (CPS), or connected devices more generally, including the Internet of Things (IoT). Thus, while this program is focused on graduates who can improve cybersecurity risk management in control system environments, it can be used by graduates in many organizations — regardless of size, degree of cybersecurity risk, or cybersecurity sophistication — to apply the principles and best practices of risk management to improve safety, reliability, security and resilience of these systems.

Program overview

Your career
Graduates may find employment as a Cyber Security Analyst/ Specialist, ICS Security Analyst/Specialist, Industrial Technologist, ICS Infrastructure Analyst, SCADA Security Technologist or an Industrial Network/Systems/Security Analyst.

Student success
This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.

We find there is a direct correlation between the time and energy invested to the amount of success achieved. Learners with strong time-management and discipline have a greater propensity to succeed.

Remaining focused and diligent with coursework is important for success in completing the program.

Credentials and accreditations
Upon successful completion of this program, graduates will receive a SAIT Cyber Security for Control Systems Post-Diploma Certificate.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- Applicants must meet one of the following (or equivalent), as well as the English Proficiency requirement*:
  - Completion of a two-year diploma or undergraduate degree in an information technology, instrumentation or related technical discipline.
  - Three to five years of experience in information technology, instrumentation or a related technical discipline would also be accepted with approval from the program Academic Chair. A combination of education and experience will be considered.

* All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Ideal candidate
The ideal candidate for the Cyber Security for Control Systems post-diploma certificate has a previous post-secondary diploma or degree. You have education and/or work experience in industrial systems (SCADA, PLCs, Instrumentation, etc.) and/or computer networking or related fields.

You understand the importance of cybersecurity and are intrigued by the ways that critical infrastructure and operations technologies can be compromised and want to protect these assets. You have a strong ethical standard and a curious mind.

Get started as an undeclared student
The courses in the Cyber Security for Control Systems part-time program allow for registration into individual courses as an undeclared student without going through the SAIT application process first. It is important that you read the ideal candidate statement above to be sure that you are a good fit for these courses. Also, you must submit a resume to ict.info@sait.ca to validate the optional courses you should take as part of the program.

You may apply to complete the credential at any time through ApplyAlberta at which time you will have to submit transcripts for entrance into the credential. You must complete all prerequisite courses, or apply for Prior Learning assessment if you wish to get credit for a required course based on previous education or experience.
Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Program outline

Elective Courses

CPSY 401 – Operating Systems and Shell Programming 3 credits
CPRG 407 – Programming Industrial Control Systems 3 credits

Note: Many of the courses require an elective course as a prerequisite. It is recommended that the elective course is completed prior to enrolling in the other courses.

Core Courses

ITSC 401 – Strategic Fundamentals of Cyber Warfare 1.5 credits
CMPN 403 – Networking Protocols and Security 3 credits
CMPC 401 – Security Standards and Compliance 3 credits
CMPC 402 – Industrial Control System Security 3 credits
CMPC 403 – Industrial Control System Security Risk Assessment 3 credits
ITSC 402 – Vulnerability, Threats and Attacks 3 credits
ITSC 403 – Defense and Incident Response 3 credits
MMGT 400 – Business Operations and Change Management for ICS Security 1.5 credits
PROJ 405 – ICS Cyber Security Capstone Project 3 credits

Total 27 credits
Database Administrator

- Full-time
- 40-week certificate
- Fall start date

Contact us
School of Information and Communications Technologies
Phone: 403.210.4522
Email: fast-track@sait.ca

Program description
Industry relies on database technology to store, retrieve and present information in a customized and user-friendly format. The Database Administrator (DBA) program develops your knowledge of relational database design, system performance, backup and recovery, and database security. The program builds on your existing relevant skills of reliability, logical thinking and good attention to detail.

This intensive 40-week program, designed for learners with previous IT experience, prepares you for challenging and exciting opportunities in database administration.

You will master the technical aspects of database administration, using Oracle tools within Windows and Linux platforms. You will also learn to use and manage existing relational databases, then apply these skills in the design and implementation of new databases in accordance with user requirements.

This program is offered in conjunction with the Oracle Workforce Development Program. With additional relevant work experience and additional exam preparation study, you will be prepared to successfully challenge and complete the Oracle Certified Professional (OCP) Database Administration designation.

Program overview

Your career
Graduates may find employment as an Oracle database administrator, database developer, data analyst or database architect.

Graduates of the Database Administrator program have a 93% employment rate.

Student success
Students possessing prior experience with relational databases (e.g. Microsoft Access) and operating systems (e.g. Linux/Unix, Windows) tend to be more successful in the Database Administrator program.

Students with higher grades usually experience more success in SAIT programs.

This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate as a Database Administrator.

Accreditation
The program, offered in conjunction with the Oracle Workforce Development Program, includes core Oracle Education courses needed to challenge the Oracle Certified Professional Database Administrator designation. With additional relevant work experience and additional exam preparation study, you will be prepared to successfully challenge and complete the Oracle Certified Professional (OCP) Database Administration designation.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent, OR,
- A minimum of two years post-secondary education from a recognized university, institute or college.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- Due to the tight integration of the courses in the Database Administrator (DBA) program, credit for Prior Learning is not available.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are included in the tuition.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.
Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add fast-track@sait.ca and the sait.ca domain to your safe sender's list or you risk missing critical email messages.

Ideal applicant

The ideal candidate for the Database Administrator (DBA) program is a motivated, mature learner with an IT background who wants to specialize or to upgrade existing skills. You are analytical, technically proficient and detail-oriented. Your approach to problem-solving is both creative and logical, depending on the circumstances. You work well as part of a team and enjoy interacting with others. You possess a good working knowledge of operating systems such as Windows or UNIX/Linux. You also have some experience working with relational databases, such as Microsoft Access.

Data Analytics

- Post-diploma certificate
- Part-time
- Fall start date

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: Ict.info@sait.ca

Program description
Graduates of the Data Analytics post-diploma certificate will develop the knowledge, skills and aptitude to apply fundamental principles of data analytics. Learners will align data with business decision-making processes, creating accurate and meaningful storytelling with actionable insights.

Courses in the program address the methods used to organize and analyze structured and unstructured (big data) sets to facilitate informed decision making.

The program will focus on predictive analytics, which uses statistical models and forecasting to understand possible future scenarios, as well as prescriptive analytics, which uses optimization and simulation to produce recommendations on possible outcomes.

Program overview
Your career
Graduates of this program will be able to:
- Manipulate data using data science, modelling, ethics and ETL in a business context that is relevant to decision-making.
- Contextualize data in a format that maps to business processes, objectives and aligns data analysis to strategic outcomes.
- Build presentations that communicate data analysis effectively and accurately for a business audience using visualizations (dashboards) and storytelling.
- Perform statistical and algorithmic analyses on cloud-based and on-premise data sets using a variety of tools and techniques.
- Explain the use of machine learning and artificial intelligence as it relates to data analysis.
- Use industry recognized programs and tools to extract meaning from data.
- Demonstrate core strategic, tactical and operational business processes which are driven by data for evidence-based decision making.
- Apply fundamental data analytics principles, aligning data and business processes to create accurate, actionable insights.
- Possible job opportunities for graduates include business analyst, data analytics analyst, data analytics specialist, data and reporting analyst, data steward and business intelligence analyst.

Student success
This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program. We find there is a direct correlation between the time and energy invested to the amount of success achieved. Learners with strong time-management and discipline have a greater propensity to succeed. Remaining focused and diligent with coursework is important for success in completing the program.

Credentials and accreditations
Upon successful completion of this program, graduates will receive a SAIT Data Analytics post-diploma certificate.

Admission requirements
- Applicants must meet one of the following (or equivalent), as well as the English Proficiency requirement*:
  - Post-secondary degree or diploma from a recognized university, institute or college.
  - A combination of education and experience will be considered, upon approval from the Academic Chair.
- A combination of education and experience will be considered, upon approval from the Academic Chair.
* All applicants must demonstrate English language proficiency prior to admission, including students educated in Canada.

Costs
Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $3,000.
- A $400 security deposit to use a SAIT issued laptop.
Ideal candidate
The ideal candidate for the Data Analytics post-diploma certificate has a previous post-secondary diploma or degree. Education in business, economics, finance, etc. would be ideal.
You have a strong math background and foundational education in statistics. You have worked with data and are intrigued by the power of data and how it can be analyzed to support good business decision-making.
Previous experience working with databases is an asset.

Get started as an undeclared student
The courses in the Data Analytics program allow for registration into individual courses without going through the SAIT application process. It is important you read the ideal candidate statement above to be sure you are a good fit for these courses.
You may apply to complete the credential at any time through Apply Alberta at which time you will have to submit transcripts for entrance into the credential. You must apply for prior learning assessment if you wish to get credit for a required course based on previous education or experience.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Dental Assisting

- Ten-month certificate
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
The Dental Assisting program focuses on patient-centered care in support of improving oral health as a key to personal health and well-being. As vital members of the dental health team, dental assistants work in private dental clinics, specialists’ offices and community health centres. Skills and content covered include clinic operations, chair-side procedures, intra-oral procedures, patient education and interpersonal skills.

The program is divided into two 15-week semesters and one eight-week semester. Students are required to attend classes on SAIT campus for this program. Classroom learning is integrated into a dental clinic setting. The clinical components include patient education, radiographs, selective rubber cup polishing and fluoride application.

This program includes one unpaid four-week practicum in the third semester at a dental office which may be outside of Calgary. Students in this program require access to a personal computer and the Internet to facilitate completion of required online courses.

Program overview
Your career
Graduates work under a supervising professional in private clinics, specialists’ offices and community health centres as a registered dental assistant.

Graduates of the Dental Assisting program have a 98% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

Basic computer skills are advantageous to dental assistants

Students who experience success in this program have effective communication skills in English. Health care practitioners are detail oriented in the care they provide and enjoy working in a team environment.

Credentials
After successfully completing this program, graduates will receive a SAIT Dental Assisting certificate. Graduates must write the National Dental Assisting Examining Board examination to be registered in Alberta. Graduates are licensed by the College of Alberta Dental Assistants as Registered Dental Assistants once they have passed the National Dental Assisting Examining Board examination.

Accreditation
The Dental Assisting program delivered by SAIT is accredited by the Commission on Dental Accreditation of Canada.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- Completion of the following courses or equivalents with an overall average of at least 60%:
  - Math 30-1 or Math 30-2 or Pure Math 30 or Applied Math 30, AND,
  - English Language Arts 30-1 or English Language Arts 30-2, AND,
  - Biology 30, AND,
  - Chemistry 30.
- All applicants to SAIT must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Practicum requirements
The School of Health and Public Safety has many practica partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location.
Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as relocation and travel costs. In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:

- **Current Heart and Stroke Foundation Basic Life Support Provider (Level C) CPR** must be valid from October until the end of June for the academic year of study. SAIT offers the above CPR course on a continuous basis (CPRS 001 BLS Provider [Level C] CPR). Please note that only Heart and Stroke Foundation of Canada CPR certification will be accepted.

- **Updated Immunization Records**: Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.

- **Security Clearance**: According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).

- **Health and Wellness Status**: Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability.

More details on the practica requirements per program are outlined on a pre-orientation website for successful candidates.

### Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add hps.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

### Additional requirements

Student information and dental health examination required by the first day of class.

### Costs

**Tuition (subject to change)**

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Students are required to have access to a personal computer, printer and Internet. Computers must meet the specifications listed in Fees and Expenses.
- Personal Protective Equipment (Rx safety glasses, face shields) may range from $100-$750 depending on individual requirements.
- Books, supplies and uniform are approximately $1,500.
- Students are responsible for any additional expenses related to their practicum including relocation costs.
- There is a fee associated with obtaining a police information check (including Vulnerable Sector Check), payable to the Police or the Royal Canadian Mounted Police (RCMP).
- National Dental Assisting Examining Board exam fee is approximately $450.
- College of Alberta Dental Assistants annual dues are approximately $300.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Diagnostic Medical Sonography

- 2-Year diploma
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
As a two year program offered full-time, Diagnostic Medical Sonography, also known as ultrasound, is a technology involving the application of high-frequency sound waves toward patients to help physicians in medical diagnoses. Diagnostic medical sonographers work as members of patient care teams, assessing patients and providing information to physicians for diagnoses and monitoring patients’ health status. This is a specialized vocation requiring a high-degree of technical skills and exceptional interpersonal skills. This program teaches key aspects of ultrasound technology including obstetrics and gynecology, the cardiac and vascular systems and abdomen and superficial structures. Studies also include patient care, physics, anatomy and physiology, equipment instrumentation, quality control and the performance of diagnostic scanning procedures.

The Diagnostic Medical Sonography program is 26 months in length and consists of theory and lab courses onsite at SAIT along with practicum rotations off campus. Practicum locations are constantly changing. All students can expect to be placed outside of Calgary (including out of province) more than once during the program. Students are expected to return to SAIT campus for classes in the second and third year of the program. These on-campus classes will provide an opportunity to integrate theory with the hands-on skills learned during practica.

Certain courses are available by distance education or continuing education — ANPH 209, INFC 215 and MEDT 211. The courses must be completed within the time frame shown in the Program Outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered a part-time student, which may impact their financial loan status.

To support their learning, students will be required to participate online throughout their practicum and will require access to a computer with Internet access and a printer. Students will be evaluated on lab, competency and performance in the program using a competency tracking system called Comp Tracker. Students are required to have an iPad with Bluetooth keyboard to support the Comp Tracker system while in the program.

Program overview
Your career
Graduates find work as diagnostic medical sonographers in hospitals, doctors’ offices and community clinics. Diagnostic Medical Sonographers work in environments where they may spend a considerable amount of time standing or sitting and performing tasks that may be repetitive. They must observe safety precautions and ergonomics to reduce the risk of exposures and injury. Graduates of the Diagnostic Medical Sonography program have a 100% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

Students are expected to spend approximately 20 hours per week outside of class studying.

Students who experience success in this program have exceptional communication skills in English.

Health care practitioners are detail oriented in the care they provide, utilize critical thinking in practice, are eager, persevere and enjoy working in a team environment.

In order to be successful in this program, applicants must have basic computer literacy. An acceptable computer skill level would include the ability to use word processing and communication software. Educational interaction in this program depends on these basic computer skills. It is the student’s responsibility to ensure adequacy of these skills prior to program admission.

Students who experience success in this program have the following characteristics:
- Intrinsic motivation,
- Ability to handle unpleasant situations,
- Ability to lift heavy patients,
- Ability to stand for long periods of time,
- Upper body strength while scanning patients in difficult positions,
- Good physical health including upper body and shoulder strength,
- Good wrist and hand dexterity and stamina,
- Full body muscle stamina, and
- Strong vision and hearing.

Individuals with previous chronic or repetitive strain injuries have experienced re-injury or aggravation of these conditions in this program and/or as a sonographer.

Employers for Sonography professionals indicate that working hours could be days, evenings, weekends and potentially 24/7 shift expectations.
Credentials

After successfully completing this program, graduates will receive a SAIT Diagnostic Medical Sonography diploma.

Graduates are eligible to write Sonography Canada and American Registry for Diagnostic Medical Sonography exams. Graduates will be eligible to write registry exams in Core (Physics), Abdomen and Superficial Structures, Obstetrics and Gynecology, and Adult Echocardiography. In addition, students will have received the foundational theory needed to enable them to work towards their Vascular Sonography credential after graduation.

Accreditation

The Diagnostic Medical Sonography program delivered by SAIT is accredited by the Canadian Medical Association. The program also works closely with our Diagnostic Imaging Advisory Committee to ensure that our curriculum continues to meet or exceed provincial and national accreditation standards.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

At least 75% in each of the following courses or equivalents:

- Math 30-1, Math 30-2, or Pure Math 30, AND,
- English Language Arts 30-1, AND,
- Biology 30, AND,
- Physics 30
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We receive a significant number of applications for this program so the selection process can take some time. Every effort will be made to maintain the timeline above. We appreciate your patience. Unfortunately, due to the large volume of applicants, we cannot provide any assistance or follow-up as to why the candidate was not competitive.

Costs

Tuition (subject to change)

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Sonography Canada certification exam fees are approximately $1,300.
- Sonography Canada association dues are $175 per year with the option to purchase professional liability insurance.
- Students are responsible for any additional expenses related to their practica including relocation costs to practicum sites outside Calgary.
- There is a fee associated with obtaining a criminal record check (including vulnerable sector check) and is payable to the Police or the Royal Canadian Mounted Police.
- Books, supplies and uniform are approximately $2,700 for the first year, $600 for the second year and $500 for the third year.
- Students require a tablet (Apple or Android) to support the CompTracker system. The tablet only needs wi-fi ability and the size of the tablet is at the discretion of the student. Keyboards are advisable but not mandatory. Smartphones are not acceptable devices for CompTracker.
- There is a required user license fee billed on a per semester basis. Each program will have a different student fee depending on how the system is used within the program. More information will be shared at orientation.
- Students are required to have access to a personal computer, printer and internet for the duration of the program.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.
# Program outline

## First Year

### Semester 1
- ANPH 205 – Sectional Anatomy: 3 credits
- ANPH 209 – Anatomy and Physiology: 3 credits
- DMST 202 – Basic Scanning: 1.5 credits
- DMST 217 – Professional Practice: 3 credits
- MDT 211 – Medical Terminology 1: 1.5 credits
- PHYS 216 – Physics 1: 3 credits

### Semester 2
- DMST 244 – Obstetrics and Gynecology Sonography 1: 3 credits
- DMST 253 – Adult Echocardiography 1: 3 credits
- DMST 254 – Abdomen and Superficial Structures 1: 3 credits
- DMST 265 – Vascular Sonography 1: 3 credits
- INFC 215 – Infection Prevention and Control: 1.5 credits
- PHYS 254 – Physics 2: 1.5 credits

### Semester 3
- DMST 276 – Professional Practice 2: 1.5 credits
- DMST 305 – Diagnostic Medical Sonography Simulation 1: 1.5 credits
- PRCT 265 – Clinical Practicum 1: 3 credits

## Second Year

### Semester 4
- DMST 303 – Obstetrics and Gynecology Sonography 2: 3 credits
- DMST 313 – Abdomen and Superficial Structures 2: 3 credits
- DMST 325 – Adult Echocardiography 2: 3 credits
- DMST 335 – Vascular Sonography 2: 3 credits
- PHYS 314 – Physics 3: 3 credits

### Semester 5
- PRCT 310 – Clinical Practicum 2: 7.5 credits

### Semester 6
- DMST 352 – Obstetrics and Gynecology Sonography 3: 1.5 credits
- DMST 359 – Abdomen and Superficial Structures 3: 1.5 credits
- PRCT 362 – Clinical Practicum 3: 6 credits
- DMST 367 – Adult Echocardiography 3: 1.5 credits
- DMST 381 – Vascular Sonography 3: 1.5 credits

## Third Year

### Semester 7
- DMST 375 – Clinical Integration: 3 credits
- PRCT 370 – Clinical Practicum 4: 6 credits

### Total: 79.5 credits

# Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Memorial University of Newfoundland (The Marine Institute)
- Thompson Rivers University
- University of New Brunswick, Saint John

To learn more, visit Transfer Options on sait.ca.
Diesel Equipment Technician

- One-year certificate
- Fall start date
- Full-time classroom

Contact us
School of Transportation
Phone: 403.284.8471
Email: transportation.info@sait.ca

Program description
This 30-week program has been designed by industry representatives to meet the specific needs of today’s large and diverse heavy equipment industry. After completing the program, you will be a highly trained entry-level tradesperson ready to enter the work force as a Heavy Equipment Technician apprentice. As a graduate of the program you may be credited with up to 600 hours worth of work experience towards your apprenticeship, as well as the opportunity to write your first and second period apprenticeship exams.

Program overview
Your career
This program will prepare you for a mechanical repair career in light and heavy construction, oil field support, forestry, mining, marine, on-highway transportation trucks, public utilities, gas compression, agriculture or any other industry that relies on heavy equipment or diesel engines. Career progression may include shop foreman, service manager, manufacturer district service representative, technical training instructor, factory quality control inspector, regional service manager or fleet maintenance manager.

Graduates of the Diesel Equipment Technician program have a high employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT’s programs.

Students who have taken automotive mechanics in high school experience greater success in the Diesel Equipment Technician program.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate as a Diesel Equipment Technician.

Accreditation
Students achieving a PGPA and/or a CGPA of 2.0 will be allowed to challenge the Heavy Equipment Technician 1st and 2nd year technical exams from Alberta Apprenticeship and Industry Training. A Prior Learning Assessment (PLA) form and a fee will be required by Alberta Apprenticeship and Industry Training. Successful students may also be granted up to 600 hours of work credit towards their apprenticeship hours.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
A minimum of 70 Alberta High School credits (Grade 11) with at least 50% in the following courses or equivalents:
- Math 20-1 or Math 20-2 or Math 20-3 or Pure Math 20 or Applied Math 20, AND,
- Grade 11 English, AND,
- One Grade 11 Science
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

We recommend you add transportation.info@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.
**Costs**

**Tuition (subject to change)**
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**
- Books and supplies (including personal protective equipment) is approximately $1,000 for the year.
- The required tools will cost approximately $1,500-$5,000 depending on the quality and brand of tools chosen.

**Program outline**

**Semester 1**
- HDMC 200 – Mechanical Skills Theory 1.5 credits
- HDMC 204 – Mechanical Skills Lab 1.5 credits
- HDMC 205 – Braking Systems Theory 3 credits
- HDMC 206 – Braking Systems Lab 3 credits
- HDMC 207 – Electrical and Electronics Theory 1.5 credits
- WEPR 207 – Oxygen–Acetylene Equipment Lab 1.5 credits
- HDMC 268 – Hydraulics Theory 1.5 credits
- HDMC 269 – Hydraulics Laboratory 1.5 credits
- HDMC 231 – Suspension, Wheels and Systems Lab 1.5 credits
- HDMC 208 – Electrical and Electronics Lab 1.5 credits
- HDMC 232 – Suspension, Wheels and Systems Theory 1.5 credits

**Semester 2**
- COMM 209 – Business Communications 1.5 credits
- HDMC 240 – Electrical Charging and Cranking Theory 3 credits
- HDMC 241 – Electrical Charging and Cranking Lab 1.5 credits
- HDMC 255 – Diesel Engine Theory 1.5 credits
- HDMC 257 – Diesel Engine Lab 3 credits
- HDMC 258 – Engine Tune–up Theory 3 credits
- HDMC 259 – Engine Tune–up Lab 3 credits
- HDMC 266 – Powertrain Lab 1.5 credits

**Total** 37.5 credits

**Transfer options**

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Alberta Apprenticeship and Industry Training
- NAIT

To learn more, visit Transfer Options at sait.ca

**Note:** The Diesel Equipment Technician program is under review for the 2020/21 year. To view proposed changes, please see sait.ca.
Electrical Engineering Technology

- Two-year diploma
- Fall and winter start
- Full-time classroom, online, evening and weekend delivery

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Get wired for a bright future. The Electrical Engineering Technology program offers comprehensive training in power systems, electrical design and control and automation. The program prepares students for careers managing electrical energy from renewable and conventional energy sources. Graduates work in a variety of settings, including power generating facilities, industrial complexes, substations, laboratories, construction sites and offices.

Program overview

Your career
Graduates find work as electrical engineering technologists, industrial control technologists and power systems technologists. Graduates may also be employed in design estimating technical sales power generation distribution metering industrial electronic control supervisory control systems and industrial networking. Employers include consulting and design firms the oil and gas industry industrial plants technical sales companies, electrical contractors, utility companies and various manufacturers and distributors.

Student success
Journeyman Electricians and those with work experience in other related occupations or with related post-secondary education may receive some advance credit after an assessment by SAIT’s Prior Learning Assessment and Recognition (PLAR).

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Electrical Engineering Technology.

Accreditation
The program is nationally accredited by the Canadian Technology Accreditation Board and Canadian Council of Technicians and Technologists at the technologist level.
Graduates are eligible for membership in the following professional association: Association of Science and Engineering Technology Professionals of Alberta (ASET).

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2, AND,
- At least 60% in Physics 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add eet.selectionprocess@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies (subject to change) are approximately $1,000 for the first year and $700 for the second year.
Program outline

First Year
Semester 1
COMM 238 – Technical Communications I 3 credits
COMP 213 – Computing for Engineering Technology 3 credits
ELCT 205 – Electrical Principles 3 credits
ELTR 232 – Digital and Electronic Circuits 3 credits
ENVS 247 – Safety and Environment 1.5 credits
MATH 237 – Mathematics for Technologists 3 credits

Semester 2
COMM 288 – Technical Communications II 3 credits
ELEC 291 – Electrical Analysis 3 credits
ELEC 266 – Electrical Practices 3 credits
ELTR 262 – Power Electronics 3 credits
ENGD 238 – Electrical Diagrams and AutoCAD 1.5 credits
MATH 280 – Calculus for Technologists 3 credits

Second Year
Semester 3
CNTR 309 – PLC – Premium Unity Pro Applications 3 credits
DSGN 301 – Electrical Design Principles 3 credits
ELEC 302 – Generation and Grid Operations 1.5 credits
ELEC 352 – Rotating Machines 3 credits
ELEC 353 – Transformer Applications 3 credits
PROJ 333 – Technical Project Management 1.5 credits

Semester 4
CNTR 358 – PLC – ControlLogix Applications 3 credits
DSGN 396 – Industrial Electrical Design 1.5 credits
ELCM 374 – Industrial Networks and Communications 1.5 credits
ELEC 361 – Power System Analysis 3 credits
ELEC 364 – Protection and Control 3 credits
PROJ 373 – Capstone Project Course 3 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Camosun College
- Lakehead University
- Memorial University of Newfoundland (The Marine Institute)

Electronics Engineering Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
The Electronics Engineering Technology program is an analysis and design-oriented program with emphasis given to electronic circuits, systems and sub-systems. This program prepares graduates with professional, technical and practical skills that include problem-solving, research, design, prototyping, implementation, installation and testing of electronics-based systems. Specific studies include digital and analog applications, electronic controls, computer-based circuit design and simulation, microprocessor systems, RF communications, and computer-enhanced test and measurement systems. Areas of employment may include GPS-based systems, measurement, control, security and surveillance and wireless communication systems.

Graduates of the Electronics Engineering Technology program have the relevant technical, applied and professional skills that employers seek in this dynamic industry sector. Graduates may find employment as an electronic engineering technologist assisting in research, design, development of prototyping of electronic-based circuits and systems. They will also have the opportunity to continue their studies toward an Engineering Degree. SAIT offers articulation agreements with a variety of universities across Canada.

Working with electrical engineers who provide the conceptual design, the electronics engineering technologist will assist with the practical aspects of circuit design and analyze circuit performance. Electronics engineering technologists may design and/or evaluate the performance of the circuit using a variety of analysis methods. The technologist also works closely with technicians who fabricate, troubleshoot, measure and calibrate the systems. The learning environment incorporates instructor-led instruction and discussions enhanced with computer-based presentations and simulation software. Most classes integrate time in the lab, allowing students to apply their knowledge in a real, practical environment. This program will also utilize an e-learning (SAIT issued laptop computer) instructional delivery method.

Program overview

Your career
Graduates of this program possess a broad, practical knowledge of electronics for a career in a dynamic industry sector. Electronics Engineering Technologists can expect above-average wages and opportunities for advancement in an occupation that is constantly evolving and diversified. This person will use their creativity, math and science skills to develop and maintain electronics systems.

Electronics Technologists may work independently and/or be a vital member of a design and implementation team. An electronics engineering technologist can pursue a path toward a degree based on the knowledge they gain through training and their work experience.

Student success
Success in this area of study requires an interest in physics and a strong foundation in mathematics. Electronics Engineering Technologists apply science to practical applications. They learn to think like engineers while using their experience in manufacturing and analysis. Lifelong learning is an expectation for career growth.

Characteristics of a successful student in this program include:
- Enjoy solving problems using a logical, analytical and systematic approach.
- Being patient persistent meticulous innovative and creative when trying to figure things out.
- Working independently with little supervision but also capable of performing as a vital member of a team of professionals.
- Enjoys keeping up-to-date on new technological developments and continuing to enjoy learning new skills.
- Being able to learn how something works from a written manual, from observations or from experimenting.
- Having working knowledge of the MS office Suite would be an asset.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Electronics Engineering Technology.

Accreditation
The Canadian Council of Technicians and Technologists (CCTT) Canadian Technology Accreditation Board (CTAB) accredits this program at the Engineering Technologist level. After two years of suitable industrial experience, graduates are eligible for membership in The Association of Science and Engineering Technology Professionals of Alberta (ASET) as a Certified Engineering Technologist (CET).
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- At least 60% in Physics 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add ent.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies (subject to change) are approximately $1,000 for the first year and $1,000 for the second year.
- A $400 security deposit to use a SAIT issued laptop.

Program outline

First Year
Semester 1
- COMM 256 – Professional Communications and Presentation Skills 3 credits
- DIGI 210 – Digital Fundamentals 3 credits
- EFAB 202 – Electronic Fabrication 3 credits
- ELTR 238 – Electronic Fundamentals 3 credits
- MATH 237 – Mathematics for Technologists 3 credits

Semester 2
- CPRG 252 – C Programming for Technologists 3 credits
- DIGI 260 – Digital Devices and Applications 3 credits
- ELTR 270 – Electronic Devices and Circuits I 3 credits
- HREL 250 – Business Dynamics 3 credits
- MATH 280 – Calculus for Technologists 3 credits

Second Year
Semester 3
- ELEC 305 – Applied Analysis 3 credits
- ELCM 322 – Wireless Communication Systems 3 credits
- ELTR 300 – Electronic Devices and Circuits II 3 credits
- MCRO 310 – Microprocessor Fundamentals 3 credits
- PROJ 306 – Planning and Tools for Electronics Projects 3 credits

Semester 4
- CNTR 362 – Electronic Control Systems 3 credits
- ELCM 382 – Wireless Applications and Networks 3 credits
- INST 302 – Automated Test and Measurement 3 credits
- MCRO 350 – Micro Design and Application 3 credits
- PROJ 354 – Capstone Project 3 credits

Total 60 credits

Transfer options

The opportunity to advance your education through transfer, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- British Columbia Institute of Technology (BCIT)
- Camosun College
- Cape Breton University
- Lakehead University
- NAIT
- Thompson Rivers University
- University of Victoria

Primary Care Paramedic
(formerly Emergency Medical Technician)

- 10-month Certificate
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
The Primary Care Paramedic (PCP) program provides education and training for pre-hospital care professionals and prepares them to work within a multi-discipline healthcare team. This program is taught by experienced practitioners and covers all aspects of pre-hospital emergency care including Advanced Life Support (ALS) assistance, patient assessment, diagnostics, treatment and critical interventions.

The Primary Care Paramedic program is a competency-based, blended-delivery program which includes face-to-face and on-line learning components. Students must be motivated and organized as this program is fast-paced and requires a significant contribution of time to be successful.

Students will be required to:
- Attend an orientation session.
- Complete all work as assigned.
- Attend mandatory class days for theory and psychomotor skill acquisition practice.
- Attend full-time, one clinical (hospital and/or urgent care based) practicum and one ambulance-specific practicum to apply the theory and skills learned under the direct supervision of a preceptor.

Note: Students may have to travel anywhere in Alberta to complete their practica based on practicum spot availability.

The PCP program is a requirement for continuing into the Advanced Care Paramedic — formerly Emergency Medical Technology-Paramedic (EMT-P) program.

Program overview
Your career
Graduates are prepared for careers in emergency medical services or on industrial sites in rural and urban settings throughout Canada, as well as internationally.

Graduates of the Primary Care Paramedic program have a 91% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT’s programs.

Students who experience success in this program have effective communication skills in English.

Health care practitioners are detail oriented in the care they provide and enjoy working in a team environment.

The student must be a highly motivated and well-organized individual to succeed in this self-directed, non-traditional delivery model.

Credentials
After successfully completing this program, graduates will receive a SAIT Primary Care Paramedic certificate. All graduates are eligible and required to register with the Alberta College of Paramedics to work in Alberta as an EMT.

Accreditation
The Primary Care Paramedic program delivered by SAIT is accredited by the Canadian Medical Association at the Primary Care Paramedic level and meets the Alberta College of Paramedics core competency requirements.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in each of the following courses or their equivalents:
- Math 20-1 or Math 20-2 or Pure Math 20 or Applied Math 20, AND,
- English Language Arts 30-1 or English Language Arts 30-2, AND,
- Biology 30 or Science 30
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- Students must be 18 years old by January 1 (second semester of the PCP program).
- Proof of completion of an Emergency Medical Responder (EMR) certificate by April 30.
Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- There is a fee for the Alberta College of Paramedics (ACP) provincial exam and an annual registration fee. Please contact ACP for more information.
- ACP annual registration fees are approximately $425 (initial registration fee is approximately $475).
- Students are responsible for any additional expenses related to their practicum including relocation costs to practicum sites outside Calgary.
- There is a fee associated with obtaining a Police Information Check including Vulnerable Sector Check and is payable to the Police or the Royal Canadian Mounted Police.
- Books and supplies cost approximately $1,900 for the program.
- Students must also purchase a uniform (jacket, pants, shirt, belt, and boots) for approximately $500–$700.
- Students are required to have access to a personal computer, printer and Internet. Computers must meet the specifications listed in fees and expenses.

Students require a tablet (Apple or Android) to support the CompTracker system. The tablet only needs to have a wi-fi ability. The size of the tablet is at the discretion of the student. Keyboards are advisable but not mandatory. Smartphones are not acceptable devices for CompTracker.

There is a $75 CompTracker user fee per semester.

Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Program description
The SAIT Advanced Care Paramedic program is a two-year full-time program offered to students currently registered with the Alberta College of Paramedics (ACP) as Primary Care Paramedics who wish to extend their professional training and credentials to work as paramedics. In the Advanced Care Paramedic program, the student will become extensively familiar with human anatomy, physiology and pathophysiology, as well as wide variety of pharmacological and other therapies. The program commences each year in the fall and consists of 5 semesters which include classroom and simulation learning, two field (ambulance) practica and two clinical (hospital) practica placements.

Students begin Semester 1 with nine weeks of class at the SAIT campus where they learn theory including anatomy, physiology and basic pharmacology. Six weeks of field practicum then follows to fine-tune basic care skills and develop familiarity with advanced procedures such as fluid resuscitation. The ambulance practicum continues in the winter semester, first year, until February.

Students return to SAIT in February for Semester 2 where they will spend nine weeks in class continuing their studies expanding on pharmacological therapies and treatments for various medical and traumatic emergencies. Assessment skills, critical thinking and integrating advanced therapies into basic care are emphasized.

Students will return in the fall for Semester 3 in late August for clinical practicum and then for seven weeks at SAIT for classroom and lab instruction including pediatric and adult advanced life support, rapid sequence induction and other advanced skills. Development of critical thinking and integration skills are key components.

Semester 4 begins in January of the second year with clinical practicum rotations in the pediatric emergency room and labour and delivery. Students will finish with their final ambulance practicum at the end of April.

Students return to SAIT for the spring semester — Semester 5 — where they complete the classroom portion and prepare for registration with the Alberta College of Paramedics (ACP) as an Advanced Care Paramedic.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in each of the following courses or equivalents:
- Math 20-1 or Math 20-2 or Pure Math 20 or Applied Math 20, AND,
- English Language Arts 30-1 or English Language Arts 30-2, AND,
- Biology 30, or Science 30, or SAIT’s ANPH 209

Note: ANPH 209 can be found in SAIT’s Continuing Education calendar.

- All applicants must be registered with the Alberta College of Paramedics (ACP) as a Primary Care Paramedic (formerly Emergency Medical Technician (EMT)) by August 1 prior to the program commencing,
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed.
Costs

Tuition (subject to change)

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- There is a fee for the Alberta College of Paramedics (ACP) provincial exam and an annual registration fee. Please contact ACP for more information.
- Students are responsible for any additional expenses related to their practicum including relocation costs to practicum sites outside of Calgary.
- There is a fee associated with obtaining a Police Information Check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police.
- Books, uniforms and professional supplies cost approximately $1,500-$2,000 for each of the two years.
- Students are required to have access to a personal computer, printer and Internet. Computers must meet the specifications listed in fees and expenses.
- Students require a tablet (Apple or Android) to support the CompTracker system. The tablet only needs to have wi-fi ability. The size of the tablet is at the discretion of the student. Keyboards are advisable but not mandatory. Smartphones are not acceptable devices for CompTracker.
- There is a $75 CompTracker user fee per semester.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Transfer options

You may be eligible for transfer credit at:

- Athabasca University
- Canadian Armed Forces
- Medicine Hat College
- NAIT
- Thompson Rivers University
Energy Asset Management

- Two-year diploma
- Fall start
- Full-time classroom or online

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Want to be a mover and a shaker in the oil and gas industry? As a student in the Energy Asset Management program, you’ll study the business side of the energy industry and learn to handle contracts, leases, regulatory obligations and accounting tasks. You’ll leave SAIT with the skills you need to confidently enter the high-demand field of energy asset management.

Program overview
Your career
As a student of the program, you will learn about all functions within the industry (including an appreciation for the technical side of the business) and will graduate with relevant skills in administration of the regulatory, financial and contractual compliance workflow pertaining to energy industry assets. As a graduate of this program, you will have career opportunities in the petroleum industry in such areas as mineral land, land contracts, surface land, joint ventures, operations accounting, production accounting, well and facility asset management, as well as within various energy service companies, governments and field operations.

Graduates of the Energy Asset Management program have an 88% employment rate.

Student success
- Joint Venture Specialization establish agreements and partnership arrangements
- Mineral Land Management acquire and preserve below-ground rights
- Surface Land Management acquire and preserve above-ground land activity
- Well Asset Management
- Monitor activity, gather information and report to regulatory bodies and partners
- Operations Accounting
- Gather, calculate and report production and financial data

Accreditation
There are no formal accreditation arrangements at this time. Please contact the MacPhail School of Energy for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or 75% in Math 30-2 or Applied Math 30, AND,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Online program delivery
If you’re interested in taking Energy Asset Management through online delivery, you’ll need to apply online and meet the admission requirements. When you’re filling out your application, select the Part-Time Application type and choose Energy Asset Management Diploma-Distance Education.

Costs
Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies (subject to change) are approximately $500 per year.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Energy Asset Management.
## Program outline

### First Year

**Semester 1**
- ACCT 352 – Energy Accounting 3 credits
- BLAW 205 – Business Law 3 credits
- COMM 256 – Professional Communications and Presentation Skills 3 credits
- EAMG 210 – Overview of Energy Asset Management and Energy Industry 3 credits
- EAMG 250 – Pre-Acquisition and Acquisition 3 credits

**Semester 2**
- COMM 266 – Professional Communication Skills II 3 credits
- DATA 240 – Software Applications 3 credits
- EAMG 220 – Energy Agreements 3 credits
- EAMG 230 – Operations Accounting 3 credits
- EAMG 255 – Drilling and Completion 3 credits

### Second Year

**Semester 3**
- EAMG 300 – Maintenance 3 credits
- EAMG 306 – Production Facilities 3 credits
- EAMG 350 – Production 3 credits
- ECON 302 – Economics 3 credits
- PROJ 399 – Project Management 3 credits

**Semester 4**
- EAMG 301 – Capstone Project 3 credits
- EAMG 355 – Abandonment and Relinquishment 3 credits
- FNCE 360 – Financial Decision Making 3 credits
- MKTG 301 – Oil and Gas Marketing 3 credits
- MNGT 250 – Organizational Behaviour 3 credits

### Total
- 60 credits

## Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Mount Royal University
- Robert Gordon University, UK
- University of Lethbridge
- University of Wyoming

To learn more, visit Transfer Options on sait.ca.
Engineering Design and Drafting Technology

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction-Engineering Design and Drafting Technology
Phone: 403.284.8367
Email: construction.eddt@sait.ca

Program description
The program provides graduates with the essential skills sought after by a variety of engineering enterprises. The program will provide you with practical experience through hands-on classes in engineering and drafting principles. Your instructors will be experienced practitioners who will help you develop your technical and professional skills based on relevant practices.

This diploma program is two years in length, consisting of four 15-week semesters.
This program accepts students into first semester in September as well as January.

Note: This program also utilizes an e-Learning (SAIT issued laptop computer) instructional delivery method.

Program overview

Your career
Graduates may find work as junior technologists in fields such as mechanical, electrical, civil, structural and process piping.

Student success
The most successful students in the program are those who work well in teams, have strong communication skills and a solid foundation in high school Math and Physics.

Credentials
After successfully completing this program, graduates will be awarded a SAIT diploma in Engineering Design and Drafting Technology.

Accreditation
This program is nationally accredited, at the technologist level, by the Canadian Council of Technicians and Technologists (CCTT) and Technology Accreditation Canada (TAC). Graduates are eligible for membership in the Association of Science and Engineering Technology Professionals in Alberta (ASET).

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, AND,
- At least 60% in English Language Arts 30-1 or at least 75% in English Language Arts 30-2, AND,
- At least 60% in Science 30 or Physics 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $1,500 per year.
- A $400 security deposit to use a SAIT issued laptop.
Program outline

First Year

Semester 1
COMP 220 – Computer Fundamentals 3 credits
CNST 249 – Concrete and Soil Basics 1.5 credits
ENGD 214 – Digital Drafting 3 credits
MATH 238 – Math for Engineering and Tech I 3 credits
STAT 245 – Statistics for Engineering and Technology I 3 credits
STCS 242 – Structural Statics 1.5 credits

Semester 2
ARCH 253 – Building Structures 1.5 credits
COMM 238 – Technical Communications I 3 credits
ENGD 220 – Advanced Engineering Drafting 3 credits
ENGD 221 – Topographical Drafting 1.5 credits
SMTL 246 – Strength of Materials 3 credits
MATH 288 – Mathematics for Engineering and Technology II 3 credits

Second Year

Semester 3
CADD 324 – Electrical and HVAC Design and Modelling 1.5 credits
ENGD 305 – Process Piping Drafting I 3 credits
ENGD 306 – Structural Drafting I 3 credits
ENGD 307 – Civil Drafting I 3 credits
ENGD 321 – Applied Machine Design 3 credits
MECH 370 – Fluid Mechanics 1.5 credits

Semester 4
ENGD 376 – Civil Drafting II 3 credits
ENGD 377 – Structural Drafting II 3 credits
ENGD 378 – Process Piping Drafting II 3 credits
ENGD 381 – Engineering Practices 1.5 credits
ENVS 380 – Environmental Engineering Drafting 1.5 credits
PROJ 357 – Applied Engineering Design and Drafting Technology Capstone Project 3 credits

Total 60 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Bow Valley College
- British Columbia Institute of Technology (BCIT)
- Thompson Rivers University
- University of New Brunswick, Saint John

To learn more, visit Transfer Options at sait.ca
English Language Foundations

- Eight-week Fast-track
- Fall and winter start
- Classroom

Contact us
English Language Foundations
Phone: 403.210.4045
Email: english.language@sait.ca

Program description
The English Language Foundations (ELF) program provides English language upgrading for learners whose first language is not English. Students are placed into the program based on demonstrated proficiency in English, using the Canadian Language Benchmarks Assessment (CLBA) or International English Language System (IELTS) examination. Most students use the ELF program as entry into SAIT career programs.

- The ELF curriculum encourages development in all language areas: speaking, listening, reading and writing.
- Five-level program
- Six start dates per year (eight week terms)
- Full and part-time studies; evening/weekend courses available
- Intensive, skills-focused approach
- Proficiency based placement and advancement
- Completion of ELF 5 is accepted in lieu of English 30 for most programs at SAIT

Program overview
Your career
After successfully completing the ELF program, the majority of graduates are prepared for admission into SAIT career programs as completion of ELF level 5 is accepted as equivalent to English 30 for most programs at SAIT. Students in ELF Levels 4 and 5 may combine ELF coursework with Academic Upgrading subjects in math or science.

Student success
Progress in the ELF Program depends on the student’s demonstration of proficiency. Instructors regularly assess student progress through classroom assignments, participation and examinations. Students who achieve a rating of 50% (D) in all subjects can be recommended for promotion to the next level.

ELF is a fast track program. Students should be prepared to dedicate considerable time for study and to actively use their English outside of class time. SAIT career programs require academic appropriate English skills in all areas: reading, writing, listening and speaking.

Credentials
No Credential Awarded

Progression
Level 1 (communications and speech) leads to level 2, which in turn leads to level 3, 4 and 5. However, students entering the program with a CLBA may begin at any point between levels 1-4 depending on their score. Students entering with IELTS, depending on their band score, may begin at any point between levels 1-5.

Course requirements
To register for the English Language Foundations program, you must complete either a Canadian Language Benchmark Assessment (CLBA) and obtain a minimum score of 4 in all categories, or complete an International English Language Testing System (IELTS) and obtain a minimum band score of 3.5 in all categories. CLBA or IELTS tests must be completed at least one week before the course start date.

Testing information
You can complete a Canadian Language Benchmark Assessment (CLBA) test at SAIT or an International English Language Testing System (IELTS) test. For more information please go to: sait.ca.
Please note: CLBA and IELTS test results older than one year will not be accepted.
Teacher-assessed CLBA scores from Language Instruction for Newcomers to Canada (LINC) schools are not accepted except when students are coming from a LINC program with a certificate of completion for Canadian Language Benchmark 4—Listening, Speaking, Reading and Writing.

Course equivalents: CLBA
The benchmark score on your CLBA will determine the English Languages Foundations (ELF) level you will start:

- Benchmark 4 – ELF level 1
- Benchmark 5 – ELF level 2
- Benchmark 6 – ELF level 3
- Benchmark 7 – ELF level 4 – ELF level 5
- Benchmark 8 and completion of ELF level 5—Meets English language requirements to enter SAIT career programs.*

Students with a CLBA score of 3 in each category can take ENGL 102—English Language Readiness.

* The SAIT Respiratory Therapy program requires Enhanced Language Training Placement Assessment (ELTPA) with a score of 9 in all sections.
Course equivalents: IELTS
The band score on your IELTS test will determine the ELF level you will start:
- IELTS band 3.5 – ELF level 1
- IELTS band 4.0 – ELF level 2
- IELTS band 4.5 – ELF level 3
- IELTS band 5.0 – ELF level 4
- IELTS band 5.5 – ELF level 5
A band score of 6.0 in all categories and completion of ELF level 5 meets English language requirements to enter SAIT career programs. Students with a band score of 3 in each category can take ENGL 102.

Bridging pathways
Students who have successfully completed some level at either of one of the SAIT pathway program partners or other post-secondary academic English as a second language (ESL) programs may also be accepted. For more information, please go to: sait.ca.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Please note: The cost of one CLBA is included in your application fee. We recommend you arrive in Calgary at least one week before classes start so you can complete the CLBA and receive your scores to register for courses.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Supplies are approximately $10–20 per term. Students are not required to purchase books for the program.

Environmental Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description

Want a career that really makes a difference? The Environmental Technology program will give you the skills and knowledge you need to work in the lab or the field. As an Environmental Technologist you’ll work in the protection, conservation, and preservation of our natural environment. Many graduates go on to complete their bachelor’s degree at Royal Roads University.

Program overview

Your career
Graduates of this program find work in environmental protection, conservation and preservation of natural resources, and environmental education, communication and research. More specific fields include utility and mining companies, chemical manufacturers, steel makers, transportation, industry, federal/provincial government departments, municipalities, education institutions, wastewater management, water treatment, research and health care centers, environmental interest groups and industry associations.

Student success
Students with higher grades and recent upgrading in Math 30 (Pure Math) and Chemistry 30 will experience more success in SAIT’s programs.
Additionally, students who experience success in this program have good work ethics and communication skills.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Environmental Technology.

Accreditation
This program will be accredited in the future. Please contact the MacPhail School of Energy for more information.
Graduates are eligible for membership in the following professional associations:
- Association of Science and Engineering Technology Professionals of Alberta (ASET)
- ECO Canada
- Chemical Institute of Canada (CIC)

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, AND,
- At least 50% in English Language Arts 30-1, or at least 60% in English Language Arts 30-2, AND,
- At least 60% in Chemistry 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add energy.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies (subject to change) are approximately $1,800 per year.

## Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Business Academy Aarhus, Denmark
- Griffith University
- Mount Royal University
- NAIT
- Royal Roads University
- SAIT

To learn more, visit Transfer Options on sait.ca.
Film and Video Production

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
The Film and video industry entertains, challenges, impacts our understanding of current events, heightens our awareness of social issues, and even influences our buying decisions. Be a part of this cultural phenomenon and enroll in the Film and Video Production (FVP) program.

The FVP program prepares you for a career in one of Canada's evolving media industries. You will learn the fundamentals of scriptwriting, producing, directing, cinematography, sound recording, editing as well as the business aspects of the film and video industries.

FVP is delivered in a unique environment that combines traditional teaching methods with hands-on production and project models. In the second year, students have an opportunity to specialize, and are further assisted in finding a practicum opportunity to obtain firsthand experience and establish additional contacts in the industry. The program is two years in length with each academic year divided into two 15-week semesters.

All Film and Video Production students participate in e-learning based curriculum. Students lease PC laptop computers from SAIT, which are equipped with various software applications. Internet access, training and technical support are provided throughout the program.

Program overview
Your career
Upon graduation, you may find employment on productions such as: movies of the week, feature films, commercials, music videos, documentaries, specialty channel programming, television series, and public service or corporate productions. Most entry-level work is available on a freelance or contract basis. Some entrepreneurial graduates start their own businesses and employ others. This industry is always seeking innovative new talent. Graduates of this program tend to work primarily on term-specific projects as well as with smaller “boutique” type production companies.

Graduates of the Film and Video Production program have an 89% employment rate.

Student success
Applicants with previous academic success are usually more successful in SAIT’s programs.

Credentials and accreditations
Upon successfully completing this program, graduates will receive a SAIT diploma in Film and Video Production.
There are no formal accreditation arrangements at this time. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Costs
Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and Supplies (subject to change)
- Books and supplies are approximately $1,500 per year.
- A $400 security deposit to use a SAIT issued laptop.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalents.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.
We recommend you add ict.mediastudents@sait.ca to your safe senders list or you risk missing critical email messages.
Program outline

First Year
Semester 1
FVDO 200 – Film Production I 3 credits
FVDO 202 – Film Post–Production I 3 credits
FVDO 203 – Film Directing and Producing 3 credits
FVDO 204 – Story Writing for Film I 3 credits
FVDO 208 – Introduction to Film 1.5 credits
LDSH 243 – Leadership 1.5 credits

Semester 2
FVDO 250 – Film Production II 3 credits
FVDO 252 – Film Post–Production II 3 credits
FVDO 254 – Story Writing for Film II 3 credits
FVDO 256 – Film and Video Directing I 3 credits
FVDO 258 – Business of Film I 3 credits

Second Year
Semester 3
FVDO 300 – Film Production III 3 credits
FVDO 302 – Film Post–Production III 3 credits
FVDO 303 – Film and Video Directing II 3 credits
FVDO 304 – Story Writing for Film III 3 credits
FVDO 308 – Business of Film II 3 credits

Semester 4
FVDO 350 – Film Production IV 6 credits
FVDO 353 – Film and Video Directing III 3 credits
FVDO 357 – Business of Film III 3 credits
PROJ 352 – Film Capstone Project 3 credits
SCPT 351 – Script Writing for Film 1.5 credits

Total 61.5 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Royal Roads University
- University of Calgary
- University of Gloucestershire, UK
- University of South Wales

Geomatics Engineering Technology

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.gnt@sait.ca

Program description
The Geomatics Engineering Technology program will provide you with extensive practical skills combined with a broad theoretical background to acquire tools and techniques used in: land surveying, remote sensing, cartography, geographic information systems (GIS), global navigation satellite systems (GPS), photogrammetry, geography and digital mapping.

To succeed in the program, you will need to be comfortable with mathematics and enjoy working with computers and instrumentation. In addition you must be a good team player, have good communication skills, and enjoy working outdoors.

This diploma program is two years in length, consisting of four 15-week semesters.

The program accepts students into first semester in September.

Program overview
Your career
Graduates of this program find work as surveying or mapping technologists in a broad range of industry sectors including; land surveying, mapping, energy exploration and production, civil engineering and construction, GIS, mining and natural resources and federal/provincial/municipal governments.

Student success
Students who enjoy mathematics, are comfortable using computers and instrumentation will experience more success in this program. Additionally, the ideal candidates are methodical and pay attention to detail, have good work ethic and communication skills. GNT graduates will often work in teams of various sizes. In the GNT program, many courses require working in teams for projects or lab assignments. This requires good communication and interpersonal skills.

Credentials and accreditations
This program is nationally accredited, at the technologist level, by the Canadian Council of Technicians and Technologists (CCTT). Graduates are eligible for certification by the Alberta Society of Surveying and Mapping Technologies (ASSMT) and the Association of Science and Engineering Technology Professionals in Alberta (ASET).

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 50% in Math 30-1 or Pure Math 30, or at least 70% in Math 30-2, AND,
- At least 50% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- At least 50% in Science 30 or Physics 20.
- All applicants to must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.
We recommend you add construction.gnt@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.
Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $1,000 for the first year and $500 for the second year.

Program outline

First Year
Semester 1
- COMP 220 – Computer Fundamentals
- ENGD 213 – Geomatics Drafting
- MAPS 204 – Mapping Fundamentals
- MATH 238 – Math for Engineering and Tech I
- SURV 214 – Surveying I

Semester 2
- COMM 238 – Technical Communications I
- SURV 230 – Satellite Positioning
- SURV 248 – Surveying II
- SURV 263 – Measurement Analysis and Adjustment
- MATH 288 – Mathematics for Engineering and Technology II

Second Year
Semester 3
- CADD 308 – Geomatics CADD Applications
- MAPS 310 – Geodesy and Map Projections
- MAPS 315 – Geographic Information Systems
- SURV 330 – Surveying III
- SURV 342 – Remote Sensing

Semester 4
- MAPS 362 – 3D Modeling
- MAPS 365 – Photogrammetry
- PROJ 385 – Geomatics Engineering Technology Capstone Project
- SURV 363 – Applications in Geomatics Engineering
- SURV 365 – Cadastral Surveying

Total 60 credits

Transfer options
The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- British Columbia Institute of Technology (BCIT)
- Memorial University of Newfoundland (The Marine Institute)
- NAIT
- SAIT
- Thompson Rivers University
- University of Calgary

To learn more, visit Transfer Options on sait.ca
Graphic Communications and Print Technology

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
If you’ve ever picked up a print publication, visited a website, admired a logo or looked at an advertisement, then you are already familiar with some of the end products of the digital graphics industry. The Graphic Communications and Print Technology program is designed to prepare you for a career in these exciting fields. You acquire industry-specific skills in electronic file management, print management and production, print administration, estimating, printing service coordination that ensure your success in the industry.

Program overview

Your career
Graduates may find employment at commercial printing and publishing companies, private and industrial printing plants, paper and ink distributors, screen process companies, printing equipment distributors, advertising agencies, digital printing facilities and other graphic arts firms.
Graduates of the Graphic Communications and Print Technology program have a 97% employment rate.

Student success
Students with higher grades usually experience more success in SAIT’s programs.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Graphic Communications and Print Technology.

Accreditation
There are no formal accreditation arrangements currently. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 50% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and Supplies (subject to change)
- Books and supplies are approximately $665 per year.

Health Information Management

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description

Personal health information about Canadians is being collected, recorded, reviewed, and transmitted every day. Informed decisions affecting health services can only be achieved with the best information available. The role of health information management goes beyond managing health records to managing the information contained in those records. Using computer skills and knowledge of health care fundamentals, critical medical information is translated from patient health records into data following national data standards. The health information management professional then interprets the data to provide comprehensive quality information for patient care, resource allocation, statistics, research, planning and education.

The Health Information Management program is two years in length and is divided into three semesters for each year. The fall and winter semesters for year one and two involve classroom instruction, some of which is in a computer lab at SAIT working with industry-specific software. The spring semester for year one involves a six-week unpaid practicum placement at a small to medium-sized health care facility. During the spring semester of year two, students will complete an eight-week unpaid practicum at a large healthcare facility or organization.

Note: There is a possibility of out-of-province placements due to a shortage of practicum sites within Alberta. It is also common for placement to be outside the city of Calgary.

Due to the heavy computer component of this program, students are required to have access to a computer outside regular class time.

Certain courses are available by distance education or continuing education—COMP 264, HILA 200, PATH 242, MEDT 261, PATH 252 and PROF 260. The courses must be completed within the time frame shown in the Program outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered a part-time student, which may impact their financial loan status.

As some of the content is delivered in an online environment, students will be required to have a personal computer with Internet access.

Program overview

Your career
Graduates find work as health information management professionals and are primarily employed in hospitals.
Graduates of the Health Information Management program have a 100% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.
Students who experience success in this program have effective communication skills in English.
Health care practitioners are detail-oriented in the care they provide and enjoy working in a team environment.
Basic computer skills are essential for success in the program.

Credentials
After successfully completing this program, graduates will receive a SAIT Health Information Management diploma.
Graduates of the Health Information Management program will be eligible to write the national certification exam with the Canadian College of Health Information Management (CCHIM). After successful completion of the national exam, individuals will become certified Health Information Management Professionals (CHIM) recognized by the Canadian Health Information Management Association (CHIMA).

Accreditation
This program is a Learning Outcome for Health Information Management (LOHIM) recognized program by the Canadian Health Information Management Association.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1, Math 30-2, Pure Math 30 or Applied Math 30, AND,
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- At least 60% in Biology 30
- All applicants to SAIT must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add the sait.ca domain to your safe senders list or you risk missing critical email messages.

Practicum requirements

The School of Health and Public Safety has many practicum partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location.

Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as relocation and travel costs.

In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:

- **Updated Immunization Records**: Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.

- **Security Clearance**: According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).

- **Health and Wellness Status**: Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability.

More details on the practical requirements per program are outlined on a pre-orientation website for successful candidates.

Costs

**Tuition (subject to change)**

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Books, software, and supplies are approximately $1,600 each year.
- Students are required to have access to a personal computer, printer and Internet. Computers must meet the specifications listed in Fees and Expenses.
- Students are responsible for any additional expenses related to their practica including relocation costs to practicum sites outside Calgary.
- Canadian College of Health Information Management national exam fees are approximately $400.
- Canadian Health Information Management Association annual dues are approximately $30.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Students are required to have access to a personal computer, printer and Internet.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.
### Program outline

**First year**

**Semester 1**
- ANPH 220 – Anatomy and Applied Terminology 3 credits
- CDAB 210 – Data Classification 1 3 credits
- COMP 264 – Microsoft Office Basics 1.5 credits
- HILA 200 – Health Information Law 1 1.5 credits
- HRSC 210 – Health Information Management 1 3 credits
- PATH 242 – Pathophysiology 1 3 credits

**Semester 2**
- CDAB 260 – Data Classification 2 3 credits
- HCPP 260 – Healthcare Software Application 3 credits
- HILA 250 – Health Information Law 2 1.5 credits
- MEDT 250 – Medical Terminology 2 1.5 credits
- PATH 252 – Pathophysiology 2 3 credits
- PROF 240 – Healthcare Professionalism 1.5 credits

**Semester 3**
- PRAC 264 – Practicum 1 3 credits

**Second year**

**Semester 4**
- ANPR 300 – Analysis and Presentation 1.5 credits
- CDAB 310 – Data Classification 3 3 credits
- HCPP 310 – Healthcare Database Design 1 1.5 credits
- HCPP 360 – Healthcare Database Design 2 1.5 credits
- HRSC 320 – Health Information Management 2 3 credits
- STAT 220 – Statistics 3 credits

**Semester 5**
- CDAB 360 – Data Classification 4 3 credits
- HCPP 350 – MS Access Database Design 1.5 credits
- HCPP 370 – Healthcare Data Queries 1.5 credits
- HCPP 380 – Healthcare Project Management 1.5 credits
- QUAL 350 – Quality Management 1.5 credits
- RSCH 355 – Epidemiology and Research Design 1.5 credits

**Semester 6**
- PRAC 394 – Practicum 2 6 credits

**Total** 61.5 credits

### Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Thompson Rivers University
- University of Lethbridge
- University of New Brunswick, Saint John
- University of Ontario Institute of Technology

Hospitality Management

- Two-year diploma
- Fall start date
- Full-time classroom
- Direct pathway into the Bachelor of Hospitality and Tourism Management degree program

Contact us
School of Hospitality and Tourism
Phone: 403.284.8612
Email: hospitality.info@sait.ca

Program description
The hospitality industry will give you a career that provides endless opportunities — both in Canada and around the world. The Hospitality Management program at SAIT is known worldwide for its innovative curriculum and real-world education. At SAIT, we prepare our students for rewarding and in-demand careers in the global hospitality industry through expert instruction, hands-on learning and state-of-the-art facilities. Our alumni are working in top hospitality organizations in Calgary, Canada and around the globe.

During this full-time two-year diploma program, you will obtain skills in lodging, food and beverage, and a host of other hospitality sectors. Your training will cover hotel and restaurant operations, wine and beverage appreciation, special events, marketing, human resources, accounting and much more.

Our blended learning environment includes classroom instruction, laptop delivery and a live working environment—all delivered through a personalized approach. You will learn what it’s like to work as a member of a hospitality team by participating in group projects, serving in the renowned Highwood restaurant, and executing special events on campus.

You will also be trained on the latest industry software including:
- Opera Property Management System,
- MICROS point of sale system, and
- OpenTable restaurant management software.

As part of our close relationship with the hospitality sector, we are privileged to have some of the best and brightest leaders from the community serve on our advisory board. They help by providing insight into industry trends, and informing the development of an up-to-date and practical curriculum.

Special events
As a student, you will also have the opportunity to put your knowledge into action as part of a team planning and hosting special events such as:
- HOSPO: the largest one-day tourism conference in Western Canada featuring 50 guest speakers and a career fair with over 50 industry booths,
- Scholarship lunch and industry gala in The Highwood, and
- SAIT President’s gala dinner for 400 VIP delegates.

Professional paid internship and study tours
Between your first and Second year of study, you will be able to apply your skills in a professional paid internship. In addition to gaining experience in a real-world environment, internships provide valuable connections and opportunities to network with future employers.

As a student, you can also take advantage of exciting international study tours. Previous tour locations have included Scotland, Italy, Australia, Vietnam and Thailand.

Program overview
Your career
Graduates can look forward to career opportunities in hotels, restaurants, resorts, private clubs and attractions. You may find work locally or abroad as a(n):
- Restaurant Manager
- Special Events Coordinator
- Food and Beverage Supervisor
- Sales/Marketing Manager
- Concierge
- Hotel Manager
- Entrepreneur

Graduates of the Hospitality Management program have a 100% employment rate.
**Student success**

Most successful students spend approximately 20 hours per week doing homework and review, with additional study required to prepare for exams.

Keep in mind hospitality industry hours can range from early morning to late in the evening and often include holidays and weekends.

The material is presented at a fairly rapid rate. For the greatest level of success you must be present and take responsibility for your learning experience.

You must be able to read, write and comprehend the English language at a level exceeding basic conversational English.

Students with higher grades in high school usually experience more success in SAIT programs.

**Credentials**

After successfully completing this program, graduates will receive a SAIT diploma in Hospitality Management.

**Accreditation**

There are no formal accreditation arrangements at this time. Please contact the School of Hospitality and Tourism for more information.

**Progression**

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

**Admission requirements**

At least 50% in the following courses or equivalents:

- Math 30-2 or Math 20-1 or Applied Math 30 or Pure Math 20, AND,
- English Language Arts 30-1 or English Language Arts 30-2

Admission alternatives for the Hospitality Management program are as follows:

- In lieu of Math requirement, successful completion of BMAT 230-Business Mathematics.
- In lieu of English requirement, successful completion of COMM 240-Business Communications I or COMN 220-Communication and Presentation Skills.

All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

**Direct entry**

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

**Costs**

**Tuition (subject to change)**

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Books and supplies are approximately $1,000 for the First year and $1,200 for the Second year.
- Approximately $600 to $800 for a laptop that meets the minimum hardware requirements and operating system for this program.
- Students are required to participate in a tourism seminar in the first or second semester which will cost approximately $75 and gives the student an experiential introduction to the tourism industry.
Program outline

First year

Semester 1

<table>
<thead>
<tr>
<th>Course Code</th>

Total: 63 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Business Academy Aarhus, Denmark
- Dublin Institute of Technology
- Griffith University
- Hong Kong Polytechnic University
- Mount Royal University
- Robert Gordon University, UK
- Royal Roads University
- SAIT
- University of Gloucestershire, UK
- University of Lethbridge
- University of South Wales
- University of Victoria
- Vancouver Island University

To learn more, visit Transfer options on sait.ca.
Information and Records Management

- Certificate
- Ongoing
- Part-time classroom or online

Contact us
School of Information and Communications Technologies
Phone: 403.284.8401
Email: ict.coned.info@sait.ca

Program description

Completely revised and updated for 2017/18 with the help of subject matter experts who are currently working in the field, this program will enable you to learn the current industry standards and the best practices of information and records management from industry professionals. Managing records and information is a pivotal piece in running any organization efficiently and with topics ranging from the fundamentals to advanced topics in strategic management of information, SAIT’s Information and Records Management certificate will help you succeed.

These courses are intended for industry professionals upgrading their skills or for individuals looking to change or enhance their careers.

Note: All courses below are offered on an ongoing basis as online distance education courses.

Important Note: Students who wish to receive the certificate must apply for the program officially. You may apply at any time before or during your studies. Students who do not meet the requirements but would like to take the courses may do so, but no certificate will be granted upon completion. These courses are not recommended for students who do not meet the English Language Proficiency requirements.

Program overview

Your career
- Records Management Team Leader
- Document Management Specialist Manager
- Document Control

Admission requirements

At least 60% in each of the following courses or their equivalents:
- English Language Arts 30-1 or English Language Arts 30-2
- Two of the following Grade 12 subjects: Math (Pure Math 30, Applied Math 30, Math 30-1, Math 30-2 or Math 30-3), Science, Social Science, Accounting, Law or a second language.
- MGMT 244 (Fundamentals of Information and Records Management) may be substituted for one of the Grade 12 subjects. This course is available through continuing education.
- All applicants, including students educated in Canada, must demonstrate English Language Proficiency prior to admission.

Costs

Tuition (subject to change)
- Courses are individually priced, for current pricing please see the program page on sait.ca
- For student funding, please refer to Financial Assistance.

Information Systems Security

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description

Computer and systems security are an integral part of our everyday lives. When the systems work it is transparent but when they fail it can be catastrophic. Not only are businesses focused on the security of their data, nation states are focused on the security of their people. Terrorism, rogue states, organized crime and low-level cyber-warfare are all part of today’s threat landscapes.

The Information Systems Security program prepares you for entering the security profession with confidence and solid fundamental knowledge. You will use a wide variety of defensive and offensive tools while learning the fundamentals of: networking, malware analysis, reverse engineering, tool construction, operating systems internals, forensics, legal/ethical issues, social engineering and military strategy.

Information Systems Security will have some of its courses delivered in a unique lab environment designed to contain and control the possible spread of the malware being analyzed. The First year of the program rests on a strong base of fundamental skills: programming, operating systems, networking and strategy. The Second year moves into the more practical applications of defense and offensive technologies accumulating with a capstone project in which students will apply knowledge learned from previous courses. The program is two years in length with each academic year divided into two 15-week semesters.

All Information Systems Security students participate in e-learning based curriculum. Students lease PC laptop computers from SAIT, which are equipped with various virtual environments and software applications.

A criminal records check may be required by potential employers. Basic level of computer networking and “C” language programming will greatly enhance your success as a student in this program.

Program overview

Your career

Upon graduation, you may find employment in a wide variety of areas: penetration testing, log analysis, threat analysis, risk management, network security, Internet of Things hardening, physical security, quality assurance, malware analysis and security audits. The security industry is experiencing a large deficit in well trained, entry level security professionals who can be instantly productive in a large variety of jobs. The opportunities are exciting, but the career is intellectually challenging, requiring lifelong learners with unusual dedication and focus.

Student success

Applicants with strong curiosity, good problem-solving skills and excellent work habits are usually more successful in programs such as Information Systems Security.

Credentials and accreditations

Upon successfully completing this program, graduates will receive a SAIT diploma in Information Systems Security.

There are no formal accreditation arrangements currently. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:

- At least 65% in Math 30-1 or at least 70% in Math 30-2 or Applied Math 30, AND,
- At least 60% in English Language Arts 30-1, or at least 65% in English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- All qualified students will enter selection.
Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend that you add ict.info@sait.ca and the sait.ca domain to your safe sender’s list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $3,000.
- A $400 security deposit to use a SAIT issued laptop.

Information Security Analyst

• Post-diploma certificate
• Fall start date
• Part-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
Graduates of the Information Security program will develop skills to identify and interpret information security threats and risks in a business context. They can adapt industry standard frameworks to propose practical solutions to mitigate risks.
Graduates will learn to investigate cybersecurity events or crimes related to IT systems, networks and digital assets. They will learn to review, analyze and evaluate incoming cybersecurity threats that impact strategy and operations.

Program overview
Your career
There is a global shortage in the supply of qualified cybersecurity workers that is expected to continue over the next several years. Half of all cybersecurity job openings remain unfilled for three months or more, most commonly due to a lack of qualified applicants. In Canada, job seeker interest in cybersecurity roles meets only two-thirds of employer demand. There are not enough applicants for the posted jobs.
There are growing opportunities in Alberta for IT professionals to find jobs in:
• Public Administration
• Health Care
• Business
• Finance
• Oil and Gas
• Manufacturing
• Supply Chain
• Transportation

In North America, 68% of professionals reported a shortage of information security workers in their departments in 2017, and the majority believe it is due to a lack of qualified workers.
Globally, the cyber workforce is expanding across both the goods-producing and service sectors. The strongest sectors for expansion in cybersecurity workers (reported as a % increase in cyber workforce) are:
• Health Care
• Retail
• Manufacturing
• Education
• Energy
All of these industries will require information security resources to protect their digital property. SAIT graduates of the Information Security Analyst post-diploma certificate will be given the opportunity to specialize in information security and enhance their current skills.

Student success
This program requires a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.
We find there is a direct correlation between the time and energy invested to the amount of success achieved. Learners with strong time-management and discipline have a greater propensity to succeed.
Remaining focused and diligent with coursework is important for success in completing the program.

Credentials and accreditations
Upon successful completion of this program, graduates will receive a SAIT Information Security Analyst post-diploma certificate.
Admission requirements

Applicants must meet the following or equivalent:

- Completion of a post-secondary degree or diploma from a recognized university, institute, or college.

- A combination of education and experience may be considered and is subject to approval by the Academic Chair.

- All applicants must demonstrate English language proficiency prior to admission, including students educated in Canada.

Ideal candidate

The ideal candidate for the Information Security Analyst post-diploma certificate has a previous post-secondary diploma or degree, ideally in a technical or information technology discipline. You have education or work experience in software development and/or computer networking or related fields. You understand the critical nature of cybersecurity and are intrigued by the ever-changing ways that both corporate and personal information continue to be compromised. You have a strong ethical standard and a curious mind.

Get started as an undeclared student

The courses in the Information Security Analyst program allow for registration into individual courses without going through the SAIT application process. It is important you read the ideal candidate statement above to be sure you are a good fit for these courses.

You may apply to complete the credential at any time through Apply Alberta at which time you will have to submit transcripts for entrance into the credential. You must apply for prior learning assessment if you wish to get credit for a required course based on previous education or experience.

Information Technology

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
Information Technology deals with the generation, storage, retrieval, transmission and protection of information, and the hardware and software involved in these processes. For that reason, IT professionals are often called IT specialists/consultants or business process consultants, and the division of an organization that deals with computers, software and communication technology is often called the IT department.

The growth of the IT sector in Canada is expected to continue to outpace other market segments in the future according to the Canadian and Alberta governments and independent research companies such as Forrester’s and the Information and Communications Technology Council (ICTC) of Canada.

The Information Technology program encompasses four majors: Computer Systems, Network Systems, Software Development, and Telecommunications. The first semester is common to all four majors. It is a full-time, two-year diploma program. This program utilizes an e-learning (SAIT issued laptop computer) instructional delivery method.

Majors

ITCS: What is the IT Computer Systems major?
A two-year program that prepares ITCS graduates for the IT functions that work with the people and processes that help keep the computers, communications and information systems installed, connected, maintained and supported. Students receive in-depth training on computer hardware and peripheral systems, server and system administration, operating systems, data center management and virtualization, networking, and IT security. In addition, students develop skills in interpersonal communications and teamwork, customer service protocols, business applications and problem-solving techniques.

ITNS: What is the IT Network Systems major?
A two-year program of study that prepares ITNS graduates for the analysis, planning, design, installation and optimization of computer networks and network systems. Students receive in-depth training on network infrastructure that includes router, switch and server configurations, plus IP telephony, security and emerging technologies. The training provided in this major prepares graduates for the highly recognized Cisco CCNA and CCNP industry certifications.

ITSD: What is the IT Software Development major?
A two-year program that prepares ITSD graduates for work in a variety of IT activities including the design, development, implementation, testing and maintenance of software systems. Students receive in-depth training in programming techniques as well as analysis, design, implementation and testing of new programs on multiple hardware and software platforms (e.g. Windows, Web and Linux) using a variety of programming languages (e.g. Java, C, PHP, XML, PL/SQL, SQL) and different supporting technologies (e.g. Communications Networks, Databases, Operating Systems).

ITTS: What is the IT Telecommunications major?
A two-year program of study that prepares ITTC graduates to be proficient in Telecommunications technologies that facilitate the Global Transmission of voice, video, data, text, and audio using smart phones, tablets and computing devices via media such as wireless, satellite and copper/fiber optic cabling technologies. Students receive in-depth training on designing, installing, configuring, commissioning, integrating, maintaining and administering voice, data and video networks.

Program overview
Your career

Computer Systems Major: Graduates of the Computer Systems major will have rewarding careers with a diverse set of job titles and descriptions. They help keep computers, communications, data centres, mobile devices and information systems installed, connected, maintained, supported and secure. Graduates will often start in entry-level technical support roles (customer support representative, help desk, desktop support level one, etc.) and advance to more sophisticated levels of IT support roles, management of support teams; or specialize into storage architecture, server administration, virtualization; or IT security areas. Graduates will have a well-rounded and strong foundation to begin their careers in the growing field of IT technical systems and support, with the opportunity to advance into senior technical analyst, systems administration and IT management roles.

Network Systems Major: Graduates of the Network Systems major will have strong technical skills in designing, installing, configuring, maintaining and administering enterprise local area networks and associated servers, security and storage devices. This major focuses on the network infrastructure of an organization, which involves the storage, retrieval, transmission and protection of information, and the hardware and software involved in these processes. In addition to comprehensive technical skills, graduates will acquire and demonstrate the professional communications, general business, problem solving, and project management skills required for success in industry. Students receive in-depth training on router, switch and server configuration for support of network infrastructure, data transmission media, wireless, Voice over IP and new and emerging technologies. Students also receive the training required for industry recognized certifications.
Software Development Major: Software Development encompasses a variety of activities including the design, implementation, testing and maintenance of software systems. Software Developers are required to have a broad set of technical skills covering all aspects of IT system analysis, design, development and testing. Such skills often include knowledge of the use of computer hardware, communications networks and databases, in addition to computer programming. Skills in all of these areas are an integral part of the software development process. Graduates will possess a broad, practical knowledge of both software development and the Information Technology profession. They may work on the development of software systems, often collaboratively in teams with other programmers. Typical tasks include the analysis, design, implementation and testing of new programs on multiple hardware and software platforms (e.g., Windows, Web and Linux) using a variety of programming languages (e.g., Java, C, PHP, XML, PL/SQL) and different supporting technologies (e.g., Communications Networks, Databases, Operating Systems).

Telecommunications Major: Graduates of the Telecommunications major may find employment as a telecom technologist, production test technologist, cable technician, service technician, associated field engineer, sales and marketing, communication equipment installer and manufacturing technologist. They will be proficient in designing, installing, configuring, commissioning, integrating, maintaining and administering voice, data, and video networks owned by telecommunications companies (TELCOs) or Internet Service Providers (ISPs). They also find careers in a wide range of businesses, industries, and government institutions. Technical competencies will include IP networking, Voice over IP (VoIP), Optical Transport Networks, Copper and Fiber Outside Plant, CO and PBX switching, Metropolitan and Wide Area Networks (MANs and WANs), cellular, digital, and wireless technologies. Graduates will acquire business communications and project management skills.

Student success
Characteristics of a successful student in this program include:
- A working knowledge of MS Office Suite would be an asset.
- Enjoy keeping up-to-date on new technological developments, continue to take training and enjoy learning new skills.
- Managing your time and work effectively while facing deadlines.
- Working independently with little supervision but can also perform as a vital member of a team of professionals.
- Ability to pay attention to detail and take personal pride in their technical problem-solving skills.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT diploma in Information Technology.

Accreditation
For information about accreditation for each major, please call the School of Information and Communications Technologies (ICT) at 403.284.8543.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 50% in Math 30-1 or Pure Math 30, or at least 60% in Math 30-2 or Applied Math 30, AND,
- At least 55% in English Language Arts 30-1, or at least 60% in English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add ict.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Please contact the School of Information and Communications Technologies for information regarding the books and supplies.
- A $400 security deposit to use a SAIT issued laptop.
Program outline

**First year**

**Semester 1**

CMPH 211 – Computer Hardware and Operating System Essentials 3 credits  
CMPP 269 – Computer Programming Essentials 3 credits  
CMPS 237 – Information Technology Foundations 3 credits  
COMM 256 – Professional Communications and Presentation Skills 3 credits  
CPNT 220 – Introduction to Networking 3 credits

**Majors**

**Computer Systems**

**First year**

**Semester 2**

CMPH 252 – Systems Hardware I 3 credits  
CMPS 254 – Computer Operating Systems 3 credits  
CPRG 260 – Scripting for System Administrators 3 credits  
HREL 250 – Business Dynamics 3 credits  
CMPS 275 – Client–Server Administration 3 credits

**Second year**

**Semester 3**

CMPH 308 – Data Center Systems and Storage 3 credits  
CMPS 305 – Server Service Administration 3 credits  
CPRG 302 – Web Essentials 3 credits  
ITSC 311 – Information Technology Security I 3 credits  
PROJ 304 – Project Preparation 3 credits

**Semester 4**

CMPS 368 – Data Center Management and Virtualization 3 credits  
INTP 354 – Service Management 3 credits  
INTP 362 – Emerging Trends in Technology 3 credits  
ITSC 321 – Information Technology Security II 3 credits  
PROJ 354 – Capstone Project 3 credits

**Network Systems**

**First year**

**Semester 2**

CMPS 275 – Client–Server Administration 3 credits  
CPNT 254 – Switching and Routing Essentials 3 credits  
CPRG 261 – Scripting for Network Administrators 3 credits  
ELCM 254 – Structured Cabling 3 credits  
HREL 250 – Business Dynamics 3 credits

**Second year**

**Semester 3**

CMPS 313 – Voice Over Internet Protocol 3 credits  
CMPN 332 – Advanced Routing 3 credits  
CMPS 305 – Server Service Administration 3 credits  
ITSC 359 – Network Security Techniques 3 credits  
PROJ 304 – Project Preparation 3 credits

**Semester 4**

CMPN 361 – Server Management 3 credits  
CMPN 371 – Wireless Networks 3 credits  
CMPN 383 – Server Virtualization 3 credits  
CMPN 386 – Advanced Networking and Troubleshooting 3 credits  
PROJ 354 – Capstone Project 3 credits

**Software Development**

**First year**

**Semester 2**

CMPS 253 – Interface Design 3 credits  
CPRG 250 – Database Design and Programming 3 credits  
CPRG 251 – Object–Oriented Programming Essentials 3 credits  
CPRG 256 – Website Development Fundamentals 3 credits  
HREL 250 – Business Dynamics 3 credits

**Semester 4**

CMPS 303 – Object Oriented Systems Analysis and Design 3 credits  
CPRG 307 – Database Programming and Testing 3 credits  
CPRG 311 – Advanced Object–Oriented Programming 3 credits  
CPRG 352 – Web Application Programming 3 credits  
PROJ 304 – Project Preparation 3 credits

**Second year**

**Semester 3**

CMPS 369 – Operating Systems for Software Developers 3 credits  
DBAD 300 – Introduction to Database Administration 3 credits  
INTP 362 – Emerging Trends in Technology 3 credits  
ITSC 315 – Security for Software Developers 3 credits  
PROJ 354 – Capstone Project 3 credits
Telecom Systems
First year
Semester 2
CMPS 275 – Client – Server Administration 3 credits
CPNT 254 – Switching and Routing Essentials 3 credits
ELCM 254 – Structured Cabling 3 credits
ELTR 251 – Electronics for Information Technology 3 credits
HREL 250 – Business Dynamics 3 credits

Second year
Semester 3
CMPT 313 – Voice Over Internet Protocol 3 credits
CPNT 301 – WAN and ISP Routing 3 credits
ELCM 252 – Digital Transmission Techniques 3 credits
ELCM 303 – Wireless Telecommunications 3 credits
PROJ 304 – Project Preparation 3 credits

Semester 4
ELCM 306 – PBX Switching Principles 3 credits
ELCM 308 – Service Provider Access Technologies 3 credits
ELCM 363 – Wide Area Networking Transport Technologies 3 credits
CPNT 351 – Multi – Protocol Label Switching and IP Qos 3 credits
PROJ 354 – Capstone Project 3 credits
Total 60 credits

Transfer options
The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Business Academy Aarhus, Denmark
- Griffith University
- NAIT
- Thompson Rivers University
- University of Lethbridge
- University of Ontario Institute of Technology (UOIT)
- University of the Fraser Valley

Have questions? Write to us at transfer.options@sait.ca.
Instrumentation Engineering Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Instrumentation Engineering Technology provides students with sound theoretical and practical training in the operation and maintenance of automated process control and measurement systems used in the production of various commodities. Instrumentation technologists use electronic test equipment to install, troubleshoot, calibrate, maintain and repair electrical/electronic measurement and control instruments. Students will learn about pneumatic devices, control valves, electronic instruments, digital logic devices, computer-based process controls and control system design. Students also become well versed in personal computer applications in instrumentation, process control systems design, Fieldbus™ SCADA, PLC, distributed control system design and interfacing of industrial microcomputer control systems with real processes. Modern laboratory facilities include pilot-scale versions of processes found in various industries and a fully equipped control room.

The Instrumentation Engineering Technology program is currently only offered full-time; distance and continuing education options are not available. Each academic year consists of two 15-week semesters and students generally take two years to complete the program.

Program overview
Your career
Opportunities for employment exist in engineering design, instrumentation sales and industrial process plants in a variety of sectors, including power production, oil and gas refining, processing, transportation, fertilizer production, pulp and paper, wood processing, petrochemical processing, food processing, mining and manufacturing.

Graduates of the Instrumentation Engineering Technology program have a 94% employment rate.

Student success
The Instrumentation Engineering Technology program (IET) requires an interest and aptitude for math, science and computers. The foundation that you have developed in these areas through previous education and experience will be further enhanced through courses that include lecture and laboratory components.

Contact time with instructors in lectures and labs is thirty hours per week. The average student is expected to spend about an additional twenty-five hours per week on assignments, studying and projects.

A career in Instrumentation Engineering Technology typically includes both office and field work. Depending on someone’s particular career path the proportion of office and field exposure can vary significantly. In the IET program students are exposed to lab work that simulates field activities. This includes using machinery and hand tools to assemble, calibrate and troubleshoot industrial instrumentation components, following safety requirements including the use of personal protective equipment like safety glasses and footwear.

Some of the subject areas that are a focus of the program include:
- Industrial Process Analysis
- Process Instruments
- Analytical Instruments
- Control and Safety Systems

In the industry, instrumentation practitioners will often work in teams of various sizes. In the IET program many courses require working in teams for projects or lab assignments.

We invite you to reflect on the following questions:
- Do I enjoy working in a team environment?
- Am I a good communicator? Verbal (good English language skills); Written (clear, concise)
- Am I a self-starter who likes to think critically through problems and challenges?
- Am I adaptable?

The IET program is designed to provide teaching, or the delivery of information to students, at the beginning of the program, but evolves to more of a coaching role, where students learn more independently, by the end of the program. This requires that students take more initiative and responsibility for their learning, with instructors available as a resource, as they progress through the program.

Students will have to secure their own job after graduation. Assistance is available on resumé writing and interviewing for a position. Networking opportunities with industry are available through the program. Students are encouraged to be active in their student club, to develop the soft skills that are important to a successful career and to access additional opportunities to network with industry.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT diploma in Instrumentation Engineering Technology.

Accreditation
Technology Accreditation Canada (TAC) nationally accredits the Instrumentation Engineering Technology program. Students are eligible for membership in the Association of Science and Engineering Technology Professionals in Alberta (ASET) and International Society of Automation (ISA).
Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or their equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2, AND,
- At least 60% in Physics 20, AND,
- At least 60% in Chemistry 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add iiet.selectionprocess@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Reserved seats
Four seats are reserved for applicants who have completed and obtained a minimum of 70% in each of the following Career and Technology Studies courses:
- PRS 1010 - Overview of Alberta Geology
- PRS 1020 - Non-renewable Resources
- PRS 1060 - Consumer Products and Services
- PRS 2030 - Non-Conventional Hydrocarbon Exploration
- PRS 2060 - Refining Hydrocarbons

Costs
Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies (subject to change) are approximately $1,775 for the First year and $1,215 for the Second year.

Program outline
First year
Semester 1
- APSC 215 – Applied Physics for Instrumentation 1.5 credits
- COMP 261 – Microsoft Office: An Introduction 1.5 credits
- ELEC 256 – Electrical Fundamentals 3 credits
- INST 202 – Process Instruments I 3 credits
- INST 257 – World of Instrumentation 3 credits
- MATH 238 – Math for Engineering and Tech I 3 credits
Semester 2
- COMM 238 – Technical Communications I 3 credits
- ELEC 258 – Electrical Applications 3 credits
- INST 262 – Process Instruments II 3 credits
- MATH 288 – Mathematics for Engineering and Technology II 3 credits
- MNTN 231 – Instrument Installation and Maintenance 1.5 credits
- INST 265 – Programming for Instrumentation 1.5 credits
Second year
Semester 3
- CMPN 317 – Remote Automation Systems 3 credits
- INST 335 – Instrumentation Software 1.5 credits
- STAT 245 – Statistics for Engineering and Technology I 3 credits
- CNTR 322 – Process Control Systems I 3 credits
- CMPN 337 – Distributed Control Systems I 3 credits
- APSC 202 – Applied Chemistry for Instrumentation 1.5 credits
Semester 4
- ANLS 330 – Process Analyzers 3 credits
- INST 345 – Advanced Technologies 3 credits
- PROJ 370 – Instrumentation Project 3 credits
- CMPN 330 – Distributed Control Systems II 3 credits
- CNTR 359 – Process Control Systems II 3 credits
Total
- 60 credits

Transfer options
The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- Camosun College
- Thompson Rivers University
- University of Victoria
To learn more, visit Transfer options on sait.ca.
Integrated Water Management

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Gain technical skills in water management to work on solutions for global water issues. Graduates will acquire specialized knowledge and market-sought skills in both industrial and environmental applications. Students conduct applied research projects over three semesters, with a unique opportunity to work with industry partners and mentors.

Program overview

Your career
Graduates of this program find work in industries such as water quality, water restoration and damage, environmental health and safety, natural resource management and waste management. Possible career opportunities include:
- junior water analyst
- water systems designer
- junior planner/policy analyst or strategist
- industrial water technologist
- field inspector
- junior watershed planner
- environmental water analyst
- environmental scientist

Student success
Students with higher grades usually experience more success in SAIT programs. An interest in science and mathematics would be an asset. Specific interest in physics and chemistry are desirable.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT Integrated Water Management Diploma.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in English Language Arts 30-1, OR 60% in English Language Arts 30-2, AND,
- At least 60% in Math 30-1, OR Pure Math 30, AND,
- At least 50% in Chemistry 20, AND,
- At least 50% in Physics 20, AND
- At least 50% in Biology 20.
All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- See sait.ca for details
### Program outline

#### First Year

**Semester 1**
- COMM 256 – Professional Communications and Presentation Skills | 3 credits
- MNGT 204 – Health, Safety, and Society | 3 credits
- MNGT 206 – People and Project Management | 3 credits
- WATR 203 – Water Fundamentals | 3 credits
- WATR 206 – Water Management | 3 credits

**Semester 2**
- DATA 200 – Data Management and Analytics | 3 credits
- PROJ 210 – Applied Project Development I | 3 credits
- TECH 200 – Developments in Technology | 3 credits
- WATR 204 – Water and Environment | 3 credits
- WATR 205 – Water, Governance, and Law | 3 credits

#### Second Year

**Semester 3**
- INRY 301 – Industry and Environment Applications | 3 credits
- PROJ 301 – Applied Project Development II | 3 credits
- RSMG 300 – Risk Management | 3 credits
- WATR 300 – Climate, Geopolitical and Economic Drivers of Water | 3 credits
- WATR 302 – Innovation and Disruption in Water Systems | 3 credits

**Semester 4**
- PROJ 307 – Capstone Project | 6 credits
- WATR 301 – Water Management Economics | 3 credits
- Elective (choose 1)
  - ENVS 306 – Water Environmental Technologies | 6 credits
  - INRY 300 – Advanced Industry Applications | 56 credits

**Total** | 60 credits

### Transfer options

Once completed, this SAIT credential may be eligible for transfer credit at another post-secondary institution. Visit transfer options to learn more about the transfer agreements currently available to SAIT graduates and incoming students.

Have questions? Write to us at transfer.options@sait.ca.
Journalism

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
Journalism in the 21st Century is an exciting world that offers many opportunities for those seeking to build a career. News Writing, and photojournalism are the main skills taught in the Journalism program; other specialties including advertising and public relations, publication design, and online journalism are also covered in the First year of study.

In the Second year of the program, students may concentrate either on photojournalism or print and online journalism studies.

Majors
Photojournalism - Students study advanced lighting, feature, sports, advertising, lifestyle, portraiture, studio, location and staff photography techniques, in addition to portfolio strategies as they apply to digital photography systems and applications required by print media publications.

Students secure their own placements, which are approved by the program, to complete a 4-week work experience internship.

Print and Online Journalism - Students study professional techniques of writing, editing, designing, and laying out newspapers and magazines using desktop publishing techniques. They also practice special photo techniques.

During the last two semesters, students complete practicums, usually at newspapers and magazines.

Program overview
Your career
Graduates from this program in the Print and Online Journalism option may find employment with newspapers and magazines, public affairs, advertising agencies, and other information and entertainment media, as a reporter or technical writer.

Graduates from the Photojournalism option may find employment with newspapers and magazines, wire services agencies, public relations and advertising agencies, and other information and entertainment media, as an independent photojournalist, photographer, photographic editor or page designer.

Graduates of the Journalism program have a 90% employment rate.

Student success
Students with higher grades usually experience more success in SAIT’s programs.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Journalism with a major in Photojournalism.

Accreditation
There are no formal accreditation arrangements at this time. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 60% in the following:
- English Language Arts 30-1 or English Language Arts 30-2 or equivalents.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.
Books and supplies (subject to change)

- First-year books and supplies cost approximately $500.
- A $400 security deposit to use a SAIT issued laptop.
- All first-year Journalism students are required to purchase a Digital Single Lens Reflex camera (approximately $1,200) and electronic flash (approximately $500). Cameras and flashes must meet requirements that will be specified by your photography instructors.
- The Second year Photojournalism option is a fully digital program. Students may wish to upgrade digital camera equipment that will be compatible to program specifications. In the Second year, Photojournalism option, you can expect additional costs up to $8,500 for digital photography equipment, supplies and books.
- Second year Print and Online Journalism option, books and supplies cost approximately $400.

Program outline

First year

Semester 1
PHOT 216 – Visual Journalism I 3 credits
PREL 218 – Marketing and Communications for Journalists 3 credits
PUBL 210 – Media Software for Journalists 3 credits

Land Analyst

- Certificate
- Continuing education online

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
The Land Analyst Certificate is an online ten course credit program that prepares graduates to contribute to the management of Oil and Gas Industry by providing hands-on skills in surface land administration. Land Analysts co-ordinate and act as a liaison between corporations, land owners, regulators, and government departments. Some of the potential roles for graduates are land and records administrator, surface land coordinator, project analyst, community relations representative, lease records analyst, renewable energy administrator, and surface land administrator in the energy, utilities, environmental and transportation sectors.

Admission requirements
- 50% or better in English Language Arts 30-1 or 30-2
- 50% or better in Math 20-1 or Math 20-2 (Pure or Applied Math 20)

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

Legal Assistant

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
School of Business
Phone: 403.284.8485
Email: business.advising@sait.ca

Program description
Prepare for a career in the legal profession with SAIT’s Legal Assistant diploma. Discover how to be an integral part of a legal practice with highly specialized legal administrative skills. In this practical two-year diploma, your instructors are lawyers and former legal assistants who show you how to assist your lawyer with important tasks on various files. Using industry software on your SAIT-issued laptop, you develop accurate keyboarding and transcription skills—and adapt your strong command of English spelling and grammar to effectively prepare various legal documents.

In your substantive courses, you master relevant terminology for corporate law, real estate law, family law, criminal law and more. You practice legal assistant tasks such as preparing a separation agreement, a criminal law file and a corporate minute book. In your capstone course, you simulate a real law office to integrate all your legal assistant knowledge. At the end of the program, you demonstrate your professionalism and expertise to potential employers in your one month practicum placement. You graduate as a skilled legal assistant and highly employable in law firms and the court system.

Program overview
Fast facts
- Laptop-based program using SAIT-issued laptops
- Includes a four-week unpaid practicum placement
- Limited number of courses available through Continuing Education

Your career
You can become a legal assistant, junior paralegal, judicial clerk or another legal support role. You can find work in law firms, the court system, registries, and with businesses such as oil and gas corporations.

Student success
To be successful in this program, you should:
- Attend and actively participate in class
- Spend six hours per week on each course, outside of regular class time
- Have a strong command of the English language along with a solid foundation in writing skills and vocabulary, which will be further developed in the program
- Have good organizational skills and attention to detail, which are necessary in the program and as a Legal Assistant
- Have strong computer skills and a keyboarding speed of 30 words per minute (strongly recommended)
- Be prepared to work in teams
- Become familiar with and adhere to SAIT’s academic policies

If you are engaged in campus life and take advantage of SAIT support services, you may have a greater chance of success in SAIT’s programs.

Credentials and accreditations
Upon successful completion of the program, graduates will receive a SAIT Legal Assistant diploma.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
At least 50% in the following courses or equivalents:
- English Language Arts 30-1 or English Language Arts 30-2, AND,
- Math 10C or Math 20-3 or Applied Math 10 or Pure Math 10.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add business.advising@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs

Tuition (subject to change)

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Books and supplies are approximately $1,000 per year.
- A $400 security deposit to use a SAIT issued laptop.

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Royal Roads University
- University of Lethbridge
- University of Ontario Institute of Technology (UOIT)

To learn more, visit Transfer Options on sait.ca.
Program description

Information resourcing is a high-tech adventure and a sought-after skill. Various industries need employees with people skills to organize, access and manage the expanding volume of information in today’s world. LIT students gain proficiency in every area of library operations, from database searching, library network technology, cataloguing and classification to public relations, web design and records management. The two-year LIT diploma is offered at SAIT as a day-time diploma program. Students can also begin this diploma by completing Continuing education courses.

Program overview

Your career

Graduates may find employment as a library technician/assistant, information specialist, research assistant/analyst, and records management technician. This program also prepares graduates for numerous career opportunities in public and school libraries, as well as specialty libraries in areas of petroleum, law, medicine, geology, social services, government, or in related organizations such as records information centres, library wholesalers, software companies and bookstores.

Graduates of the Library Information Technology program have a 95% employment rate.

Student success

Students with higher grades usually experience more success in SAIT’s programs.

Credentials

After successfully completing this program, graduates will receive a SAIT diploma in Library Information Technology.

Accreditation

There are no formal accreditation arrangements at this time. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

At least 60% in the following courses or equivalents:

- English Language Arts 30-1 or English Language Arts 30-2 or equivalents, AND,
- Two of the following Grade 12 subjects: Math, Science, Social Science, Accounting, Law or a second language.
- LIBR-200 (Introduction to Libraries) may be substituted for one of the two Grade 12 subjects. This course is available through distance education.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Books and supplies are approximately $2,000.
- LIT Distance courses are priced from approximately $399 to $601, plus textbooks and handling charges.
Program outline

First year
Semester 1
- COMN 220 – Communication and Presentation Skills 3 credits
- COMP 220 – Computer Fundamentals 3 credits
- LIBR 200 – Introduction to Libraries 3 credits
- LIBR 202 – Bibliographic Description and Access I 3 credits
- LIBR 235 – Library Information Services I 3 credits
- LIBR 297 – Library Operations 3 credits

Semester 2
- COMM 352 – Communicating in the Workplace 1.5 credits
- LIBR 251 – Integrated Library Technology 3 credits
- LIBR 252 – Bibliographic Description and Access II 3 credits
- LIBR 335 – Library Information Services II 3 credits
- MGMT 244 – Fundamentals of Information and Records Management 3 credits
- MKTG 360 – Library Marketing 1.5 credits

Second year
Semester 3
- DATA 375 – Online Database Searching 3 credits
- LIBR 302 – Bibliographic Description and Access III 3 credits
- LIBR 305 – Library Technology Customer Service 3 credits
- LIBR 320 – Design Web Tools for Libraries 3 credits
- PRAC 320 – Practicum Preparation 1.5 credits

Semester 4
- LIBR 323 – Managing Digital Content 3 credits
- MGMT 215 – Advanced Information and Records Management 3 credits
- MMGT 350 – Information Management Administration 3 credits
- PRAC 392 – Library Practicum 3 credits

Electives
Students are required to complete 3 elective courses
- LIBR 260 – Collection Development for Adults 1.5 credits
- LIBR 310 – Special Libraries 1.5 credits
- LIBR 315 – Services Children and Young Adults 1.5 credits
- LIBR 330 – Storytelling 1.5 credits
- LIBR 340 – Specialized Terminology 1.5 credits
- LIBR 349 – Library and Information Technology Project I 1.5 credits
- LIBR 351 – Public Libraries 1.5 credits
- LIBR 399 – Library and Information Technology Project II 1.5 credits
Total 61.5 credits

Transfer options
The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- British Columbia Institute of Technology (BCIT)
- Royal Roads University
- University of New Brunswick, Saint John
- University of Ontario Institute of Technology (UOIT)
To learn more, visit Transfer Options on sait.ca.
Machinist Technician

- One-year certificate
- Fall start date
- Full-time classroom

Contact us
School of Manufacturing and Automation
Phone: 403.284.8641
Email: ma.info@sait.ca

Program description
This full-time program is a great way to start your career as a Machinist — a rewarding and challenging trade with precision and craftsmanship as core attributes. As a Machinist Technician, you’ll set up and operate precision equipment for the production of a variety of components and assemblies. Machinists make or modify primarily metal components to very fine tolerances. At 30-weeks in length (900 hours), this program contains content nearly double that afforded by the Machinist apprenticeship stream for equivalent periods. You will learn skills including, but not limited to: machining, machine set-up, blueprint reading, process planning, design validation, precision measurement, and heat treatment.

Metal cutting and shaping operations use a variety of machine tools, including conventional mills, drills, lathes, and grinders. As modern machine tools are often computer-driven, a Machinist Technician may be responsible for programming and operating high-tech Computer Numerically Controlled (CNC) equipment such as CNC mills, lathes, Electrical Discharge Machines (EDM), and Coordinate Measuring Machines (CMM).

Upon successful completion of your first 15 weeks, you will be eligible to write the first period Machinist apprenticeship exam. At the end of 30-weeks, you will be eligible to write the second period Machinist apprenticeship exam. Upon successful completion of the entire program, you will receive a SAIT Machinist Technician Certificate.

Program overview

Your career
Modern machine shops are clean and safe work environments. Machinist Technicians may find employment in a variety of industries including but not limited to transportation, oil and gas manufacturing, medical technology, wherever equipment is being manufactured or repaired.

Graduates of the Machinist Technician program benefit from a high level of industry demand, having achieved recognized training equivalent to the first two periods of the Machinist apprenticeship program. A certificate from the SAIT Machinist Technician program demonstrates the core competencies required for success in the Machinist trade.

Graduates of the Machinist Technician program have a 100% employment rate.

Student success
Students with higher grades usually experience more success in SAIT’s programs.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT certificate as a Machinist Technician.

Graduates are eligible to write the first and second-year Provincial Apprenticeship Board exams for the machinist trade provided they attain a minimum of 65% in all their courses. Apprenticeship exam fees will be required.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.
Admission requirements

Successful completion of the following courses or equivalents:

- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2, AND,
- Science 10
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 4) or equivalent is accepted in lieu of the above requirements.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Books and supplies for both semesters are approximately $325 (there is some fluctuation with module pricing).
- Optional text Machinery’s Handbook is approximately $160.

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Apprenticeship and Industry Training*

To learn more, visit Transfer options on sait.ca.

*Upon finding an employer who will indenture you as an apprentice.
**Mechanical Engineering Technology**

- Two-year and three-year (evening and weekend) diploma
- Fall and winter start dates
- Full-time classroom and evening/weekend classroom

**Program description**

The Mechanical Engineering Technology program is a practical, hands-on, full-time, diploma program that lets you develop strong technical, analytical, and problem solving skills essential for a range of exciting careers in the challenging field of mechanical engineering.

During the common first year you will be exposed to a variety of topics including foundational math and physics, Computer Aided Design (CAD) and additional specialized courses to prepare you to enter into one of three specialized majors. Upon successful completion of the common First year, selection of your major will occur. Although SAIT will attempt to help students complete the program major of their choice, grade point for specific courses will be used in the selection criteria for each major, in case of a seat shortage for specific majors.

The following majors are available for the Mechanical Engineering Technology program:
- Design and Analysis
- Design and Development
- Design and Automation

**Majors**

Common to all: In all three available majors, a focus will be placed on professionalism, creativity, team work, effective communication and collaboration. Each student will also participate in a major capstone project that will address a real-world industry challenge.

The specific areas of study for the three majors will be:

**Design and Analysis Major:**
- Mechanical system design
- Vibration Analysis
- Thermodynamics
- Fluid Mechanics

**Design and Development Major:**
- Model Making
- Prototyping
- Ergonomics

**Design and Automation Major:**
- Automation Systems Design
- Control Systems (PLC)
- Industrial robotics

**Program overview**

**Your career**

Graduates will have obtained the designation of Mechanical Engineering Technologists, with a specialization in either Design and Analysis, Design and Development or Design and Automation.

As a Mechanical Engineering Technologist, you may find employment in the areas of research and development, mechanical equipment design, testing, quality control or project management. Mechanical Engineering Technologists are needed in a wide range of professional and technical industry sectors including: manufacturing, oil and gas, energy production, electronics, aerospace, plastics, wood products, warehousing, food processing and technical sales.

Upon successful completion of this program, you will have gained specialized skills in the area of your major:
- **Design and Analysis major**—design, analysis and troubleshooting of various systems including mechanical, thermal and fluids
- **Design and Development major**—product design and development, prototyping, ergonomics and industrial design.
- **Design and Automation major**—automated systems design and maintenance, manufacturing controls, and robotics.

Did you know graduates of the Mechanical Engineering Technology program have a 92% employment rate?

**Student success**

Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

**Credentials**

After successfully completing this program, graduates will receive a SAIT diploma in either:
- Mechanical Engineering Technology-Design and Analysis
- Mechanical Engineering Technology-Design and Development
- Mechanical Engineering Technology-Design and Automation

**Accreditation**

All three majors are nationally accredited by the Canadian Council of Technicians and Technologists (CCTT). Graduates may apply for their Certified Engineering Technologist (CET) designation after two years of appropriate work experience.

While attending SAIT, Mechanical Engineering Technology students can become members of the following societies:
- Association of Science and Engineering Technology Professionals (ASET).
- Society of Automotive Engineers (SAE).
- American Society for Quality (ASQ).
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- At least 60% in Physics 20 and Chemistry 20, or at least 60% in Science 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive Entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

We recommend you add met.selection@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $1,500 per year

Program outline

Two-year diploma, full-time
First year

Semester 1
- MATH 238 – Math for Engineering and Tech I
- STCS 255 – Engineering Statics
- COMP 213 – Computing for Engineering Technology
- THRM 200 – Introduction to Thermodynamics
- MECH 205 – Electro-Mechanical Systems

Semester 2
- MATH 288 – Mathematics for Engineering and Technology II
- DYNA 265 – Dynamics
- MECH 202 – Technology and Society
- EMTL 250 – Engineering Materials
- ENGD 250 – Technical Modeling
- MNFG 290 – Manufacturing Processes

Second year

Majors
Design and Analysis

Semester 3
- COMM 256 – Professional Communications and Presentation Skills
- EMTL 300 – Mechanics of Materials
- FLDS 350 – Fluid Mechanics
- MACH 380 – Machine Dynamics
- MNFG 310 – Advanced Manufacturing
- TTHR 320 – Thermodynamics and Heat Transfer

Semester 4
- STAT 245 – Statistics for Engineering and Technology I
- DSGN 380 – Machine Design
- PROJ 375 – Capstone Project
- FLDS 320 – Fluid Power
- ECON 209 – Engineering Economics
- DSGN 303 – Mechanical Systems Design
Design and Automation

Semester 3
- CNTR 300 – Control Systems 3 credits
- COMM 256 – Professional Communications and Presentation Skills 3 credits
- EMSI 300 – Advanced Automation Integration 1.5 credits
- OR
- EMSI 310 – Computer Integrated Manufacturing 1.5 credits
- EMSI 320 – Robots and Robotics 1.5 credits
- EMSI 300 – Mechanics of Materials 3 credits
- MNFG 310 – Advanced Manufacturing 3 credits

Semester 4
- STAT 245 – Statistics for Engineering and Technology I 3 credits
- DSGN 380 – Machine Design 3 credits
- PROJ 375 – Capstone Project 3 credits
- EMSI 360 – Advanced Programmable Logic Controllers 3 credits
- ECON 209 – Engineering Economics 1.5 credits
- FLDS 320 – Fluid Power 1.5 credits

Design and Development

Semester 3
- COMM 256 – Professional Communications and Presentation Skills 3 credits
- EMSI 300 – Mechanics of Materials 3 credits
- MNFG 310 – Advanced Manufacturing 3 credits
- PRDT 300 – Product Development 3 credits
- PROJ 305 – Model Making and Prototyping 1.5 credits
- PRDT 310 – Applied Product Development 1.5 credits

Semester 4
- STAT 245 – Statistics for Engineering and Technology I 3 credits
- DSGN 380 – Machine Design 3 credits
- PROJ 375 – Capstone Project 3 credits
- ECON 209 – Engineering Economics 1.5 credits
- FLDS 320 – Fluid Power 1.5 credits
- Total 60 credits

Full – time Evening and Weekend Program

Semester 1
- MATH 238 – Math for Engineering and Tech I 3 credits
- MECH 200 – Mechanical Engineering Technology Concepts 3 credits
- MECH 202 – Technology and Society 1.5 credits
- COMP 213 – Computing for Engineering Technology 3 credits

Semester 2
- MATH 288 – Mathematics for Engineering and Technology II 3 credits
- STCS 255 – Engineering Statics 1.5 credits
- THRM 200 – Introduction to Thermodynamics 3 credits
- MECH 205 – Electro – Mechanical Systems 3 credits

Semester 3
- DYNA 265 – Dynamics 1.5 credits
- STAT 245 – Statistics for Engineering and Technology I 3 credits
- EMTL 250 – Engineering Materials 3 credits
- ENGD 250 – Technical Modeling 3 credits

Semester 4
- THRM 320 – Thermodynamics and Heat Transfer 3 credits
- EMTL 300 – Mechanics of Materials 3 credits
- MNFG 290 – Manufacturing Processes 3 credits
- FLDS 350 – Fluid Mechanics 1.5 credits

Semester 5
- MACH 380 – Machine Dynamics 1.5 credits
- DSGN 303 – Mechanical Systems Design 3 credits
- COMM 256 – Professional Communications and Presentation Skills 3 credits
- ECON 209 – Engineering Economics 1.5 credits

Semester 6
- FLDS 320 – Fluid Power 1.5 credits
- DSGN 380 – Machine Design 3 credits
- PROJ 375 – Capstone Project 3 credits
- MNFG 310 – Advanced Manufacturing 3 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- Camosun College
- Lakehead University
- Montana Tech
- Thompson Rivers University
- University of British Columbia
- University of Calgary
- University of Victoria
- University of Wyoming

To learn more, visit Transfer Options on sait.ca.
Medical Device Reprocessing Technician

- Five-month certificate
- Fall and Winter start
- Full-time classroom or Online

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
As a five-month program offered full-time, the Medical Device Reprocessing Technician program provides entry-level training for the critical role of cleaning, packaging, sterilizing, storing and handling of sterile supplies and instruments, with a focus on infection prevention and control and aseptic techniques. It includes a practicum, arranged by SAIT, at an accredited clinical facility. This type of employment requires flexibility (shift work), manual dexterity and good health.

The Medical Device Reprocessing Technician program is 21 weeks in length and includes classroom instruction with integrated practical learning experiences. This is followed by 400 hours of practicum, of which eight weeks take place at a clinical site. Theory will be integrated throughout the practicum to increase knowledge, skills and employability.

Students in this program require access to a personal computer and the Internet to facilitate completion of the required courses. This program is also available part-time through distance education. Visit the Medical Device Reprocessing Technician distance page for details.

Program overview

Fast facts
This program is a 21-week certificate offered over the Fall/Winter semesters or Winter/Spring semesters.

Your career
Graduates find work as medical device reprocessing technicians, sterile processors, service aides, and in related positions in health care medical device reprocessing departments, operating rooms, doctor’s offices, dental clinics, surgical centers, and specialty areas at acute care, community care and extended care facilities. Graduates are often hired into casual positions initially which usually progress to full-time positions within one year of hire. In order to find employment, many graduates must relocate across Alberta and potentially even throughout Canada.

Graduates of the Medical Device Reprocessing Technician program have a 95% employment rate.

Student success
In order to be successful in this program, applicants must have basic computer literacy including the ability to use word processing and communication software. Educational interaction in this program depends on these basic computer skills, and medical device reprocessing technicians work with hospital information systems. It is the student’s responsibility to ensure adequacy of these skills prior to program admission.

Students who experience success in this program and career:
- Have effective communication skills in English,
- Are detail-oriented in the care they provide and enjoy working in a team environment,
- Must be able to lift up to 18 kg/40 pounds and push/pull 114 kg/250 pounds on an ongoing basis,
- Demonstrate good motor coordination and manual dexterity and are able to perform repetitive tasks in a noisy, stressful environment,
- Able to stand or walk for long periods of time with repeated bending at the knees and waist, and
- Have no sensitivities to latex, disinfection and sterilization chemicals, or to the sight of blood and human tissue.

Credentials
After successfully completing this program, graduates will receive a SAIT Medical Device Reprocessing Technician certificate. The program arranges for graduates to challenge the International Association of Healthcare Central Service Materiel Management (IAHCSMM) certification exam for international recognition of their competencies as a Central Service Technician (CRCST). This allows international portability.

SAIT’s Medical Device Reprocessing Technician program is also recognized by the Canadian Standards Association (CSA) and graduates are eligible to challenge the CSA Canadian certification exam to become a certified Medical Device Reprocessing Technician (CMDRT).

Certification from either IAHCSMM or CSA is required to practice as a MDRT in Alberta. Please Note: Your MDRT certificate and a high school diploma are required to challenge the CSA certification exam.
Accreditation
There are no formal accreditation arrangements at this time. Please contact the School of Health and Public Safety for more information.

Note: This program is eligible for the Canada-Alberta Job Grant.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 50% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- At least 50% in Science 20 or Biology 20 or Chemistry 20, or at least 60% in Science 24
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

Practicum requirements
The eight weeks of practicum are not necessarily consecutive and may not be continuous with the end of the theory portion of the program (for example, there may be a gap between finishing the theory and starting the practicum). The School of Health and Public Safety has many practica partners located in Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements.

Students will be responsible for fees associated with practica such as entrance requirements, relocation and travel costs.

In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:
- Updated immunization records: Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.
- Security clearance: According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).
- Health and wellness status: Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability. More details on the practica requirements per program are outlined on a pre-orientation website for successful candidates.
Costs

**Tuition (subject to change)**
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**
- Students are responsible for any additional expenses related to their practicum including relocation costs to a practicum site outside of Calgary.
- Students may be required to hold either the International Association of Healthcare Central Service Material Management (IAHCSMM) or the Canadian Standards Association (CSA) certification for the purpose of gaining employment. The IAHCSMM certification exam fee is approximately $125 and the CSA certification exam fee is approximately $263. Students are responsible for paying these exam fees.
- There is a fee associated with obtaining a Police Information Check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Books and supplies are approximately $400.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Medical Laboratory Assistant

- Five-month certificate
- Fall and Winter start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
A medical laboratory assistant is an integral member of the laboratory workforce, a field that is not only growing to meet the needs of an increasing and aging population, but also changing to support medical and technological advances. A medical laboratory assistant must be accurate, self-motivated, and dependable with a skilled eye for detail and strong client service skills.

The Medical Laboratory Assistant (MLA) program trains students to collect, process, and prepare patient specimens, enter data, perform clerical and reception services, perform electrocardiograms and urinalyses and carry out basic laboratory procedures.

The first semester of the MLA program consists of classroom instruction and clinical integration which prepares students for the clinical practicum and professional job duties. The second semester involves theory on professional practice and a six-week clinical practicum arranged by SAIT which is spent in a laboratory and patient service center. The practicum provides students with opportunities to refine and apply competencies acquired at SAIT.

The program has many clinical partners located within Alberta and across Canada. Clinical placements in Calgary are limited and students must be prepared to relocate outside of Calgary for the six-week practicum. Successful candidates will be informed of the allocation of their placement by the program. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regard to assigning practicum placements. Students will be responsible for fees associated with their practicum such as relocation and travel costs.

Certain courses may be available by distance education or continuing education. All courses must be completed within the time frame shown in the Program outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered a part-time student, which may impact their financial loan status.

Students in this program require access to a personal computer and the Internet to facilitate completion of required online course components.

Program overview

Fast facts
This program is a 21-week certificate offered over the Fall/Winter semesters or the Winter/Spring semesters.

Your career
Graduates find work as medical laboratory assistants in community collection sites, hospital rapid-response laboratories, high-volume medical laboratories and private insurance or home care companies. The employment requires flexibility (shift-work), good health and manual dexterity. Medical laboratory assistants work in laboratory environments where they may spend a considerable amount of time standing or sitting and performing tasks that may be repetitive. They must observe safety precautions to reduce the risk of exposure to infectious body fluids and dangerous chemicals. Graduates are often hired into casual positions initially which usually progress to full-time positions within one year of hire. In order to find employment, many graduates must relocate across Alberta and potentially even throughout Canada.

Graduates of the Medical Laboratory Assistant program have a 82% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

In order to be successful in this program, applicants must have basic computer literacy. An acceptable computer skill level would include the ability to use word processing and communication software. Educational interaction in this program depends on these basic computer skills and medical laboratory assistants work with laboratory and hospital information systems. It is the student’s responsibility to ensure adequacy of these skills prior to program admission.

A keyboarding/data entry speed of 30 words per minute (wpm) net or better is required. Applicants will be required to complete a program-specific keyboarding assessment (available at SAIT for a minimal fee) prior to admission to the program.

Students who experience success in this program have the following characteristics:

- The ability to follow instructions, pay close attention to detail and take precise readings,
- The ability to work quickly and accurately,
- Good finger and manual dexterity to handle specimens and small laboratory equipment,
- Normal colour vision,
- Good communication and problem solving skills,
- Good organizational skills,
- The interpersonal skills and effective communication skills in English required to work well with co-workers and the public.
- Medical laboratory assistants enjoy working with people, like direct contact with patients and do not mind shift work.
Credentials
After successfully completing this program, graduates will receive a SAIT Medical Laboratory Assistant certificate. Graduates are eligible for registration and membership with the Canadian Society for Medical Laboratory Science.

Accreditation
The Medical Laboratory Assistant program delivered by SAIT is accredited by Accreditation Canada.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 20-2 or Pure Math 10 or Math 10C,
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2,
- At least 60% in Chemistry 20,
- At least 60% in Biology 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

Practicum requirements
The School of Health and Public Safety has many practica partners located in Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practica such as entrance requirements, relocation and travel costs.

In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:
- **Updated immunization records:** Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.
- **Security clearance:** According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student's entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).
- **N95 respiratory mask:** Fit testing is done to determine which make and model of N95 respirator mask should be used by an individual. In compliance with Alberta’s Occupational Health and Safety Code 2009, students are fit-tested for respiratory masks prior to their practicum. Occupational Health and Safety Bulletin, Respiratory Protective Equipment: An Employer’s Guide states the effectiveness of the respiratory protective equipment depends on an effective facepiece seal to the skin of the face. The mask must be tight enough so that the person is breathing only air which has been filtered. The seal is dependent on facial differences (shape or size) or facial hair. Facial hair must be removed where the mask contacts the face for the test. Failure to adequately fit an N95 mask may result in a restricted practicum and/or limited employment. Additionally, a student may need to be tested again in two years or if there are changes to the face which impact the ability of the respirator to form an effective seal (e.g. Weight gain/loss, a growth of facial hair, dental surgery, or facial scarring).
Health and wellness status: Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability.

More details on the practica requirements per program are outlined on a pre-orientation website for successful candidates.

Costs

Tuition (subject to change)

- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Students are responsible for any additional expenses related to their practicum including relocation costs to practicum sites outside Calgary.
- Canadian Society for Medical Laboratory Science (CSMLS) national exam fee is approximately $250.
- CSMLS national association dues for students are approximately $85.
- There is a fee associated with obtaining a Police Information Check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Books and supplies are approximately $700.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Email: hps.info@sait.ca

Program description
As integral members of the health care team, medical laboratory technologists are trained to perform a broad spectrum of laboratory testing and procedures, playing a vital role in the diagnosis, treatment and prevention of disease. Based in large part on the national competency profile issued by the Canadian Society for Medical Laboratory Science (CSMLS), the two-year, full-time Medical Laboratory Technology program trains students to become skilled in applying the scientific, technical, and medical principles needed to perform and evaluate laboratory testing in a health care setting. As part of Canada’s fourth largest group of health care professionals, medical laboratory technologists play an integral role in our health care system.

The first year of the Medical Laboratory Technology program consists of classroom instruction, laboratory training and clinical site tours. The second year consists of theory instruction and an extensive clinical practicum at affiliated sites in Calgary, other sites in Alberta or potentially sites outside of Alberta. The practicum provides a range of clinical experiences where students are given opportunities to develop and integrate the necessary knowledge, skills and attitudes in a practical setting. During the last month of the term, students will write practice competency-based exams in preparation for challenging the national CSMLS certification exam.

Certain courses are available by distance education or continuing education-ANPH 209, COMP 264, INFC 215, MEDT 211, PROF 240. The courses must be completed within the time frame shown in the Program outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered part-time, which may impact their financial loan status.

Students in this program require access to a personal computer and the Internet to facilitate completion of online courses.

Program overview

Your career
Graduates find work as medical laboratory technologists in hospital or high-volume laboratories, as well as in research labs and scientific supply companies. Employment in medical labs often requires shift work. Medical laboratory technologists work in laboratory environments where they may spend a considerable amount of time standing or sitting and performing tasks that may be repetitive. They must observe safety precautions to reduce the risk of exposure to infectious body fluids and dangerous chemicals.

Graduates of the Medical Laboratory Technology program have a 95% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

The program delivery is very intensive. To be successful students must be prepared to attend 30 hours per week of classroom activities and spend approximately 30 hours per week outside of class studying.

Students who experience success in this program have the following characteristics:

- Integrity and a professional attitude,
- An aptitude for mathematics and science and a keen interest in scientific work,
- The ability to follow verbal and written instructions, pay close attention to detail and take precise readings,
- The ability to work quickly and accurately,
- Good finger and manual dexterity to handle specimens and small laboratory equipment,
- The ability to do detailed work and maintain a high level of accuracy,
- Good visual colour and form perception (to study blood cells, etc.),
- Good interpersonal skills and effective communication skills in English, and
- The ability to adapt easily and quickly to change.

Health care practitioners are detail oriented in the care they provide and enjoy working in a team environment.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT Medical Laboratory Technology diploma.

Graduates are eligible to challenge the CSMLS exams to obtain national certification as a medical laboratory technologist, which will allow national portability.

Accreditation
The Medical Laboratory Technology program delivered by SAIT is accredited by Accreditation Canada.
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents AND a combined average of 75%:

- At least 70% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2,
- At least 70% in English Language Arts 30-1,
- At least 70% in Chemistry 30,
- At least 70% in Biology 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

Practicum Requirements

The School of Health and Public Safety has many practica partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as entrance requirements, relocation and travel costs.

In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:

- **Updated Immunization Records:** Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.

- **Security Clearance:** According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).

- **N95 Respiratory Mask:** Fit testing is done to determine which make and model of N95 respiratory mask should be used by an individual. In compliance with Alberta’s Occupational Health and Safety Code 2009, students are fit-tested for respiratory masks prior to their practica. Occupational Health and Safety Bulletin, Respiratory Protective Equipment: An Employer’s Guide states the effectiveness of the respiratory protective equipment depends on an effective face piece seal to the skin of the face. The mask must be tight enough so that the person is breathing only air which has been filtered. The seal is dependent on facial differences (shape or size) or facial hair. Facial hair must be removed where the mask contacts the face for the test. Failure to adequately fit an N95 mask may result in a restricted practicum and/or limited employment. Additionally, a student may need to be tested again in two years or if there are changes to the face which impact the ability of the respirator to form an effective seal (e.g. Weight gain/loss, growth of facial hair, dental surgery, or facial scarring).

- **Health and Wellness Status:** Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability.

More details on the practical requirements per program are outlined on a pre-orientation website for successful candidates.
Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Students are responsible for any additional expenses related to their practicum including relocation costs to practicum sites outside Calgary.
- The Canadian Society for Medical Laboratory Science (CSMLS) national exam fee is approximately $720 for members or $950 for non-members who are Canadian residents.
- CSMLS national association dues for students are approximately $85.
- CSMLS national association dues for recent grads are approximately $150.
- College of Medical Laboratory Technologists of Alberta (CMLTA) provincial dues are approximately $285 for recent grads plus $150 for an initial application fee.
- There is a fee associated with obtaining a criminal record check (including vulnerable sector check) and is payable to the Police or the RCMP.
- CompTracker fee $165.
- Books, supplies and uniform are approximately $1,600 for the entire program.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self-study.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Program outline

First year

 Semester 1
 ANPH 209 – Anatomy and Physiology  3 credits
 HEMA 256 – Hematology 1  3 credits
 INFC 215 – Infection Prevention and Control  1.5 credits
 MBIO 345 – Clinical Microbiology 1  1.5 credits
 MEDL 210 – Analytical Techniques  3 credits
 MEDL 330 – Specimen Collection and Handling  1.5 credits

 Semester 2
 CHEM 252 – Medical Laboratory Technology Clinical Chemistry 1  6 credits
 HEMA 337 – Hematology 2  3 credits
 HSCI 300 – Immunology  1.5 credits
 MBIO 360 – Clinical Microbiology 2  3 credits
 MEDL 310 – Histotechnology 1  1.5 credits
 MEDL 335 – Transfusion Medicine 1  3 credits
 MEDL 354 – Medical Laboratory Technology Quality Management  1.5 credits

 Semester 3
 CHEM 336 – Medical Laboratory Technology Clinical Chemistry 2  1.5 credits
 MBIO 383 – Clinical Microbiology 3  1.5 credits
 MEDL 380 – Transfusion Medicine 2  3 credits
 MEDL 385 – Histotechnology 2  1.5 credits
 MEDL 365 – Professional Practice MLT  1.5 credits
 Note: this course continues into semesters 4, 5 and 6.
 UANL 265 – Urinalysis  1.5 credits

 Second year
 Semester 4
 Note: the following courses continue into semesters 5 and 6.
 CHEM 376 – MLT Clinical Chemistry 3  1.5 credits
 HEMA 377 – Hematology 3  1.5 credits
 MBIO 390 – Clinical Microbiology 4  1.5 credits
 PRAC 329 – Specimen Collection and Handling Practicum  1.5 credits
 PRAC 367 – Clinical Practicum Microbiology  6 credits
 PRAC 369 – Clinical Practicum Chemistry  6 credits
 PRAC 377 – Clinical Practicum Hematology  6 credits
 PRAC 380 – Clinical Practicum Transfusion Medicine  3 credits
 PRAC 386 – Clinical Practicum Histotechnology  3 credits

 Semester 5
 MEDL 352 – Applied Investigation  3 credits
 Total  88.5 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- Canadian Armed Forces
- Memorial University of Newfoundland
- Thompson Rivers University
- University of New Brunswick, Saint John
- University of Ontario Institute of Technology
To learn more, visit Transfer Options on sait.ca.
Medical Office Assistant and Unit Clerk

- Five-month certificate
- Fall and winter start
- Full-time classroom
- Includes a four-week practicum in a health care or medical office setting

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
Medical office assistants and unit clerks are integral members of the health care team and support professionals in both a hospital unit and medical office environment. The medical office assistant and unit clerk main duties include accessing, and transmitting health information in a secure environment while supporting and communicating with medical professionals. The Medical Office Assistant and Unit Clerk program is an innovative program providing the necessary skills and theoretical knowledge required by those wishing to combine the skills of a unit clerk and a medical office assistant. Successful graduates will be proficient in medical office procedures; organization; structure and chart management functions of a patient record; computer software; emerging client care software; basic billing duties; office procedures and health information law in a client-care setting.

Courses in this program are conducted on SAIT campus and online. A four-week, unpaid practicum at a health care facility or medical office setting in or outside Calgary is required for successful completion of this program.

Certain courses are available by distance education or continuing education - COMP 264, HILA 200 and MEDT 211. The courses must be completed within the time frame shown in the Program outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered a part-time student, which may impact their financial loan status.

As some of the content is delivered in an online environment, students will be required to have a personal computer with Internet access.

Program overview

Fast facts
This 19 week certificate is offered over the Fall/Winter semesters or the Winter/Spring semesters.

Your career
Graduates are employed as medical office assistants and unit clerks in health care facilities, physician offices, regional health, chiropractic and rehabilitation centres.

Graduates of the Medical Office Assistant and Unit Clerk program have a 94% employment rate

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

Students who experience success in this program have proficient communication skills in English.

Health care practitioners are detail oriented in the care they provide and enjoy working in a team environment.

Basic computer skills are essential for success in the program.

Credentials
After successfully completing this program, graduates will receive a SAIT Medical Office Assistant and Unit Clerk certificate.

Accreditation
There are no formal accreditation arrangements at this time. Please contact the School of Health and Public Safety for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalents.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.
Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add the sait.ca domain to your safe senders list or you risk missing critical email messages.

Practicum requirements

The School of Health and Public Safety has many practicum partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum. Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as relocation and travel costs. In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:

- **Updated Immunization Records:** Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.

- **Security Clearance:** According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).

- **Health and Wellness Status:** Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability.

More details on the practica requirements per program are outlined on a pre-orientation website for successful candidates.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Students are responsible for any additional expenses related to their practica including relocation costs to practicum sites outside of Calgary.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Books and supplies are approximately $650.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Medical Radiologic Technology

- 22-month diploma
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
Medical Radiologic Technology (MRT) is the art and science of correctly positioning the patient and X-ray equipment to produce and record images for visualizing the extent of disease or injury. The Medical Radiologic Technology program is a two-year, full-time program where students are trained as medical radiologic technologist, responsible for the safe and competent operation of a wide range of X-ray generating machines, the production of digital images and use of accessory medical equipment.

In the First year of the Medical Radiologic Technology program, students will attend SAIT and complete courses in anatomy and pathology, apparatus and image management, computed tomography, radiation protection, general and specialized radiographic techniques, professional practice and patient care.

The Second year of the MRT program involves on-line courses focusing on specialized imaging, clinical integration, quality assurance and control and professional practice. Students will also concurrently complete three clinical practica where they rotate through general and specialized medical radiologic technology departments, applying what they have learned in these clinical settings.

Note: Two courses—INFC 215 Infection Prevention and Control and MEDT 211 Medical Terminology—are also available to be taken by distance education or continuing education. Regardless of which method of delivery a course is taken, it must be completed within the time frame shown in the Program outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered a part-time student, which may impact their financial loan status.

Program overview
Your career
Graduates find work as medical radiologic technologists in hospitals, clinics, doctors’ offices and public health agencies. Future specialization opportunities are also available for experienced medical radiologic technologists with technical excellence in areas such as angiography, mammography, management and teaching.

Medical radiologic technologists work in environments where they may spend a considerable amount of time standing or sitting and performing tasks that may be repetitive. They must observe safety precautions and ergonomics to reduce the risk of exposures and injury.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs. Students are expected to spend approximately 20 hours per week outside of class studying.

In order to be successful in this program, applicants must have computer literacy. An acceptable computer skill level would include the ability to use word processing and communication software. Educational interaction in this program depends on these computer skills. It is the student’s responsibility to ensure adequacy of these skills prior to program admission.

Health care practitioners are detail oriented in the care they provide, use critical thinking in practice, demonstrate compassion, are eager, persevere and enjoy working in a team environment.

Students who experience success in this program have the following characteristics:
- Exceptional communication skills in English
- The ability to handle unpleasant or stressful situations
- Are capable of lifting heavy patients
- The ability to move heavy equipment (pulling/pushing/lifting)
- The ability to climb several flights of stairs quickly
- The ability to stand for long periods of time and work in difficult physical positions
- Good physical health including upper body shoulder strength and wrist and hand dexterity and stamina; and
- Strong vision and hearing.

Individuals with previous chronic or repetitive strain injuries have experienced re-injury or aggravation of these conditions in this program and/or as a technologist.

During the clinical portion of the program, students are expected to participate in normal medical radiologic technology shift work including evenings, weekends and statutory holidays.

Credentials
After successfully completing this program, graduates will receive a SAIT Medical Radiologic Technology diploma. Graduates from this program are eligible to challenge the Canadian Association of Medical Radiation Technologists (CAMRT) certification exam which is a requirement for registration and employment for medical radiologic technologists in Canada.

Accreditation
The Medical Radiologic Technology program delivered by SAIT is accredited by the Canadian Medical Association. The program also works closely with our Diagnostic Imaging Advisory Committee to ensure that our curriculum continues to meet or exceed provincial and national accreditation standards.
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

At least 75% in the following courses or equivalents:
- Math 30-1, Math 30-2, or Pure Math 30, AND,
- English Language Arts 30-1, AND,
- Physics 30, AND,
- One of either Biology 30, or Chemistry 30, or Science 30.

All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive Entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add diagnostic.imaging@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Due to the significant number of applications for this program, the selection process can take some time. Every effort will be made to maintain the timelines outlined above. We appreciate your patience. You can also log on to mySAIT.ca to check your admission decision status.

Unfortunately, due to the extremely large volume of applicants, we cannot provide any assistance or follow-up as to why the candidate was not competitive or where the applicant is ranked on the waitlist.

Practicum requirements

The School of Health and Public Safety has many practica partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students will be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement at a later date. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as entrance requirements, relocation and travel costs.

In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:
- Current Heart and Stroke Foundation Health Care Provider Level (C) CPR must be valid for the duration of your practicum. SAIT offers the above CPR course on a continuous basis (CPRS 001 BLS Provider [Level C] CPR).
- Updated Immunization Records: Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.
- Security Clearance: According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).
- N95 Respiratory Mask: Fit testing is done to determine which make and model of N95 respiratory mask should be used by an individual. In compliance with Alberta's Occupational Health and Safety Code 2009, students are fit-tested for respiratory masks prior to their practica. Occupational Health and Safety Bulletin, Respiratory Protective Equipment: An Employer’s Guide states the effectiveness of the respiratory protective equipment depends on an effective facepiece seal to the skin of the face. The mask must be tight enough so that the person is breathing only air which has been filtered. The seal is dependent on facial differences (shape or size) or facial hair. Facial hair must be removed where the mask contacts the face for the test. Failure to adequately fit an N95 mask may result in a restricted practicum and/or limited employment. Additionally, a student may need to be tested again in two years or if there are changes to the face which impact the ability of the respirator to form an effective seal (e.g. Weight gain/loss, growth of facial hair, dental surgery, or facial scarring).
• **Health and Wellness Status:** Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability. More details on the practica requirements per program are outlined on a pre-orientation website for successful candidates.

### Costs

#### Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

#### Books and supplies (subject to change)
- CPRS 001 BLS Provider (Level C) CPR. Annual update required. All CPR courses must be from the Heart and Stroke Foundation. Call SAIT Life Support Training at 403.210.4009 for further information.
- Canadian Association of Medical Radiation Technologists (CAMRT) certification exam fees are approximately $800 with an additional $105 exam registration fee.
- Mandatory annual dues to the Alberta College of Medical Diagnostic and Therapeutic Technologists are approximately $100.
- Students are responsible for any additional expenses related to their practicum including relocation Costs to practicum sites outside of Calgary.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Books and supplies are approximately $2,500 in the First year and $700 in the Second year.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students require an Apple personal digital assistant (iPad with blue tooth keyboard) with the ability to run the most current Apple iOS to support the CompTracker system.
- There is a $75 CompTracker user fee per semester.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

### Program outline

#### First year

| Semester 1 | 
| --- | --- |
| ANPH 202 – Anatomy and Pathology 1 | 3 credits |
| APPH 226 – Apparatus and Image Management | 3 credits |
| MEDT 211 – Medical Terminology 1 | 1.5 credits |
| MRAD 204 – Radiographic Technique 1 | 3 credits |
| MRAD 223 – Patient Care 1 | 1.5 credits |
| RADP 215 – Radiation Protection | 3 credits |

| Semester 2 | 
| --- | --- |
| ANPH 252 – Anatomy and Pathology 2 | 3 credits |
| MRAD 240 – Specialized Imaging 1 | 1.5 credits |
| MRAD 251 – Computed Tomography Theory 1 | 3 credits |
| MRAD 254 – Fluoroscopic Imaging | 1.5 credits |
| MRAD 256 – Radiographic Technique 2 | 3 credits |
| MRAD 202 – Patient Care 2 | 1.5 credits |

| Semester 3 | 
| --- | --- |
| INFC 215 – Infection Prevention and Control | 1.5 credits |
| MRAD 209 – Professional Practice 1 | 1.5 credits |
| MRAD 281 – Computed Tomography Theory 2 | 1.5 credits |
| MRAD 285 – Radiographic Applied Skills | 1.5 credits |

#### Second year

| Semester 4 | 
| --- | --- |
| MRAD 302 – Specialized Imaging 2 | 3 credits |
| PRCT 353 – Clinical Practicum 1 | 6 credits |

| Semester 5 | 
| --- | --- |
| MRAD 358 – Clinical Integration 1 | 1.5 credits |
| PRCT 356 – Clinical Practicum 2 | 6 credits |
| QUAL 370 – Quality Assurance and Control | 3 credits |

| Semester 6 | 
| --- | --- |
| MRAD 360 – Clinical Integration 2 | 1.5 credits |
| MRAD 374 – Professional Practice 2 | 1.5 credits |

**Total** 63 credits

### Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Athabasca University
- Canadian Armed Forces
- Memorial University of Newfoundland
- Thompson Rivers University

To learn more, visit Transfer Options on sait.ca.
Network Technician

- 32-week certificate
- Fall and spring start dates
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.210.4522
Email: Fast-track@sait.ca

Program description
“Computer networking is the connecting of two or more computers that allows them to share resources. It can be done between computers in a home, in a business, across a corporation, and even internationally. It can equally be defined as a method of connecting two or more computer systems together including printers and other devices.

The benefits of networking are considerable ... PC networking is, as a consequence, a rapidly evolving discipline with many exciting opportunities.” (www.goarticles.com)

The Network Technician (NT) program is an intensive 32-week certificate program designed to prepare you for the essential fields of computer networking design, maintenance and support. Technically focusing on Cisco, Microsoft, open source technologies and operating systems, this program emphasizes key industry requirements such as security, storage management, virtualization and effective troubleshooting. Through hands-on, practical assignments, you will gain experience solving technical problems and providing solutions on time and within scope. Upon completion, you will be prepared to challenge the CCNA certification exam. Additional self-study is usually required. The mandatory eight-week practicum solidifies the classroom experience and prepares you to launch into or continue your IT career.

Program overview

Fast facts
32-week Fast-track certificate offered over multiple semesters.

Your career
A graduate from this program may find employment as a network technician, network analyst, help desk analyst, system support specialist or an IT consultant.

Graduates of the Network Technician program have a 96% employment rate

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

Experience with computer hardware and/or operating and networking systems an asset.

This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate as a Network Technician.

Accreditation
By the end of the program, graduates will have the knowledge to challenge the Cisco Certified Network Administrator (CCNA) exams. With additional relevant work experience and additional exam preparation study, you would be prepared to challenge other relevant industry exams such as CompTIA A+, VMWare, EMC and Microsoft certifications.

Ideal applicant
The ideal candidate for the Network Technician (NT) program is a motivated, mature learner with an interest in computer networking, who wants to specialize or to upgrade their existing skills. You are technically proficient and detail-oriented. Your approach to problem-solving is both creative and logical, depending on the circumstances. You work well as part of a team and enjoy interacting with others. You possess a good working knowledge of operating systems and computer hardware. You are probably the person your friends and family go to when they have computer problems.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent, OR,
- A minimum of two years post-secondary education from a recognized university, institute or college.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- Due to the tight integration of the courses in the Network Technician (NT) program, credit for Prior Learning is not available.
Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add fast-track@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs
Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- The tuition fee includes all course materials, student fees and access to appropriate technology.

New Media Production and Design

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.284.8543
Email: ict.info@sait.ca

Program description
New Media Production and Design is a technology centred program that promotes critical thinking to develop engaging content for web-based user experiences, and provides comprehensive training in the tools and techniques used for web design and development. The program emphasizes project-based and hands-on training, with students working in teams to produce comprehensive and useful media products.

Program overview

Your career
Graduates find employment in specialty new media production houses, agencies, corporate, educational or government organizations. Some develop their own freelance and small business opportunities. Work ranges from web design, corporate communications and digital signage to educational media, animation, simulation or game design.

Student success
Students with previous academic success usually are more successful in SAIT programs.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT diploma in New Media Production and Design.

Accreditation
There are no formal accreditation arrangements at this time. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalents.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Griffith University
- Royal Roads University
- University of Calgary
- University of Gloucestershire, UK
- University of Ontario Institute of Technology (UOIT)
- University of South Australia

To learn more, visit Transfer Options on sait.ca.
Non-Destructive Testing Foundations

- 15-week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Manufacturing and Automation
Phone: 403.284.8641
Email: ma.info@sait.ca

Program description
Non-Destructive Testing (NDT) is a very important component of many industries. Identifying potential mechanical and structural failures can save time, money and lives. For example, inspection and reporting must be carried out on equipment in the oil and gas, transportation and aviation industries, just to name a few. The NDT Foundations program assists you to enter the growing NDT field by providing a basic overall knowledge of the inspection industry. This knowledge is a foundation for you to progress through all levels of inspection methods.

In Canada, NDT Certification is regulated by the Canadian General Standards Board (CGSB). There are three steps required to obtain CGSB Certification; 1-training, 2-work experience, and 3-CGSB exams. These three steps are required for each level of certification in each method. The NDT Foundations program at SAIT helps you to accomplish step 1 of this process-training, which prepares you to complete step 2 and step 3 after successful program completion.

Program overview
Your career
In today’s economy, the demand for qualified NDT Technicians is high. Travel opportunities may be available with many NDT service providers. Technicians may find work across Canada or internationally in a wide variety of industries including: pipeline and refinery, transportation, utilities, construction, manufacturing and maintenance.

To be successful as a Non-Destructive Testing Technician, you may need the following skills: the ability to work independently — often with little supervision, math skills, communication skills, attention to detail, ability to work flexible hours in varying locations and the ability to physically maneuver a job site freely.

Graduates of the Non-Destructive Testing Foundations program have a 95% employment rate

Student success
Strong skills in Math and English (written and verbal) preferred.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT certificate in Non-Destructive Testing.

There are no formal accreditation arrangements at this time. Please contact the School of Manufacturing and Automation for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- Students must have successfully completed Grade 10 Math and Grade 10 English or equivalent.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $500

Nuclear Medicine Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description

Nuclear medicine technology uses radiopharmaceuticals (radioactive drugs) and specialized equipment to help diagnose and treat diseases. The Nuclear Medicine Technology (NMT) program is a two-year, full-time program where students are trained as nuclear medicine technologists, ready to work patients and medical staff in clinical nuclear medicine settings.

In the First year of the Nuclear Medicine Technology program, students will complete studies in patient communication and management, professional practice, radiation physics, computed tomography, anatomy and physiology, radionuclide instrumentation, nuclear medicine procedures, radiopharmacy, quality control, clinical integration, phlebotomy and intravenous injections, and radiation safety.

The Second year of the NMT program involves on-line courses focusing on instrumentation, dosimetry, pathology, advanced computers, research and clinical integration. Students will also concurrently complete three clinical practica where they rotate through all areas of nuclear medicine, applying what they have learned while in these clinical settings.

Note: INFC 215 Infection Prevention and Control is available to be taken by distance education or continuing education. Regardless of which method of delivery a course is taken, it must be completed within the time frame shown in the Program outline. Please be advised that full-time student status requires the student to take 60% of a full course load per semester. Depending on the number of courses completed by distance education or continuing education, students may be considered a part-time student, which may impact their financial loan status.

Program overview

Your career

Graduates find work as nuclear medicine technologists in hospitals, community clinics, private laboratories, research and teaching institutions. In order to find employment, many graduates must relocate across Canada or to the United States.

Student success

Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs. Students are expected to spend approximately 20 hours per week outside of class studying.

Students who experience success in this program have effective communication skills in English.

Basic to intermediate computer skills are necessary for this field. An acceptable computer skill level would include the ability to use word processing, spreadsheets and communication software. Educational interaction in this program depends on these computer skills. It is the student’s responsibility to ensure adequacy of these skills prior to the program admission.

Health care practitioners are detail-oriented in the care they provide, use critical thinking practice, are eager, persevere and enjoy working in a team environment.

Students who experience success in this program have the following characteristics:
- The ability to handle unpleasant situations
- Are capable of lifting heavy objects and patients
- The ability to stand for extended periods of time
- The ability to work in difficult physical positions
- Good hand and finger dexterity and stamina; and
- Strong vision and hearing

Because of the nature of this work, students must be capable of lifting heavy patients, standing for long periods of time, and working in awkward physical positions.

Individuals with previous chronic or repetitive strain injuries have experienced re-injury or aggravation of these conditions in this program and/or as a technologist.

Credentials and accreditations

After successfully completing this program, graduates will receive a SAIT Nuclear Medicine Technology diploma.

Graduates are eligible to challenge the Canadian Association of Medical Radiation Technologists (CAMRT) certification exam which is a requirement for registration and employment for registered nuclear medicine technologists in Canada. Graduates are eligible to challenge the American Nuclear Medicine Technology Certification Board exam.

The Nuclear Medicine Technology program delivered by SAIT is accredited by the Canadian Medical Association. The program also works closely with our Diagnostic Imaging Advisory Committee to ensure that our curriculum continues to meet or exceed provincial and national accreditation standards.
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 70% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1, AND,
- At least 60% in Chemistry 30, AND,
- At least 60% in either Biology 30 or Physics 30 or Math 31.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add diagnostic.imagining@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Due to the significant number of applications for this program, the selection process can take some time. Every effort will be made to maintain the timelines outlined above. We appreciate your patience. You can also log on to mySAIT.ca to check your admission decision status.

Unfortunately, due to the extremely large volume of applicants, we cannot provide any assistance or follow-up as to why the candidate was not competitive or where the applicant is ranked on the waitlist.

Practicum requirements

The School of Health and Public Safety has many practica partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum.

Successful candidates will be informed of the allocation of their practicum placement by the program at a later date. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as entrance requirements, relocation and travel costs.

In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:
- Current Heart and Stroke Foundation Health Care Provider Level (C) CPR must be valid for the duration of your practicum. SAIT offers the above CPR course on a continuous basis (CPRS 001 BLS Provider (Level C) CPR). Please note that only the Heart and Stroke Foundation of Canada CPR certification will be accepted.
- Updated Immunization Records: Most practicum sites require students to demonstrate updated immunization status prior to attending practicum. The receiving practicum site has the right to refuse students who cannot prove they have met all the required immunizations.
- Security Clearance: According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).
- N95 Respiratory Mask: Fit testing is done to determine which make and model of N95 respiratory mask should be used by an individual. In compliance with Alberta’s Occupational Health and Safety Code 2009, students are fit-tested for respiratory masks prior to their practica. Occupational Health and Safety Bulletin, Respiratory Protective Equipment: An Employer’s Guide states the effectiveness of the respiratory protective equipment depends on an effective face piece seal to the skin of the face. The mask must be tight enough so that the person is breathing only air which has been filtered. The seal is dependent on facial differences (shape or size) or facial hair. Facial hair must be removed where the mask contacts the face for the test. Failure to adequately fit an N95 mask may result in a restricted practicum and/or limited employment. Additionally, a student may need to be tested again in two years or if there are changes to the face which impact the ability of the respirator to form an effective seal (e.g. Weight gain/loss, growth of facial hair, dental surgery, or facial scarring).
- Health and Wellness Status: Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review...
the attached document for guidance on entering an allied health program with a medical condition or disability. More details on the practical requirements per program are outlined on a pre-orientation website for successful candidates.

**Costs**

**Tuition (subject to change)**
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**
- Mandatory student registration fee to the Alberta College of Medical Diagnostic and Therapeutic Technologists is approximately $100.
- Canadian Association of Medical Radiation Technologist (CAMRT) certification exam fees are approximately $800 with an additional $105 exam administration fee.
- Nuclear Medicine Technology Certification Board (NMTCB) exam fees are approximately $175.
- Students are responsible for any additional expenses related to their practica including relocation Costs to practicum sites outside Calgary.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check, payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Books and supplies are approximately $2,600 in the First year and $1,200 in the Second year.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students require an Apple personal digital assistant (iPad with blue tooth keyboard) with the ability to run the most current Apple iOS to support the CompTracker system.
- There is a $75 CompTracker user fee per semester.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

**Program outline**

**First year**

**Semester 1**
- ANPH 215 – Anatomy and Physiology 3 credits
- NMED 210 – Professional Practice 3 credits
- NMED 220 – Quality Control 1 1.5 credits
- PHAR 230 – Radiopharmacy 1 1.5 credits
- PHYS 209 – Radiation Physics 3 credits
- RADP 210 – Radiation Protection 3 credits

**Semester 2**
- INFC 215 – Infection Prevention and Control 1.5 credits
- MRAD 251 – Computed Tomography Theory 1 3 credits
- NMED 251 – Methodology 1 3 credits
- NMED 260 – Instrumentation 1 1.5 credits
- NMED 270 – Quality Control 2 3 credits
- PHAR 262 – Radiopharmacy 2 3 credits

**Semester 3**
- MRAD 281 – Computed Tomography Theory 2 1.5 credits
- NMED 256 – Patient Care 1.5 credits
- NMED 275 – Clinical Integration 1 1.5 credits
- NMED 291 – Methodology 2 3 credits
- PHLB 236 – Phlebotomy and Intravenous Injections 1.5 credits

**Second year**

**Semester 4**
- NMED 310 – Instrumentation 2 1.5 credits
- NMED 320 – Dosimetry 1.5 credits
- NMED 331 – Applied Clinical Procedures 1 3 credits
- PRAC 309 – Practicum 1 6 credits

**Semester 5**
- NMED 350 – Advanced Computers 1.5 credits
- NMED 381 – Applied Clinical Procedures 2 3 credits
- PRAC 322 – Practicum 2 6 credits

**Semester 6**
- NMED 360 – Research for Allied Health 1.5 credits
- NMED 390 – Clinical Integration 2 1.5 credits
- PRAC 343 – Practicum 3 6 credits

**Total** 70.5 credits

**Transfer options**

Nutrition for Healthy Lifestyles

- Eight-month certificate
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
As public demand for healthier foods and accurate nutrition information increases, the need for trained consultants in nutrition is critical. Proper nutrition is central to a positive and healthy lifestyle. The Nutrition for Healthy Lifestyles program is ideal for professionals currently working in health and wellness-related areas such as health coaching, education, health promotion, culinary and fitness.

In this eight-month certificate program, students spend approximately 16 hours per week on campus attending theory-based courses. Nutrition, as it relates to human development and disease, current trends and the principles of critically evaluating information about nutrition are the focus of the first semester. More advanced topics on nutrition such as sports nutrition, health promotion, adult behaviour change process and education are taught in the second semester. Students will be provided with hands-on experience modifying and evaluating recipes for specific population needs and will complete a special project related to their areas of interest in healthy living.

Online elements of the program require that students have a personal computer and access to the Internet.

Program overview
Your career
Graduates often work as nutrition educators in corporate, community or school health and wellness programs, fitness centres, weight management clinics, or retail food outlets. Please note that this program does not qualify students to work as Registered Dietitians.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT’s programs.
Students who experience success in this program demonstrate a personal interest in nutrition and health, have strong leadership potential and effective communication skills in English.
Previous work or volunteer experience in a health or wellness related field is an asset.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT Nutrition for Healthy Lifestyles certificate.
Graduates will also have the opportunity to write the Government of Alberta Food Safety and Sanitation exam to receive certification in food safety and sanitation.

Accreditation
Graduates carry out unique roles in health promotion, for which there is not currently an accreditation body.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents with an overall average of at least 60%:
- Math 20-1 or Math 20-2 or Pure Math 20 or Applied Math 20, AND,
- English Language Arts 30-1 or English Language Arts 30-2, AND,
- Chemistry 20 or Science 20 or Physics 30 or Biology 30.

All applicants to SAIT must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Health and wellness status
Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability.
Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $750.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.

Program outline

Semester 1
COMM 208 – Communication and Presentation Skills 1.5 credits
FSAN 255 – Food Safety and Sanitation 1.5 credits
NUTR 201 – Human Nutrition Fundamentals 3 credits
NUTR 216 – Nutrition Trends and Controversies 1.5 credits
NUTR 225 – Lifecycle Nutrition 1.5 credits
PROF 242 – Workplace Professionalism 1.5 credits

Semester 2
ADED 250 – Adult Education Principles and Design 3 credits
NUTR 250 – Sports and Fitness Nutrition 1.5 credits
NUTR 267 – Health Coaching 1.5 credits
NUTR 268 – Health Promotion in Nutrition 1.5 credits
NUTR 281 – Nutrition Adaptations 3 credits
PROJ 250 – Experiential Learning Project 1.5 credits

Total 22.5 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Saskatchewan Polytechnic
To learn more, visit Transfer options on sait.ca.
Object Oriented Software Development

- 32-week certificate
- Fall and spring start dates
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.210.4522
Email: fast-track@sait.ca

Program description
Corporations use customized computer applications that must be managed. This software needs to be designed, developed and updated by software developers.

The Object-Oriented Software Developer (OOSD) program is designed to provide you with the knowledge and practice you need to develop solid software development skills in minimal time. This program takes you from introductory concepts to advanced techniques in only 32 weeks. You will gain experience in several object-oriented programming languages, web-based and Internet application development and relational databases while using a vast array of development tools. Mobile application development has recently been added to the program. After 24 weeks of formal instruction, you will put your knowledge and skills to work in a mandatory eight-week work practicum.

Program overview

Fast facts
32-week Fast-track certificate offered over multiple semesters.

Your career
Graduates may find employment as a software developer, programmer, analyst, systems analyst, web developer or IT consultant.

Graduates of the Object-Oriented Software Developer program have a 91% employment rate.

Student success
Students with higher grades usually experience more success in SAIT programs. This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate in Object Oriented Software Developer.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent, OR,
- A minimum of two years post-secondary education from a recognized university, institute or college.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Due to the tight integration of the courses in the Object-Oriented Software Developer (OOSD) program, credit for Prior Learning is not available.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add fast-track@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Ideal applicant
The ideal candidate for the Object-Oriented Software Development (OOSD) program will have an aptitude for logistical reasoning and reasoning with symbols and objects. You are versed in procedural logic and understand complex relationships beyond the three-dimensional. You are capable of learning independently and enjoy self-directed study. Most importantly, you possess previous work experience or education in computer programming.
Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- The tuition fee includes all course materials, student fees and access to appropriate technology.
- A $400 security deposit to use a SAIT issued laptop.

Program outline

Fall Program start
Semester 1
- CPRG 200 – Rapid Application Development for OOSD 3 credits
- CPRG 210 – Web Application Development 3 credits
- CPRG 212 – Database Development 3 credits
- CPRG 214 – .NET Web Applications 1.5 credits
- CPLN 240 – Career Planning and Management 1.5 credits
- PROJ 207 – Threaded Project for OOSD 3 credits
- PROJ 216 – Software Project Concepts 1.5 credits

Semester 2
- CMPP 264 – Java Programming for OOSD 3 credits
- CPRG 208 – Security for Developers 1.5 credits
- CPRG 220 – Open Source Web Applications 1.5 credits
- OBOR 350 – Object Oriented Practicum 3 credits

Total 28.5 credits

Spring Program start
Semester 1
- CMPS 207 – Operating Systems and Networks 3 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:
- Rocky Mountain College
- SAIT
Office Professional

- One-year certificate
- Fall start
- Full-time classroom

Contact us
School of Business
Phone: 403.284.8485
Email: business.advising@sait.ca

Program description
Open the door to a fast-paced office career with the one-year Office Professional certificate. Learn to communicate in an office setting, understand common office procedures and use technology to organize business information. You practice collaboration and teamwork to complete a variety of business tasks.

You can graduate with several Microsoft Office certifications, demonstrating your essential skills in word processing, spreadsheet, email and presentation software. When you graduate, you can launch your office professional career or apply to the second year of SAIT’s Administrative Information Management diploma.

Program overview
Your career
Graduates are well prepared to take on entry-level administrative roles such as administrative assistant, office assistant, office administrator, mail and message distribution clerk and more-in a variety of organizations and industries.

Student success
To achieve success in this program, students should:
- Attend and actively participate in class
- Spend approximately six hours per week on each course outside of regular class time
- Be familiar with the use of a Windows-based computer and have basic skills in Microsoft Office
- Be prepared to work in teams
- Become familiar with and adhere to SAIT’s academic policies
- Also, students who are engaged and take advantage of SAIT services and resources usually experience more success in SAIT’s programs

Credentials and accreditations
After successfully completing this program, graduates will receive a one year SAIT Office Professional certificate.

Professional designations and certifications
Students have the opportunity to write up to four Microsoft Office Specialist certification exams in this program:
- Word 2013 Specialist
- Excel 2013 Specialist
- PowerPoint 2013 Specialist
- Outlook 2013 Specialist

Additional certifications can be earned in the second year of the Administrative Information Management diploma.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester to progress through the program. To qualify for graduation, students must pass all courses and attain a CGPA of 2.0 or better.

Admission requirements
At least 50% in the following courses or their equivalents:
- Math 10C or Math 20-3 or Pure Math 10 or Applied Math 10, AND,
- English Language Arts 30-1 or English Language Arts 30-2

All applicants to SAIT must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies (subject to change)
- Books and supplies are approximately $1,400.
- There is a $400 refundable security deposit required for the use of the laptop.

Petroleum Engineering Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Want a career you can really dig? In the Petroleum Engineering Technology program you’ll be trained in all areas of the upstream petroleum industry, including exploration, field operations, drilling, economic analysis, and reserves determination. From the office to the field, graduates will ultimately be responsible for many of the technical activities involved in the production of oil and gas.

Program overview
Your career
Graduates find work as petroleum engineering technologists in the upstream oil and gas industry in areas such as exploration and development, field operations, drilling, computer applications, economic analysis and reserves determination.

Graduates of the Petroleum Engineering Technology program have a 90% employment rate.

Student success
Students who achieve success in this program generally have higher high school grades or recent upgrading courses. Math 31 (Calculus) is an asset for students interested in this program.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Petroleum Engineering Technology.

Accreditation
The program is nationally accredited by the Canadian Technology Accreditation Board and Canadian Council of Technicians and Technologists at the technologist level.

Graduates are eligible for membership in the following professional associations: The Association of Science and Engineering Technology Professionals in Alberta (ASET).

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or 75% English Language Arts 30-2, AND,
- At least 60% in Chemistry 30, AND,
- At least 60% in Physics 20.

All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $1,800 in the first year and $1,200 in the second year.

Petroleum Land Administration

- Four-month certificate
- Fall and winter start
- Full-time classroom or online

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Petroleum Land Administration teaches the basics of petroleum land administration. Students learn to review and interpret land contracts and agreements, including leases, transfers, joint venture agreements and other land-related correspondence. Our unique lease record-keeping course is designed to give students practical, relevant expertise in a computer lab utilizing land system software.

Program overview
Your career
Graduates of this program find employment as land administrators managing records concerning freehold, Crown, Board Order and aboriginal lands. Entry-level land administrators may hold positions such as Petroleum Land Administrators, Land Clerks, Operations File Clerk and Assistant Administrators to Managers, Public Land officers, Analysts and Land Consultants.

Graduates of the Petroleum Land Administration program have an 82% employment rate.

Student success
Please contact the department for information.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate in Petroleum Land Administration.

Accreditation
There are no formal accreditation arrangements at this time. Please contact the MacPhail School of Energy for more information.

Note: This program is eligible for the Canada-Alberta Job Grant.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Course materials are included in the tuition for full-time students only.
- All students will need access to the Internet to fully participate in these courses.

Pharmacy Assistant

- Five-month certificate
- Fall and winter start
- Full-time classroom
- Includes a retail pharmacy practicum

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
As our population grows and ages, there is a vital need for trained professionals to provide pharmacy-related assistance. This program trains students to become knowledgeable and skilled pharmacy assistants. Theory is taught in class and practiced in the laboratory. A 160-hour retail fieldwork practicum completes the training. The pharmacy assistant is responsible for receiving prescriptions, preparing drugs, undertaking clerical and computer duties, managing inventory and providing customer service.

Pharmacy assistants must always work directly under the supervision and guidance of the pharmacist and/or pharmacy technician. They allow the pharmacist to spend more time with the client in his or her care.

In this five-month certificate program, students spend approximately 16 hours per week on campus in theory-based courses and laboratory practice. Course content in the first semester includes pharmacy concepts, pharmaceutical calculations, body systems and pharmaceutical implications and order processing, as well as professional standards and workplace communications. In the second semester, students complete their practicum in a community retail pharmacy to gain competency integrating theoretical knowledge with dispensing practice and customer service.

Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self-study.

Program overview

Fast facts
This is a 19-week certificate offered over the Fall/Winter semesters or Winter/Spring semesters.

Your career
Graduates may work in community-based retail pharmacies. Opportunities also exist in hospital pharmacies and long-term care facilities as pharmacy assistants.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT’s programs.

Students who experience success in this program have effective communication skills in English.

Pharmacy assistants are detail oriented in the care they provide and enjoy working in a team environment.

As keyboarding and basic computer skills are not taught in this program, students are expected to be proficient in these areas prior to admission. We strongly recommend that the student have a typing speed of 35 wpm or better.

Credentials
After successfully completing this program, graduates will receive a SAIT Pharmacy Assistant certificate.

Accreditation
There are no formal accreditation arrangements at this time. Please contact the department for more information.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents with an overall average of at least 60%:
- Math 30-1 or Math 30-2 or Pure Math 30 or Applied Math 30, AND,
- English Language Arts 30-1 or English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add hps.info@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.
Practicum requirements

The School of Health and Public Safety has many practica partners located within Alberta and across Canada. Practicum placements in Calgary are limited and students may be required to relocate outside of Calgary for practicum. Successful candidates will be informed of the allocation of their practicum placement by the program. There is no guarantee that students will be placed at their desired practicum location. Special considerations of personal circumstances will not be given in regards to assigning practicum placements. Students will be responsible for fees associated with practicum such as relocation and travel costs. In compliance with the practica agreements with our clinical partners, successful candidates will be requested to provide proof of the following requirements:

- **Security Clearance:** According to the Protection for Persons in Care Act, our practica sites require that students obtain a Police Information Check including Vulnerable Sector Check, prior to going on practicum. Any criminal code offence for which a pardon has not been received may be a deterrent to a student’s entry into practicum, and therefore will result in an uncompleted program or non-graduating status. Successful candidates will be asked to provide a clear Police Information Check including Vulnerable Sector Check record to the School of Health and Public Safety main office by orientation day. Please review the security clearance process document for specific details. Be aware that record must be dated no earlier than 90 days prior to your program orientation day (typically orientation day is held the week prior to the first day of class).

- **Health and Wellness Status:** Due to the demanding nature of the work in the health care field and Occupational Health and Safety requirements, the health care field has a strong focus on health and wellness. Students with a medical condition or disability that may impact them in a practicum setting are strongly advised to discuss concerns with the program academic chair and/or SAIT Accessibility Services as soon as possible upon acceptance into the program. Please review the attached document for guidance on entering an allied health program with a medical condition or disability. More details on the practica requirements per program are outlined on a pre-orientation website for successful candidates.

Costs

**Tuition (subject to change)**

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Students are responsible for any additional expenses related to their practicum including relocation costs to practicum sites outside of Calgary.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check and is payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Books and supplies are approximately $500.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.

Power and Process Operations

- Eight-month certificate
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Power and Process Operations is an 8-month program that trains students for careers as operators, responsible for the daily safe running of processing equipment at oil and gas facilities. The program consists of both classroom and laboratory study, and prepares students to become fourth class Power Engineers through ABSA.

Program overview

Your career
Graduates find work in process operations as plant, battery, process and field operators and are often employed in processing industries such as petrochemical, fertilizer, pulp and paper, natural gas processing, metallurgical, petroleum refining, and food and beverage production. Currently most job opportunities for process operators often involve shift work at remote locations.

Student success
A grade 12 equivalent is recommended to increase employment opportunities. Applicants should be physical agile, have good hearing, and be capable of lifting 45-kilogram chemical sacks. Students with serious colour vision defects or who suffer from claustrophobia or fear of heights may have trouble with certain aspects of instruction and may experience problems securing employment.

Credentials
After successfully completing this program, graduates will receive a SAIT certificate in Power and Process Operations.

Accreditation
This program is integrated with the Alberta Boilers Safety Association (ABSA) Certification System. Graduates are eligible to write the Alberta Boilers Branch Fourth-Class certification exam.

Graduates are eligible for membership in the following professional associations:
- Alberta Boilers Safety Association (ABSA)
- Institute of Power Engineers (IPE)
- International Pressure Equipment Integrity Association (IPEIA)
- National Association Corrosion Engineers (NACE)

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2, Math 30-3 or Applied Math 30,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Reserved seats
Four seats are reserved for applicants who have completed and obtained a minimum of 70% in each of the following Career and Technology Studies courses:
1. PRS 1010 – Overview of Alberta Geology
2. PRS 1020 – Non-renewable Resources
3. PRS 1060 – Consumer Products and Services
4. PRS 2030 – Non-Conventional Hydrocarbon Exploration
5. PRS 2060 – Refining Hydrocarbons
Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.

For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Students are responsible for living and transportation costs and personal protective equipment while in industrial training at plant sites, some remote from Calgary.
- Additional fees of approximately $250.00 are required for courses such as H2S Alive and CPR, as well as living and traveling expenses associated with industrial training.
- Books and supplies are approximately $1000.00

Power Engineering Technology

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
Get yourself an empowering career. Power Engineering certification is from fifth class to first class, and there is a program available at SAIT to train you at all levels. Our Power Engineering Technology diploma arms you with the skills to become a third class power engineer responsible for controlling large, complex power and process systems, and performing production work in the operation and development of large-scale energy projects.

Program overview
Your career
Graduates find work as plant operators, design assistants, research and development assistants and process operators in the petroleum, power, petrochemical, refining, and pulp and paper industries. Opportunities also exist for positions in field and design offices and mechanical or industrial sales outlets.

Student success
Manual dexterity and mechanical ability is helpful. Students should be aware that colour blind testing may be required by some employers. Eighty per cent attendance is a requirement to successfully complete the program. Successful students will have the ability to gather technical information and use it to troubleshoot large electromechanical systems.

Credentials and accreditations
This is presently under development.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 60% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2, AND,
- At least 60% in English Language Arts 30-1 or 75% in English Language Arts 30-2, AND,
- At least 60% in Physics 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Reserved seats
Eight seats are reserved for applicants who have completed and obtained a minimum of 70% in each of the following Career and Technology Studies courses:
1. PRS 1010 – Overview of Alberta Geology
2. PRS 1020 – Non-renewable Resources
3. PRS 1060 – Consumer Products and Services
4. PRS 2030 – Non-Conventional Hydrocarbon Exploration
5. PRS 2060 – Refining Hydrocarbons

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books and supplies are approximately $1,800 for the first year and $1,200 for the second year.
### Program outline

**First Year**

**Semester 1**
- COMP 261 – Microsoft Office: An Introduction  1.5 credits
- ELCT 254 – Electrical and Controls I  1.5 credits
- PENG 201 – Power Theory I  3 credits
- PENG 203 – Power Lab I  3 credits
- SFTY 215 – Safety and Environment  1.5 credits
- THR 208 – Thermodynamics I Theory  3 credits

**Semester 2**
- COMM 238 – Technical Communications I  3 credits
- MATH 238 – Math for Engineering and Tech I  3 credits
- PENG 251 – Power Theory II  3 credits
- PENG 253 – Power Lab II  3 credits
- PWEN 282 – Unit Operations  1.5 credits
- THR 258 – Thermodynamics II Theory  3 credits

**Second Year**

**Semester 3**
- AMEC 306 – Applied Mechanics I  3 credits
- ELCT 304 – Electrical and Controls II  3 credits
- MATH 288 – Mathematics for Engineering and Technology II  3 credits
- PENG 301 – Power Theory III  3 credits
- THR 317 – Thermodynamics III Theory  3 credits
- THR 319 – Thermodynamics III Lab  1.5 credits

**Semester 4**
- AMEC 356 – Applied Mechanics II  3 credits
- ELCT 354 – Electrical and Controls III  1.5 credits
- PENG 351 – Power Theory IV  3 credits
- PROJ 351 – Power Engineering Technology Capstone Project  3 credits
- THR 357 – Thermodynamics IV Theory  3 credits
- THR 359 – Thermodynamics IV Lab  1.5 credits

**Total**  61.5 credits

### Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Athabasca University
- Thompson Rivers University
- University of Calgary

To learn more, visit Transfer Options on sait.ca.
Pre-Employment Automotive Service Technician

- 12-week certificate
- Winter, Summer start dates
- Full-time classroom

Contact us
School of Transportation
Phone: 403.284.8471
Email: transportation.info@sait.ca

Program description
This 12-week program provides an alternative entry into the automotive repair industry. Acquire the skills to perform preventative maintenance, basic diagnosis, and repairs on cars and light-duty trucks. You will learn about the systems in today’s vehicles utilizing state-of-the-art tools and equipment. Hands-on practice includes: safety and tools; alignments; suspension and steering; brake service; electrical; and basic maintenance.

Industry work experience
You will have the opportunity to work in industry and gain valuable experience in an operational shop.

Program overview
Your career
With your hands-on experience, you will be ready to work in an entry-level position in the automotive industry. After you become an indentured apprentice, you will complete the remaining technical training and work hours required to become an Automotive Service Technician Alberta journeyperson. Potential career progression includes advancement to shop foreman, service manager and other management positions in the automotive industry.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs. Students who have taken automotive mechanics in high school may experience greater success in the Pre-Employment Automotive Service Technician program.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT Certificate and have completed the first period Automotive Service Technician apprenticeship technical training. Graduates may be eligible to write the first period Alberta Trades Qualification exam.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation students must pass all courses and attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
The entrance requirements will be at least 50% in the following courses or equivalents:
- English Language Arts 30-1 or English Language Arts 30-2, AND
- Math 20-1 or Math 20-2 or Math 20-3 or Pure Math 20 or Applied Math 20, AND
- One Grade 11 Science.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- A basic tool kit is required. The required tools will cost approximately $1,500-$2,000 depending on the quality and brand of tools chosen.
- Membership to the SAIT wellness centre - including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.
- Books are approximately $150.
- Required personal protection equipment (steel-toed boots, coveralls and safety glasses) will cost approximately $300.

To learn more, visit transfer options on sait.ca.
*Upon finding an employer who will indenture you as an apprentice.
Pre-Employment Cabinetmaker

- 12-week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.preemp@sait.ca

Program description
Learn what it takes to build and repair wood components, furniture, fixtures and cabinetry. Cabinetmakers have the ability to produce custom-made wood products. They draw diagrams and read specification, layouts and patterns for unique projects using wood and wood components. This 12-week program covers all course material received by a first year cabinetmaker apprentice, plus additional hands-on skills and safety training. The program prepares students to enter the workforce and become an apprentice. On successful completion of the program, there is an option to write the first year Cabinetmaker apprenticeship exam.

Program overview

Your career
Graduates of the Pre-Employment Cabinetmaker program have a 100% employment rate.

Credentials and accreditations
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Admission requirements
Successful completion of the following courses or equivalents:
- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 2) or equivalent is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $350 in addition to tuition fees.
- Membership to the SAIT wellness centre – including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

Pre-Employment Carpenter

- 12-week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.preemp@sait.ca

Program description
Carpenters work in many areas of construction. They are involved in residential, commercial, industrial or maintenance construction. Most carpenters are involved in reading blueprints, selecting materials and methods of work, measuring, cutting and joining materials. This 12-week program covers all course material received by a first year carpenter apprentice, plus additional hands-on skills and safety training necessary on an actual jobsite. The program will prepare the student to enter the workforce and become an apprentice. On successful completion of the program, there is an option to write the first year Carpenter apprenticeship exam.

Program overview
Your career
Graduates of the Pre-Employment Carpenter program have a 95% employment rate

Credentials and accreditations
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Note: This program is eligible for the Canada-Alberta Job Grant.

Admission requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-1 or English Language Arts 10-2, AND,
- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (Level 2) or equivalent is accepted in lieu of the above requirements.

Pre-Employment Electrician

- 12-week certificate
- Spring, fall and winter start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
This 12-week, full-time program is designed to offer an alternate route to those looking to enter the Electrician trade. If you are struggling to find an employer willing to indenture you as an Electrician apprentice, this program may be right for you. This program covers all course materials received by a first-year Electrician apprentice, as well as additional basic wiring skills and safety training. The program prepares students to enter into an apprenticeship with hands-on skills and, upon successful completion of the program, to challenge the first year Electrician apprenticeship exam.

Program overview
Your career
Electricians play a critical role in many industries including mining, oil and gas extraction, construction, transportation and warehousing, manufacturing, and wholesale trade. Electricians in the construction industry can further specialize in residential (housing developments), commercial (office buildings), institutional (hospitals) and industrial (plants, factories) types of installations. They install, alter, repair and maintain electrical or live alarm systems designed to provide heat, light, power and controls for all types of buildings, structures and premises.

While on the job, they may perform some of the following duties:
- read and interpret electrical, mechanical, and architectural drawings and electrical code specifications to determine wiring layouts;
- cut, thread, bend, assemble, and install conduits and other types of electrical conductor enclosures and fittings;
- install distribution and control equipment such as switches, relays, circuit breaker panels, and fuse enclosures;
- install data cabling and test circuits to ensure integrity and safety;
- install and maintain fibre optic systems;
- install, replace, maintain, and repair renewable power sources and related equipment.

Graduates of the Pre-Employment Electrician program have a high employment rate

Student success
SAIT will recognize students who successfully complete this program. The students will have the opportunity to write the provincial level 1 Apprenticeship Trade Examination.

Credentials and accreditations
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Successful completion of the following courses or equivalents:
- Math 20-1, Math 20-2, Math 20-3, Pure Math 20, or Applied Math 20, AND,
- English Language Arts 20-1 or English Language Arts 20-2, AND,
- Science 10
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 5) or equivalent is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.
Costs

Tuition (subject to change)
• Please refer to the Tuition and Fee Table.
• International students, please refer to International Student Fees.
• For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
• Books are approximately $500 in addition to tuition fees.
• The Apprenticeship exam fee is approximately $150 and will be coordinated within the first three weeks of the program.
• Membership to the SAIT wellness centre – including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

Pre-Employment Industrial Mechanic (Millwright)

- 12-week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Manufacturing and Automation
Phone: 403.284.8641
Email: ma.info@sait.ca

Program description
This 12-week program is designed to offer an alternative route to those looking to enter the Industrial Mechanic (Millwright) trade. This program covers all course materials received by a first-year Industrial Mechanic (Millwright) apprentice.

Students in this program will be provided the opportunity to install, troubleshoot, repair and maintain industrial equipment. Students will gain knowledge such as machining, machine assembly, blueprint reading, rigging and hoisting, bearings, power transmissions, machine alignment, drive systems, welding techniques and use of precision measurement tools and testing equipment.

The program prepares students to enter into an apprenticeship with hands-on skills. Upon successful completion of the program, students will qualify to challenge the first-year Industrial Mechanic (Millwright) apprenticeship exam.

Program overview

Career opportunities
Industrial Mechanics (Millwright) are exposed to the duties involved in a variety of other trades, and therefore can be good candidates for promotion to supervisory and superintendent positions. Industrial Mechanics (Millwright) may find work in a wide variety of industries including: oil and gas, construction, manufacturing, materials handling, and ski lift maintenance.

If you choose a career as an Industrial Mechanic (Millwright), you’ll need the following characteristics:
- Problem-solving capabilities
- Physical strength and stamina
- Good hand-eye coordination and manual dexterity
- The ability to visualize a layout by looking at plans and blueprints
- The ability to troubleshoot mechanical systems
- Analytical and ability to work to precise measurements
- Enjoy working with your hands

Areas of Study
- Machine Shop
- Trades math
- Power transmission
- Compressors
- Welding
- Rigging and hoisting
- Machine alignment
- Blueprint reading
- Lubrication

Student success
Upon successful completion of the program, you may be eligible to register as an apprentice in the Industrial Mechanic (Millwright) program, once you find employment.

Credentials and accreditations
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Admission requirements
Successful completion of the following courses or equivalents:
- Math 20-1, Math 20-2, Math 20-3, Pure Math 20 or Applied Math 20, AND,
- English Language Arts 20-1 or English Language Arts 20-2, AND,
- Science 10
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 4) or equivalent is accepted in lieu of the above requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.
Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Modules are provided to the students on the first day of the class and the modules are included in the cost of the tuition.
- Safety glasses and CSA approved safety footwear are required.
- Membership to the SAIT wellness centre - including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

- Rocky Mountain College

*Upon finding an employer who will indenture you as an apprentice.
Program description
This 9-week program is designed to offer an alternative route to those looking to enter the Ironworker trade. This program covers all course materials received by a first-year Ironworker apprentice, as well as additional value-added programming focused on safety and field operations.

Students in this program will be provided with the opportunity to learn about fabrication, scaffolding, structural steel buildings, building bridges, ornamental ironwork and pre-casting structures.

The program prepares students to enter into an apprenticeship with hands-on skills. Upon successful completion of the program, students will qualify to challenge the first-year Ironworker apprenticeship exam.

Program overview
Your career
Most ironworkers are employed by construction contractors, but some are employed in industries such as metal fabricating, oil and gas production, iron and steel production, electric utilities and rail transport. Very few ironworkers are self-employed. In the construction industry, ironworkers work on a project-to-project basis and frequently travel long distances from job to job. Union members work out of union hiring halls where work is allocated on a rotating basis. Employment can be seasonal, and employment prospects change with the economic climate, particularly with the volume of commercial and industrial construction projects.

If you chose a career as an Ironworker, you’ll need the following characteristics:

- the ability to interpret blueprints
- an understanding of safe work and tool practices.
- to be able to work at heights
- the strength, stamina, and ability to use proper lifting techniques to lift items weighing in excess of 25 kilograms
- very good muscular coordination, agility and balance
- a willingness to travel to various work sites
- an inclination to work cooperatively with others
- ability to act quickly and decisively in emergencies.

Admission requirements
Successful completion of the following courses or equivalents:

- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2

All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

A pass mark in the SAIT Admission Examination (level 2) or equivalent is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Tuition includes all course materials, student fees and access to appropriate technology.
- Membership to the SAIT wellness centre – including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

Pre-Employment Mobile Crane

- 9-week certificate
- Winter start date
- Full-time classroom

Contact us
Crane and Ironworker Facility — Point Trotter Industrial Park
Phone: 403.210.4020
Email: transportation.info@sait.ca

Program description
This 9-week program is designed to offer an alternative route to those looking to enter the Crane and Hoist Equipment Operator trade. This program covers all course materials received by a first-year Crane and Hoist Equipment Operator — Mobile Crane Apprentice, as well as additional value add programming focused on safety and field operations.

Students in this program will be provided with the opportunity to operate cranes in a simulated and field environment. They will operate various types of mobile cranes: all-terrain, rough-terrain, lattice-boom crawler (simulated), and swing-cab boom truck.

The program prepares students to enter into an apprenticeship with hands-on skills. Upon successful completion of the program, students will qualify to challenge the first year Crane and Hoisting Equipment Operator-Mobile Crane apprenticeship exam.

Program overview
Career opportunities
Mobile Crane operators are employed by general contractors and subcontractors in the forestry, mining, construction and oil industries, and by crane rental companies. Employment prospects change with seasonal and economic climates.

If you chose a career as a Mobile Truck Crane Operator, you’ll need the following characteristics:
- Good vision
- Depth perception
- Manual dexterity
- The ability to work at heights
- The strength, stamina and ability to use proper lifting techniques to lift items weighing in excess of 25 kilograms
- The ability to work as part of a team and communicate to ground crews, usually using hand signals and voice communication

Admission requirements
Successful completion of the following courses or equivalents:
- Math 10-3, AND,
- English Language Arts 10-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

A pass mark in the SAIT Admission Examination (level 2) or pass marks in all five Canadian General Educational Development (GED) tests is accepted in lieu of the above requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are included in the tuition fees.
- There will be additional fees for personal protection equipment. Proper outdoor clothing will be expected, as students are expected to work in all outside working conditions.
- The Apprenticeship exam fee is approximately $150 and will be collected within the first three weeks of the program.
- Membership to the SAIT wellness centre — including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

Pre-Employment Pipe Trades

- 12-week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.preemp@sait.ca

Program description
This 12-week pre-employment program comprises the first period of the corresponding apprentice program that SAIT currently offers in this trade. The program trains individuals to lay out, assemble, fabricate, maintain and repair piping systems which carry water, steam, chemicals or fuel used in heating, cooling, lubricating and other processes. Steamfitter-Pipefitter is a pipe trade that deals with the installation, maintenance and repair of piping systems, but differs from other pipe trades in relation to where the work is performed, the types of piping that are involved and the training that is required. To install a typical piping system in a commercial building or industrial plant, a Steamfitter-Pipefitter will study blueprints, drawings and specifications to determine the type of pipe and tools to use, and lay out the sequence of tasks. Heavy lifting may be required.

Note: This program is eligible for the Canada-Alberta Job Grant.

Program overview
Credentials
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Successful completion of the following courses or equivalents:
- Math 20-1, Math 20-2, Math 20-3, Pure Math 20, or Applied Math 20, AND,
- English Language Arts 20-1 or English Language Arts 20-2, AND,
- Science 10
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Entrance Examination (level 4) is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $600 in addition to tuition fees.
- Membership to the SAIT wellness centre – including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room is available at a discounted rate.

Program outline
- APPH 202 – Calculations and Science 1.5 credits

Pre-Employment Refrigeration and Air Conditioning

- 12-week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.preemp@sait.ca

Program description
Refrigeration and Air Conditioning Mechanics are used extensively in a wide array of industries including process manufacturing, the medical profession, the petroleum industry, chemical processing and environmental control. This 12-week program covers all course materials received by a first year Refrigeration and Air Conditioning Mechanic apprentice, plus additional hands-on skills and safety training. The program prepares students to enter an apprenticeship and, on successful completion of the program, to write the first year Refrigeration apprenticeship exam.

Program overview
Your career
Graduates of the Pre-Employment Refrigeration program have a 100% employment rate

Credentials and accreditations
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Note: This program is eligible for the Canada-Alberta Job Grant.

Admission requirements
Successful completion of the following courses or equivalents:
- Math 30-1, Math 30-2, Math 30-3, Pure Math 30 or Applied Math 30, AND,
- English Language Arts 30-1 or English Language Arts 30-2, AND,
- Physics 20 or Chemistry 20
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 5) or equivalent is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Pre-Employment Sheet Metal

- 15-week certificate
- Winter start date
- Full-time classroom

Contact us
School of Construction
Phone: 403.284.8367
Email: construction.preemp@sait.ca

Program description
This 15-week pre-employment program comprises the first period of the corresponding apprentice program that SAIT currently offers in this trade. The program will train individuals to design, fabricate, assemble, install and repair sheet metal products in a wide variety of industries and settings. They will use many types of metals, such as black and galvanized steel, copper, brass, nickel and stainless steel, aluminum and tin plate. Some of the products include dust collecting and control systems, heating, ventilating and air conditioning systems, metal cabinets, flashing, coping, troughing and roof drainage systems. They work from verbal instructions or blueprints, or design small jobs themselves. They make some products in a shop and install them at construction sites, but other products such as roofing and siding have to be measured and cut at the construction site. Sheet metal workers work indoors and outdoors in all types of weather. Considerable bending, reaching, working at heights or in cramped spaces may be required.

Program overview

Credentials and accreditations
Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Note: This program is eligible for the Canada-Alberta Job Grant.

Admission requirements
Successful completion of the following courses or equivalents:
- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2

Pre-Employment Welding

- 12-week Full-time certificate and 35-week part time certificate
- Fall, winter and spring start dates
- Full-time classroom or part-time evening classroom

Contact us
School of Manufacturing and Automation
Phone: 403.284.8641
Email: ma.info@sait.ca

Program description

The Pre-Employment Welding program provides an alternative route to the welding apprenticeship program. Welders use welding technology to join, shape and cut metal parts. They make pressure vessels and pipelines, work joining beams or girders in the construction industry, and manufacture industrial components and consumer goods. Many Welders in Alberta are employed in oil and gas related industries, particularly oil service and pipeline construction. Experienced Welders may advance to positions such as supervisors, welding inspectors and quality control inspectors or start their own businesses with either a shop or a mobile welder.

Program overview

Your career

Work conditions for welders vary from one job to another. Welders may work outdoors on construction sites, or indoors in production and repair shops. Travel may also be required on jobs such as oilfield-related welding. A 40-hour work week is typical, but overtime is occasionally required to meet project deadlines. If you choose a career as a welder you’ll need the following characteristics: manual dexterity, patience, good vision (corrective lenses are acceptable), good hand-eye coordination and the ability to concentrate on detailed work. Being a welder is a rewarding career if you enjoy working with metal, physical work and working with little direction or supervision.

Credentials and accreditations

Upon successful completion of the program, students will receive a SAIT Certificate and may be eligible to challenge the written and practical exams for first-year Apprenticeship.

Admission requirements

Successful completion of the following courses or equivalents:

- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 2) or equivalent is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Tuition fees include all course materials and access to appropriate technology.
- The Apprenticeship exam fee is approximately $295 and will be coordinated within the first three weeks of the program.
- Membership to the SAIT wellness centre – including an ice arena, swimming/diving pool, gymnasium, squash and racquetball courts and weight room - is available at a discounted rate.

Professional Cooking

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Hospitality and Tourism
Phone: 403.284.8612
Email: hospitality.info@sait.ca

Program description
Considered the best in Canada, the Professional Cooking program at SAIT is delivered by world-renowned chefs who provide expert, hands-on training. In just two short years you will have the opportunity to train and interact with 20 leading culinary professionals — an amazing experience for anyone passionate about the culinary arts.

During this full-time two year program, you will be trained in all aspects of the culinary trade including foundational cooking techniques, garde manger, culinary perspectives and patisserie. In an industry experiencing high demand, graduates from SAIT’s Professional Cooking program gain valuable, real-life experience and are well prepared for a diverse range of options in the dynamic culinary world.

At SAIT, we are focused on our students’ success and deliver on this promise through small class sizes, a personalized approach and state-of-the-art facilities. Our classrooms and labs have recently received $7 million in upgrades including the new Michelle O’Reilly Charcuterie Lab, SAIT’s gourmet Market Place, the downtown Culinary Campus, and our own culinary garden, Jackson’s Garden. Operating in live classroom environments such as the renowned Highwood restaurant and 4Nines Dining Centre provides real world experience that readies you for success in the culinary industry.

As a student, you will learn essential cooking skills and current trends through repetitive production style cooking for the public under the watchful eyes of our professional chefs — just like you would in a real kitchen. The capstone of the program is cooking for the public in the award-winning Highwood restaurant, and the bustling downtown Culinary Campus where you will prepare world-class cuisine in a live classroom environment.

Professional paid internship and study tours
Between your first and second year of study, you will get to apply your skills in the industry through a professional paid internship. In addition to learning in a real-world environment, internships provide valuable connections and opportunities to network with future employers.

As a student, you can also take advantage of exciting international study tours. Previous tour locations have included Australia, France, Spain, Italy, Chile and Thailand.

Global recognition through chef competitions
SAIT’s Professional Cooking program will give you the skills for a global career path and opportunities to work in the world’s finest dining establishments. You also have the option to compete in skills and culinary competitions—both locally and internationally. Our students have won gold and silver in Provincial and National Skills in addition to the Canadian Chef Association competitions. Our students have also competed in Hong Kong and Singapore over the last several years placing in the top three.

Program overview

Your career
You will be prepared for a diverse range of career options in restaurants, hotels and convention centres after graduation. You may find work locally or abroad as an:

- Executive Chef
- Sous-chef
- Chef de Partie
- Banquet Chef
- Garde Manger
- Chef de Cuisine
- Kitchen Manager
- Food Stylist
- Educator

Graduates of the Professional Cooking program have a 100% employment rate

Student success
Most successful students spend approximately 20 hours per week doing homework and review, with additional study required to prepare for exams.

Keep in mind hospitality industry hours can range from early morning to late in the evening and often include holidays. For example, our cold food prep classes start at 7 am and dinner service at the Highwood ends at 10 pm

The culinary industry is fast-paced with a focus on customer service.

The material is presented at a fairly rapid rate. For the greatest level of success you must be present and take responsibility for your learning experience.

You must be able to read, write and comprehend the English language at a level exceeding basic conversational English.

Students with higher grades in high school usually experience more success in SAIT programs.

Credentials
After successfully completing this program, graduates will receive a SAIT diploma in Professional Cooking.
Accreditation

Alberta Apprenticeship has accredited this program for all three technical training periods. Students are still required to complete 4,680 hours of paid work experience and must successfully challenge all three provincial exams before considered eligible for the Red Seal exam and designation.

Students in the Professional Cooking program can challenge:
- The first year government exam after successful completion of their first year in the diploma program.
- The second year government exam after successful completion of the third and fourth semesters provided they passed the first year government exam.
- The third year government exam after successful completion of the Professional Cooking diploma provided they passed the first and second year government exams.

For more information contact the School of Hospitality and Tourism.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

A minimum of 35 Alberta high school credits with at least 50% in the following courses or their equivalents:
- English Language Arts 10-1 or English Language Arts 10-2 or Humanities 10, AND,
- Math 10C or Math 10-3 or Pure Math 10 or Applied Math 10.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add culinary@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Books and supplies are approximately $750

Email: ict.info@sait.ca

Program description

The Radio, Television and Broadcast News (RTBN) program is divided into three options: Radio, Television or Broadcast News. Students choose the option that best fits their individual skills and interests, in preparation for a challenging, creative and exciting career in the media.

The RTBN program involves two years of full-time study. Each of the program’s two years is divided into two semesters. There is a single intake each year, with classes commencing in September and finishing in late April. A four-week industry practicum is available in the fourth semester.

All Radio, Television, and Broadcast News students participate in laptop e-learning curriculum. Students lease a PC laptop computer from SAIT, which are equipped with various software applications. Internet access, training and technical support are provided throughout the program.

Majors

Radio students gain valuable industry experience by operating SAIT’s campus radio station (accessible worldwide at radio.sait.ca). Students progress from mastering audio basics to advanced digital multi-track production, perform duties in the sales and promotions departments, and rotate through station positions including on-air personality, creative director, and production manager. Students also receive training in music directing, traffic management, and news and sports delivery, to round out this exciting and worthwhile career path.

Television students learn the fundamentals of writing, directing, producing, and editing through live production and assembling pre-recorded video and audio elements. A strong emphasis is placed on hands-on learning and innovation in both single and multi-camera environments. Students work in teams to produce information and news programs, live event programming (such as sports, variety programs, documentaries, commercials, and public service announcements. Students also become familiar with the technical aspects of television media by working with broadcast-quality equipment such as High Definition cameras, switchers, digital audio consoles, graphics work stations, servers and computer-based editing systems.

Broadcast News (BN) students learn how to research and objectively present a story. They receive extensive, hands-on training. The program provides realistic experiences behind and in front of the camera and microphone. Students are trained to work effectively in both the radio and television environment. BN students learn the importance of meeting deadlines while maintaining a respect for journalistic integrity. Students take on many roles in our newsroom, including reporter, producer, line-up editor, news and sports anchor and weather reporter.

Program overview

Your career

Graduates find work in the traditional areas of broadcast, cable and film production, both as salaried employees and freelancers. In recent years, we have seen our graduates obtain employment with corporate and educational organizations.

Graduates of the Radio, Television and Broadcast News program have a 100% employment rate

Student success

Students with previous academic success are frequently more successful in SAIT programs.

Credentials

Upon successfully completing this program, graduates will receive a SAIT diploma in Radio, Television and Broadcast News.

Accreditation

There are no formal accreditation arrangements currently. Please contact the School of Information and Communications Technologies (ICT) for more information.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.
Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add ict.mediatudents@sait.ca to your safe senders list or you risk missing critical email messages.

Admission requirements

- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalents.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and Supplies

- Books and supplies are approximately $720 for the first year and $500 for the second year depending on the option taken.
- A $400 security deposit to use a SAIT issued laptop.

- Fall, winter and spring start dates
- Full-time classroom

Contact us
Centre for Rail Training and Technology
Phone: 403.210.4150
Email: rail@sait.ca

Program description

The Railway Conductor (RRCD) program will prepare the student for a career in operations in the Canadian railway industry. The student will learn in a variety of settings including classrooms, labs, a private mini rail yard (complete with track and rail cars), and through visits to nearby industrial sites. Over the course of the program the student will learn about the Canadian Railway Operating Rules (CROR) and the related instructions and processes. The student will also learn operating procedures including train marshalling, handling of dangerous goods, documentation and all of the specific responsibilities of a conductor. Finally you will learn using actual rail equipment about the mechanical components of rail cars including air braking systems and communication systems.

Currently, the railway industry is experiencing significant growth and there are increased demands for transportation and distribution of commodities and/or finished manufactured products. The high demand for our graduates is also the result of pressures brought on by high retirement rates as the demographics of an aging workforce influence the hiring rates and practices of the railways. The major railways have significant hiring and recruiting strategies in place for the next several years.

Rail Training Centre, N.R. Buck Crump Building
Mayland Heights Campus of SAIT
1940 Centre Avenue NE
Calgary, AB.

Program overview

Your career

As a conductor, your role is to achieve high levels of customer satisfaction through the use of safe and cost effective processes to optimize operations. You will be responsible for switching and marshalling cars; setting off and picking up customers cars; making up trains within the rail yard; and moving cars between rail yards, sidings or tracks according to instructions originating with yard and train planners or network management centres and dispatch offices. Graduates may find work as Railway Conductors (and other related occupations) within Canada’s two national railways or with a short line or regional carrier, or an industrial rail operator. As a graduate, you will be rewarded with challenging and interesting positions, paying good salaries and having opportunities for advancement including locomotive engineer and/or management. Conductors are typically promoted to locomotive engineers with further training and qualification. Graduates of the Railway Conductor program have a 100% employment rate.

Student success

Conductor graduates must have a strong orientation towards safety, as well as excellent English proficiency in verbal and written skills, good planning, decision-making and communicating skills to work in the rail industry. Railways operate 24-hours a day, 365 days a-year. Students must accept the reality of working shift work and having irregular days off. The work of a conductor requires regular physical activity outdoors in all types of weather. Conductors need to be in good physical condition and be able to lift heavy objects (up to 85 lbs). Applicants to the railway companies are expected to pass government-mandated medical examinations including testing for vision including colour, hearing acuity and drug screening. Persons with medical concerns should consult with the employment office(s) of the respective railway(s). Applicants to railway jobs are also given security screening by the hiring railway. Anyone with a concern should consult with the employment office(s) of the respective railway(s). Personal security information may be obtained from the local police force for a fee. To gain employment in the rail industry as a Conductor, the student is responsible for determining the minimum medical and physical standards required by individual rail companies. SAIT does not provide screening services for the purpose of meeting these standards.

Credentials

After successfully completing this program, graduates will receive a SAIT certificate as a Railway Conductor.

Accreditation

SAIT will seek accreditation from the Railway Association of Canada.

Note: This program is eligible for the Canada-Alberta Job Grant.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

At least 50% in the following courses or equivalents:
- Math 20-1 or Math 20-2 or Math 20-3 or Pure Math 20 or Applied Math 20, AND,
- A Grade 12 English.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.
Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $600
- Students must bring and wear approved safety footwear.

Rehabilitation Therapy Assistant

- Two-year diploma
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
Medical advances permit a growing number of children and adults to live successfully with disabilities. Clients, who have experienced an injury or a health condition that has impacted their ability to function in day-to-day life, can maximize their physical, mental and social abilities through rehabilitation. Under the supervision of an occupational therapist or physiotherapist, the therapist assistant works with clients across the lifespan with the goal of helping the clients to be active participants in society. Therapist assistants also support facility administration by managing therapeutic supplies and maintaining equipment.

SAIT’s Rehabilitation Therapy Assistant diploma program trains students to become knowledgeable and skilled assistants in occupational and physical therapy. Course content meets or exceeds the essential competencies required for support personnel in both professions.

The Rehabilitation Therapy Assistant program is two years in length and is comprised of four semesters. The first semester of the program addresses key concepts of rehabilitation and health care delivery. Observational visits to the clinical settings assist the student in integrating knowledge of normal physical and psychological function with basic therapeutic skills. More advanced rehabilitation concepts, common health conditions and therapeutic skills used in occupational therapy and physical therapy are taught in the second semester. Professionalism and communication skills are also emphasized and practiced when the student completes a two-week practicum.

In the third semester of the program, advanced therapeutic skills and complex health conditions are integrated in a second two-week practicum. In the fourth and final semester, professional practices are integrated in the 12 week practicum. The student returns to SAIT for the final two weeks of the semester for comprehensive practical examinations and to consolidate his/her experiences.

Students must be disciplined for learning through self-study, face-to-face at SAIT, and in a clinical setting and online. Practica experiences are unpaid and may occur outside the Calgary area.

Some courses will require an online component and will require students to have computer and Internet access and e-mail capabilities. All courses require additional self-study.

Program overview

Your career
Graduates find work in a variety of settings including rehabilitation centres, mental health facilities, long-term care facilities, hospitals, schools and private physiotherapy and occupational therapy services in both urban and rural settings.

Student success
Students must be physically fit and able to lift a minimum weight of 50 pounds.

Previous work or volunteer experience in a health- or wellness-related field is an asset.

Students who experience success in this program:
- Have at least basic computer skills
- Possess effective communication skills in both written and spoken English
- Have higher secondary or post-secondary marks
- Are self-directed, highly motivated, detail oriented and well-organized
- Are professional and flexible
- Enjoy working in a team environment and in diverse settings
- Above all, enjoy relating to others

Credentials
After successfully completing this program, graduates will receive a SAIT Rehabilitation Therapy Assistant diploma with both the occupational therapist assistant (OTA) and the physical therapist assistant (PTA) discipline designations.

Accreditation
The Rehabilitation Therapy Assistant Program at SAIT has been accredited by the Occupational Therapist Assistant and Physiotherapist Assistant Education Accreditation Program (OTA and PTA EAP) in collaboration with Physiotherapy Education Accreditation Canada (PEAC) and the Canadian Association of Occupational Therapists (CAOT). The status of Accreditation was granted to the program on April 30, 2016 for the period until April 30, 2022.

For more information please contact the Occupational Therapist Assistant and Physiotherapist Assistant Education Accreditation Program
c/o Physiotherapy Education Accreditation Canada
Suite 26, 509 Commissioners Road West
London, Ontario, N6J 1Y5
Phone: 226.636.0632
www.otapta.ca.
Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents with an overall average of at least 60%:
- English Language Arts 30-1, AND,
- Biology 30, AND,
- Chemistry 20 or Science 20.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Students are responsible for any additional expenses related to their practicum including relocation costs to practicum sites outside of Calgary.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check and is payable to the Police or the Royal Canadian Mounted Police (RCMP.)
- Textbooks and other learning materials cost about $1,500.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Program outline

First Year
Semester 1
- ANPH 209 – Anatomy and Physiology 3 credits
- ORNT 208 – Orientation to Rehabilitation 3 credits
- PROF 210 – Introduction to Healthcare Delivery 1.5 credits

Respiratory Therapy

- Three-year diploma
- Fall start
- Full-time classroom

Contact us
School of Health and Public Safety
Phone: 403.284.8500
Email: hps.info@sait.ca

Program description
Respiratory Therapy is a diverse and specialized profession that assists physicians in diagnosing, treating, and managing patients by providing such services as cardiopulmonary resuscitation, ventilator management, oxygen and aerosol therapy, patient assessment and evaluation, and diagnostic services including pulmonary function testing and blood analysis. Since 1970, SAIT has been providing students with the right combination of leading-edge theory and hands-on practice needed to succeed.

At SAIT, respiratory therapy students participate in a comprehensive three-year diploma program featuring two years of classroom, lab study, clinical simulation and practica followed by one year of clinical education in an acute and community care facility. Students complete practicum rotations such as adult, pediatric and neonatal intensive care units, the emergency department, anesthesia, wards, homecare pulmonary function and blood gas labs. The first two years each consist of eight months study at SAIT with some clinical practica. The third year is a 12-month clinical placement at an affiliated health care facility which will include weekday and weekend shifts. The program will strive to give students their location preference for practica, but as each hospital has limited seats available, placement at preferred sites is not guaranteed; students may have to relocate to complete their clinical year at their own expense.

SAIT instructors, as respiratory therapy professionals, are equipped to offer the latest insights into new technology and best practices in the field including SAIT’s Centre for Advanced Patient Care Simulation — a simulation education facility that uses high fidelity human patient simulators which physiologically respond to medical treatment.

Online elements require that students have a personal computer and access to the Internet. The Respiratory Therapy clinical practicum experience includes rotations through adult intensive care, neonatal intensive care, pediatric intensive care, home care, surgical suite and wards. Students will be evaluated on competency and performance in all rotations using a competency tracking system called CompTracker. Students are required to have an iPad or iPad mini to support the CompTracker system while at practicum sites.

Program overview

Your career
Graduates find employment as respiratory therapists in acute care hospitals, community and home care programs, diagnostic laboratories, educational institutions, research facilities, pharmaceutical companies, medical sales and services, and private companies. Future career opportunities may also exist in research, education, administration, and management.

Learn more about the Respiratory Therapy profession at careercruising.com. The login is: SAIT and the password is: Polytechnic.

Graduates of the Respiratory Therapy program have a 100% employment rate.

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

The program delivery is very intensive. To be successful students must be prepared to attend 30 hours per week of classroom activities and spend approximately 30 hours per week outside of class studying.

During the Respiratory Therapy program you will participate in learning a number of skills that are usually practiced on other students. All skills are performed in a safe setting and supervised. Typically, students take turns acting as patient and Respiratory Therapist when practicing these exercises. The students have the option to opt out of role-playing as the patient, however the student may still be required to perform the skill on a classmate.

Students who experience success in this program have the following characteristics:
- Strong command of the English language
- Strong communication and interpersonal skills are paramount given the vast amount of patient interaction required on the job.
- Good communication skills, compassion and an interest in caring for others
- Good organizational and problem solving skills with an ability to think and act in crisis situations
- Ability to work effectively, independently and as a member of a team.
- Professional and flexible, and enjoy working in diverse settings
- Value helping others and working in a high-energy, challenging environment
- Ability to spend the majority of their working hours on their feet and may be required to help lift immobile patients.
Credentials and accreditations

After successfully completing this program, graduates will receive a SAIT Respiratory Therapy diploma.

Graduates from the SAIT program must successfully challenge the Canadian Board of Respiratory Care (CBRC) examination to earn the right to practice Respiratory Therapy in Canada. Any graduate wishing to work outside of Alberta must be a member of CARTA and pay the $425 membership fee and provide proof of ELTPA of nine in all categories. Graduates wishing to work outside of Alberta may register with the CSRT by paying the $185 membership fee. After graduates become members of a professional organization they may register with the CBRC by paying the $900 national examination fee that will then allow them to challenge the national exam.

The Respiratory Therapy program delivered by SAIT is accredited by the Council on Accreditation for Respiratory Therapy Education (CoARTE). The program also works closely with our Advisory Committee to ensure that our curriculum continues to exceed provincial and national accreditation standards.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Completion of the following courses or equivalents:

- At least 70% in Math 30-1 or Pure Math 30, or at least 75% in Math 30-2,
- At least 70% in English Language Arts 30-1,
- At least 70% in Chemistry 30,
- At least 70% in Biology 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

English language requirement

All applicants who have English as an additional language must achieve the following passing scores in Enhanced Language Training Placement Assessment (ELTPA) before a seat can be offered in the program:

- Speaking Benchmark level 9
- Listening Benchmark level 9
- Reading Benchmark level 9
- Writing Benchmark level 9

The language assessment can be completed through the Immigrant Language Vocational Assessment Referral Centre (contact: 403.262.2656). The waitlist is approximately three weeks to access the ELTPA and assessment duration is approximately three hours.

In order to take the ELTPA test, you will need a referral form from the Respiratory Therapy (RT) program. Please email the administrative assistant with this required information:

- Full name
- Date of birth
- Phone number
- Current immigration status and number associated with your status
- SAIT student ID number

Please note that the program does not accept International English Language Testing System (IELTS), Test of English as a Foreign Language (TOEFL), Michigan English Language Assessment Battery (MELAB) or Michener English Language Assessment (MELA) as equivalent to the ELTPA.

Competitive entry

This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection

Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications.
Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- College and Association of Respiratory Therapists of Alberta (CARTA) annual dues are approximately $425.
- Canadian Society of Respiratory Therapists (CSRT) annual dues are approximately $100 for students and $180 for regular members.
- Canadian Board of Respiratory Care (CBRC) exam fee is approximately $900.
- Students are responsible for any additional expenses related to their practica including relocation costs to practicum sites outside Calgary.
- There is a fee associated with obtaining a police information check including Vulnerable Sector Check and is payable to the Police or the Royal Canadian Mounted Police (RCMP).
- Students pay $75 Comp Tracker fee for the first two years of the program and $75 per semester in the third year.
- Books, supplies and uniform are approximately $2,500.
- Students are required to purchase lab supply kits from NR 105 in Semester 1 prior to attending their labs.
- Students must have a personal computer and access to the Internet. Most classes are taught at SAIT, but some require online access. All courses require additional self study.
- Students require an Apple personal digital assistant (iPad or iPad Mini) to support the Comp Tracker system.
- Students must have their immunizations reviewed by the SAIT Health Clinic. There is a $50 charge to review vaccine history. Any vaccines to be administered will result in additional charges.

Program outline

First Year
Semester 1
- HLTH 201 – Respiratory Therapy Healthcare Core 3 credits
- RESP 212 – RT Anatomy and Physiology 3 credits
- RESP 214 – Patient Assessment 1 3 credits
- RESP 216 – Respiratory Therapy Clinical Practice 1 3 credits
- RESP 218 – RT Fundamentals 3 credits

Semester 2
- PATH 254 – Pathophysiology 1 3 credits
- RESP 262 – Patient Assessment 2 3 credits
- RESP 264 – RT Clinical Practice 2 3 credits
- RESP 266 – Interventions 1 6 credits

Second Year
Semester 3
- PATH 311 – Pathophysiology 2 3 credits
- RESP 315 – Patient Assessment 3 3 credits
- RESP 317 – RT Clinical Practice 3 3 credits
- RESP 319 – Interventions 2 6 credits

Semester 4
- PATH 312 – Pathophysiology 3 1.5 credits
- RESP 314 – Anesthesia 1.5 credits
- RESP 327 – PFT and Outpatient Care 3 credits
- RESP 329 – RT Clinical Practice 4 3 credits
- RESP 330 – Interventions 3 6 credits

Third Year
Semester 5
- PRCT 312 – RT Practicum 1 6 credits
- RESP 340 – RT Clinical Theory 1 3 credits
- RESP 342 – Practicum Foundations 1 3 credits

Semester 6
- PRCT 314 – RT Practicum 2 6 credits
- RESP 350 – RT Clinical Theory 2 3 credits
- RESP 352 – Practicum Foundations 2 3 credits

Semester 7
- PRCT 316 – RT Practicum 3 6 credits
- RESP 370 – RT Clinical Theory 3 3 credits
- RESP 372 – Entry to Professional Practice 3 credits

Total 96 credits

Transfer options
You may be eligible for transfer credit at:
- Athabasca University
- Memorial University of Newfoundland
- Thompson Rivers University
- University of New Brunswick, Saint John
- University of Ontario Institute of Technology
Technology Infrastructure Analyst

- Forty-week post-diploma certificate
- Fall start date
- Full-time classroom

Email: fast-track@sait.ca

Program description
“According to analysts more than 70% of a typical IT budget is spent on infrastructure, such as servers, operating systems, storage and networking. Add to this the need to refresh and manage desktop and mobile devices and you have a unique set of challenges for IT infrastructure to face” (Microsoft). Companies are looking for employees who can bridge the gap between their technical and business teams. The Technology Infrastructure Analyst program prepares you for challenging and exciting opportunities in the information technology field.

The program’s technical focus is server and network system management using Microsoft, Cisco and open source technologies. By developing project management methodologies, effective communication and leadership skills, you will develop strategies to provide quality solutions that illustrate the business relevance in the technical solution. The mandatory eight-week practicum provides the applied learning experience that is essential for success in industry. Upon completion of the program, you will be prepared to successfully challenge the MCSE, CCNA and ITIL Foundations certification exams.

Program overview

Your career
Graduates may find employment as an infrastructure architect, infrastructure analyst, IT consultant, systems administrator, network administrator or technical service agent.

Student success
Students with higher grades usually experience more success in SAIT programs. This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.

Credentials
After successfully completing this program, graduates will receive a SAIT post-diploma certificate as a Technology Infrastructure Analyst.

Accreditation
Students may also choose to pursue further designations, including A+, Microsoft Certified Solutions Expert (MCSE), and Certified Cisco Network Associate (CCNA). Additional training or testing may be required at the students’ own expense.

Admission requirements
- Undergraduate degree or two-year diploma from a recognized university, institute or college.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- Due to the tight integration of courses in the Technology Infrastructure Analyst program, credit for Prior Learning is not available.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add fast-track@sait.ca and the sait.ca domain to your safe senders list or you risk missing critical email messages.

Costs

Tuition (subject to change)
- Please refer to the Tuition (subject to change) and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies
- Tuition includes all required textbooks. Students should be prepared to subscribe to Office 365 Business Premium at their own expense.

Travel and Tourism

- Two-year diploma
- Fall start date
- Full-time classroom

Contact us
School of Hospitality and Tourism
Phone: 403.284.8612
Email: hospitality.info@sait.ca

Program description
If you have a passion for the exciting world of travel and tourism, consider the diverse opportunities for employment in Canada and abroad. With a 5-star rating from the Association of Canadian Travel Agencies, the Travel and Tourism program at SAIT will give you a hands-on, practical education ensuring you’re ready to jump into the market with real-world knowledge and skills.

Tourism is one of the world’s hottest growth industries with new destinations opening up for visitors around the world. At SAIT, we prepare students for rewarding and in-demand careers through expert instruction from industry leaders, hands-on learning and state-of-the-art facilities. In fact, you’ll find SAIT alumni working in top tourism organizations in Calgary, Canada and around the globe.

During this full-time two year program, you’ll learn how to use reservation systems for airlines, assess airfare, and gain insight on industry rules and regulations. Our blended learning environment includes classroom instruction, laptop delivery and a live working environment — all delivered through a personalized approach.

Beyond learning about airline reservation processes, you’ll become familiar with global tourist areas and attractions, study technologies for selling cruises, vacation packages, adventure tours, eco tours, niche travel and more. Your training also covers important areas including sales, marketing, business management, events planning, accounting, law and entrepreneurship.

Now for the exciting part—you get to apply these skills on campus in Destinations, the only live student-run travel centre in North America! As part of SAIT’s Destinations travel team, you’ll really get a taste for what it’s like to work in the tourism industry. Destinations is a licensed travel centre that is equipped with the latest industry booking and accounting software. Students have travel agent access to all major airline and tour companies. Here, you will work with the SAIT community to research, quote and make real reservations for flight, hotel, car, vacation packages and travel insurance bookings.

Travel industry software
As part of your training, you will have access to exclusive travel industry links and resources not available to the general public. Some examples of the latest industry software you’ll learn to use include:

- Airline reservation systems such as Apollo by Travelport and Sabre,
- Online booking tools like Expedia, Travelocity and Travel Partners’ agent areas, and
- Automated accounting software connected to the booking systems.

Professional internship and study tours
Between your first and second year of study, you will get to apply your skills in a professional paid internship. In addition to gaining experience in a real-world environment, internships provide valuable connections and opportunities to network with future employers.

As a student, you can also take advantage of exciting international study tours. Previous tour locations have included Peru, Turkey, China, Central America, Vietnam, Egypt, Morocco and Southern Europe. We also offer study exchanges through the global education network to Australia and Singapore.

Work toward your Certified Travel Counsellor (CTC) designation
Graduates with a GPA of 3.0 or higher at the end of semester five are encouraged to apply to write the Association of Canadian Travel Agencies (ACTA) national certification exam to progress toward the Certified Travel Counsellor (CTC) designation.

Program overview
Your career
Graduates can look forward to careers in retail and corporate travel, airline customer service and reservation call centres, resorts and cruise lines, destination attractions and government tourism offices.

Graduates of the Travel and Tourism program have a 95% employment rate

Student success
Working in a retail setting can mean long hours sitting at a desk, interacting with clients, working with computers.

Keep in mind industry hours can include weekend and evening shifts.

Airline careers or working as a tour operator often requires heavy lifting (baggage), travel and shift work.

Sales and marketing careers may require frequent travel.

Most successful students spend approximately 20 hours per week doing homework and review, with additional study required to prepare for exams.
The material is presented at a fairly rapid rate. For the greatest level of success you must be present and take responsibility for your learning experience.

You must be able to read, write and comprehend the English language at a level exceeding basic conversational English. Students with higher grades in high school usually experience more success in SAIT programs.

**Credentials**

After successfully completing this program, graduates will receive a SAIT diploma in Travel and Tourism.

**Accreditation**

The Travel and Tourism diploma program is endorsed by the Association of Canadian Travel Agencies, a national association that certifies and designates travel professionals across Canada. Endorsement is granted when a travel program meets or exceeds the educational standards based on the nationally validated occupational standards for travel counselling. Completion of the program prepares students to write the Knowledge Exam required to become a Certified Travel Counsellor. For more information on becoming a Certified Travel Counsellor, contact the Canadian Institute of Travel Counsellors.

**Progression**

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

**Admission requirements**

At least 50% in the following courses or equivalents:

- Math 20-1 or Math 20-2 or Math 20-3 or Math 24 or Pure Math 20 or Applied Math 20, AND,
- English Language Arts 30-1 or English Language Arts 30-2.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

**Direct entry**

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

**Costs**

**Tuition (subject to change)**

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

**Books and supplies (subject to change)**

- Books and supplies are approximately $1,500 per calendar year.
- Students in the Travel and Tourism program are required to bring their own device.

Water and Wastewater Treatment Operations

- One-year certificate
- Fall start
- Full-time classroom

Contact us
MacPhail School of Energy
Phone: 403.284.8451
Email: energy.info@sait.ca

Program description
This program gives graduates the opportunity for expanded growth through their career by combining both water and wastewater treatment operations with power engineering. The Water and Wastewater Treatment Operations is a one-year certificate program.

Graduates will gain skills and knowledge related to treatment technologies, unit operations, process controls and laboratory analytics. Through in-class learning and lab experience, they will be able to write the 4th class power engineering certification exam through the Alberta Boilers Safety Association (ABSA). Upon graduation, they will have completed a four-month practicum that could count towards the one-year work experience requirement by the Province of Alberta to acquire a Water and Wastewater Operator Certification.

Program overview
Your career
Graduates of this program can work in a wide range of sectors including municipal, decentralized systems in rural areas, pulp and paper, petrochemical, oil production, beverage, breweries and emerging industries.

Graduates can find work as:
- junior water and wastewater systems operator
- sales-water treatment and processing companies
- 4th class power engineer-municipal, industrial, and equipment manufacturing
- entry level position as a water quality specialist in the consulting industry
- entry level position at any steam generation facility
- entry level position at water recycling companies
- facilities operator
- water treatment technologies

Credentials
After successfully completing this program, graduates will receive a SAIT Integrated Water Management Diploma.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 50% in English Language Arts 30-1 or 30-2, AND
- At least 50% in Math 30-1 or Pure Math 30, or 60% in Math 30-2, AND
- At least 50% in Chemistry 20, AND
- At least 50% in Biology 20,
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Web Developer

- Twenty-three week certificate
- Fall and winter start dates
- Full-time classroom

Contact us
School of Information and Communications Technologies
Phone: 403.210.4522
Email: fast-track@sait.ca

Program description
Can you imagine a world without the Web? Can you make it through a day without accessing an online service like Google, Facebook, or Wikipedia? Would you like to be part of the industry that invents and advances the tools that make the online world possible?

SAIT’s 23-week Web Developer program will provide you with the skills required to enter this exciting field. Whether you want to create corporate websites, develop your own consulting business, or create the next hot Web service, this program will help you develop the creative and technical skills to design and construct user-friendly websites. Social media, multimedia, and e-commerce integration, web analytics, design tools and techniques, and career/consulting essentials will also be included. After 15 weeks in class, enhance your training and start your career with an 8-week industry practicum.

Program overview

Your career
Graduates may find employment as a web developer, web designer, webmaster, Intranet developer, and web analyst.
Graduates of the Web Developer program have a 90% employment rate

Student success
Students with higher grades usually experience more success in SAIT programs. This is an intensive program requiring a commitment of both time and energy; students who experience success are those who make their education a priority throughout the program.

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Competitive entry
This program has selection criteria in addition to the academic admission requirements. Applicants are responsible for familiarizing themselves with the selection criteria. Visit sait.ca for the most up-to-date information.

Communication during selection
Email is the primary source of communication during the selection process. Ensure your personal email account is managed appropriately to receive our emails, files and communications. We recommend you add fast-track@sait.ca and the sait.ca domain to your safe senders’ list or you risk missing critical email messages.

Ideal applicant
The ideal candidate for the Web Developer program will be both creative and technical in nature. You are collaborative and work well in teams. You are capable of learning independently and enjoy self-directed study. Most importantly, you possess some previous knowledge of web development or design.

Admission requirements
- At least 60% in English Language Arts 30-1 or English Language Arts 30-2 or equivalent, OR,
- A minimum of two years post-secondary education from a recognized university, institute or college.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- Due to the tight integration of the courses in the Web Developer (WBDV) program, credit for Prior Learning is not available.

Costs

Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies*
- Tuition includes all course materials, student fees and access to appropriate technology.

Program outline

Semester 1
- CPNT 200 – Content Management Systems  1.5 credits
- CPNT 201 – Web Design Tools and Techniques  3 credits
- CPNT 262 – Web Client and Server Programming  1.5 credits
- CPNT 260 – Web Page Construction Fundamentals  1.5 credits
- CPNT 264 – Career and Consulting Essentials  1.5 credits
- CPNT 265 – The Business of the Web  1.5 credits
- DSGN 270 – Web Design Theory and Social Media Concepts  1.5 credits

Semester 2
- PRAC 276 – Web Developer Practicum  3 credits

Total  15 credits
Welding Engineering Technology

- Two-year diploma
- Fall and winter start dates
- Full-time classroom

Contact us
School of Manufacturing and Automation
Phone: 403.284.8641
Email: ma.info@sait.ca

Program description
The Welding Engineering Technology program offers full-time, two years of hands-on education. The first year focuses on academic fundamentals and structural steel design and fabrication. During the second year you will learn pressure vessel design, construction and testing. You will design, build and test a pressure vessel as part of your final project. Practical welding skills are also developed to gain an in-depth understanding of welding processes.

Program overview
Your career
Graduates may find work as welding specialist on engineering teams, researchers, supervisors, quality control and inspection officers and in technical sales. As a specialist on the engineering team, the technologist not only understands the welding processes used in metal fabrication, but is also trained in quality control, welding metallurgy, codes, fabrication techniques, inspections, drafting, weld design, management and supervision, computer skills, and project management.

Graduates of the Welding Engineering Technology program have a 92% employment rate

Student success
Students with higher secondary or post-secondary marks usually experience greater success in SAIT programs.

Credentials and accreditations
After successfully completing this program, graduates will receive a SAIT diploma in Welding Engineering Technology.

This program is nationally accredited by Technology Accreditation Canada. Graduates may apply to the Association of Science and Engineering Technology Professionals of Alberta (aset.ab.ca/) for their Certified Engineering Technologist designation after two years of appropriate industrial experience. While at SAIT, students are encouraged to become members in the Canadian Welding Association (cwa-arcs.org/), American Society for Materials (asminternational.org), National Association of Corrosion Engineers (nace.org/) and the Association of Science and Engineering Technology (aset.ab.ca/).

Progression
Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements
Completion of the following courses or equivalents:
- At least 50% in Math 30-1 or Pure Math 30, or at least 70% in Math 30-2, AND,
- At least 50% in English Language Arts 30-1 or English Language Arts 30-2, AND,
- At least 50% in Chemistry 20 or Science 30.
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.

Direct entry
There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs
Tuition (subject to change)
- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)
- Books are approximately $1,600 for the first year and $1,000 for the second year.
## Program outline

### First Year

#### Semester 1
- **BLPR 282** – Blueprint Reading for Welding Engineering Technology: 1.5 credits
- **COMP 220** – Computer Fundamentals: 3 credits
- **EMTL 250** – Engineering Materials: 3 credits
- **MATH 238** – Math for Engineering and Technology I: 3 credits
- **PHYS 235** – Engineering Physics: 1.5 credits
- **WDSG 235** – Weld and Inspection Practices I: 3 credits

#### Semester 2
- **EMTL 201** – Materials Identification and Inspection: 1.5 credits
- **STCS 255** – Engineering Statics: 1.5 credits
- **COMM 256** – Professional Communications and Presentation Skills: 3 credits
- **MATH 288** – Mathematics for Engineering and Technology II: 3 credits
- **MNGT 321** – Project Management: 3 credits
- **WDSG 275** – Weld and Inspection Practices II: 3 credits

### Second Year

#### Semester 3
- **CODE 315** – Codes and Regulations: 3 credits
- **EMTL 280** – Welding Metallurgy: 3 credits
- **INSP 341** – Non-Destructive Inspection: 3 credits
- **STAT 245** – Statistics for Engineering and Technology I: 3 credits
- **WDSG 325** – Weld and Design Practices I: 3 credits

#### Semester 4
- **EMTL 300** – Mechanics of Materials: 3 credits
- **EMTL 353** – Failure Mitigation: 1.5 credits
- **ROBT 395** – Automated Manufacturing and Robotic Arc Welding Processes: 3 credits
- **PROJ 377** – Research and Design Solutions: 3 credits
- **CADD 211** – Drafting for Manufacturing: 1.5 credits
- **WDSG 375** – Weld and Design Practices II: 3 credits

**Total**: 60 credits

## Transfer options

You may be eligible for transfer credit at:
- Athabasca University
- NAIT
- Thompson Rivers University
- University of New Brunswick, Saint John

To learn more, visit Transfer Options on sait.ca.
Program description

Over the course of this program you will learn the skills and theory taught in the first and second period of the Welder apprenticeship program. You will learn how to join and sever metals using various processes used in the welding industry. You will also learn how to use other tools used in the welding industry.

Upon successful completion of weeks 1 through 12, you will be eligible to write the first period AIT exam. In week 13, you will prepare to challenge the CWB- FCAW 1,2,3,4 GF welds. If successful, you will receive their CWB Certification. Upon successful completion of weeks 14 through 25, you will receive the technical training for the second-year welding apprenticeship and may be eligible to challenge the second period AIT exam. In week 26, you will prepare to challenge the CWB-SMAW 1,2,3,4 GF welds. If successful, you will receive their CWB Certification. In weeks 27 through 30, you will work on a welding project.

Upon successful completion of the entire program you will earn a SAIT Welding Technician Certificate.

Program overview

Your career

Work conditions for welders vary from one job to another. Welders may work outdoors on construction sites, or indoors in production and repair shops. Travel may also be required on jobs such as oilfield-related welding. A 40-hour work week is typical, but overtime is occasionally required to meet project deadlines.

If you choose a career as a welder you’ll need the following characteristics: manual dexterity, patience, good vision (corrective lenses are acceptable), good hand-eye coordination, and the ability to concentrate on detailed work. Being a welder is a rewarding career if you enjoy working with metal, physical work and working with little direction or supervision.

Graduates of the Welding Technician program have a 90% employment rate.

Student success

SAIT will recognize students who successfully complete this program. The students will have the opportunity to write the provincial exam for welding first and second period. Student will also receive CWB certified training.

Upon completion of the program, successfully writing the first and second period exams, and becoming indentured, the student will be able to complete his/her apprenticeship while employed in the normal manner.

Credentials and accreditations

After successfully completing this program, graduates will receive a SAIT certificate in Welding Technician.

Graduates may be eligible to register as apprentices in the Welder apprenticeship program (WEP), once they find employment. They will also be able to challenge the first and second period WEP apprenticeship exams.

Progression

Students must attain a PGPA and/or a CGPA of 2.0 or better in each semester and pass the necessary prerequisite courses to progress through the program. To qualify for graduation, students must pass all courses, attain a CGPA of 2.0 or better and complete course requirements within the prescribed timelines.

Admission requirements

Successful completion of the following courses or equivalents:

- Math 10C, Math 10-3, Pure Math 10, or Applied Math 10, AND,
- English Language Arts 10-1 or English Language Arts 10-2
- All applicants must demonstrate English Language Proficiency prior to admission, including students educated in Canada.
- A pass mark in the SAIT Admission Examination (level 2) or equivalent is accepted in lieu of the above requirements.

Note: General Educational Development (GED) tests are not accepted in lieu of the admission requirements.

Direct entry

There are no additional selection requirements. Admission will be extended on a first-qualified, first-offered basis until the program is full.

Costs

Tuition (subject to change)

- Please refer to the Tuition and Fee Table.
- International students, please refer to International Student Fees.
- For student funding, please refer to Financial Assistance.

Books and supplies (subject to change)

- Tuition includes all shop materials, student fees and access to appropriate technology.
Program outline

**Semester 1**
- MATH 104 – Math for Apprentice Trades 1.5 credits
- WLDG 202 – Gas Metal Arc Welding Level 1 Theory 1.5 credits
- WLDG 203 – Gas Metal Arc Welding Level 1 Lab 3 credits
- WLDG 212 – Gas Metal Arc Welding Level 2 Theory 3 credits
- WLDG 213 – Gas Metal Arc Welding Level 2 Lab 3 credits
- WLDG 216 – CWB Gas Metal Arc Welding 1.5 credits
- WLDG 256 – Pattern Development 1.5 credits

**Total** 30 credits

**Semester 2**
- COMM 209 – Business Communications 1.5 credits
- WLDG 252 – Gas Tungsten Arc Welding Theory 1.5 credits
- WLDG 253 – Gas Tungsten Arc Welding Lab 3 credits
- WLDG 254 – Shielded Metal Arc Welding Theory 1.5 credits
- WLDG 255 – Shielded Metal Arc Welding Lab 3 credits
- WLDG 259 – CWB Shielded Metal Arc Welding 1.5 credits
- WLDG 275 – Welding Project 3 credits

Transfer options

The opportunity to advance your education through transfer to, within or from SAIT is available with the following universities and colleges:

- Alberta Apprenticeship and Industry Training*

To learn more, visit transfer options on sait.ca.

*Upon finding an employer who will indenture you as an apprentice.
Apprenticeship Training
The Apprenticeship System of Training

How does apprenticeship work?
An apprenticeship is an education and training system that teaches trade knowledge and skills through on-the-job training and formal instruction. The on-the-job training is provided by the employer and supervised by a journeyperson. The formal instruction, also known as technical training, is arranged by the Alberta Learning Apprenticeship Branch and provided by various post-secondary institutions and training establishments, including SAIT. An apprenticeship training program is mandatory when gaining a trade credential. About 80% of the apprentice’s training takes place on the job. The other 20% of the training is formal instruction at post-secondary institutions or training establishments.

What is a trade?
A wide variety of vocations can be classified as trades. The list of trades differs in each province. In Alberta, a trade is designated under the Apprenticeship and Industry Training Act. For a full list of trades in Alberta, please visit tradesecrets.alberta.ca.

What is an apprentice?
An apprentice works on the job while they learn a trade. An apprentice has an apprenticeship contract with an employer that is registered with the Alberta government. An apprentice attends formal instruction at a post-secondary institution. There are about currently about 46,000 registered apprentices in Alberta.

What is a journeyperson?
A journeyperson, has learned the skills of the trade. Most journeypersons hold a certificate in their trade. The Alberta Journeyperson Certificate indicates that the holder has met certain standards and learned the skills of the trade. About 13% of Alberta’s working age population hold trade certificates.

How long is an apprenticeship training program?
Apprenticeship training programs vary with the trade. The longest programs run for four periods of training (about four years). A period of training for each trade usually has two components, a specific number of hours of on-the-job training and a set amount of formal instruction. The amount of formal instruction ranges from four to 12 weeks per period.

How much does an apprentice earn?
Apprentices earn a percentage of the journeyperson wage in their trade at the company in which they are employed. The apprentice’s wage varies from 40% to 90% of the journeyperson’s wage, depending on the trade and depending on how much training the apprentice has completed. The apprentice’s wage increases as the apprentice progresses from one level of training to the next. An employer must pay a Registered Apprenticeship Program (RAP) apprentice at least the basic minimum wage.

What is RAP?
The Registered Apprenticeship Program (RAP) is a modified apprenticeship program that permits a high school student to become an apprentice while attending high school. A RAP apprentice accumulates hours of on-the-job training as credit toward their apprenticeship program, and credit toward a high school diploma or certificate of achievement.

How does an apprentice progress through the training?
To progress from one period of an apprenticeship training program to the next, an apprentice will:
- successfully complete the formal instruction
- have the required hours of on-the-job training and a satisfactory report from the supervisor
- pass the apprenticeship examination for that period of training (70% pass mark)
- have the record book stamped by the nearest Alberta Learning Career Services Centre.

The employer will:
- update the apprentice’s record book by recording the on-the-job training provided, the hours worked, the type of work performed and by evaluating the apprentice
- forward the record book to the nearest Alberta Learning Career Services Centre.

After completing these steps an apprentice’s wages should increase to the next level for that trade. The level may differ with each employer but will be based on the journeyperson wage rate in that company.

What are the responsibilities of the employer?
The employer is responsible for:
- providing on-the-job training to the apprentice under the supervision of a journeyperson
- paying the apprentice’s wages
- providing time away from work so that the apprentice can complete the required formal instruction
- maintaining the apprentice’s record book.
What are the responsibilities of the apprentice? 

The apprentice is responsible for:
- completing the required on-the-job training as assigned by the employer AND, at the end of each period of apprenticeship
- reviewing with his or her supervisor:
  - the hours worked
  - the on-the-job training completed
  - ensuring that his or her record book is updated at the end of each period and forwarded to the nearest Alberta Learning Career Services Centre
- attending the required formal instruction
- making arrangements to meet personal financial needs while attending formal instruction; acquiring the text books and supplies required for formal instruction
- successfully completing the requirements of the formal instruction
- completing the required examinations
- advising the school:
  - if they become unemployed or employed by another person so that the contract of apprenticeship can be transferred
  - if there is a change in address or employment
- carrying his or her apprentice identification card at all times while at work and producing it on request
- registration for classes at the institution of his/her choice.

Where does apprenticeship formal instruction take place? 

Formal instruction is delivered at a variety of post-secondary institutions and training establishments dependent on the trade:
- technical institutes
- colleges
- vocational colleges
- private trade schools
- industry training centres.

How much does an apprenticeship training program cost? 

Tuition, SAIT Students’ Association (SAITSA) fees and a $67 Shop Supply fee are institutional costs for the apprentice. The apprentice also pays for textbooks and Independent Learning Modules (ILM).

Tuition fees

Tuition fees are set by the Alberta Government for the 2016/17 academic year:
- 4 weeks – $392
- 6 weeks – $588
- 7 weeks – $686
- 8 weeks – $784
- 10 weeks – $980
- 12 weeks – $1,176

The 2019/20 fees can be found in the online 2019/20 Apprenticeship Handbook on the financial information page. Additional fees are charged on a user-pay system for parking, Students’ Association and Campus Centre privileges. Please see below for SAITSA Fees.

SAITSA fees

- 4 weeks – $35.96
- 6 weeks – $53.94
- 7 weeks – $62.93
- 8 weeks – $71.92
- 10 weeks – $89.90
- 12 weeks – $107.88

An additional Students’ Association fee of $8.99 per week of training is charged for each registered apprentice. This fee includes student services, student clubs, SafeWalk, special events, Survival Guide, The Odyssey Coffeehouse, The Gateway Restaurant and Bar, The Station Market, SAITSA Seconds (Used Books) and locker rentals. For more information, check out saitsa.com.

See tradesecrets.alberta.ca for information on financial assistance or contact Financial Advising at SAIT to learn about funding options for apprentices visit funding@sait.ca or 403.284.7054.
How does an apprentice obtain an Alberta Journeyperson Certificate?

An Alberta Journeyperson Certificate is granted to an apprentice who:

- completes the required hours of on-the-job training and receives a satisfactory report from the supervisor
- successfully completes the formal instruction
- passes all required examinations
- has forwarded his or her record book to the Career Development Centre, Alberta Learning, for completion.

When an apprentice receives an Alberta Journeyperson Certificate, they can use the term “certified” with the name of the trade. This title lets employers and consumers know that a standard of quality or skill, established by industry, has been attained. Upon completion, they should be paid at a Journeyperson rate of pay.

Where can the journeyperson work?

The Alberta Journeyman Certificate is valid in the province of Alberta, and may be recognized in other provinces. If the journeyperson holds a certificate in one of the Interprovincial Standards (Red Seal) trades and is interested in working in another province, the journeyperson can write an Interprovincial Standards Program (Red Seal) exam. Journeypersons who carry an Interprovincial Standards Program Red Seal on their provincial certificate would not have to write any further examinations to qualify for certification in any other province in Canada.

How to become a registered apprentice

Entrance requirements

Currently, to enter an apprenticeship you must have the educational qualifications required for the trade to which you apply. It is to your advantage to obtain as much education as possible to increase your chances of an apprenticeship. In trades where a minimum level of education is required, you must present a transcript of your school marks when you apply for apprenticeship. If you cannot obtain a school transcript, you will be required to write an approved entrance exam. In certain trades, all applicants must write an entrance exam.

Apprentices must find suitable employment with an employer who is a journeyperson or employs a journeyperson in order to register as an apprentice in Alberta. To apply for an apprentice position, you should go in person to firms that work in the trade you have selected. You may have to apply to several firms before you find an employer who has a position for an apprentice.

Application procedures

Once you’re employed, an apprenticeship form must be signed by both yourself and your employer. Application forms are available online at tradesecrets.alberta.ca. If you think you have related work experience and/or training that could be credited toward your apprenticeship, discuss it with your employer and request credit on the application form. Once your application for apprenticeship is approved and your school transcripts or entrance exam marks are recorded, final approval is given and contracts are drawn up.

Contracts

A contract is signed by the apprentice and the employer. Before signing the contract, you should read it carefully to know your obligations and responsibilities and those of your employer.

Once signed, the contract is registered with the Apprenticeship and Industry Training Division. You will have an identification card, course outline booklet and an apprentice record book issued. At this point your apprenticeship training begins.

Registering for apprenticeship training at SAIT

The most convenient way to register for technical training is online through your MyTradesecrets (tradesecrets.alberta.ca) account. Check your class eligibility, register, pay or add or remove yourself from a waitlist.

Register online

Go to tradesecrets.alberta.ca
Login to your MyTradesecrets account
Choose your preferred class
Have your credit card ready—Visa and MasterCard are accepted

Register by phone, fax, in-person or by mail

Call us at 403.284.7248 or toll-free at 1.877.284.7248
Fax your enrolment form to 403.284.7112
Visit the Office of the Registrar in AA211, second floor of Heritage Hall

Mail your enrolment form to:

SAIT, Office of the Registrar
1301 16 Ave. NW
Calgary, AB T2M 0L4

If you’re registering by mail or fax, complete the apprentice enrolment form and include your first and second choice of class. Registration is processed on a first-come, first-served basis. Registration for the blended learning delivery of Electrician and Welder closes two weeks after the class start date.

Payment options

Tuition is due at the time of registration. Pay using Visa, MasterCard, cheque, money order or purchase order. Cash and debit card payments are accepted in-person only. If you’re being sponsored and the company doesn’t pay the tuition fee, you are responsible for the payment.
Technical training at post-secondary schools

Apprentices are required to attend technical training courses anywhere from four to 12 weeks in length in each period of apprenticeship. Tuition fees are charged to apprentices. For the technical courses, you must also purchase textbooks, manuals, information packages and specified supplies that may include articles of clothing and/or tools.

Apprenticeship training locations at SAIT

A number of apprenticeship programs utilize the facilities developed at SAIT. SAIT offers excellent lab facilities, workshops, cafeterias and other support services. The majority of trades are taught at our main SAIT campus location at 1301-16 Avenue NW. Some programs operate from other locations including the Buck Crump Building in Mayland Heights at 1940 Centre Avenue NE and the Crane and Ironworker Facility in the Point Trotter Industrial Park at 10490-72 Street SW. For a list of trades by location, see our Apprenticeship Handbook on sait.ca.

Apprentice success services

SAIT is committed to your success. We offer resources designed to prepare you for your training at SAIT and make your learning experience an achievement. Visit sait.ca to learn more about the success services for apprentices.

Apprenticeship training programs in Alberta

The Apprenticeship Program that leads to Journeyperson status in 50 trades in Alberta operates under the direction of the Apprenticeship and Industry Training Board, and Alberta Advanced Education. Apprenticeship training programs are offered to registered apprentices only. The Apprenticeship and Industry Training Division automatically sends school schedules for technical training to the apprentice in May. New tuition and registration information will be attached.

Visit tradesecrets.alberta.ca for the Apprenticeship Training Schedule and to view intake dates.

SAIT’s pre-apprenticeship training programs

SAIT offers pre-apprenticeship training courses in apprenticeship related areas. Upon an employer’s recommendation and with the approval of the Executive Director of the Apprenticeship and Industry Training Division, these courses may be accredited toward apprenticeship for periods of technical training. SAIT offers pre-employment programs which offer one year towards your technical training, technician programs which offer up to two years towards your technical training and diploma programs which offer up to three or four years of your technical training.

- Auto Body Preparation 403.284.8471
- Automotive Service Technology 403.284.8471
- Baking and Pastry Arts Diploma 403.284.8612
- Machinist Technician 403.284.8461
- Pre-Employment Automotive Service Technician 403.284.8471
- Pre-Employment Cabinetmaker 403.284.8367
- Pre-Employment Carpenter 403.284.8367
- Pre-Employment Electrician 403.284.8451
- Pre-Employment Industrial Mechanic (Millwright) 403.284.8641
- Pre-Employment Mobile Crane 403.284.8641
- Pre-Employment Pipe Trades 403.284.8367
- Pre-Employment Refrigeration and Air Conditioning 403.284.8367
- Pre-Employment Sheet Metal 403.284.8367
- Professional Cooking Diploma 403.284.8612
- Welding Technician 403.284.8461

Other courses may be available. Call the Office of the Registrar at 403.284.7248 to determine the pre-apprenticeship programs best suited to you.

When you successfully complete a pre-employment program accredited by the Provincial Apprenticeship Committee at an Alberta educational institution, you may apply to attempt a prior learning assessment examination for advanced standing in an apprenticeship program.

If you have completed your training program, you will be required to submit a clear picture of scanned copy of your certificate or diploma with your application.

Pay the required prior learning assessment non-refundable fee. If you are currently attending a pre-employment program accredited by the Provincial Apprenticeship Committee at an Alberta educational institution, you may apply to attempt a prior learning assessment examination for advanced standing in an apprenticeship program.

Applicants who are currently attending a pre-employment program must inquire with their instructor whether they can apply for this program while attending class.

Pay the required prior learning assessment non-refundable fee.

SAIT offers a blended learning option (online apprenticeship courses combined with on-campus labs) for the following trades:

- **Electrician**
- **Welder**

**What is blended learning?**

SAIT’s blended learning programs allow apprentices to perform their theoretical training online before coming to SAIT’s state-of-the-art labs and shops to complete the hands-on technical portion of their training. Blended learning apprentices typically spend half the time at SAIT compared to what is required by a full-time apprenticeship student.

In the online environment, students use multimedia simulations, videos and electronic apprentice assessments while interacting with their instructors in a virtual classroom.

**The advantages of blended learning**

The blended learning program offers the best of both worlds for apprentices and employers. It’s the easiest way for apprentices to keep working while completing their education and it allows employers to keep skilled workers on site.

Blended learning apprentices receive the same instruction as those in a traditional in-class program, but will have a greater amount of time to complete the theoretical portion of their training; programs traditionally completed in eight weeks are completed in eight to 16 weeks with blended learning.

**Additional benefits include:**

- Enjoy the privileges of a traditional apprenticeship student, including full access to SAIT amenities like the library.
- Access to excellent instructors throughout your online and in-class training.
- Assistance in preparing for your practical exams.
- The ability to take the Alberta Apprenticeship Technical exam at SAIT.
- Benefit from the use of state-of-the-art training equipment.
- Engage in a highly successful program with a high pass rate.
- Out of town students spend less time away from home to complete your training.

**Is blended learning training right for me?**

Apprentices that are most likely to find success in the blended learning format have typically earned high marks in their previous training periods, are self-directed and enjoy working at their own pace. Although you have access to industry-trained instructors throughout your studies, you are responsible for setting the pace of your own learning and must complete the content in the required timeframe.

Students who are most often successful in this approach:

- Achieved an average grade of 80% or better on the last training period.
- Commit time each day to the program (approximately 10 hours per week is required).
- Are self-disciplined and motivated to work through an online program.
- Set interim goals and stick to them.
- Clearly communicate questions and challenges to the course instructor.
- Have access to and are comfortable working with a computer.

**How to register for apprenticeship blended learning**

Students must first register with Alberta Apprenticeship Industry and Training (AIT) before they can register for a SAIT apprenticeship program.

Following admission, students will receive information from SAIT with the materials they need to begin the theory portion of their training. Once the online modules are completed, the students will come to SAIT to complete the in-class section of their training.

In order to complete each period, all blended learning apprentices must complete all of the online modules and the in-class labs.

Visit tradesecrets.alberta.ca for more information and program start dates. To register for apprenticeship training at SAIT, contact the Office of the Registrar at:

Phone: 403.284.7248
Toll free: 1.877.284.7248

Apprenticeship Programs

Agricultural Equipment Technician
- Limited period offering available at SAIT
- Transportation.info@sait.ca
- 403.284.8471

This program will train you to repair, overhaul and maintain agricultural equipment including; tractors, tillage equipment, seeding equipment and harvesting equipment. Technicians can specialize in service and repair of fuel injections pumps and injectors, engine overhaul, hydraulic systems, power shift transmissions or specific types of equipment.

SAIT offers the Agricultural Equipment Technician during periods that align with the Heavy Equipment Technician program. To learn more about eligibility visit sait.ca.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements. Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Appliance Service Technician Apprentice
- energy.info@sait.ca
- 403.284.8651

This program will train you to install, service, and repair commercial and household appliances, including ranges, freezers, refrigerators, washers, waste disposers and compactors. Working with the customer, you will determine why an appliance is not working and determine the most likely causes as well as provide service. Technicians prepare work orders, cost estimates and reports for billing purposes. Most technicians work alone with little supervision and the physical demands of the work vary.

You may be required to move heavy appliances in excess of 25 kilograms and stand for long periods of time.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements. Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Auto Body Technician Apprentice
- transportation.info@sait.ca
- 403.284.8471

This program will train you to repair and/or replace damaged motor vehicle structures and body components, prepare for refinishing, and apply interior and exterior finishes. You can specialize in prepping, refinishing, sheet metal and plastics repair, or frame straightening. Journeyperson certification is available as a Prepper, Refinisher, or Repairer; or by combining these three areas you can become a fully certified Auto Body Technician.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
- Science 10

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Automotive Service Technician Apprentice
- transportation.info@sait.ca
- 403.284.8471

This program will train you to perform preventative maintenance, diagnose and repair cars and light duty trucks. You will learn about all of the systems in today’s vehicles utilizing state of-the-art tools and equipment. Automotive apprentices and journeypersons are employed in a variety of businesses which include dealerships, franchise shops, independent shops and fleet shops as well as others. In addition to the regular four-year automotive apprenticeship, SAIT offers two manufacturer apprenticeship programs: General Motors Automotive Service Educational Program (ASEP) and Ford Automotive Student Service Educational Training (ASSET).

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Baker Apprentice
- culinary@sait.ca
- 403.284.8612
This program will train you to bake artisan breads, fine pastries, classic desserts and wedding cakes. The Baker Apprentice program provides you with formal instruction on both contemporary and traditional baking methods, in addition to, important management skills on food regulations, costing and merchandising.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Bricklayer Apprentice
- construction.info@sait.ca
- 403.284.8367
This program will train you to prepare and lay brick and other masonry units to construct and repair walls, partitions, patios, arches, fireplaces and chimneys. Working with a variety of materials; brick, granite, concrete blocks, stones, structural tile, glass tile and pre-cast panels; the program will familiarize you with the properties of various mortars and other bonding materials. Bricklayers interpret drawings and blueprints and calculate the materials required. They work in a variety of settings including indoors and outdoors and the work can be physically demanding.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Cabinetmaker Apprentice
- construction.info@sait.ca
- 403.284.8367
This program will train you to build and repair custom or production type fixtures and furniture made of wood or wood substitutes. Work in a commercial or residential setting, building or repairing fixtures or furniture as a Cabinetmaker. Working from blueprints, Cabinetmakers lay out and assemble products. You may be required to lift objects weighing in excess of 25 kilograms.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Carpenter Apprentice
- construction.info@sait.ca
- 403.284.8367
This program will train you to construct, erect and repair buildings and other structures made of wood, wood substitutes, steel and other materials. Carpenters’ duties vary depending on the industry in which they work; residential, commercial and industrial or maintenance construction. They may be involved in cribbing the basement, building the house framework or exterior finish, or building bridges, tunnels and towers. Carpenters may also specialize in one type of work such as framing, bench work or finishing carpentry.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Concrete Finisher Apprentice

- construction.info@sait.ca
- 403.210.4101

This program will train you to apply architectural, exposed, patterned or stamped and smooth finishes on concrete surfaces. Concrete Finishers are skilled at repairing, waterproofing and restoring concrete surfaces. You will learn how to properly use dry pack grouting and epoxy materials and understand how to cure concrete perfectly. Concrete Finishers work both indoors and outdoors in a variety of settings.

Entrance requirements
Successful completion of the following courses or equivalents:

- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Cook Apprentice

- culinary@sait.ca
- 403.284.8612

This program will train you in foundational cooking techniques, culinary perspectives and nutrition and food safety, in addition to, purchasing, receiving and cost control. You will prepare for an exciting and dynamic career in a kitchen brigade including Executive Chef, Sous Chef, Food Stylist and more. Learn essential cooking skills and trends as you train alongside our award-winning chefs who are committed to your success.

Entrance requirements
Successful completion of the following courses or equivalents:

- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Crane and Hoisting Equipment Operator – Boom Truck Apprentice

- ma.info@sait.ca
- 403.284.8641

This program will train you to service and operate the crane’s hoist and swing equipment used to move machinery, materials and other large objects. Boom truck operators set up, service and operate hydraulic booms that are mounted on turrets that are affixed to trucks and are capable of moving heavy loads. Operators manipulate a number of pedals and levers to rotate the crane and raise and lower loads. They often perform all or some of these operations simultaneously.

Entrance requirements
Successful completion of the following courses or equivalents:

- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Crane and Hoisting Equipment Operator – Mobile Crane Apprentice

- ma.info@sait.ca
- 403.284.8641

This program will train you to service and operate the hoist and swing equipment used to move machinery, materials and other large objects. Mobile crane operators service and operate booms that are mounted on crawlers or wheeled frames as well as traveling, fixed or climbing type hoisting equipment with a vertical mast or tower and a jib. Mobile crane operators are able to drive the crane to the job site, rig the machine up (pin the boom and pendant cables and pull the hoist cable in preparation for operation), and set up the machine for the lift (i.e., make it level and stable) using blocking and leveling materials.

Entrance requirements
Successful completion of the following courses or equivalents:

- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Electric Motor Systems Technician Apprentice

- energy.info@sait.ca
- 403.284.8651

This program will train you to test, rebuild and repair electrical motors, generators, transformers, controllers and related electrical and mechanical equipment used in commercial, industrial and institutional establishments. Technicians diagnose problems and dismantle electric motors, transformers and generators. As an Electric Motor Systems Technician, you may need to lift objects weighing in excess of 25 kilograms.

**Entrance requirements**

Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Gasfitter Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will train you to size, install, test, adjust and service natural gas and propane equipment ranging from residential furnaces to industrial boilers. Gasfitters employed by utility companies repair and extend gas mains and install, repair and service pipes and fittings between mains and buildings. Those employed by propane distributors install and service propane vaporizers, temporary heating equipment, propane metering and dispensing equipment, and propane pumping equipment.

Gasfitters employed by mechanical and service companies install and maintain piping and appliances in residential, commercial and industrial buildings. This program will train you to size, install, test, adjust and service natural gas and propane equipment. The equipment ranges from residential furnaces to commercial and industrial equipment. There are some hazards involved in working with flammable gases and power tools.

**Entrance requirements**

Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Electrician Apprentice

- energy.info@sait.ca
- 403.284.8651

A career as an electrician will see you working in residential, commercial, industrial or institutional environments, reading and interpreting electrical, mechanical and architectural drawings and electrical code specifications to determine their wiring requirements. This program will train you to install, alter, repair and maintain electrical systems. Electricians may be required to lift heavy objects.

**Entrance requirements**

Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Glazier Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will train you to read and interpret drawings and specifications, determine the materials required and install all types of architectural aluminum windows, doorframes and hardware. This program trains you to install and replace glass, aluminum and related products in residential and commercial buildings. Glaziers may be required to lift heavy objects weighing in excess of 40 kilograms.

**Entrance requirements**

Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Online apprenticeship learning

SAIT’s blended Learning programs allow automotive service technician, carpentry, welding, electrical and plumbing apprentices to complete their theoretical training online before coming to SAIT’s state-of-the-art labs and shops to perform the hands-on portion of their training.
Heavy Equipment Technician Apprentice

- transportation.info@sait.ca
- 403.284.8471

This program will train you to maintain, repair and overhaul transport vehicles and heavy equipment, both towed and self-propelled. Technicians may specialize in engine, transmission or drive train overhaul, hydraulic controls, electrical/electronic diagnostics, air conditioning repair and fuel injection servicing. The working environment is very diverse and may include employment in a variety of industries such as: construction, oil field support, forestry, mining, marine, on-highway transportation trucks, public utilities, gas compression, agriculture or any other industry that relies on heavy equipment or diesel engines. A Heavy Equipment Technician is an interprovincial Red Seal trade.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Insulator Apprentice

- construction.info@sait.ca
- Phone: 403.284.8367

This program will train you to read blueprints and specifications to determine job requirements and select, install and secure a variety of insulation materials (calcium silicate, glass foam, mineral wool, Styrofoam, fiberglass) based on the size, surface characteristics and location of pipes, ductwork and other mechanical systems. Insulators possess the agility to work in confined spaces and are comfortable working at heights in both indoor and outdoor environments in uncomfortable and hazardous conditions including the disposal of asbestos insulation. Insulators have an aptitude for precision work, demonstrate a high degree of manual dexterity, enjoy working with a minimum of supervision and when required are capable of lifting objects that weigh up to 20 kilograms.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 30-3
- Physics 30
- Chemistry 30

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Instrument Technician Apprentice

- energy.info@sait.ca
- 403.284.8651

Work with a wide variety of pneumatic, electronic and microcomputer instruments used to measure and control variables such as pressure, flow, temperature, level, and chemical composition. In this program, you will learn to install, maintain and repair the measuring and control instruments used in industrial and commercial processing and manufacturing. Working conditions in this field can change dramatically from one job to another, and you should be prepared to lift heavy objects.

Entrance requirements
The Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 30-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Ironworker Apprentice

- ma.info@sait.ca
- 403.284.8641

This program will train you to fabricate, construct and join metal scaffolding, structural steel buildings, bridges, ornamental ironwork and precast structures. This includes building structural steel components, reinforcing steel, posting tension tendons, installing conveyors and robotic equipment, and sometimes performing reconstructive work on existing structures. Ironworkers will also read blueprints; unload, stack and position steel units to prepare them for hoisting; build construction cranes, derricks and other hoisting equipment; assemble rigging (cables, pulleys, hooks); and select, cut, bend, position, and secure steel bars or wire mesh in concrete forms to reinforce concrete structures.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 30-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.
Machinist Apprentice

- ma.info@sait.ca
- 403.284.8641

This program will train you to set up and operate precision metal cutting and grinding machines, lathes, milling machines, drill presses and grinders. As modern machine tools are often computer driven, a Machinist can be involved in programming and operating high tech equipment. Machinists make metal parts and do repair work, custom fabrication and mass production manufacturing. Apprentices may be eligible for financial support.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
- Science 10

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Materials Technician Apprentice

- transportation.info@sait.ca
- 403.284.8471

Materials Technician apprenticeship training is a branch of the Parts Technician apprenticeship program.

First and third period training are common with Parts Technician; therefore these apprentices would register into the Parts Technician course.

Second period Materials Technician apprentices would register into the Materials Technician course (currently offered at NAIT).

This program will train you to be involved in the movement of materials in a wide variety of industries including agricultural, forestry, health, manufacturing, mining, oil and gas, transportation and wholesale/retail industries. The duties and responsibilities of a Materials Technician can vary considerably.

In general, a Materials Technician prepares, generates and picks orders, receives shipments, controls inventory, manages stocking and storage and coordinates the transportation of materials.

Entrance requirements
Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Industrial Mechanic (Millwright) Apprentice

- ma.info@sait.ca
- Phone: 403.284.8641

This program will train you to install, maintain and repair industrial equipment, such as compressors, pumps and turbines. While on the job, you may perform some of the following duties: reading diagrams, schematic drawings, and service manuals to determine work procedures; operate rigging equipment; install, test and adjust equipment; perform maintenance, and repair or replace defective parts when necessary; service and repair hydraulic, pneumatic, and mechanical systems; and perform metal fabrication. As a Millwright, you can work in the oil and gas industry, the manufacturing sector, or anywhere industrial equipment is being used. Experienced Millwrights may advance to positions such as supervisors or project managers, while some start their own businesses.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Natural Gas Compression Technician Apprentice

- ma.info@sait.ca
- Phone: 403.284.8641

This program will train you to assemble, install, commission, maintain, repair and overhaul natural gas compression and related equipment. This includes reading and interpreting diagrams or schematic drawings to determine work procedures; and using a variety of electrical, mechanical and specialty diagnostic test equipment. They also complete reciprocating and rotating machinery analysis to determine equipment condition, prediction of failure, corrective and preventative measures and equipment performance.

Natural gas compression technicians provide preventative and corrective field mechanical services on gas compression, processing and production equipment; troubleshoot and diagnose problems in compressor systems; inspect malfunctioning or damaged equipment to determine the nature and scope of the problem; and perform reliability analysis and risk assessments. Natural gas compression technicians identify and develop maintenance strategies and adhere to regulations and standards related to natural gas compression systems to ensure the safety of all workers, the environment and equipment.

Entrance requirements

Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Painter and Decorator Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will train you in the art of painting and decorating and the techniques you will need to pursue a successful career as a Painter and Decorator. Painters and decorators try to arrange their work so they will be outdoors in late spring, summer and early fall, and indoors in the late fall and winter. Painters and decorators may be required to lift equipment and supplies up to 25 kilograms.

Entrance requirements

Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Parts Technician Apprentice
- transportation.info@sait.ca
- 403.284.8471

This program will train you to manage and disperse parts inventories, which may include automotive, heavy duty, agricultural, industrial, recreational vehicle, after-market, plumbing and electrical. As a Parts Technician, you could find yourself responsible for stock handling, warehousing, identifying and cataloging parts and assemblies as well as ordering, receiving, inspecting, sorting, pricing and selling. Experienced Parts Technicians may advance to management positions or outside sales roles. The Parts Technician trade is a three year Red Seal apprenticeship program.

Materials technician apprenticeship
Materials Technician apprenticeship training is a branch of the Parts Technician apprenticeship program.
First and third period training is common with Parts Technician; therefore these apprentices would register into the Parts Technician course.
Second period Materials Technician apprentices would register into the Materials Technician course (currently offered at NAIT).

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Plumber Apprentice
- construction.info@sait.ca
- 403.284.8367

This program will train you to plan, install and service plumbing systems, fixtures, piping equipment and controls for systems used to transport water, waste, gases or hot liquids. Plumbers may specialize in specific types of work such as installing water conditioners, plumbing in houses under construction, and roughing-in after the frame and roof of a new building are in place and plumbing in commercial, institutional, industrial or public buildings. Heavy lifting may be required.

Entrance requirements
Successful completion of the following courses or equivalents:
- English 20-2
- Math 20-3
- Science 10
A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Recreation Vehicle Service Technician Apprentice
- transportation.info@sait.ca
- 403.284.8471

This program will train you to diagnose, repair and maintain all types of Recreation Vehicles from basic model trailers and campers to luxury motor homes. This training includes electrical (AC/DC), plumbing, propane appliances and systems, interior finishing and cabinetry, and exterior structure and components. Training is available at our Calgary RV Excellence Centre location.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3
- Science 10
A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Refrigeration and Air Conditioning Mechanic Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will train you to install, maintain, repair and overhaul industrial, commercial and residential refrigeration and air conditioning systems and their component parts. Refrigeration and Air Conditioning Mechanics work from blueprints or instructions to mount or place system components, troubleshoot heating/cooling units and calibrated related controls.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 30-2
- Math 30-3, Physics 20 or Chemistry 20

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Roofer Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will teach you to prepare and apply protective coverings to flat and sloped roof surfaces in accordance with construction plans and specifications. While on the job, you will put a layer of vapour/air barrier and/or a layer of installation on the roof deck; install roofing membranes, spread adhesives over and under layers of roofing membranes; nail shingles in overlapping rows, cement or nail finishing over the joints around vent pipes or chimneys; inspect roof problems to determine the best procedures for repairing them, estimate required materials and quote costs; and waterproof roofs, basements, foundations, plaza decks or parkades.

Entrance requirements
There are no specific entrance requirements outlined by Alberta Apprenticeship and Industry Training.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Sheet Metal Worker Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will teach you to design, layout, fabricate, install, service and repair a variety of sheet metal products and equipment associated with the HVAC (Heating Ventilation and Air Conditioning) trade as well as custom Stainless Steel and Architectural features. Sheet Metal Workers may work in a variety of industries including the residential, commercial and industrial construction and service sectors. During your career, you may work with many types of metal including galvanized and black iron, stainless steel, copper, brass, and aluminum. Heavy lifting may be required.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Steamfitter-Pipefitter Apprentice

- construction.info@sait.ca
- 403.284.8367

This program will train you to lay out, assemble, fabricate, maintain and repair piping systems which carry water, steam, chemicals or fuel used in heating, cooling, lubricating and other processes. To install a typical piping system in a commercial building or industrial plant, a Steamfitter-Pipefitter will study blueprints, drawings and specifications to determine the type of pipe and tools to use, and lay out the sequence of tasks. Heavy lifting may be required.

Entrance requirements
Successful completion of the following courses or equivalents:
- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.
Transport Refrigeration Technician Apprentice

- transportation.info@sait.ca
- 403.284.8471

This program will train you to install, repair and maintain equipment that supplies and contains conditioned air in mobile units, used to transport perishable goods such as food and medical supplies. You may also be involved in assembling and installing refrigeration components, servicing and repairing diesel engines, piping, repairing and replacing parts and components, and performing routine maintenance checks.

**Entrance requirements**

Successful completion of the following courses or equivalents:

- English Language Arts 20-2
- Math 20-3
- Science 10

A pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Welder Apprentice

- ma.info@sait.ca
- 403.284.8641

This program will train you to use welding technology to join, shape and cut metal parts. They make pressure vessels and pipelines, work joining beams or girders in the construction industry, and manufacture industrial components and consumer goods. Many Welders in Alberta are employed in oil and gas related industries, particularly oil service and pipeline construction. Experienced Welders may advance to positions such as supervisors, welding inspectors and quality control inspectors or start their own businesses with either a shop or a mobile welder.

**Entrance requirements**

Successful completion of the following courses or equivalents:

- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Welder — wire Process Operator Apprentice

- ma.info@sait.ca
- 403.284.8641

This program will train you to use different welding processes and filler metals depending upon the type of metal, its size and shape and requirements for finished mechanical properties. Welder—wire Process Operators work primarily in production and manufacturing plants, joining components and sub-assemblies to make various items using a variety of construction materials. For a typical welding project, they would join parts together; potentially build up worn parts by welding layers of high-strength hard-metal alloys onto them; follow directions given in layouts, blueprints and work orders; clean welds, check for defects and may use a cutting torch.

**Entrance requirements**

Successful completion of the following courses or equivalents:

- English Language Arts 10-2
- Math 10-3

A pass mark in all five Canadian General Education Development (GED) tests or a pass on the AIT entrance exam is accepted in lieu of the above requirements.

Entrance requirements are set and monitored by Alberta Apprenticeship and Industry Training. Visit tradesecrets.alberta.ca for more information.

Online apprenticeship learning

SAIT’s Blended Learning programs allow automotive service technician, carpentry, welding, electrical and plumbing apprentices to complete their theoretical training online before coming to SAIT’s state-of-the-art labs and shops to perform the hands-on portion of their training.

Academic Misconduct
- AC.3.4.1: Student Code of Conduct Procedure (under revision)
SAIT is committed to academic integrity, which is based on five fundamental values honoured by faculty members and students: honesty, responsibility, trust, fairness and respect. Reasonable measures are taken to inform students of the standards of academic honesty. All members of the SAIT community share the responsibility and authority to address acts of academic misconduct.

Academic misconduct is any action or attempted action that may result in creating an unfair academic advantage for a SAIT student and/or other SAIT students. This includes, but is not limited to, acts of plagiarism and cheating. Plagiarism occurs when students submit work in which they have taken ideas or words from another source and has presented them as if they are the students’ own, without appropriate acknowledgement of the original source. It is the act of doing so that constitutes plagiarism, regardless of whether or not the student does so intentionally. Cheating is academic misconduct that arises during the course of examinations, quizzes, examinations or other evaluative processes. For instance, cheating occurs in situations where a student uses unauthorized materials or another student’s work in examinations or other evaluations; falsifies data or documents; colludes with others on an assessment without the instructor’s permission; pre-programs a device to contain answers or other unauthorized information for use during an evaluation process; or commits acts that in any way compromise the integrity of the evaluation process. There are many other types of academic misconduct, in addition to plagiarism and cheating; please see AC.3.4.1 Student Code of Conduct procedure for further information on academic misconduct.

Any student who assists another student in the commission or attempted commission of academic dishonesty is also guilty of academic misconduct.

Consequences of academic misconduct depend on whether it is a first, second, or third academic misconduct offence. For a first offence, the student will ordinarily receive a zero (0) grade for the assignment/exam. For a second offence, the student will ordinarily receive a Fail grade for the course and a one-year suspension from the Institute. For a third offence, the student will ordinarily receive a Fail grade for the course and a permanent expulsion from the Institute. Letter(s) of Offence remain on the student’s file for a period of seven (7) years. A student who is expelled from SAIT as a result of academic misconduct will have this indicated indefinitely on the student’s permanent record [transcript].

Non-Academic Misconduct
- AC.3.4.1: Student Code of Conduct Procedure (under revision)
Non-Academic Misconduct behaviour that is subject to disciplinary action under this procedure includes violations of established civil and criminal laws, conduct that threatens the safety or well-being of members of the SAIT community, and/or any behaviour that adversely affects SAIT or its educational mission.

Acts of Non-Academic Misconduct are summarized below, and are listed in more detail in the procedure. These include:
- Intentionally or negligently disrupting any SAIT activity or SAIT sponsored activity, particularly learning activities.
- Use of force or threat of force against any person or his/her property.
- Sexual assault or threat of sexual assault.
- Harassment in any form (spoken, written, graphical, on-line etc.).
- Discrimination (including discrimination on the basis of place of race, religious beliefs, colour, gender (including pregnancy, sexual harassment and gender identity), physical or mental disability, age, ancestry, place of origin, marital status, source of income, family status, or sexual orientation).
• Unauthorized entry into SAIT facilities.
• Unauthorized use of or misuse of SAIT property or the property of others, including computers and data and voice communications networks (see procedure AD.2.7.1 Information Services User Code).
• Use, possession, tampering with or storage of a dangerous weapon or dangerous substance (including but not limited to guns, ammunition, chemicals, fireworks, flammable gas or explosives) on SAIT premises or at SAIT functions, whether or not a license has been issued to the possessor.
• Inappropriate use of SAIT computer equipment.
• Unlawful possession, distribution or use of narcotics or illegal drugs.
• While under the influence of alcohol, narcotics or drugs, attending class or creating a disturbance while on SAIT premises or at SAIT functions.
• Breaching procedure AD.2.2.1 Alcohol Service and Consumption on Campus.
• Violating ethical codes governing applicable professions.
• Violating civil or criminal statutes or applicable laws, court orders, or orders of any administrative tribunals having an effect on or related to SAIT or the SAIT community.
• If a student is an apprenticeship student, the student’s breach of the provincial government’s non-academic rules or policies for apprenticeship students.
• Unexcused failure or refusal to appear before any designated SAIT official(s) and/or failure to comply with directives from SAIT officials or instructors.
• Disorderly conduct on SAIT premises or at SAIT activities.
• Contravening SAIT’s policies, procedures or rules.
• Behaving in a manner that prejudices SAIT’s name, reputation or standing.
• Tampering with or rendering inoperable SAIT safety-related assets or property.
• Making threats.
• Knowingly or maliciously bringing a false charge against any member of the SAIT community under this procedure.
• Knowingly divulging confidential or personal information relating to a SAIT matter or a member of the SAIT community.
• Refusing to identify oneself when asked to do so by an authorized SAIT employee, security officer, etc.
• Breaching SAIT’s residence rules.

Consequences

Consequences for Non-Academic Misconduct fall into two categories: minor consequences and major consequences. Minor consequences include warning/admonition, community service, restitution, probation, restriction of privileges, and notation. Major consequences include suspension and expulsion. Consequences are defined in more detail in AC.3.4.1 Student Code of Conduct procedure, Schedule C.
Student Achievement

AC.3.1.1: Grading and Progression Procedure

Evaluation Methods – A student’s final standing is determined by academic progress throughout the term and the entire year, taking into consideration classroom tests and examinations, laboratory work, essays, reports and projects, classroom participation, and/or work-integrated learning. The course outline is the approved document that identifies the learning outcomes and student evaluation methods of a course.

Grading System

A student’s grade in each course shall be denoted by a letter grade as follows. Please note that a student’s grade in an English Language Foundations or Academic Upgrading course shall be denoted by a percentage grade.

<table>
<thead>
<tr>
<th>Letter grade</th>

Progression and graduation

The semester program and cumulative Grade Point Average required for Progression and graduation is 2.0. Other grades not used in calculating the Grade Point Average (GPA) include:

AEG Aegrotat standing

May be granted to a student who through serious illness or exceptional circumstances cannot complete the final evaluation, and where a supplemental evaluation or course deficiency remedy is not possible. The dean or designate must approve this grade.

AF Administrative Failure

Assigned to a student who has been given an “I” (or Incomplete) grade and where the student has not cleared the “I” grade within the deadline to do so or where the instructor has not entered a grade for the student.

ATT Attended/FA Failed to Attend

Assigned to a student who is registered in a course for which no formal evaluation of the student’s performance is provided, other than the student’s attendance or failure to attend that course.

AUD Audit

Assigned to a student who is registered in a course for which no formal evaluation of the student’s performance is provided. The student will pay tuition for this course, but will not receive a mark in or credits for the course. The academic chair/Coordinator must approve a student’s registration in the course.

CR Credit Rating

Assigned to a student who has received recognition of his/ her prior learning based on transfer credit or based on work experience, in accordance with policy AC.3.1B Recognition of Prior Learning and its accompanying procedures.

I Incomplete

Assigned to a student who has been granted an extension, under extenuating circumstances to complete a course. The “I” grade is not a substitute for an “F” grade. The “I” grade must be cleared within eight weeks from the end of the course or it reverts to “F”. If the course is a prerequisite course, the academic chair/Coordinator must approve the student’s registration in the subsequent course(s).

NW Administrative Withdrawal

Assigned to a student who has registered in a course but who has not attended any of the classes or, in the case of a distance education course, who has never logged into that course.

P Pass / NP No Pass

Student performance indicated by either “P” pass or “NP” no pass.

RW Required Withdrawal

Assigned to a student who SAIT withdraws as a result of academic misconduct or non-academic misconduct, or as a result of breaching a program’s specific attendance requirements.

W Withdrawal

Assigned to a student who officially withdraws from a course or program.

To be assigned a “W” grade in a course, a student must withdraw from that course prior to completing 70% of that course.

To be assigned a “W” grade in a program, a student must withdraw from that program prior to completing 70% of the program semester.

Grade Point Average (GPA)

AC.3.1.1: Grading and Progression procedure

Grade Point Average (GPA) is the measure of a student’s SAIT academic achievement in credit courses. It can be calculated in three ways.

1. Semester Grade Point Average (SGPA) is the weighted grade point average for all of the credit courses that a student has completed in a particular semester, regardless of whether or not those courses are part of the program in which the student is registered.
2. Cumulative Program Grade Point Average (CGPA) is the overall cumulative weighted grade point average for all those credit courses that the student has completed, regardless of whether or not those courses are part of the program in which the student is registered.

3. Credential Grade Point Average is the overall cumulative weighted grade point average for all the courses the student has completed and that are used in awarding the credential for the program that the student has completed.

Each course shall carry a course credit determined by the dean or designate of the school offering the program and which shall be published in the calendar.

The grade point averages are calculated as follows:

- multiplying the grade point achieved by the credit value for that course, excluding AF, RW, NW, P, NP, I, W, CR, AUD, ATT, FA, and AEG grades described above
- totaling the grade points from the bullet above
- dividing the total above by the total of the course credit values.

Failures “F” will appear on the student’s transcript and are used in the calculation of grade point averages as appropriate. In the case of subsequent repeat attempts of a course, the grades will be calculated into the Semester Grade Point Average (SGPA) and the Cumulative Grade Point Average (CGPA), but only the higher grade will be calculated into the student’s Credential Grade Point Average. However, when a deficiency is remedied, the new grade will replace the original “F” grade and shall be calculated into the GPA for the academic semester in which the deficiency occurred.

Sample calculation: course grade points X credits = grade points

\]

Final Grades

- **AC.3.1.1: Grading and Progression Procedure**

Instructors shall submit final grades to the Office of the Registrar by end of the third business day following the end of the course. Students can access their term marks and unofficial transcripts through mySAIT at any time.

Apprentice marks may only be obtained from the Apprenticeship and Trade Certification Board. Download the “Transcript Request Application Form” at Alberta Apprenticeship and Industry Training.

**Academic Probation/Academic Withdrawal**

- **AC.3.1.1: Grading and Progression Procedure**

A student who fails to achieve an SGPA of 2.0 or a CGPA of 2.0 after earning a minimum of nine credits will be placed on academic probation (AP). The Office of the Registrar will advise the student to meet with the student’s academic chair/coordinator to develop strategies to improve academic standing and to determine course eligibility.

A student will remain on Academic Probation until the student has attempted a minimum of nine additional credits (excluding course withdrawals). If the student has failed to achieve both the SGPA of 2.0 and the CGPA of 2.0 at that time, the student will be academically withdrawn (AW) from the institution. However, if the student has achieved both the SGPA of 2.0 and the CGPA of 2.0 at that time, the student will return to good academic standing.

The consequences of Academic Withdrawal include the student being dropped from any subsequent courses in which the student is registered in the next term and being ineligible for student loan funding. An academically withdrawn student must wait 8 calendar months before returning to SAIT. During this waiting period, the student cannot take any courses at SAIT. An academically withdrawn student who wishes to return to the program should meet with the academic chair/coordinator to determine if space is available in the program to accommodate the student’s return, and to determine changes to graduation requirements. An academically withdrawn student who wants to return to SAIT into a different program from which the student was withdrawn must apply to and be accepted into the program.

A student who returns to SAIT in any credit program after having been academically withdrawn will return on academic probation. If the student fails to achieve both the SGPA of 2.0 and the CGPA of 2.0 after attempting a minimum of nine additional credits (excluding course withdrawals), the student will be permanently withdrawn from SAIT. Academic probation and academic withdrawals are permanently noted on the student’s official transcript.

A student is granted only two attempts to successfully complete each course – the initial registration and one repeat. A withdrawal from a course is considered an attempt. The academic chair/coordinator of the school responsible for delivering the course may, in significant extenuating circumstances, approve the student’s registration in a course for a third attempt. The dean of the school responsible for delivering the course may, in significant extenuating circumstances, approve the student’s registration in a
course for a fourth attempt. If the student fails all attempts in the course or its equivalent, a SAIT credential shall not be issued for any program, or for any major or specialization in that program, in which that course is a requirement unless the timelines have passed for completion of that credential, as set out in paragraph D.2 of AC.3.1.1 Grading and Progression.

It is important to students to note that registration in a course for a second or subsequent time is subject to space availability in that course.

Graduation Requirement
- **AC.3.1.1: Grading and Progression Procedure**
  A student must achieve the required minimum Credential Grade Point Average for all courses used to meet the student’s credential requirements, in order to graduate.

Transcript of Marks
- **AC.3.1.1: Grading and Progression Procedure**
  A transcript is a complete and unabridged academic record of achievement at SAIT.

Students who attended classes at SAIT after 1995 have the option to order their official transcript through mySAIT.ca. Simply login, click on the myStudent tab, then select Student Records.

Students who attended classes at SAIT before 1995, must complete a Transcript Request Form and forward it to Office of the Registrar.

Each transcript costs $10 (subject to change).

Students sending transcripts from SAIT to an Alberta post-secondary school should request the transcript through ApplyAlberta. The transcript will be issued free of charge to any participating Alberta post-secondary schools (see ApplyAlberta for a list of participating institutions).

Student records are confidential; therefore, transcripts will only be issued on the student’s written authority.

Grade Appeal (final grades only)
- **AC.3.1.1: Grading and Progression Procedure**
  Informal Appeals: Informal appeals must be made to the instructor concerned first. If a student is not satisfied with the outcome, the student may continue the informal appeal to the academic chair/coordinator, before proceeding with a formal grade appeal to the dean.

Formal Appeals: If a student is not satisfied with the outcome of the informal appeal, the student may request that the dean of the school offering the course review the grade through a formal appeal.

Formal appeals must be submitted in writing to the Office of the Registrar within 30 calendar days of the end of the course (or in the case of apprenticeship, within 10 days after receipt of marks) and be accompanied by a $100* fee for each grade appealed. The fee covers all levels of appeal and is refundable if the appeal is awarded in favour of the appellant.

*Fee subject to change

The initial formal appeal must state: the student ID number, program, course code and title, the grade being appealed and the rationale for the appeal. Forms are available on line at mySAIT.ca.

The basis for re-evaluation shall be the same work used to determine the original grade whenever possible. In those cases where the nature of the work, such as work-integrated learning, laboratory, or other performance work, precludes its availability, the basis for re-evaluation shall be decided by the academic chair, in consultation with the student and the instructor.

Decisions on appeals shall be rendered within ten business days of the Office of the Registrar notifying the dean and academic chair of the appeal. The decision may be: 1) no change to the grade; 2) a higher grade; or 3) a lower grade. The dean’s decision is final and binding.

Students who accept the method to remedy a course deficiency pursuant to procedure AC.3.2.1 Course Deficiencies procedure are not eligible to appeal the original grade.

Remedy a Course Deficiency
- **AC.3.2.1: Course Deficiencies Procedure**
  Students are eligible to remedy a course deficiency where:
  - the deficient grade is within 5% of the passing grade; and
  - the failure is not due to academic misconduct.
  - the course is one for which a course deficiency remedy is available, as determined by the school delivering that course.

Students must apply to their academic school using the Remedy (Clearance) of Deficiency form.

A student wishing to remedy a course deficiency shall apply to the academic chair/coordinator within 30 calendar days of the end of the course. The remedy must be completed within ten business days of the academic chair/coordinator having authorized the student to attempt the clearance of deficiency. Students are encouraged to attend classes in the subsequent course pending the outcome of the remedy.

The maximum grade that can be achieved is a “D” or a “P” grade, or the minimum passing grade for the course. This grade will replace the “F” or “NP” grade and shall be calculated into the GPA for the academic term in which the deficiency occurred.

Students who accept the method to remedy a course deficiency are not eligible to appeal the original grade. Students wishing to achieve a grade higher than a “D” or the minimum passing grade for the course must re-take the course. A student’s registration in a course for a second or subsequent time is subject to space availability in that course. In this case, the transcript will indicate both the original grade and the new course grade achieved.
Upgrading Marks
Students wishing to upgrade a passing mark must re-register for the course. The transcript will indicate both the original grade and the new grade achieved.

Program Transfer
- **AC.1.5.1: Admission Procedure (under revision)**
  An enrolled student may be permitted to transfer from one program to another if:
  - the student is a qualified applicant and satisfies the admission and selection criteria of the new program; and,
  - there is a seat available in the new program; and,
  - the student pays the transfer fee; and,
  - the student pays any difference in tuition fees arising from the transfer.

The timing of the program transfer request and its subsequent approval is at the discretion of the receiving academic chair/coordinator. However, in order to be eligible to receive a credential from the new program into which the student has transferred, the student must complete at least the final semester of that new program.

Transfer of Major
- **AC.1.5.1: Admission Procedure (under revision)**
  An enrolled student may be permitted to transfer majors within a program of study, without reapplying, as per the Office of the Registrar's processes. Transfer of a major is subject to the student meeting course prerequisites and a seat being available in the new major.

Add and Drop
(the drop and add dates for a program are based on the term length)

<table>

Withdrawals
- **AC.3.1.1: Grading and Progression Procedure**

**Deadline**

The withdrawal deadline for a course or program is prior to 70% of the course or program’s duration. A student who withdraws from a course after the withdrawal deadline will receive an “F” grade which will be determined and reported to the Office of the Registrar by the course school by the end of the second business day following the last day of the academic term.

**Withdrawal from a Course**
A student who wishes to withdraw from an individual course must:
- notify the Office of the Registrar prior to the Withdrawal Deadline (as outlined above) of the term to receive a grade of “W”.

**Note:** Course withdrawals occurring past the official add/drop period will not be eligible for a refund. Unofficial withdrawals (no notification of withdrawal submitted to the Office of the Registrar by the deadline) will result in “F” grades.

**Withdrawal from the Program**
A student who wishes to withdraw from the program must:
- obtain and complete a Program Withdrawal Form; and,  
  - submit the completed form to the Office of the Registrar prior to the Withdrawal Deadline (as outlined above) of the term to receive “W” grades.

**Note:** A student who withdraws from the program without notifying the Office of the Registrar in writing will not be eligible for any applicable refund of fees, and will be responsible for any fees owing or outstanding. The student’s permanent record will show a “Fail” in all courses in which the student was registered.

Graduation Ceremony
- **AC.3.1.1: Grading and Progression Procedure**

Students are required to register for Graduation before the specified deadline date. Manual registration and online registration processes will be available.

Credit Requirements for Graduation:
Students must successfully complete all required courses to graduate. All course requirements must be completed within ten (10) years for a bachelor’s degree, seven (7) years for a diploma or applied degree, or five (5) years for a certificate program. This time limitation begins on the date that the student started the first course in the credential. If a student does not complete the graduation requirements within the graduation timelines, the student should meet with the academic chair/coordinator to discuss options for completion.

**Note:** If the final attempt of a course results in failure, the student may continue in other courses; however, a SAIT credential will not be issued. This time limitation begins on the date that the student started the first course in the credential.

**Grade Point Average Requirements:**
Students must achieve the required CGPA of 2.0 in order to graduate.

Residency Requirements:
To obtain a SAIT credential, students must complete at least 50% of the credential’s courses through SAIT, and may use no more than a maximum of 50% transfer credit and/or challenge exams and/or prior informal or non-formal learning towards that SAIT credential.
Graduation Prior Learning Assessment and Recognition

Policy AC.3.18 Recognition of Prior Learning and its accompanying procedures provide the guidelines for students to obtain credit based on previous learning, successful completion of a challenge exam, or previous informal and non-formal learning. Generally, the guidelines include compliance with the residency requirement, an 80% content match with the SAIT course outline, a minimum grade of 65%, and completion of credit courses within the last five years.

Honours Designation

- **AC.3.1.1: Grading and Progression Procedure**

  For a student to be awarded an Honours designation on a SAIT parchment, the following conditions must be met:
  - the student has a cumulative program grade point average of 3.8; and,
  - the student passed all courses on the first attempt; and,
  - the student has completed the graduation requirements of the program within the specified time restriction (five years for a certificate, seven years for a diploma or applied degree, ten years for a bachelor’s degree); and,
  - the student has met the residency requirement and used a maximum of 50% transfer credit towards a SAIT credential; transfer credit does not include any SAIT course previously used to obtain another SAIT credential; and,
  - the program in which the student is enrolled is approved by the Alberta government.

Transfer to Other Post-Secondary Institutions

A transfer option is the opportunity to use a credential earned at one institution for credit towards the completion of an advanced credential at another institution (e.g., a certificate towards a diploma, a diploma towards a degree, an applied degree towards an additional undergraduate or graduate degree, or a bachelor’s degree towards a master’s degree).

A SAIT credential may be used as an admission requirement to an advanced program, or it may be used to meet curriculum requirements so that the student does not need to duplicate coursework: how it is used depends on the receiving institution.

To support this, articulation agreements are developed between two institutions (a sender and a receiver) that specify how the sending institution’s course or program will be accepted for (transfer or advanced) credit at the receiving institution.

Information about these agreements is posted on the SAIT Transfer Options website and is updated regularly along with messages on SAITview, a SAIT Transfer Options Facebook page, and Twitter.

Students must also be aware that they must meet the admission requirements of the receiving institution as well as the program requirements even though they have graduated from SAIT.

Institute Regulations

The descriptions below are a synopsis of the referenced SAIT policies and procedures which are available throughsait.ca. Refer to the full policy and procedure when dealing with specific situations.

- Student Code of Conduct
- Discrimination, harassment and bullying
- Sexual assault and sexual violence
- Injury to persons/damage to property
- Rights
- Liquor, tobacco and drugs
- Responsibilities
- Acceptable use of SAIT’s computer system

Student Code of Conduct

- **AC.3.4.1: Student Code of Conduct Procedure (under revision)**

  Students are responsible for conducting themselves appropriately and in the best interests of the Institute. They are expected to apply themselves to their studies and are required to conform to the Institute’s policies, rules and regulations.

  Students are also required to conduct themselves in a manner that does not interfere with the legitimate academic and/or business activities of the Institute. This does not diminish the student’s assured rights as stated in the Canadian Charter of Rights and Freedoms. In particular, disruption of scholarly activities by abusive or threatening language or gestures, or physical interference with another person or their property may result in the immediate removal of the student from the class or activity and subsequent disciplinary action.

  Students at SAIT can expect the following rights to be upheld:

  - all rights and freedoms recognized by law;
  - freedom from discrimination for any reason, including: place of origin, race, religion or gender. (Please refer to HR.4.5.1: Discrimination – Education procedure and HR.4.10.1 Respectful Workplace and Learning Environment procedure);
  - freedom from harassment, including any action or words which demean and/or deny dignity and respect. (Please refer to HR.4.5.1: Discrimination – Education procedure and HR.4.10.1 Respectful Workplace and Learning Environment procedure);
  - a community that supports intellectual inquiry, learning and growth;
  - physical and psychological safety;
academic integrity: students can expect full disclosure as to how their academic performance will be assessed, and to receive objective evaluation of their performance.

Students have individual and group responsibility for:

- staying informed of and respecting SAIT policies and procedures and the exercise by SAIT of its legitimate authority;
- taking full advantage of the education, training and services that SAIT offers;
- maintaining academic integrity;
- contributing to a working and learning environment free from discrimination, harassment, intimidation, and physical or psychological abuse;
- respecting the property of SAIT and members of the SAIT community;
- complying with applicable laws.

In cases of misconduct, SAIT may take disciplinary measures including, but not limited to, warning, community service, restitution, probation, restriction of privileges, notation, suspension, expulsion or legal action. Where disciplinary actions arise, students have a right of appeal as described in the procedure.

**Discrimination, Harassment and Bullying**

- **HR.4.10.1 Respectful Workplace and Learning Environment Procedure**

SAIT is a respectful, inclusive and diverse workplace and learning environment, where all members of the SAIT community are valued and treated with dignity and respect. SAIT expects all members of its community to create and uphold this environment by respecting the personal dignity of others and by being aware of and taking responsibility for the influence they may have over the well-being of other members of the SAIT community.

SAIT does not tolerate discrimination, harassment or bullying. Discrimination includes any act or omission that results in unjust or prejudicial treatment on a prohibited ground. Prohibited grounds of discrimination include race, religious beliefs, colour, gender, gender identity, gender expression, physical disability, mental disability, age, ancestry, place of origin, marital status, source of income, family status, or sexual orientation, and any other ground covered in Alberta’s human rights legislation. Harassment and bullying include any inappropriate conduct, comment, display, action or gesture by a person that constitutes a threat to an individual’s health or safety and that is based on a prohibited ground of discrimination under Alberta’s human rights legislation, or that adversely affects an individual’s psychological or physical wellbeing.

Discrimination, harassment or bullying can be reported to the SAIT Discrimination and Harassment Hotline at 403.210.4406, to the Office of the Registrar, to Employee Services, to supervisors or to members of management.

**Sexual Assault and Sexual Violence**

- **AD.2.13.1 Sexual Assault and Sexual Violence Procedure**

SAIT supports survivors of sexual assault and will hold members of the SAIT community who commit acts of sexual assault and sexual violence accountable in order to protect the health and wellbeing of the SAIT community. A member of the SAIT community who witnesses an incident of sexual assault or sexual violence must inform SAIT by reporting the incident to Campus Security or by calling 911. AD.2.13.1 Sexual Assault and Sexual Violence procedure sets out processes by which SAIT will respond effectively and in a timely and fair manner to disclosures and reports of sexual assault and sexual violence.

**Injury to Persons/Damage to Property**

- **AC.3.4.1: Student Code of Conduct Procedure (under revision)**

Students are required to comply with safety measures identified by the Institute. Injury, damage or misappropriation of SAIT’s property, or threats (written or verbal) of injury, damage or misappropriation to another person or his/her property may result in disciplinary action.

**Liquor, Tobacco and Drugs**

- **AD.2.2.1: Alcohol Service and Consumption on Campus Procedure**
- **HS.1.4.1: Smoking and Use of Tobacco Products Procedure**

Disciplinary action will be taken in the following cases: students violating policy on the consumption and service of alcohol; students smoking in areas that are not designated non-smoking areas; and/or students using or distributing illegal drugs. Note that this procedure also prohibits cannabis use on the SAIT campus.

**Acceptable Use of SAIT’s Computer System**

- **AD.2.7.1: Information Services User Code Procedure (under revision)**

All members of the SAIT community who have occasion to use any of the information services of the Institute, including all students, employees and members of the general public are subject to the Information Services User Code procedure.

The descriptions above are a synopsis of the referenced SAIT policies and procedures which are available through sait.ca. Please refer to the full policy and procedure when dealing with specific situations.

### Notes

**Note 1** – Fees are estimated for Full-time students registered in Fall and Winter semesters.
Fees will be adjusted for programs with intakes outside of this timeframe.
Actual tuition fees are calculated based on the number of courses in which the student is registered.

**Note 2** – Fees are subject to change without notice.

**Note 3** – Additional SAIT and SAITSA fees may be levied for programs with Spring and Summer Terms.

**Note 4** – To be eligible for a UPass you must be:
- Taking at least nine hours of class time per week
- Attending 15 consecutive weeks of classes all within one semester
  - Fall (Sept 1 to Dec 31)
  - Winter (Jan 1 to April 30)
  - Spring (May 1 to Aug 31)
* Attending classes on campus (distance education and students on practicum are not eligible)

**Note 5** – Optional courses are not included in this tuition fee calculation. Additional courses will result in higher tuition fees.

**Note 6** – Laptop Learning programs require a $400 security deposit.

**Note 7** – Additional external fees may be applicable to the program.

### Applicable to all SAIT full-time programs:
Fees are subject to change without notice.
Fees are estimated for full-time students. Actual tuition fees are calculated based on the number of courses in which the student is registered.
Optional courses are not included in this tuition fee calculation. Additional courses will result in higher tuition fees.

Glossary
Add/Drop – The period of time that registration adjustments can be made within specified start and end dates. Courses dropped do not appear on transcripts.

ASN – Alberta Student Number unique to each student studying in Alberta.

Academic Misconduct – The commission or attempted commission of any action which falsely indicates the student’s level of academic achievement, e.g. plagiarism or cheating.

Academic Probation – The status assigned to a student who did not meet the progression requirements for a program, or who was academically withdrawn from a program and who has now returned to that same program or to another program at SAIT.

Academic Withdrawal – The status assigned to a student whose previous academic standing had been Academic Probation (AP) and who has failed to achieve both the minimum Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) after attempting a minimum of nine additional credits (excluding course withdrawals).

Admission Requirements – The minimum specific subject requirements considered for admission to a SAIT program.

Anticipated Final Grade – Applicants registered in grade 12 or upgrading admission requirements can self-declare an anticipated final grade. Students are required to meet or exceed the self-declared grade or this could result in the conditional offer being withdrawn.

Appeal – The act or process of requesting the review of a decision by an official of SAIT. Students may appeal decisions on grades, disciplinary action, etc. All appeals must first be made to the person responsible for overseeing the initial decision. Formal appeal processes are outlined in specific SAIT procedures.

Applicant – A person who has submitted an application for admission to a SAIT program.

Applied Degree – A SAIT credential formally approved by the Alberta government. It is generally a two-year program with the admission requirement being a diploma or degree or equivalent.

Audit – A value assigned to a student who is registered in a course for which no formal evaluation of the student’s performance is provided.

Bachelor’s Degree – A SAIT credential formally approved by the Alberta government. It is generally a four-year program.

Certificate – A SAIT credential formally approved by the Alberta government. It is generally one year or less in length.

Certificate of Achievement – A SAIT-approved credential to recognize completion of a course or program which includes a formal evaluation of performance, and which is a minimum of 144 hours.

Certificate of Accomplishment – A SAIT-approved credential to recognize completion of the technical training portion of an apprenticeship program. The apprentice must complete the final period and at least one other period of study at SAIT to qualify for this credential.

Challenge Exam – The challenge for credit option allows students to demonstrate that they have acquired a command of the general subject matter, knowledge, and intellectual and other skills that would normally be found in a course. Challenge exams are administered through the academic schools and result in an assigned grade.

Cheating – Academic misconduct that usually arises during the course of assignment, quizzes, examinations or other evaluative processes. For examples of conduct that is considered cheating, see AC.3.4.1 Student Code of Conduct Procedure.

Complaint – A written and signed statement as a result of which proceedings may be initiated.

Continuing Student Status – This applies to any student who has not been absent from a SAIT program or non-credit certificate for more than one semester.

Convocation – Refers to the annual formal graduation ceremonies, at which SAIT formerly recognizes academic achievement and confers credentials and other academic awards.

Co-requisite – A course that is required to be taken concurrently (in the same semester) with another course.

Credit Course – A course that is part of a program approved by the Alberta government, and that has a credit value associated with it. It is included in the calculation of the student’s grade point average.

Credential – In general, it refers to a bachelor’s degree, applied degree, diploma, post-bachelor’s certificate, post-diploma certificate, certificate of achievement or certificate of accomplishment awarded upon successful completion of a program or, in some cases, a course. Not all SAIT programs lead to a credential.

Credential Regulations – The regulations that specify the requirements students must meet in order to be awarded a credential; for example, the total credits required, and the minimum credits that must be completed at SAIT.

CRN (Course Reference Number) – The five-digit course registration number assigned to a course section.

Dean – The academic member responsible for overseeing all credentials within a particular academic school.

Diploma – A SAIT credential formally approved by the Alberta government. It is generally a two-year program.

Distance Education – Correspondence/distance education courses offered at SAIT.

Expulsion – Permanent withdrawal of a student from SAIT, generally a result of student misconduct.

Full-time Student – A student who is registered in a minimum 60% of the program credits.

Grade – The final grade for the course expressed as a value.

Mark – Values given to individual quizzes, assignments, tests, exams, etc., that reflect the student’s degree of understanding of the course materials.
**mySAIT.ca** – A secure website where students login to check their application status, tuition balance, class schedule and final grades. Users can also order official SAIT transcripts, print the Student Tax Receipt (T2202A form), check their SAIT email, and more.

**Non-academic Misconduct** – Non-academic misconduct behavior includes violations of established civil and criminal laws, conduct that threatens the safety or well-being of members of the SAIT community, and/or any behaviour that adversely affects SAIT or its educational mission.

**Non-credit Course** – is a course that is not part of an Alberta government-approved program, and does not have a credit value associated with it. It is not included in the calculation of a student’s grade point average.

**Off-track Student** – A student who has been admitted to a program, but who is taking his/her courses out of sequence and who must customize his/her registration with the program's academic chair/coordinator each term.

**Part-time Student** – A student who is registered in less than 60% of the program credits.

**Plagiarism** – The act of submitting work in which ideas or words have been taken from another source and presented as if they are the student’s own, without appropriate acknowledgement of the original source. For examples of conduct that is considered plagiarism, see AC.3.4.1 Student Code of Conduct procedure.

**Post-Bachelor’s Certificate** – A SAIT credential formally approved by the Alberta government. It is a two-semester or three-semester program, with the admission requirement being an undergraduate degree or equivalent.

**Post-Diploma Certificate** – A SAIT credential formally approved by the Alberta government. It is one year or less in length, with the admission requirement being a diploma or equivalent.

**Prerequisite** – Many higher-level courses require knowledge of material covered in lower-level or other courses. Prerequisites are used to ensure that a student has the required background to successfully complete the course. All prerequisites are expressed in terms of specific SAIT courses.

**Program** – A prescribed curriculum leading to a SAIT credential. A program is divided into a number of courses.

**Program Requirements** – Programs of study require students to take specific courses, or to take courses from specified areas of study or disciplines, or to take courses at a specific level of study. These are program requirements and form part of the regulations for each program.

**Recognition of Prior Learning** – Assessment of previous post-secondary education and work experience for possible transfer credit towards a SAIT program.

**Registrar** – The designate of SAIT.

**Registration** – The process of selecting and/or undertaking specific courses at SAIT.

**Residency Requirement** – Students may use up to a maximum of 50% transfer credit towards a SAIT credential.

**Returning Student Status** – This applies to any student who is returning to a SAIT program or non-credit certificate and has not been active for one or more terms of study.

**Schedule** – The individual student’s list of classes, rooms and times of courses.

**Selection** – A process whereby additional criteria above the minimum requirements are used to determine acceptance into a program.

**Student Holds** – A hold may be placed on a student’s account when there is outstanding SAIT property or unpaid fees and this may prevent the student from accessing SAIT services, transcripts, and parchments.

**Student ID Number** – A nine-digit number assigned to each student to help with identification. Students should have their student number available whenever they contact SAIT.

**Students Finance Board** – The official agency in each province that is responsible for supplying loans and bursaries to students. Students can apply for Alberta Student Loans online at studentaid.alberta.

**Term** – A period of time where instruction is broken down in an academic year. Example: Fall terms typically run from September through December and winter terms typically run from January through April.

**Transcript** – A complete record of all courses that a student has taken or currently enrolled in and issued by an educational institution. Transcripts will be issued at the request of the student.

**Transfer Credit** – Credit granted for course work successfully completed at another accredited institution.

**Transfer Student Status** – This applies to any student who has completed post-secondary courses at other institutes and now wishes to enrol in a SAIT program.

**Unclassified Student Status** – A student who has been granted permission to register into specific courses, but has not been admitted into a program and whose intent is not to graduate from a program.

**UPass** – A non-transferable, non-refundable pass allowing unlimited access to Calgary transit at a reasonable discounted rate for qualified SAIT students.

**Withdrawal from a Course** – The voluntary exit of any student from a course after the drop/add deadline up to and including the withdrawal deadline date. No refund is issued and a “W” grade is assigned.

**Withdrawal from a Program** – The voluntary exit of a student from a full-time program.
